Republication No 28

Effective: 19 December 2024

Republication date: 19 December 2024

Last amendment made by [A2024-25](#)

About this republication

The republished law

This is a republication of the *Independent Competition and Regulatory Commission Act 1997* (including any amendment made under the [Legislation Act 2001](#), part 11.3 (Editorial changes)) as in force on 19 December 2024. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 19 December 2024.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the [Legislation Act 2001](#) applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The [Legislation Act 2001](#), part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see [Legislation Act 2001](#), s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the [Legislation Act 2001](#), section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$160 for an individual and \$810 for a corporation (see [Legislation Act 2001](#), s 133).

An Act to establish an independent commission to regulate pricing, access and other matters in relation to industries involving the provision of water, electricity and sewerage services, and other industries, and to investigate competitive neutrality complaints and government-regulated activities

Part 1 Preliminary

1 Name of Act

This Act is the *Independent Competition and Regulatory Commission Act 1997*.

2 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere in this Act.

For example, the signpost definition '*industry reference*—see section 14A.' means that the term 'industry reference' is defined in that section.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see [Legislation Act](#), s 155 and s 156 (1)).

2A Notes

A note included in this Act is explanatory and is not part of this Act.

Note See the [Legislation Act](#), s 127 (1), (4) and (5) for the legal status of notes.

2B Joint ownership, control or operation

A reference in this Act to a person who owns, controls or operates infrastructure facilities includes a reference to each of 2 or more people who jointly own, control or operate infrastructure facilities.

3 Joint provision of services

Part 4 Price directions

19L Objective—pt 4

The objective of the commission, when making a price direction in a regulated industry, is to promote the efficient investment in, and efficient operation and use of regulated services for the long term interests of consumers in relation to the price, quality, safety, reliability and security of the service.

20 Directions about prices

- (1) At the conclusion of an investigation on an industry reference authorising the commission to make a price direction in a regulated industry, the commission must decide on the level of prices for services in relation to the period specified in the reference, or decided by the commission, and give a direction accordingly to each person providing regulated services to whom the price direction applies.
- (2) In making a decision under subsection (1), the commission must have regard to—
 - (a) the protection of consumers from abuses of monopoly power in terms of prices, pricing policies (including policies relating to the level or structure of prices for services) and standard of regulated services; and
 - (b) standards of quality, reliability and safety of the regulated services; and
 - (c) the need for greater efficiency in the provision of regulated services to reduce costs to consumers and taxpayers; and
 - (d) an appropriate rate of return on any investment in the regulated industry; and
 - (e) the cost of providing the regulated services; and

- (f) the principles of ecologically sustainable development mentioned in subsection (5);
 - (g) the social impacts of the decision; and
 - (h) considerations of demand management and least cost planning; and
 - (i) the borrowing, capital and cash flow requirements of people providing regulated services and the need to renew or increase relevant assets in the regulated industry; and
 - (j) the effect on general price inflation over the medium term; and
 - (k) any arrangements that a person providing regulated services has entered into for the exercise of its functions by some other person.
- (3) Also, in making a decision under subsection (1), the commission must allow a declared fee to be passed on in full to consumers of the service.
- (4) In a price direction, the commission must indicate to what extent it has had regard to the matters referred to in subsection (2).
- (5) For subsection (2) (f), ***ecologically sustainable development*** requires the effective integration of economic and environmental considerations in decision-making processes through the implementation of the following principles:
- (a) the precautionary principle—that if there is a threat of serious or irreversible environmental damage, a lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation;
 - (b) the inter-generational equity principle—that the present generation should ensure that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations;

- (c) conservation of biological diversity and ecological integrity;
- (d) improved valuation and pricing of environmental resources.

20A Price regulation provisions

- (1) A price direction must include a direction about the pricing of regulated services in the form of either or both of the following:
 - (a) a price, a maximum price or both a minimum and maximum price for each regulated service;
 - (b) a maximum total amount (*revenue cap*) that may be earned by a person providing regulated services from the provision of those services.
- (2) A price direction must be made in accordance with the current reset principles for the regulated industry (see section 20B).
- (3) A price direction may include any or all of the following:
 - (a) a formula for calculating a price or amount mentioned in subsection (1);
 - (b) a method by which a price or amount mentioned in subsection (1) is to be ascertained;

20B Reset principles

- (1) ***Reset principles*** are principles governing the redetermination of prices or revenue caps in a regulated industry.
- (2) ***Current reset principles*** governing a price direction for a regulated industry are the reset principles currently in force in the industry (because of a previous price direction).
- (3) ***Future reset principles*** are reset principles included in a price direction that are to take effect after the end of the current reset principles.
- (4) In a price direction, the commission may not—
 - (a) vary, omit or replace the current reset principles; or
 - (b) include any future reset principles that will have the effect of varying, omitting or replacing the current reset principles in their application at a future date.
- (5) The commission may fix a period of effect for a price regulation provision of a price direction for regulated services that ends before the day when the current reset principles for the regulated services end.
- (6) If the current reset principles governing a price direction (***the earlier direction***) will end on or before the date when any price regulation provisions in the earlier direction (***the earlier provision***) will end, the earlier direction must include future reset principles governing any price regulation provision (in the next price direction for the industry) that will supersede the earlier provision.

20C Effective dates

- (1) Each provision of a price direction—
 - (a) comes into effect—
 - (i) on a day ascertained in accordance with the direction; or
 - (ii) if a day is not ascertained in accordance with the direction—14 days after the day the final report containing the direction is presented to the Legislative Assembly; and
 - (b) remains in effect until a day ascertained in accordance with the direction.
- (2) Under subsection (1), the dates and periods of effect of different provisions of a price direction may be different.

Note The dates and periods of effect of the price regulation provisions of the direction and any future reset principles in the direction will necessarily be different (see s 20B (3)).

20D Price direction to continue to remain in force

- (1) This section applies if—
 - (a) a price direction in a regulated industry is in force; and
 - (b) an industry reference has been provided to the commission to make a further price direction in the regulated industry.
- (2) If a further price direction is not made before the price direction ends, the price direction remains in force until the further price direction comes into effect.

14 days after the day the report is presented to the Legislative Assembly.

24E Reference by utility

- (1) A utility providing a regulated service may provide a reference for part 3 requiring the commission to investigate whether a price direction in force for the service should be varied.
- (2) The commission may accept the reference from the utility only if, in the opinion of the commission based on reasonable grounds—

- (3) Terms of reference for the variation—
 - (a) may be specified by the commission under section 16 (Terms of industry references); and
 - (b) are not a disallowable instrument.

24G Permissible nonconsent variations

- (1) The commission may vary a price direction only if it is satisfied on reasonable grounds that the variation is—

 - (b) in accordance with the current reset principles for the regulated service.
- (2) The commission may not vary a price direction so as to—

- (3) Despite subsection (2), the panel may not consider any matter on an application for review that was not raised on behalf of the applicant in submissions to the commission for the purposes of the investigation of the price direction that is the subject of the review.
- (4) An industry panel review is not a legal proceeding for the [Criminal Code](#), chapter 7 (Administration of justice offences).

24O Procedure for review

- (1) In considering an application for review, an industry panel has the same powers as the commission in conducting a price regulation investigation.
- (2) Without limiting subsection (1), the following provisions apply to the panel on the hearing of the application for review as if it were the commission conducting a price regulation investigation:
 - section 17 (Procedure for industry reference investigations)
 - section 18 (Draft reports—industry reference investigations)
 - section 24X (Information to be given to commission following price direction review)
 - part 7 (Information)
 - part 8 (Cooperation with the commission).

24OA Application for review—commission’s response

- (1) This section applies if an industry panel decides to hear an application for review of a price direction.
- (2) The industry panel must tell the commission—

24Q Witnesses and evidence

- (1) At the request of any party, an industry panel may exercise its powers under section 41 (Provision of information to commission) and section 49 (Attendance at hearing) (as applied by section 24O (Procedure for review)) to require the provision of information or a document, or to require a person to attend before the panel, for the purpose of hearing the application for review.
- (2) The party must pay all the expenses of any person in complying with a requirement on a request under subsection (1).

If an industry panel considers that an application for review is frivolous or vexatious, it may, at any stage during the hearing—

- (a) by a written direction, dismiss the application; and
- (b) at the request of any party, make a written declaration preventing any subsequent application for the review of any price direction by the applicant from being heard without leave of an industry panel established for the purpose of the later application.

24S Implementation of price direction under review

- (1) A price direction has effect despite any application for its review, unless the industry panel, on an application by a party, declares in writing that the implementation of the price direction is suspended or altered until—
 - (a) if the panel substitutes a new direction for the price direction under review—the day (or days) the substituted direction comes into effect; or
 - (b) if the panel confirms the price direction under review—the day the report of the review is presented to the Legislative Assembly (under section 24U (Functions of commission)); or
 - (c) if the panel sets aside the price direction under review and remits the matter back to the commission to make a new price direction—the day the new price direction comes into effect.
- (2) The declaration of suspension or alteration is taken to be a variation of the price direction while the direction remains in force.
- (3) The following sections apply to the declaration of suspension or alteration as if it were the final report of a price regulation investigation:
 - section 21 (Final reports)
 - section 23 (Confidential material in reports)
 - section 24 (Presenting of reports to Legislative Assembly)
 - section 24B (Correction of errors in reports).

24T Effect of decision

- (1) If, as a result of a review, an industry panel substitutes a new price direction for the original—
 - (a) each provision of the substituted direction comes into effect on—
 - (i) a day ascertained in accordance with the direction; or
 - (ii) if a day is not ascertained in accordance with the direction—14 days after the day the final report containing the direction is presented to the Legislative Assembly; and
 - (b) each provision of the substituted direction remains in effect until a day ascertained in accordance with the direction; and
 - (c) the date and period of effect of different provisions of the substituted direction may be different; and
 - (d) this Act applies as if the substituted price direction were a price direction made by the commission (subject to subsection (2))—

Example

The substituted price direction may be varied under part 4B (Variation of price directions).

- (2) A substituted direction may not be reviewed under this part.

24U Functions of commission

- (1) The commission must give an industry panel any assistance the panel requires, including the provision of all the information available to the commission in the original investigation.

- (2) Any liability that would, apart from this section, attach to a person who is or has been a member of an industry panel attaches instead to the Territory.

- (3) A person who is or has been a party to an application or a representative of a party is not personally liable for anything done, or omitted to be done, honestly and without recklessness, as a party to an application or a representative of a party.

32 Access disputes

- (1) If a dispute exists in relation to an access regime that provides for the application of this part, a party to the dispute may refer the dispute to arbitration under this part.
- (2) A dispute is to be taken to exist in relation to such an access regime if—

 - (4) A determination does not have to require the access provider to provide access to the services by the third party.
 - (5) A determination may vary the effect of a price determination as it affects the parties to the dispute.

36 Effect of determinations

- (1) The parties to an arbitration must give effect to a determination in relation to the arbitration.
- (2) If a determination is in favour of a third party's access to services, the access provider must not engage in conduct for the purpose of preventing or hindering the third party's access to the services under the determination.

37 Termination of arbitration by parties

- (5) An arbitrator may direct that the costs of an arbitration are to be paid (in whole or in part) by the commission or the Territory.

(see s 19C, s 19D and s 19J)

Competition policy considerations

Interpretation

[competition principles agreement cl 1 (3) (d)-(j)]

1

...

(3)

...

- (d) government legislation and policies relating to ecologically sustainable development;
- (e) social welfare and equity considerations, including community service obligations;
- (f) government legislation and policies relating to matters such as occupational health and safety, industrial relations and access and equity;
- (g) economic and regional development, including employment and investment growth;
- (h) the interests of consumers generally or of a class of consumers;
- (i) the competitiveness of Australian businesses;
- (j) the efficient allocation of resources.

Competitive neutrality principles

Competitive neutrality policy and principles

[competition principles agreement cl 3 (1) & (4)-(7)]

- 3 (1) The objective of competitive neutrality policy is the elimination of resource allocation distortions arising out of the public ownership of entities engaged in significant business activities: Government businesses should not enjoy any net competitive advantage simply as a result of their public sector ownership. These principles only apply to the business activities of publicly owned entities, not to the non-business, non-profit activities of these entities.
- (4) Subject to subclause (6), for significant Government business enterprises which are classified as “Public Trading Enterprises” and “Public Financial Enterprises” under the Government Financial Statistics Classification:
- (a) the Parties[†] will, where appropriate, adopt a corporatisation model for these Government business enterprises (noting that a possible approach to corporatisation is the model developed by the intergovernmental committee responsible for GTE National Performance Monitoring); and
 - (b) the Parties[†] will impose on the Government business enterprise:
 - (i) full Commonwealth, State and Territory taxes or tax equivalent systems;
 - (ii) debt guarantee fees directed towards offsetting the competitive advantages provided by government guarantees; and
 - (iii) those regulations to which private sector businesses are normally subject, such as those relating to the protection of the environment, and planning and approval processes, on an equivalent basis to private sector competitors.

-
- (5) Subject to subclause (6), where an agency (other than an agency covered by subclause (4)) undertakes significant business activities as part of a broader range of functions, the Parties[†] will, in respect of the business activities:
- (a) where appropriate, implement the principles outlined in subclause (4); or
 - (b) ensure that the prices charged for goods and services will take account, where appropriate, of the items listed in subclause (4) (b), and reflect full cost attribution for these activities.
- (6) Subclauses (4) and (5) only require the Parties[†] to implement the principles specified in those subclauses to the extent that the benefits to be realised from implementation outweigh the costs.
- (7) Subclause (4) (b) (iii) shall not be interpreted to require the removal of regulation which applies to a Government business enterprise or agency (but which does not apply to the private sector) where the Party[†] responsible for the regulation considers the regulation to be appropriate.

...

Note [not included in the agreement]:

[†] **Party** is defined in the agreement (cl 1 (1)) to mean the Commonwealth, a State, the Australian Capital Territory or the Northern Territory of Australia, if the jurisdiction concerned has signed the agreement and has not withdrawn. The Australian Capital Territory has signed the agreement and has not withdrawn from it; thus it is a party.

Legislation review principles

Legislation review

[competition principles agreement cl 5 (1) & (9)]

- 5 (1) The guiding principle is that legislation (including Acts, enactments, ordinances or regulations) should not restrict competition unless it can be demonstrated that:
- (a) the benefits of the restriction to the community as a whole outweigh the costs; and

- (b) the objectives of the legislation can only be achieved by restricting competition.

...

- (9) Without limiting the terms of reference of a review, a review should:
 - (a) clarify the objectives of the legislation;
 - (b) identify the nature of the restriction on competition;
 - (c) analyse the likely effect of the restriction on competition and on the economy generally;
 - (d) assess and balance the costs and benefits of the restriction; and
 - (e) consider alternative means for achieving the same result including non-legislative approaches.
