About this republication

The republished law

This is a republication of the *Energy Efficiency (Cost of Living) Improvement Act 2012* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 6 March 2014. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 6 March 2014.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$140 for an individual and \$700 for a corporation (see *Legislation Act 2001*, s 133).

Energy Efficiency (Cost of Living) Improvement Act 2012

An Act to encourage the efficient use of energy, and for other purposes

Part 1 Preliminary

1 Name of Act

This Act is the *Energy Efficiency (Cost of Living) Improvement Act 2012*.

3 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere in this Act.

For example, the signpost definition '*approved abatement factor*—see section 18.' means that the term 'approved abatement factor' is defined in that section.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see [Legislation Act](#), s 155 and s 156 (1)).

4 Notes

A note included in this Act is explanatory and is not part of this Act.

Note See the [Legislation Act](#), s 127 (1), (4) and (5) for the legal status of notes.

5 Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

Note 1 Criminal Code

The [Criminal Code](#), ch 2 applies to all offences against this Act (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 Penalty units

The [Legislation Act](#), s 133 deals with the meaning of offence penalties that are expressed in penalty units.

6 Objects

The objects of this Act are to—

- (a) encourage the efficient use of energy; and
- (b) reduce greenhouse gas emissions associated with stationary energy use in the Territory; and
- (c) reduce household and business energy use and costs; and
- (d) increase opportunities for priority households to reduce energy use and costs.

Part 2 Targets and important concepts

7 Energy savings target

- (1) The Minister must determine a target (an *energy savings target*) for the total reduction in greenhouse gas emissions to be achieved by NERL retailers in a compliance period, expressed as a percentage of total electricity sales in the ACT.
- (2) A determination must be made at least 3 months before the start of the compliance period to which the energy savings target relates.
- (3) A determination is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

8 Priority household target

- (1) The Minister must determine a target (a *priority household target*) for the total reduction in greenhouse gas emissions to be achieved by tier 1 NERL retailers undertaking eligible activities at priority households in a compliance period, expressed as a percentage of the retailer's energy savings obligation of tier 1 NERL retailers in the ACT.
- (2) A determination must be made at least 3 months before the start of the compliance period to which the priority household target relates.
- (3) A determination is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

9 Emissions factor

- (1) The Minister must determine the number of tonnes of carbon dioxide equivalent greenhouse gas emissions attributed to the consumption in the ACT of 1MWh of electricity (the *emissions factor*) for a compliance period.
- (2) In determining the emissions factor, the Minister must take into account the condition of, and changes in, the national electricity market.
- (3) A determination must be made at least 3 months before the start of the compliance period to which the emissions factor relates.
- (4) A determination is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

10 Eligible activities

- (1) The Minister may determine an activity (an *eligible activity*) that is intended to reduce the consumption of energy.
- (2) In determining an eligible activity, the Minister must take into account—
 - (a) the objects of this Act; and
 - (b) the likelihood that the activity will contribute to a reduction in greenhouse gas emissions in the ACT.
- (3) A determination of an eligible activity must include the following:
 - (a) a description of the activity;
 - (b) the minimum specifications for the performance of the activity;
 - (c) the abatement factor for the activity;
 - (d) the time at which the activity is taken to be completed.

(4) A determination may include any other matter that the Minister considers relevant.

(5) A determination is a notifiable instrument.

Note A notifiable instrument must be notified under the [Legislation Act](#).

(6) A determination may apply, adopt or incorporate a law of another jurisdiction or instrument as in force from time to time.

(7) The [Legislation Act](#), section 47 (5) or (6) does not apply in relation to the law of another jurisdiction or instrument applied, adopted or incorporated under a determination.

Note Laws of another jurisdiction and instruments mentioned in s (7) do not need to be notified under the [Legislation Act](#) because s 47 (5) and (6) do not apply (see [Legislation Act](#), s 47 (7)).

(8) In this section:

law of another jurisdiction—see the [Legislation Act](#), section 47 (10).

(9) Subsections (6), (7) and (8) apply in relation to a determination made before the day this subsection commences.

(10) Subsection (9) is a law to which the [Legislation Act](#), section 88 (Repeal does not end effect of transitional laws etc) applies.

(11) Subsections (9) and (10) and this subsection expire 1 year after the day this subsection commences.

11 Energy savings contribution

(1) The Minister must determine a contribution (an *energy savings contribution*) payable by tier 2 NERL retailers for a compliance period in place of the retailer's requirement to achieve a retailer's energy savings obligation for the period, expressed as an amount in dollars per tonne of carbon dioxide equivalent greenhouse gas emissions.

- (2) In determining an energy savings contribution, the Minister must take into account—
- (a) the impact of the contribution on levels of competition in the retail electricity market in the ACT; and
 - (b) the cost of achieving the equivalent abatement of greenhouse gas emissions through other means including energy efficiency measures and the purchase of renewable energy.
- (3) A determination is a disallowable instrument.

1 About the endnotes

Amending and modifying laws are annotated in the legislation history and the amendment history. Current modifications are not included in the republished law but are set out in the endnotes.

Not all editorial amendments made under the *Legislation Act 2001*, part 11.3 are annotated in the amendment history. Full details of any amendments can be obtained from the Parliamentary Counsel's Office.

Uncommenced amending laws are not included in the republished law. The details of these laws are underlined in the legislation history. Uncommenced expiries are underlined in the legislation history and amendment history.

If all the provisions of the law have been renumbered, a table of renumbered provisions gives details of previous and current numbering.

The endnotes also include a table of earlier republications.
