

AUSTRALIAN CAPITAL TERRITORY

Stock Diseases Ordinance 1958

EXPLANATORY STATEMENT

A.C.T. Stock Diseases Ordinance

No. 6 of 1958

New South Wales and the other States of the Commonwealth directly control all centres which collect and prepare semen for use in the artificial insemination of cattle.

These attached amendments to the Ordinance and Regulations make provision for similar control to be executed in the Australian Capital Territory bringing it into line with the States.
