

Utilities (Electricity Feed-in Code) Determination 2015

Disallowable instrument DI2015–256

made under the

***Utilities Act 2000* s61 (Variation), s63 (Public access) and *Legislation Act 2001* s46.**

EXPLANATORY STATEMENT

The Independent Competition and Regulator Commission (Commission) has varied the *Utilities (Electricity Feed-in Code) Determination 2012* (DI2012-154).

The variation removes clauses 4.5, 5.4 and 7 and schedule 3 from DI2012-154. The variation will have the result that the electricity distributor and retailers will no longer report quarterly to the Commission on electricity feed-in activity. This in turn will have the result that the Commission will no longer report to the minister on such activity.

A new reporting framework will operate directly under the minister through the *Electricity Feed-in (Renewable Energy Premium) Act 2008*.
