A2000-38

Republication No 1 (RI)

Effective: 30 September 2000 – 11 September 2001

Republication date of printed version: 30 September 2000

About this republication

The republished law

This is a republication of the *Fisheries Act 2000* effective from 30 September 2000 to 11 September 2001.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation (Republication) Act 1996*, part 3, division 2 authorised the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation (Republication) Act 1996*, s 14 and s 16). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

In preparing this republication, amendments have been made under section 13.

An Act about the management of fisheries

PART 1—PRELIMINARY

1 Name of Act

This Act is the *Fisheries Act 2000*.

3 Objects

The objects of this Act are—

- (a) to conserve native fish species and their habitats; and
- (b) to manage sustainably the fisheries of the Territory by applying the principles of ecologically sustainable development mentioned in subsection 3 (2) of the *Environment Protection Act 1997*; and
- (c) to provide high quality and viable recreational fishing; and
- (d) to cooperate with other Australian jurisdictions in sustaining fisheries and protecting native fish species.

4 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary defines certain words and expressions, and includes references (*signpost definitions*) to other words and expressions defined elsewhere in this Act or another Act.

For example, the signpost definition '*fishing closure*—see section 13' means the expression 'fishing closure' is defined in section 13.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see *Interpretation Act 1967*, s 11F and s 11G).

PART 2 —FISHERIES MANAGEMENT PLAN

5 Content of fisheries management plan

A fisheries management plan must include—

- (a) a description of fish species and their habitats in the ACT; and
- (b) a description of current and potential threats to fish species and their habitats; and
- (c) measures to be taken to achieve the objects of this Act, including performance indicators and monitoring methods; and
- (d) guidelines to which the conservator must have regard in exercising functions under this Act.

6 Preparation and variation of fisheries management plan

- (1) The conservator must prepare a draft management plan for management of fish species and their habitats in the ACT.
- (2) The conservator may prepare a draft variation of the management plan.
- (3) This Part applies to a draft variation of the management plan as if it were a draft management plan.

7 Consultation about draft plan

- (1) After preparing a draft fisheries management plan, the conservator must publish in the Gazette and in a newspaper a notice—
 - (a) containing a brief description of the draft plan; and
 - (b) indicating where copies of the draft plan may be obtained; and
 - (c) inviting written suggestions or comments about the draft plan to be given to the conservator within 60 days after publication of the notice.
- (2) The conservator must consider suggestions and comments given under paragraph (1) (c) and, if the conservator considers it appropriate, may revise the draft plan in accordance with any of the suggestions or comments.

8 Formal changes to draft plan

- (1) Section 7 does not apply to a variation of a management plan that only makes changes of a formal nature.
- (2) The conservator must notify a change of a formal nature to a management plan in the Gazette and in a newspaper.

9 Submission of draft plan to Minister

The conservator must give a draft management plan (as revised under subsection 7 (2)) to the Minister for approval, together with—

- (a) a written report setting out the issues raised in any written comments given to the conservator about the draft; and
- (b) a written report about the conservator's consultation with the public and with any particular entity about the draft.

10 Minister's powers about draft plan

On receiving a draft fisheries management plan, the Minister may—

 - (i) to conduct further stated consultations;
 - (ii) to consider any stated revision suggested by the Minister;
 - (iii) to revise the draft plan in a stated way.

11 Referral back of draft plan to conservator

- (1) If the Minister refers the draft fisheries management plan to the conservator, the conservator—
 - (a) must comply with the Minister's directions; and
 - (b) if the Minister directs the conservator to conduct further consultations or consider suggested revisions—may revise the draft plan in the way the conservator considers appropriate; and
 - (c) may revise the plan to make changes of a formal nature; and

Fisheries Act 2000

- (d) must give the draft plan (as revised) to the Minister together with a written report about the conservator's compliance with the Minister's directions and any revision of the draft plan under paragraph (b) or (c).
- (2) The Minister must deal with the draft fisheries management plan (as revised) under section 10 (Minister's powers about draft plan).

12 Fisheries management plan disallowable instrument etc

- (1) A fisheries management plan is a disallowable instrument.
- (2) Unless a fisheries management plan is disallowed by the Legislative Assembly, the plan takes effect—
 - (a) on the day after the last day when it could have been disallowed under section 6 of the *Subordinate Laws Act 1989*; or

 - (c) the licensee contravenes a condition of the licence; or
