Republication No 20
Effective: 9 March 2017

Republication date: 9 March 2017

Last amendment made by A2017-4
About this republication

The republished law

This is a republication of the Public Health Regulation 2000, made under the Public Health Act 1997 (including any amendment made under the Legislation Act 2001, part 11.3 (Editorial changes)) as in force on 9 March 2017. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 9 March 2017.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel’s Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):
• authorised republications to which the Legislation Act 2001 applies
• unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The Legislation Act 2001, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see Legislation Act 2001, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol \[U\] appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol \[M\] appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the Legislation Act 2001, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is $150 for an individual and $750 for a corporation (see Legislation Act 2001, s 133).

Part 1 Preliminary

1 Name of regulation
This regulation is the Public Health Regulation 2000.

2 Dictionary
The dictionary at the end of this regulation is part of this regulation.

Note 1 The dictionary at the end of this regulation defines certain terms used in this regulation, and includes references (signpost definitions) to other terms defined elsewhere in this regulation or in other legislation.
For example, the signpost definition ‘childcare centre’—see the Children and Young People Act 2008, section 733.’ means that the term ‘childcare centre’ is defined in that section and the definition applies to this regulation.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire regulation unless the definition, or another provision of the regulation, provides otherwise or the contrary intention otherwise appears (see Legislation Act, s 155 and s 156 (1)).

3 Notes
A note included in this regulation is explanatory and is not part of this regulation.

Note See the Legislation Act, s 127 (1), (4) and (5) for the legal status of notes.
3A Offences against regulation—application of Criminal Code etc

Other legislation applies in relation to offences against this regulation.

Note 1 Criminal Code

The Criminal Code, ch 2 applies to the following offences against this regulation (see Code, pt 2.1):

- s 66 (4) (Keeping domestic birds).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg conduct, intention, recklessness and strict liability).

Note 2 Penalty units

The Legislation Act, s 133 deals with the meaning of offence penalties that are expressed in penalty units.
Part 2  Communicable disease control

(2) The applicable vaccination procedure for an immunisation against a vaccine preventable disease is the procedure directed by the chief health officer.

(3) A direction under subsection (2) is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

26 **Use of information on cervical cytology register**

(a) after a woman has had her cervical smear taken and the test results recorded on the register—to remind the woman (after a reasonable time following the end of a period decided by the chief health officer after the smear was taken) that she should have another smear taken, if she has failed to do so;

(b) to establish a record of test results that links each woman on the register with her health practitioner and any laboratory that produces her test results;

(c) to monitor test results to encourage consistency of performance between laboratories;

(d) to provide data for the following purposes:

(i) to assess participation in the cervical cancer prevention program;

(ii) to assist in the design of strategies to educate women to take responsibility for having a cervical smear taken at appropriate intervals;

(iii) to assist in the design of strategies to encourage women to be included in the register;

(iv) for use in research programs approved under subsection (4) (a) into the alleviation and prevention of cervical cancer;

(v) to increase public awareness by the publication of statistics;

(vi) to assist in the compilation of comparative data by national organisations approved under subsection (4) (b).
