No. 92 of 1997

An Act to provide for the protection of the environment and for related purposes

[Notified in ACT Gazette S380: 1 December 1997]

The Legislative Assembly for the Australian Capital Territory enacts as follows:

PART I—PRELIMINARY

Short title

1. This Act may be cited as the *Environment Protection Act 1997*.

Commencement

2. (1) Section 1 and this section commence on the day on which this Act is notified in the *Gazette*.
(2) The remaining provisions commence on a day, or respective days, fixed by the Minister by notice in the *Gazette*.
(3) If a provision referred to in subsection (2) has not commenced before the end of the period of 6 months commencing on the day on which this Act is notified in the *Gazette*, that provision, by force of this subsection, commences on the first day after the end of that period.

Objects

- 3. (1)** The objects of this Act are—
- (a) to protect and enhance the quality of the Territory environment;
 - (b) to prevent environmental degradation and adverse risks to human health and the health of ecosystems by promoting pollution prevention, clean production technology, reuse and recycling of materials and waste minimisation programs;
 - (c) to require persons engaging in polluting activities to make progressive environmental improvements, including reductions of pollution at the source as such improvements become practical through technological and economic development;
 - (d) to achieve effective integration of environmental, economic and social considerations in decision making processes;
 - (e) to promote the concept of a shared responsibility for the environment by acknowledging environmental needs in economic and social decision making;
 - (f) to promote the concept of a shared responsibility for the environment through public education about and public involvement in decisions about protection, restoration and enhancement of the environment;
 - (g) to promote the principles of ecologically sustainable development;
 - (h) to regulate, reduce or eliminate the discharge of pollutants and hazardous substances into the air, land or water consistent with maintaining environmental quality;
 - (j) to allocate the costs of environmental protection and restoration equitably and in a manner that encourages responsible use of, and reduces harm to, the environment with polluters bearing the appropriate share of the costs that arise from their activities;
 - (k) to facilitate the implementation of national environment protection measures under national scheme laws;
 - (m) to provide for the monitoring and reporting of the environmental quality on a regular basis in conjunction with the Commissioner for the Environment;
 - (n) to control the generation, storage, collection, transportation, treatment and disposal of waste with a view to reducing, minimising and where practical, eliminating harm to the environment;

- (p) to adopt a precautionary approach when assessing environmental risk to ensure that all aspects of environmental quality, including ecosystem sustainability and integrity and beneficial use of the environment, are considered in assessing, and making decisions in relation to, the environment; and
- (q) to co-ordinate all activities as are necessary to protect, restore or improve the Territory environment;

and this Act shall be construed and administered accordingly.

(2) For the purposes of paragraph (1) (g), ecologically sustainable development is to be taken to require the effective integration of economic and environmental considerations in decision making processes and to be achievable through implementation of the following principles:

- (a) the precautionary principle, namely, that if there is a threat of serious or irreversible environmental damage, a lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation;
- (b) the inter-generational principle, namely, that the present generation should ensure that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations;
- (c) conservation of biological diversity and ecological integrity;
- (d) improved valuation and pricing of environmental resources.

PART III—ENVIRONMENTAL DUTIES

General environmental duty

22. (1) A person shall take such steps as are practicable and reasonable to prevent or minimise environmental harm or environmental nuisance caused, or likely to be caused, by an activity conducted by that person.

(2) In determining whether a person has complied with the general environmental duty, regard shall first be had, and greater weight shall be given, to the risk of the environmental harm or environmental nuisance involved in conducting the activity, and, in addition, regard shall then be had to—

- (a) the nature and sensitivity of the receiving environment;
- (b) the current state of technical knowledge for the activity;
- (c) the financial implications of taking the steps referred to in subsection (1);
- (d) the likelihood and degree of success in preventing or minimising the environmental harm or environmental nuisance of each of the steps that might be taken; and
- (e) other circumstances relevant to the conduct of the activity.

(3) Subject to sections 125, 143 and 160, failure to comply with the general environmental duty does not of itself—

- (a) give rise to a civil right or remedy;
- (b) constitute an offence; or
- (c) constitute grounds for action under this Act.

Duty to notify of actual or threatened environmental harm

23. (1) Subject to subsection (2), this section applies to a person conducting an activity who becomes aware that the activity has caused, is causing or is likely to cause serious or material environmental harm from pollution (in this section called an “environmental situation”).

(2) This section does not apply if the environmental harm or potential environmental harm, as the case requires, is authorised by or under this Act or another law of the Territory.

(3) As soon as reasonably practicable after becoming aware of the environmental situation, the person shall notify the Authority of the environmental situation, its nature and the action taken to deal with the situation and any environmental harm that has been caused.

(4) Subject to subsection (5), a person shall not, without reasonable excuse, contravene subsection (3).

Penalty:

- (a) if the offender is a natural person—50 penalty units;
- (b) if the offender is a body corporate—250 penalty units.

- (a) the likelihood that the authorised activity will cause serious or material environmental harm other than harm permitted by or under this Act;
- (b) the likelihood that action will need to be taken in the future to remedy the environmental harm described in paragraph (a);
- (c) the environmental record of the holder of the authorisation; and

- (d) another form of security that the Authority considers appropriate.

(3) The Authority shall not require financial assurance of an amount greater than the total amount that the Authority has reasonable grounds for believing is likely to be needed to remedy the foreseeable environmental harm that could result from the conduct of the authorised activity.

(4) A financial assurance shall be provided—

- (a) for the period specified in the authorisation; or
- (b) if no period is so specified, until—
 - (i) the authorisation is varied to remove the condition requiring the financial assurance; or

87. If a financial assurance required as a condition of an environmental authorisation is not provided on or before the due date, the Authority shall cancel the authorisation.

Claim on or realisation of a financial assurance

Recovery of extra costs

90. (1) Where the amount recovered by the Authority by a claim on or by realising a financial assurance (in this subsection called “the realised assurance”) is less than the reasonable costs and expenses that the Authority incurred or will incur in taking action to remedy the environmental harm caused by the authorised activity (in this subsection called “the reasonable costs and expenses”), the Authority may give the holder of the environmental authorisation notice in writing requiring the holder to pay the specified amount, being the difference between the reasonable costs and expenses and the realised assurance.

(2) The notice shall specify the date on or before which the specified amount is required to be paid, being a date not less than 20 working days after the date of the notice.

Moneys held by Territory as financial assurance

91. Where an amount of money is held by the Territory as a financial assurance or part of a financial assurance, the following provisions apply:

- (a) interest accrues, at the rate per centum per annum determined under section 165, on so much of that original amount as from time to time remains unclaimed by the Authority under section 89;

- (c) during the period the financial assurance is required, on each anniversary of the payment of the original amount, the holder of the authorisation is entitled to be paid by the Territory so much of the interest that accrued during the year that ended on the day before that anniversary as remains unclaimed by the Authority under section 89;
- (d) when—
 - (i) the financial assurance is no longer required by the Authority; or
 - (ii) the environmental authorisation is cancelled under section 55 or 63 or is surrendered under section 66;

so much of the original amount and accrued interest as remains unclaimed by the Authority under section 89 shall be paid by the Territory to the holder of the authorisation.

(3) Where an infringement notice is served on a child and the person serving the notice has reasonable grounds for believing that the child is residing with a person who stands *in loco parentis* to that child, the person serving the notice shall serve a copy of the notice on that person.
