About this republication

The republished law

This is a republication of the *Nature Conservation Act 1980* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 2 April 2015. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 2 April 2015.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$150 for an individual and \$750 for a corporation (see *Legislation Act 2001*, s 133).

Nature Conservation Act 1980

An Act to make provision for the protection and conservation of native animals and native plants, and for the reservation of areas for those purposes

Part 1 Preliminary

1 Name of Act

This Act is the *Nature Conservation Act 1980*.

2 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain words and expressions used in this Act, and includes references (*signpost definitions*) to other words and expressions defined elsewhere in this Act or in other legislation.

For example, the signpost definition ‘*motor vehicle*—see the [Road Transport \(General\) Act 1999](#), dictionary.’ means that the expression ‘motor vehicle’ is defined in the dictionary to that Act and the definition applies to this Act.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see [Legislation Act 2001](#), s 155 and s 156).

3 Notes

A note included in this Act is explanatory and is not part of this Act.

Note See [Legislation Act 2001](#), s 127 (1), (4) and (5) for the legal status of notes.

4 Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

Note 1 Criminal Code

The [Criminal Code](#), ch 2 applies to the offences against this Act in the following divisions:

- div 8.2 (Clearing native vegetation in reserved areas)
- div 8.3 (Damaging land in reserved areas).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 Penalty units

The [Legislation Act](#), s 133 deals with the meaning of offence penalties that are expressed in penalty units.

5 Relationship with Emergencies Act

(1) This Act does not apply to the exercise or purported exercise by a relevant person of a function under the [Emergencies Act 2004](#) for the purpose of protecting life or property, or controlling, extinguishing or preventing the spread of a fire.

relevant person means—

- (a) the chief officer (fire and rescue); or

91B Simplified outline

The following notes provide a simplified outline of this part and the *Planning and Development Act 2007*, chapter 7 (Development approvals):

Note 1 Conservator to be given copy of certain development applications

The planning and land authority is required to give the conservator a copy of each development application that is likely to have a significant adverse environmental impact on a protected matter (see *Planning and Development Act 2007*, s 147A). The planning and land authority may also be required to give the conservator a copy of each development application in the merit track or impact track (see *Planning and Development Act 2007*, s 148). This requirement does not apply to a development application for a development proposal in the code track (see *Planning and Development Act 2007*, s 117 (c)).

Note 2 Conservator to give advice about development application

The conservator must give advice to the planning and land authority about adverse environmental impacts of the proposed development (see s 91C and s 91D) (see also *Planning and Development Act 2007*, s 149, s 150 and s 151).

Note 3 *Conservator's advice to be considered*

The conservator's advice must be considered by the planning and land authority (or the Minister) in approving or refusing to approve a development application (see [Planning and Development Act 2007](#), s 119 (2), s 120 (d) and s 129 (e)).

Note 4 *Development approval by authority to be consistent with conservator's advice*

If the authority is to decide the development application, development approval must not be given unless the development proposal is consistent with the conservator's advice (see [Planning and Development Act 2007](#), s 128 (1) (b) (vi)).

Note 5 *Development approval by Minister may be inconsistent with conservator's advice*

If the Minister is to decide the development application (using the Minister's call-in power (see [Planning and Development Act 2007](#), div 7.3.5)), the development approval may be inconsistent with the conservator's advice if the Minister is satisfied that the approval is consistent with the offsets policy (see [Planning and Development Act 2007](#), s 128 (1A)).

91C Advice about adverse environmental impacts

- (1) This section applies if the conservator is satisfied on reasonable grounds that a proposed development is likely to have an adverse environmental impact.

Note If the planning and land authority refers a development application to the conservator under the [Planning and Development Act 2007](#), s 147A or s 148, the conservator must, not later than 15 working days after being given the application, give the planning and land authority its advice (see [Planning and Development Act 2007](#), s 149).

91D Requirements for conservator's advice

- (1) This section applies if the conservator gives advice—
 - (a) under section 91C about a development; or

 - (c) an assessment of whether the proposed development is likely to have a significant adverse environmental impact on a protected matter; and
 - (d) if the proposed development is likely to have a significant adverse environmental impact on a protected matter—advice about suitable offsets for the proposed development.

Note 1 If the proposed development is likely to have a significant adverse environmental impact, the development application may be declared to be in the impact track (see *Planning and Development Act 2007*, s 124), and may require an offset (see *Planning and Development Act 2007*, s 111C).

Note 2 **Significant** adverse environmental impact—see the *Planning and Development Act 2007*, s 124A.

- (3) In preparing the advice, the conservator—
- (a) must consider—
 - (i) the policy statement ‘Significant Impact Guidelines—Matters of National Environmental Significance’ published by the Commonwealth, as in force from time to time; and
- Note* The policy statement is available at www.environment.gov.au.

3 Legislation history

3 Legislation history

This Act was originally a Commonwealth ordinance—the *Nature Conservation Ordinance 1980* No 20 (Cwlth).

The *Australian Capital Territory (Self-Government) Act 1988* (Cwlth), s 34 (4) converted most former Commonwealth ordinances in force in the ACT into ACT enactments. This allowed the ACT Legislative Assembly to amend and repeal the laws. This Act was converted into an ACT enactment on 11 May 1989 (self-government day).

As with most ordinances in force in the ACT, the name was changed from *Ordinance to Act* by the *Self-Government (Citation of Laws) Act 1989* A1989-21, s 5 on 11 May 1989 (self-government day).

Before 11 May 1989, ordinances commenced on notification day unless otherwise stated (see *Seat of Government (Administration) Act 1910* (Cwlth), s 12).

After 11 May 1989 and before 10 November 1999, Acts commenced on notification day unless otherwise stated (see *Australian Capital Territory (Self-Government) Act 1988* (Cwlth), s 25).
