Republication date: 15 August 2017

## About this republication

### The republished law

This is a republication of the *Road Transport (Safety and Traffic Management) Act 1999* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 15 August 2017. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 15 August 2017.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

### Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at [www.legislation.act.gov.au](http://www.legislation.act.gov.au)):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

### Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

### Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register ([www.legislation.act.gov.au](http://www.legislation.act.gov.au)). For more information, see the home page for this law on the register.

### Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

### Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$150 for an individual and \$750 for a corporation (see *Legislation Act 2001*, s 133).

# Road Transport (Safety and Traffic Management) Act 1999

---

An Act to facilitate the adoption of nationally consistent road rules in the ACT, to make provision about other matters relating to safety and traffic management on roads and road related areas, and for other purposes

---

## Part 1 Preliminary

### 1 Name of Act

This Act is the *Road Transport (Safety and Traffic Management) Act 1999*.

*Note 1* This Act is part of the road transport legislation. See the [Road Transport \(General\) Act 1999](#) for various provisions about the administration and enforcement of the road transport legislation generally.

*Note 2* Other road transport legislation includes the following:

- [Road Transport \(Alcohol and Drugs\) Act 1977](#)
- [Road Transport \(Driver Licensing\) Act 1999](#)
- [Road Transport \(General\) Act 1999](#)
- [Road Transport \(Public Passenger Services\) Act 2001](#)
- [Road Transport \(Third-Party Insurance\) Act 2008](#)
- [Road Transport \(Vehicle Registration\) Act 1999](#).

*Note 3* Other laws dealing with road transport include the [Dangerous Goods \(Road Transport\) Act 2009](#) and the [Heavy Vehicle National Law \(ACT\)](#).

*Note 4* A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

### 3 Objects of Act

The objects of this Act are—

- (a) to provide for a safety and traffic management system in the ACT that is—
  - (i) consistent with the agreements scheduled to the [National Road Transport Commission Act 1991](#) (Cwlth); and

- (ii) part of the uniform national road transport legislation envisaged by that Act; and
- (b) to re-enact with some changes certain provisions of the *Motor Traffic Act 1936* about safety and traffic management; and
- (c) to improve road safety and transport efficiency, and reduce the costs of administering road transport.

*Note* The Commonwealth Act mentioned in s 3 (a) (i) has been repealed and replaced by the *National Transport Commission Act 2003* (Cwlth), and the agreements scheduled to the repealed Act have been independently terminated and replaced by the *Inter-Governmental Agreement for Regulatory and Operational Reform in Road, Rail and Intermodal Transport*.

## 4 Dictionary

The dictionary at the end of this Act is part of this Act.

*Note 1* The dictionary defines certain terms, and includes references (*signpost definitions*) to other terms defined elsewhere in this Act or elsewhere in the road transport legislation.

For example, the signpost definition ‘*driver licence*—see the *Road Transport (Driver Licensing) Act 1999*, dictionary.’ means the term ‘driver licence’ is defined in that dictionary and the definition applies to this Act.

*Note 2* A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see *Legislation Act*, s 155 and s 156 (1)).

## 5 Notes

A note included in this Act is explanatory and is not part of this Act.

*Note* See the *Legislation Act*, s 127 (1), (4) and (5) for the legal status of notes.

## 5AA Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

*Note 1 Criminal Code*

The [Criminal Code](#), ch 2 applies to the following offences against this Act (see Code, pt 2.1):

- s 5B (2) and (4) (Improper use of motor vehicle)
- s 5C (Failing to stop motor vehicle for police)
- s 10BA (5) (Powers of police officers to issue surrender notices for motor vehicles).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

*Note 2 Penalty units*

The [Legislation Act](#), s 133 deals with the meaning of offence penalties that are expressed in penalty units.

  - (b) that a stated prescribed traffic control device on, above or near a road or road related area, or on a vehicle on, above or near a road or road related area, is a reasonable likeness of a diagram, or complies substantially with a description, of the device under this Act;
  - (c) that a symbol on or with a prescribed traffic control device on, above or near a road or road related area, or on a vehicle on, above or near a road or road related area, is a reasonable likeness of a diagram of the symbol under this Act;
  - (d) that a stated prescribed traffic control device on, above or near a road or road related area, or on a vehicle on, above or near a road or road related area, is clearly visible during the day or night in normal weather conditions, or during the day in normal weather conditions, to the drivers or pedestrians it applies to;

- (e) that a stated prescribed traffic control device on, above or near a road or road related area, or on a vehicle on, above or near a road or road related area, was operating correctly at the time of the offence.

## Part 6 Traffic offence detection devices

### Division 6.1 Definitions—pt 6

#### 22AA Definitions—pt 6

In this part:

*average speed*—see section 22B.

*average speed detection system*—see section 23A.

*average speed limit*, for a driver of a vehicle on a road between 2 detection points if more than 1 speed limit applies between the points, means the average speed limit prescribed by regulation for the road between the points.

*detection point* means a point prescribed by regulation on a road by reference to which a vehicle's average speed can be worked out.

*relevant information*—see section 22A.

*shortest practicable distance*, between 2 detection points, means the distance prescribed by regulation as the shortest distance between the points that a vehicle's driver could use to travel on a road between the points without contravening this Act.

*shortest practicable route*—see section 23B (a).

*speeding offence* means an offence—

- (a) against a provision of the road transport legislation of failing to obey a speed limit; or
- (b) prescribed by regulation.

**22A Meaning of *relevant information*—pt 6**

- (1) For this part, *relevant information*, for an image of a vehicle taken by a camera detection device, is—
- (a) the date and time when, and place where, the image was taken; and
  - (b) the person responsible for the use of the device when the image was taken; and
  - (c) if the vehicle is being driven in contravention of a provision of the road transport legislation about traffic lights—
    - (i) the general direction and lane in which the vehicle is being driven; and
    - (ii) the time a red traffic light or red traffic arrow facing the driver of the vehicle is showing before the driver contravenes the provision; and
  - (d) if the vehicle is being driven in contravention of a provision of the road transport legislation about obeying the speed limit—
    - (i) the speed measuring device component of the camera detection device; and
    - (ii) the speed limit applying to the driver of the vehicle for the length of road where the driver was driving when the image is taken; and
    - (iii) the speed at which the driver of the vehicle was driving when the image is taken.
- (2) For this part, *relevant information*, for an image of a vehicle, or a numberplate or anything else on a vehicle, taken by an average speed detection system, is—
- (a) the date and time when, and place where, the image was taken; and

- (b) any information prescribed by regulation; and
- (c) any other information the road transport authority considers appropriate.

**22B Meaning of *average speed*—pt 6**

- (1) For this part, the *average speed* of a vehicle between 2 detection points is the speed worked out in accordance with the following formula and expressed in kilometres per hour rounded down to the next whole number:

$$\frac{\text{SPD} \times 3600}{T}$$

- (2) In this section:

*SPD* means the shortest practicable distance between the detection points.

*T* means the time, expressed in seconds, that elapsed between the vehicle passing the first and second detection points.

**Division 6.2 Traffic offence detection devices—  
general**

**23 Use of camera detection devices**

- (1) A *camera detection device* is a device designed to do either or both of the following:
- (a) take complying images of vehicles being driven in contravention of a provision of the road transport legislation about traffic lights;
  - (b) measure the speed at which vehicles are being driven and take complying images of vehicles being driven in contravention of a provision of the road transport legislation about obeying the speed limit.

- (2) A photographic or electronic image of a vehicle taken by an approved camera detection device is a complying image if—
- (a) the image shows the vehicle and its numberplate; and
  - (b) the relevant information for the image is indicated on the image; and
  - (c) for an electronic image—
    - (i) the device creates an electronic file that contains the image and the relevant information for the image; and
    - (ii) the file is recorded in accordance with the regulations; and
    - (iii) if a regulation requires the accuracy of the file to be verified—the file is verified in accordance with the regulation.
- (3) This section does not—
- (a) limit the matters that may be indicated on or shown by an image taken by an approved camera detection device; or
  - (b) limit the information included in an electronic file created by an approved camera detection device; or
  - (c) require an approved camera detection device to be operated by a person.

*Note* Information etc that is indicated on an image includes information etc accompanying or reasonably associated with the image (see dict, def *indicated on*).

## **23A Use of average speed detection systems**

- (1) An *average speed detection system* is a system designed to take complying images of vehicles at detection points and work out the average speed of vehicles between 2 detection points.

- (2) A photographic or electronic image of a vehicle, or a numberplate or anything else on a vehicle, taken by an approved average speed detection system is a complying image if—
- (a) the image shows the vehicle, numberplate or other thing; and
  - (b) the relevant information for the image is indicated on the image; and
  - (c) for an electronic image—
    - (i) the system creates an electronic file that contains the image and the relevant information for the image; and
    - (ii) the file is recorded in accordance with a regulation; and
    - (iii) if a regulation requires the accuracy of the file to be verified—the file is verified in accordance with the regulation.
- (3) This section does not—
- (a) limit the matters that may be indicated on or shown by an image taken by an approved average speed detection system; or
  - (b) limit the information included in an electronic file created by an approved average speed detection system; or
  - (c) require an approved average speed detection system to be operated by a person.

**23B Average speed detection systems—shortest practicable route and minimum travel time**

A regulation that prescribes the shortest practicable distance between 2 detection points must also prescribe—

- (a) the route used to work out the shortest practicable distance between the points (the *shortest practicable route*); and

- (b) the minimum time, expressed in seconds, that a vehicle's driver could take to drive the vehicle on the route between the points without contravening a provision of the road transport legislation about obeying the speed limit.

### **23C Average speed detection systems—signs**

- (1) This section applies in relation to an average speed detection system.
- (2) The road transport authority must display a sign—
  - (a) not more than 100m before each detection point; and
  - (b) approximately halfway along the shortest practicable route between detection points.
- (3) Failure to comply with this section does not affect an infringement notice or a proceeding for an offence.

### **24 Regulations about traffic offence detection devices**

- (1) A regulation may make provision in relation to the testing, sealing, maintenance and use of traffic offence detection devices, including the approval by the road transport authority of people to test, seal, maintain or use traffic offence detection devices.
- (2) A regulation may also make provision about—
  - (a) the meaning of codes and other information indicated on images taken by approved camera detection devices or approved average speed detection systems; and
  - (b) any other matter relating to average speed detection systems, including the images taken by them.

- (3) However, a regulation must not provide for a system to be an approved average speed detection system unless the system ensures that each image of a vehicle taken at a detection point is deleted from the camera that took the image not later than 14 days after the image is taken.

**24A Average speed of vehicle is evidence of actual speed in certain circumstances**

- (1) This section applies to a proceeding against a person for a speeding offence.
- (2) The prosecution may rely on evidence of the average speed of the vehicle between 2 detection points as evidence of the actual speed of the vehicle between the detection points for the purpose of proving the offence.
- (3) The following provisions apply in relation to the proceeding:
  - (a) the vehicle's average speed is admissible and is evidence of the actual speed at which the driver drove the vehicle on a road between the detection points;
  - (b) if more than 1 speed limit applied to the driver between the detection points, the average speed limit for the driver on a road between the points is taken to be the speed limit that applied to the driver at all times on the road between the points;
  - (c) for the purpose of working out the vehicle's average speed, the vehicle is taken to have travelled between the detection points by means of the shortest practicable distance regardless of the actual route taken.
- (4) An offence evidenced by the average speed of a vehicle between 2 detection points is taken to have been committed when the vehicle passed the 2nd detection point.

**24B Other forms of proof of speeding offences not excluded by s 24A**

- (1) Section 24A is in addition to, and does not limit, any other form of proof of a vehicle's speed.
- (2) Without limiting subsection (1), a court in a proceeding against a person for a speeding offence in which the prosecution is relying on evidence of the average speed of the vehicle may convict a person, or find a person guilty, of the offence by relying on evidence of the actual speed of the vehicle at a particular point of its journey between 2 detection points if the court is satisfied that—
  - (a) evidence in the proceeding (other than evidence establishing the average speed) establishes the actual speed at which the driver was driving, and the actual speed limit that applied to the driver at that point; and
  - (b) the use of the actual speed and actual speed limit rather than the average speed (and, if relevant, the average speed limit) demonstrates that the driver exceeded the speed limit by a greater speed than that indicated by the use of the average speed (and average speed limit).

**Example**

The average speed of a vehicle between 2 detection points is 120km/h along a length of road for which the speed limit is 90km/h. A police officer measured the speed of the vehicle at a point during that journey at 130km/h using an approved speed measuring device. The court may rely on the evidence obtained by the police officer rather than the average speed to convict a person of the speeding offence.

*Note* An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

## **24C Use of camera detection devices and average speed detection systems**

- (1) This section applies to a camera detection device or average speed detection system that is used to take an image of a vehicle.
- (2) The device or system may only be used to take an image of the vehicle from the rear.
- (3) However, the device or system may be used to take an image of the vehicle from the front if—
  - (a) using the device or system to take an image of the vehicle from the rear would be dangerous or impracticable; and

### **Examples**

- 1 the topography of the place where the camera is located
- 2 the width of the road where the camera is located

*Note* An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (b) as far as practicable, an image of the vehicle's driver is not taken.
- (4) Failure to comply with this section does not affect the admissibility of an image in a proceeding for an offence.

## **25 Evidentiary certificates etc**

- (1) This section applies to a proceeding against a person for an offence against this Act involving a vehicle.
- (2) A certificate that appears to be signed by a police officer or the road transport authority, and states a matter relevant to any of the following, is evidence of the matter:
  - (a) the use of a traffic offence detection device in relation to the vehicle;

- (b) anything done or not done in relation to a traffic offence detection device under a regulation made for this part;
  - (c) the recording or verification of an electronic file created by an approved camera detection device or an approved average speed detection system;
  - (d) the vehicle's average speed between stated detection points.
- (3) Without limiting subsection (2), a certificate given under that subsection may state any of the following matters:

    - (iii) an approved average speed detection system;
  - (b) that the device has been maintained, tested, sealed or used as required or permitted under the regulations made for this part;
  - (c) the condition of the device at a stated time or at any time during a stated period, including, for example, that it was accurate (or accurate to a stated extent) and operating properly at that time or during that period;
- Note* An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).
- (d) if the device is an approved camera detection device—that a stated image is an accurate copy of an image taken by the device at a stated date, time and place or is an accurate copy of 1 of a series of images taken by the device at a stated place during a stated period;

- (e) if the device is an approved average speed detection system—
    - (i) that a stated image is an accurate copy of an image taken by the system at a stated date, time and place or is an accurate copy of 1 of a set of images taken by the system at stated places at a stated time or during a stated period; or
    - (ii) that stated images are accurate copies of a set of images taken by the system at stated places at a stated time or during a stated period.
  - (f) if the device is an approved speed measuring device—a measurement of speed obtained by the use of the device.
- (4) An image stated by a certificate given under subsection (2) to be an accurate copy of an image taken by an approved camera detection device or an approved average speed detection system is evidence of everything indicated on or shown by the image.
- Note* Information etc that is indicated on an image includes information etc accompanying or reasonably associated with the image (see dict, def ***indicated on***).
- (5) Without limiting subsection (4), the information indicated on or shown by the image is evidence of the following matters:
- (a) that the vehicle shown in the image was being driven when and the place where (the ***relevant time and place***) the image was taken by the device;
  - (b) if the information indicates a speed limit—that the speed limit applied to the driver of the vehicle for the length of road where the driver was driving at the relevant time and place;
  - (c) if the information indicates the speed of the vehicle—that the driver was driving the vehicle at that speed at the relevant time and place;

- (d) if the information indicates the average speed of the vehicle between 2 detection points—that the driver was driving the vehicle at that speed between the points;
  - (e) if the information indicates the lane and the general direction in which the vehicle was travelling—that the vehicle was travelling in that lane in the general direction indicated;
  - (f) if the information indicates the length of time a red traffic light or red traffic arrow facing the driver of the vehicle had been showing—that the light or arrow shown in the image had been showing for the stated time before the driver contravened a provision of the road transport legislation about traffic lights.
- (6) If an image mentioned in subsection (4) is a copy of 1 of a series or set of images taken by an approved camera detection device or an approved average speed detection system at a time or during a period, subsections (4) and (5) apply to the image considered by itself and to the image considered with other images in the series or set.
- (7) Evidence may be given by a police officer or authorised person about any matter mentioned in subsections (2) and (3).
- (8) Without limiting subsection (7), evidence by a police officer or authorised person of the speed a vehicle was moving as measured by a traffic offence detection device is evidence that the vehicle was being driven at that speed when and where the measurement was taken.
- (9) Evidence of the condition of a traffic offence detection device is necessary only if evidence is given that the device was not accurate or operating properly.
- (10) This section does not limit evidence that can be presented apart from this section.

**26 Interfering with traffic offence detection devices**

A person must not, without lawful authority, knowingly or recklessly interfere with—

- (a) a traffic offence detection device or its operation; or
- (b) a seal on a traffic offence detection device; or

- (2) The road transport authority must—
  - (a) make a copy of the image (including the information indicated on the image) available for inspection by the person; and
  - (b) give a copy to the person if the person asks for a copy.

*Note* A fee may be determined under the *Road Transport (General) Act 1999*, s 96 (Determination of fees, charges and other amounts) for this section.

## **28 Notice of intention to challenge certain issues**

- (1) This section applies if a defendant in a proceeding for an offence against this Act intends to challenge the following:
  - (a) the maintenance, testing, sealing, use, accuracy or operating condition of a traffic offence detection device;
  - (b) a vehicle's average speed between 2 detection points.
- (2) The defendant must give written notice of the challenge to the prosecution at least 7 days before the day fixed for the hearing.

*Note* For how documents may be served, see the [Legislation Act](#), pt 19.5.

- (3) The notice must—
  - (a) state the defendant's full name and address; and

    - (i) if an infringement notice for the offence has been served on the person—the number of the infringement notice and the date of service of the infringement notice; or
    - (ii) if an infringement notice for the offence has not been served on the person—sufficient details of the offence to allow the prosecution to identify the offence; and
  - (c) outline the grounds on which the defendant intends to make the challenge.

## 29 Use of images by road transport authority

(1) The road transport authority may use an image taken by a traffic offence detection device only—

(a) in connection with the enforcement of the road transport legislation; or

### Examples

- 1 for deciding whether to issue infringement notices
- 2 for preparing prosecutions
- 3 for training staff
- 4 for testing and maintenance of traffic offence detection devices

*Note* An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

(b) if the use of the information is reasonably necessary for the enforcement of the criminal law or a law imposing a monetary penalty; or

(c) if the use of the information is required or authorised by—

- (i) a law of the Territory; or
- (ii) a law of the Commonwealth; or
- (iii) an order of a court of competent jurisdiction.

(2) In this section:

***law of the Territory*** means, for a law made after the commencement of this section, a law that expressly requires or authorises the use of the information.

## **29A Disclosure of images by road transport authority**

(1) The road transport authority must ensure that an image taken by a traffic offence detection device is not disclosed by the authority to another person except—

(a) in connection with the enforcement of the road transport legislation; or

### **Examples**

- 1 to a police officer for deciding whether to issue an infringement notice
- 2 to a prosecutor for preparing a prosecution
- 3 to a contractor engaged to service a traffic offence detection device

*Note* An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

**29B Use, retention and disclosure of images by other people**

A person to whom an image taken by a traffic offence detection device is disclosed under section 29A—

- (a) may use the image only for the purpose for which it was disclosed and in accordance with any applicable laws; and

- (a) loss; and
- (b) unauthorised access, use, modification or disclosure; and
- (c) other misuse.

## Part 7 Traffic management

### 30 Road or road related area may be closed temporarily to traffic

  - (b) anything that has fallen, escaped or been removed from a vehicle; or
  - (c) a container used for transporting materials or rubbish (including a building skip) or anything else left or placed on a road or road related area;

a police officer or authorised person may remove the vehicle, thing or container and take other steps necessary to protect the public and assist the free flow of traffic.

- (2) The road transport authority may recover the cost of action taken under subsection (1) as a debt payable to the Territory by—

### **32 Removal of unattended vehicles from certain places**

- (1) A police officer or authorised person may move an unattended vehicle from a road or road related area to a retention area—
  - (a) if the vehicle is unlawfully parked; or
  - (b) if the police officer or authorised person believes on reasonable grounds that the vehicle is causing, or is likely to cause, a danger to the public or an unreasonable obstruction to other users of the road or road related area; or
  - (c) in any other circumstances prescribed by regulation.
- (2) As soon as practicable after moving the vehicle to a retention area, the police officer or authorised person must report the action to the police officer in charge of the closest police station and ask that the responsible person for the vehicle (or other person entitled to possession of the vehicle) be told where it has been moved to.

- (3) A vehicle moved to a retention area is taken to be uncollected goods under the *Uncollected Goods Act 1996* and—
- (a) the road transport authority is taken to be the possessor of the vehicle under that Act; and
  - (b) the responsible person for the vehicle is taken to be the owner of the vehicle; and

  - (d) reasonable costs of the possessor in complying with that Act are taken to include the cost of moving the vehicle to the retention area.
- (4) However, the responsible person for the vehicle is not required to pay costs under the *Uncollected Goods Act 1996*, section 26 (2) (a) or (b) if the person satisfies the road transport authority that the vehicle was stolen or illegally taken or used at the relevant time.

*Note* The *Uncollected Goods Act 1996*, s 26 (2) (a) and (b) require the owner to pay the reasonable costs incurred by the possessor in complying with that Act and the possessor's reasonable costs in storing and maintaining the goods before they are collected.
