Authorised by the ACT Parliamentary Counsel

About this republication

The republished law

This is a republication of the *Work Safety Act 2008* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 1 October 2009. It also includes any amendment, repeal or expiry affecting the republished law to 1 October 2009.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced or is affected by an uncommenced amendment, the symbol **U** appears immediately before the provision heading. The text of the uncommenced provision or amendment appears only in the last endnote.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see *Legislation Act 2001*, section 95.

Penalties

The value of a penalty unit for an offence against this republished law at the republication date is—

- (a) if the person charged is an individual—\$100; or
- (b) if the person charged is a corporation—\$500.

Work Safety Act 2008

An Act to secure and promote work safety by the management of risk, and for other purposes

Part 1 Preliminary

1 Name of Act

This Act is the *Work Safety Act 2008*.

3 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere in this Act.

For example, the signpost definition '*worker*—see section 9.' means that the term 'worker' is defined in that section.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see Legislation Act, s 155 and s 156 (1)).

4 Notes

A note included in this Act is explanatory and is not part of this Act.

Note See the Legislation Act, s 127 (1), (4) and (5) for the legal status of notes.

5 Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

Note 1 Criminal Code

The Criminal Code, ch 2 applies to all offences against this Act (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 Penalty units

The Legislation Act, s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Part 2 Operation of Act

 - (e) foster cooperation and consultation between employers and workers, and organisations representing employers and workers; and
 - (f) provide a framework for continuous improvement and progressively higher standards of work safety, taking into account changes in technology and work practices.
- (2) The objects of this Act are to be implemented in a way that is consistent with the aspirations of the people of the ACT for the maintenance of, and improvement in, the protection of people from risks to work safety.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

Division 2.2 Complying with Act

16 Person may have more than 1 duty under Act

To remove any doubt, a person may be subject to more than 1 duty under this Act.

Example

A manufacturer must comply with the duty to ensure a safe workplace (see s 21) and with the manufacturer's duties (see s 25).

Note 1 A reference to an Act includes a reference to statutory instruments made or in force under the Act, any regulation and any law or instrument applied, adopted or incorporated by the Act (see Legislation Act, s 104).

Note 2 An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

17 Person not relieved of duty because someone else also has same duty

- (1) This section applies if 2 or more people have the same duty under this Act.
- (2) To remove any doubt, each person must comply with the duty whether or not someone else may also be required to comply with the duty.
- (3) However, if this Act requires or allows 2 or more people to do something, it is sufficient if 1 of them does the thing.

Example

Both an employer and a building owner have a duty to provide a safe work environment for the workers in a particular building. If the air conditioning breaks down and is fixed by the building owner, the duty has been complied with. There is no requirement for the employer to take further action.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

18 Codes of practice

- (1) The Minister may, in writing, approve a code of practice (an *approved code of practice*) for providing practical guidance for this Act.

Note Power given under an Act to make a statutory instrument (including a code of practice) includes power to amend or repeal the instrument (see Legislation Act, s 46 (1)).

- (2) Before approving a proposed code of practice, the Minister must consult the council.

- (3) An approved code of practice may consist of a code, standard, rule, specification or provision relating to work safety and may apply, adopt or incorporate a law or instrument, or a provision of a law or instrument, as in force from time to time.

Note A statutory instrument may also apply, adopt or incorporate (with or without change) a law or instrument (or a provision of a law or instrument) as in force at a particular time (see Legislation Act, s 47 (1)).

- (4) An approved code of practice is a disallowable instrument.

Note 1 A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

Note 2 An amendment or repeal of an approved code of practice is also a disallowable instrument (see Legislation Act, s 46 (2)).

Note 3 For public notice of code approvals and inspection of codes, see s 216.

19 Approved code of practice and incorporated document may be considered

In deciding whether a person has complied with a duty under this Act, a decision-maker may consider whether a person has complied with—

- (a) any approved code of practice in relation to the duty; and
- (b) any incorporated document in relation to the duty.

20 Relationship of regulations to approved codes of practice

- (1) An approved code of practice has no effect to the extent that it is inconsistent with a regulation.
- (2) However, an approved code of practice is taken to be consistent with a regulation to the extent that it can operate concurrently with the regulation.

Note For the approval of codes of practice, see s 18.

Division 5.5 Taking and analysing samples

109 Inspector may buy samples without complying with div 5.5

110 Occupier etc to be told sample to be analysed

- (1) This section applies if an inspector proposes to take, or takes, a sample of a substance for analysis from premises that are a workplace.

 - (c) keep 1 of the parts for analysis; and

 - (ii) deal with the sample under subsection (2) (b) to (d).

114 Exceptions to s 113

- (1) This section applies to a sample of a substance being taken by an inspector for analysis if dividing the substance into 3 separate parts would, in the inspector's opinion—
- (a) so affect or impair the composition or quality of the sample as to make the separate parts unsuitable for accurate analysis; or
 - (b) result in the separate parts being of an insufficient size for accurate analysis; or
 - (c) otherwise make the sample unsuitable for analysis (including a method of analysis prescribed by regulation for the substance in relation to which the sample was taken).
- (2) The inspector may take as many samples as the inspector considers necessary to allow an accurate analysis to be made, and may deal with the sample or samples in any way that is appropriate in the circumstances, instead of complying with section 113.
