About this republication

The republished law

This is a republication of the *Environment Protection Act 1997* as in force on 30 May 2002. It includes any amendment, repeal or expiry affecting the republished law to 28 May 2002 and any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes).

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced or is affected by an uncommenced amendment, the symbol **U** appears immediately before the provision heading. The text of the uncommenced provision or amendment appears only in the last endnote.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see *Legislation Act 2001*, section 95.

Penalties

The value of a penalty unit for an offence against this republished law at the republication date is—

- (a) if the person charged is an individual—\$100; or
- (b) if the person charged is a corporation—\$500.

Environment Protection Act 1997

An Act to provide for the protection of the environment, and for related purposes

Part 1 Preliminary

1 Short title

This Act may be cited as the *Environment Protection Act 1997*.

3 Objects

- (1) The particular objects of this Act are—
- (a) to protect and enhance the quality of the environment; and
 - (b) to prevent environmental degradation and adverse risks to human health and the health of ecosystems by promoting pollution prevention, clean production technology, reuse and recycling of materials and waste minimisation programs; and
 - (c) to require persons engaging in polluting activities to make progressive environmental improvements, including reductions of pollution at the source as such improvements become practical through technological and economic development; and
 - (d) to achieve effective integration of environmental, economic and social considerations in decision-making processes; and
 - (e) to promote the concept of a shared responsibility for the environment by acknowledging environmental needs in economic and social decision-making; and
 - (f) to promote the concept of a shared responsibility for the environment through public education about and public involvement in decisions about protection, restoration and enhancement of the environment; and
 - (g) to promote the principles of ecologically sustainable development; and

- (h) to regulate, reduce or eliminate the discharge of pollutants and hazardous substances into the air, land or water consistent with maintaining environmental quality; and
- (j) to allocate the costs of environmental protection and restoration equitably and in a manner that encourages responsible use of, and reduces harm to, the environment with polluters bearing the appropriate share of the costs that arise from their activities; and
- (k) to facilitate the implementation of national environment protection measures under national scheme laws; and
- (m) to provide for the monitoring and reporting of the environmental quality on a regular basis in conjunction with the commissioner for the environment; and
- (n) to control the generation, storage, collection, transportation, treatment and disposal of waste with a view to reducing, minimising and where practical, eliminating harm to the environment; and
- (p) to adopt a precautionary approach when assessing environmental risk to ensure that all aspects of environmental quality, including ecosystem sustainability and integrity and beneficial use of the environment, are considered in assessing, and making decisions in relation to, the environment; and
- (pa) to ensure that contaminated land is managed having regard to human health and the environment; and
- (q) to coordinate all activities as are necessary to protect, restore or improve the Territory environment; and
- (qa) to establish a process for investigating and, where appropriate, remediating land areas where contamination is causing or is likely to cause—
 - (i) a significant risk of harm to human health; or

- (ii) a significant risk of material environmental harm or serious environmental harm;

and this Act shall be construed and administered accordingly.

- (2) For the purposes of subsection (1) (g), ecologically sustainable development is to be taken to require the effective integration of economic and environmental considerations in decision-making processes and to be achievable through implementation of the following principles:
 - (a) the precautionary principle, namely, that if there is a threat of serious or irreversible environmental damage, a lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation;
 - (b) the inter-generational principle, namely, that the present generation should ensure that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations;
 - (c) conservation of biological diversity and ecological integrity;
 - (d) improved valuation and pricing of environmental resources.

Division 9.4 Financial assurances

85 Authority may require a financial assurance

- (1) The authority may, as a condition of an environmental authorisation, require the holder of the authorisation to provide a financial assurance to the authority if satisfied that the condition is justified having regard to—
- (a) the likelihood that the authorised activity will cause serious or material environmental harm other than harm permitted by or under this Act; and
 - (b) the likelihood that action will need to be taken in the future to remedy the environmental harm described in paragraph (a); and
 - (c) the environmental record of the holder of the authorisation; and
 - (d) any other matter the authority considers relevant.
- (2) A financial assurance shall be in the form of—
- (a) a bank guarantee; or
 - (b) a bond; or
 - (c) an insurance policy; or
 - (d) another form of security that the authority considers appropriate.

- (3) The authority shall not require financial assurance of an amount greater than the total amount that the authority has reasonable grounds for believing is likely to be needed to remedy the foreseeable environmental harm that could result from the conduct of the authorised activity.
- (4) A financial assurance shall be provided—
 - (a) for the period specified in the authorisation; or
 - (b) if no period is so specified, until—
 - (i) the authorisation is varied to remove the condition requiring the financial assurance; or
 - (ii) the authorisation is cancelled under section 55 or 63 or is surrendered under section 66.

86 Show cause why financial assurance should not be provided

- (1) Where the authority proposes to grant an environmental authorisation subject to a condition requiring the provision of a financial assurance, the authority shall give the applicant notice in writing of its intention to impose the condition.
- (2) A notice under subsection (1) shall—
 - (a) specify the grounds on which the condition is proposed to be imposed; and
 - (b) specify the amount and form of the financial assurance proposed to be required; and
 - (c) invite the applicant to show cause why the condition should not be imposed; and
 - (d) specify the date on or before which any representations under paragraph (c) are to be made, being a date not less than 20 working days after the date of the notice.

- (3) Within 20 working days after the end of the period allowed under subsection (2) (d) for representations, the authority shall—
- (a) notify the applicant that the condition is or is not being imposed; and
 - (b) if it is being imposed—specify in the notice the date on or before which the financial assurance must be provided, being a date not less than 10 working days after the date of the notice.

87 Non-provision of financial assurance

If a financial assurance required as a condition of an environmental authorisation is not provided on or before the due date, the authority shall cancel the authorisation.

88 Claim on or realisation of a financial assurance

- (1) This section applies if the authority incurs, or will incur, costs and expenses in taking action to remedy serious or material environmental harm—
- (a) that was caused by an authorised activity in relation to which a financial assurance has been provided; and
 - (b) that is within the class of harm in respect of which the financial assurance may be claimed or realised; and
 - (c) that was not permitted by or under this Act.
- (2) The authority may recover the reasonable costs and expenses of taking the action by making a claim on or realising the financial assurance or part of it.

89 Notice before claim on or realisation of a financial assurance

- (1) Before acting under section 88, the authority shall give to the holder of the environmental authorisation in relation to which the financial assurance was provided, a notice in writing—

- (a) specifying the environmental harm caused by the authorised activity; and
 - (b) giving details of the action taken, or to be taken, to remedy the environmental harm; and
 - (c) specifying the amount of the financial assurance to be claimed or realised; and
 - (d) inviting the holder of the authorisation to make a written representation to the authority to show why the financial assurance should not be claimed or realised as proposed on or before a specified date, being a date not less than 20 working days after the date of the notice.
- (2) The authority shall, within 20 working days after the date specified in the invitation under subsection (1) (d) and taking into account any representations made in response to the invitation—
- (a) decide whether or not to make a claim on or realise the financial assurance or part of it; and
 - (b) give the holder of the authorisation written notice of that decision.

90 Recovery of extra costs

- (1) Where the amount recovered by the authority by a claim on or by realising a financial assurance (the *realised assurance*) is less than the reasonable costs and expenses that the authority incurred or will incur in taking action to remedy the environmental harm caused by the authorised activity (the *reasonable costs and expenses*), the authority may give the holder of the environmental authorisation notice in writing requiring the holder to pay the specified amount, being the difference between the reasonable costs and expenses and the realised assurance.
- (2) The notice shall specify the date on or before which the specified amount is required to be paid, being a date not less than 20 working days after the date of the notice.

(3) Where—

- (a) the authority has given a person a notice under subsection (1); and
- (b) the holder of the environmental authorisation has failed to pay the specified amount on or before the specified date;

so much of the specified amount as remains unpaid, together with interest on the unpaid amount, is a debt due to the Territory by the holder.

Note A rate of interest may be determined under s 165 (Determination of fees etc) for this subsection.

91 Moneys held by Territory as financial assurance

Where an amount of money is held by the Territory as a financial assurance or part of a financial assurance, the following provisions apply:

- (a) interest accrues on so much of that original amount as from time to time remains unclaimed by the authority under section 89;
- (b) for the purposes of any claim the authority may make under section 89, the financial assurance shall be taken to include any accrued interest other than interest to which the holder of the authorisation is entitled to be paid under paragraph (c);
- (c) during the period the financial assurance is required, on each anniversary of the payment of the original amount, the holder of the authorisation is entitled to be paid by the Territory so much of the interest that accrued during the year that ended on the day before that anniversary as remains unclaimed by the authority under section 89;
- (d) when—
 - (i) the financial assurance is no longer required by the authority; or

- (ii) the environmental authorisation is cancelled under section 55 or 63 or is surrendered under section 66;

so much of the original amount and accrued interest as remains unclaimed by the authority under section 89 shall be paid by the Territory to the holder of the authorisation.

Note A rate of interest may be determined under s 165 (Determination of fees etc) for par (a).

Division 9.6 Costs of assessment and remediation

91J Meaning of *assessment order* and *remediation order*

In this part:

assessment order means an order under section 91C (1).

remediation order means an order under section 91D (1).

91K Recovery of costs associated with assessment or remediation

- (1) If the authority takes action under section 91C (1) (b) or 91D (1) (b), the authority may, by written notice, require an appropriate person against whom an order under that section may be made, to pay to the authority the reasonable costs and expenses incurred by it in taking that action.
- (2) The notice shall specify the date on or before which the amount is to be paid, being a date not less than 20 working days after the date of the notice.
- (3) Where—
 - (a) the authority has given a person a notice under subsection (2); and
 - (b) the person has failed to pay the specified amount on or before the specified date;

so much of the amount as remains unpaid, together with interest on the unpaid amount, is a debt due to the Territory by that person.

Note A rate of interest may be determined under s 165 (Determination of fees etc) for this subsection.

91L Priority for costs where owner insolvent

If the authority carries out the requirements of an assessment order or remediation order in respect of land disclaimed (by a liquidator or trustee in bankruptcy) as onerous property in the course of proceedings for winding up or bankruptcy, the authority may recover the cost of carrying out the order together with a rate of interest and reasonable costs and expenses so incurred, in priority to any holder of security over the land.

Note A rate of interest may be determined under s 165 (Determination of fees etc) for this section.

91M Recovery of costs—assessment and remediation

- (1) A person who carries out the requirements of an assessment or remediation under division 9.5 in relation to the contamination of land with a substance who was not responsible for the contamination, may recover in a court of competent jurisdiction a portion of the person's costs in carrying out those requirements from each person who did have such responsibility.
- (2) A person who carries out the requirements of an assessment or remediation under division 9.5 in relation to the contamination of land with a substance who was responsible for the contamination, may recover in a court of competent jurisdiction from each other person who had responsibility for the contamination a portion of the first person's costs in carrying out those requirements.
- (3) A reference in subsections (1) and (2) to the recovery of a portion of a person's costs shall be read as a reference to the recovery of a portion of the costs that is just and reasonable in the circumstances including the following circumstances:
 - (a) the proportion of responsibility of each person for the contamination;

- (b) the reasonable cost of the remediation (if any) carried out by each person in respect of the contamination.

91N Costs—person responsible for contamination

In any proceedings under section 91M to recover from a person the cost of carrying out an assessment order or remediation order in relation to any land, the person is taken to have responsibility for contamination on that land, unless it is established that the contamination was not caused by the person, if—

- (a) the person carried on activities on the land; and
- (b) activities of the kind carried on generate or consume the same substances as those that caused the contamination or generate or consume substances that may be converted by reacting with each other or by the action of natural processes on the land into substances that are the same as those that caused the contamination.

91O Liability for losses

- (1) A person who, with the permission of the occupier of land, enters any land, or does anything else on land, as required by an assessment order or remediation order, is liable to the occupier of the land for any loss suffered by the occupier as a result of the entry or other actions (including any loss suffered by the occupier because of the interruption to the occupier's business on that land by that entry or those actions).
- (2) A person (other than the lessee of land) who, with the permission of the occupier, enters the land or does anything else on the land, as required by an assessment order or remediation order, is liable to the lessee of the land for any loss suffered by the lessee as a result of the entry or those actions or for any injury to the land caused by that person.
- (3) In addition to any liability that a person may have by virtue of subsection (1) or (2), the person has a duty to meet the reasonable

costs and expenses of the lessee and the occupier of land, as the case requires, in providing access to that land as referred to in this section.

- (4) A person has a duty—
- (a) to take reasonable steps—
 - (i) to minimise the loss, and injury, referred to in this section caused by the person's actions; and
 - (ii) toward restitution in respect of that loss or injury; and
 - (c) to compensate the party that suffered the loss, or injury, for which the person is liable to the extent that restitution is not practicable.

91P Director of body corporate that is wound up

- (1) The Supreme Court may make an order under this section only if satisfied, on an application by the authority, that—
- (a) the person was a director of, or a person concerned in the management of, the body corporate at the time when the assessment order or remediation order was made; and
 - (b) there is reason to believe that the body corporate was wound up as part of a scheme to avoid compliance with the assessment order or remediation order.
- (2) The Supreme Court may order a person to comply with an assessment order or remediation order at the person's own expense if the person was a director of, or a person concerned in the management of, a body corporate that—
- (a) has been wound up within 2 years before the court's order is made; and
 - (b) has failed to comply with the assessment order or remediation order.

- (3) There is reason for belief of the kind referred to in subsection (1) (b) if—
- (a) the body corporate carried out 1 or more transactions—
 - (i) that were voidable because of the Corporations Act, section 588FE; or
 - (ii) that were such that the liquidator of the body corporate had a right to recovery of cash under the Corporations Act, section 567; or
 - (iii) by which the body corporate incurred a debt in relation to which a person contravened the Corporations Act, section 588G; and
 - (b) there was (at the time or times when the body corporate entered those transactions or a substantial portion of them) reason to believe that the land was contaminated; and
 - (c) in a case to which regulations made for the purposes of this section apply—the prescribed conditions are satisfied.
- (4) The Supreme Court shall not make an order under this section if the person against whom the order would be made satisfies the court that—
- (a) the person exercised due diligence to prevent the body corporate from avoiding compliance with the assessment order or remediation order; or
 - (b) the person could not reasonably have been expected to be aware of a scheme to avoid compliance with the assessment order or remediation order; or
 - (c) the person was not in a position to influence the conduct of the body corporate in relation to that scheme.
- (5) The fact that the relevant assessment order or remediation order was partially complied with by the body corporate does not exclude the possibility that there is reason to form the belief referred to in subsection (3).

- (6) For the purposes of this section, the fact that steps are taken to windup a body corporate before the authority makes an assessment order or remediation order in respect of the body corporate does not preclude the Supreme Court from finding that there is reason to believe that the body corporate was wound up as part of a scheme to avoid compliance with the order.

91Q Director of body corporate that disposed of land

- (1) The Supreme Court may order a person to comply with an assessment order or remediation order at the person's own expense if—
- (a) the person was a director of, or a person concerned in the management of, a body corporate that transferred land within 2 years before the court's order is made; and
 - (b) the transferee has failed to comply with the assessment order or remediation order in respect of the land.
- (2) The person shall comply with the assessment order or remediation order, subject to any modification by the Supreme Court.
- (3) The Supreme Court may make an order under this section only if satisfied, on an application by the authority that—
- (a) the person was a director of, or a person concerned in the management of, the body corporate at the time of the transfer of the land or at the time when the assessment order or remediation order was made in respect of the transferee; and
 - (b) there is reason to believe that the body corporate transferred the land as part of a scheme to avoid having itself to carry out assessment or remediation of the land (whether or not an assessment order or remediation order had been made in respect of the body corporate).
- (4) There is reason for belief of the kind referred to in subsection (3) (b) if, at the time or times when the body corporate entered into 1 or

more transactions, or a substantial portion of the transactions, for the transfer of the land—

- (a) there was reason to believe that the land was contaminated; and
 - (b) the transferee was another body corporate that was related to the first body corporate (within the meaning of the Corporations Act); and
 - (c) the first body corporate had reason to believe that the transferee was unable to pay its debts or would, if it took steps to remediate the land (to the extent that a reasonable person would have expected, at the time or times, would be necessary), become unable to pay its debts.
- (5) The Supreme Court shall not make an order under this section if the person against whom the order would be made satisfies the court that—
- (a) the person exercised due diligence to prevent the body corporate from avoiding compliance with the assessment order or remediation order; or
 - (b) the person could not reasonably have been expected to be aware of a scheme to avoid compliance with the assessment order or remediation order; or
 - (c) the person was not in a position to influence the conduct of the body corporate in relation to that scheme.
- (6) The fact that the relevant order was partially complied with by the transferee does not exclude the possibility that there is reason to form the belief referred to in subsection (3).

91R Holding company of body corporate that is wound up

- (1) The Supreme Court may order a corporation to comply with an assessment order or remediation order at the corporation's own expense if the corporation was the holding company of a company that—

- (a) has been wound up within 2 years before the court's order is made; and
 - (b) has failed to comply with the assessment order or remediation order.
- (2) The corporation shall comply with the assessment order or remediation order, subject to any modification by the Supreme Court.
- (3) The Supreme Court may make an order under this section only if satisfied, on an application by the authority, that—
 - (a) the corporation was the holding company of the other company at the time when the assessment order or remediation order was made; and
 - (b) there is reason to believe that the other company was wound up as part of a scheme to avoid compliance with the assessment order or remediation order.
- (4) There is reason for belief of the kind referred to in subsection (3) (b) if—
 - (a) the corporation contravened the Corporations Act, section 588V in relation to the other company; and
 - (b) there was (at the time or times when the contravention occurred) reason to believe that the land was contaminated; and
 - (c) in a case to which regulations made for the purposes of this section apply—the prescribed conditions are satisfied.
- (5) Notwithstanding subsection (4), there is reason for belief of the kind referred to in subsection (3) (b) also if—
 - (a) the other company carried out 1 or more transactions—
 - (i) that were voidable because of the Corporations Act, section 588FE; or

- (ii) that were such that the liquidator of the other company had a right to recovery of cash under the Corporations Act, section 567; or
 - (iii) by which the other company incurred a debt in relation to which a person contravened the Corporations Act, section 588G; and
- (b) there was (at the time or times when the other company entered those transactions or a substantial portion of them) reason to believe that the land was contaminated.
- (6) The fact that the relevant assessment order or remediation order was partially complied with by the other company does not exclude the possibility that there is reason to form the belief referred to in subsection (3).
- (7) For the purposes of this section, the fact that steps are taken to wind up a company before the authority makes an assessment order or remediation order in respect of the company does not preclude the Supreme Court from finding that there is reason to believe that the company was wound up as part of a scheme to avoid compliance with the order.

Amending and modifying laws are annotated in the legislation history and the amendment history. Current modifications are not included in the republished law but are set out in the endnotes.

Not all editorial amendments made under the *Legislation Act 2001*, part 11.3 are annotated in the amendment history. Full details of any amendments can be obtained from the Parliamentary Counsel's Office.

Uncommenced amending laws and expiries are listed in the legislation history and the amendment history. These details are underlined. Uncommenced provisions and amendments are not included in the republished law but are set out in the last endnote.

If all the provisions of the law have been renumbered, a table of renumbered provisions gives details of previous and current numbering.

The endnotes also include a table of earlier republications.

If the republished law includes penalties, current information about penalty unit values appears on the republication inside front cover.
