Grant of permits and licences—wildlife having special protection status

63A. (1) The Conservator shall not grant a permit or licence authorising a person to do any act in relation to wildlife which has special protection status except on one of the following grounds:

- (a) that the act is required to be done for a scientific, educational, propagative or any other similar purpose;
- (b) that the act is required to be done for the purpose of protecting persons or property;
- (c) where the act relates to the killing or taking of animals—that the act will form part of the hunting of such animals during an established hunting season when such animals are traditionally killed or taken;
- (d) where the act relates to the hunting or gathering of a species of wildlife or the seeds of such a species—that the inhabitants of a specified region have traditionally carried out such hunting or gathering activities for the purpose of providing food or clothing for the hunter or gatherer and his or her family, or for cultural purposes, and that the applicant is such an inhabitant who intends to carry out the relevant act for such purposes.

(2) In deciding whether to grant a permit or licence on the ground specified in paragraph (1) (c), the Conservator shall have regard to the need to maintain such annual reproduction of the relevant species of wildlife as is required for the long-term survival of the species.

 - (iii) in the case of a permit or licence relating to a species of wildlife the members of which have special protection status—the world-wide survival of the wild populations of the species;

- (c) in the case of an application for a licence to sell animals that are wildlife—the extent, if any, to which the applicant, for the purpose of carrying on the activity of selling animals of that kind, proposes to deal in animals raised in captivity;

 - (ii) the likelihood of the fish having any other harmful effect whatsoever;
- (f) in the case of an application for a permit or licence in pursuance of which the applicant proposes to keep animals or live fish—the place or places at which the animals or fish are proposed to be kept and the

suitability of the facilities at that place or those places for the keeping of animals or fish, as the case requires;

- (k) in the case of an application by a person, being an individual, for a permit or licence to pick plants that are wildlife—
 - (i) the purpose for which the plants are required; and
 - (ii) the qualifications possessed by the applicant relating to the science of botany;
- (l) in the case of an application by a person, being a body corporate, for a permit or licence to pick plants that are wildlife—
 - (i) the purpose for which the plants are required; and
 - (ii) the qualifications possessed by the officers or employees of the applicant relating to the science of botany;
- (m) in the case of an application for a permit or licence to fell or remove timber—the effect of the felling of timber on, or the removal of timber from, the land to which the application relates is likely to have on that land;

- (o) in the case of an application for a permit or licence relating to wildlife having special protection status—each ground on which the Conservator declared the wildlife to have special protection status; and
- (p) in the case of an application for a permit to excavate in a wilderness zone—

- (i) the objectives of the relevant archaeological investigation, including any expected contribution to the understanding of aboriginal prehistory or Australian history in general;
- (ii) the archaeological qualifications and experience of the applicant; and
- (iii) the nature of each natural person or body (whether or not incorporated) sponsoring the archaeological investigation.
