Republication date: 9 April 2004

Last amendment made by A2004-15

Authorised by the ACT Parliamentary Counsel

About this republication

The republished law

This is a republication of the *Fisheries Act 2000* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 9 April 2004. It also includes any amendment, repeal or expiry affecting the republished law to 9 April 2004.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced or is affected by an uncommenced amendment, the symbol **U** appears immediately before the provision heading. The text of the uncommenced provision or amendment appears only in the last endnote.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see *Legislation Act 2001*, section 95.

Penalties

The value of a penalty unit for an offence against this republished law at the republication date is—

- (a) if the person charged is an individual—\$100; or
- (b) if the person charged is a corporation—\$500.

An Act about the management of fisheries

Part 1 Preliminary

1 Name of Act

This Act is the *Fisheries Act 2000*.

3 Objects

The objects of this Act are—

- (a) to conserve native fish species and their habitats; and
- (b) to manage sustainably the fisheries of the ACT by applying the principles of ecologically sustainable development mentioned in the *Environment Protection Act 1997*, section 3 (2); and
- (c) to provide high quality and viable recreational fishing; and
- (d) to cooperate with other Australian jurisdictions in sustaining fisheries and protecting native fish species.

4 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary defines certain terms, and includes references (*signpost definitions*) to other terms defined elsewhere.

For example, the signpost definition ‘*fishing closure*—see section 13’ means the term ‘fishing closure’ is defined in section 13.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see Legislation Act, s 155 and s 156 (1)).

Part 2 Fisheries management plan

5 Content of fisheries management plan

A fisheries management plan must include—

- (a) a description of fish species and their habitats in the ACT; and
- (b) a description of current and potential threats to fish species and their habitats; and
- (c) measures to be taken to achieve the objects of this Act, including performance indicators and monitoring methods; and
- (d) guidelines to which the conservator must have regard in exercising functions under this Act.

6 Preparation of fisheries management plan

The conservator must prepare a draft management plan for management of fish species and their habitats in the ACT.

Note A power given under an Act to make a statutory instrument (including a management plan) includes power to amend or repeal the instrument (see Legislation Act, s 46 (1)).

7 Consultation on draft plan

- (1) If the conservator prepares a draft fisheries management plan, the conservator must prepare a written notice—
 - (a) containing a brief description of the draft plan; and
 - (b) stating where copies of the draft plan may be obtained; and

- (c) inviting written suggestions or comments about the draft plan to be given to the conservator, at the place stated in the notice, within 60 working days after the day the notice is notified under the Legislation Act (the *consultation period*).

Note For how documents may be given, see Legislation Act, pt 19.5.

- (2) The notice is a notifiable instrument.

Note 1 A notifiable instrument must be notified under the Legislation Act.

Note 2 An amendment or repeal of a management plan is also a notifiable instrument (see Legislation Act, s 46 (2)).

- (3) The conservator must also publish the notice in a newspaper.

8 Consideration of suggestions etc and revision of draft plan

- (1) The conservator must consider the suggestions and comments given to the conservator during the consultation period about the draft plan.
- (2) The conservator may, in writing, revise the draft plan in accordance with any of the suggestions or comments.

8A Formal changes to draft plan

- (1) Sections 7 (Consultation on draft plan) and 8 (Consideration of suggestions etc and revision of draft plan) do not apply to an amendment of a management plan that only makes changes of a formal nature.
- (2) If the conservator makes an amendment of a management plan that only makes changes of a formal nature, the conservator must prepare a written notice containing a brief description of the changes.
- (3) The notice is a notifiable instrument.

Note A notifiable instrument must be notified under the Legislation Act.

 - (i) to conduct further stated consultations;
 - (ii) to consider any stated revision suggested by the Minister;
 - (iii) to revise the draft plan in a stated way.

11 Referral back of draft plan to conservator
