2. interfere with anything in the immediate environment of such a nest;

subject to the following conditions:

1. This licence applies to various animals, including Special Protection Status and Protected Native Animal species.
2. These activities are to only be undertaken within the area delineated by the fenceline enclosing the GDE construction site.
3. Failure to comply with these conditions may result in prosecution action or cancellation of your licence under the Nature Conservation Act 1980.
4. This licence is not transferable.

9. If, during development of GDE and related works, an active nest of any Special Protection Status or Protected Native Animal species (pursuant to the Nature Conservation Act 1980) is located, the Conservator of Flora and Fauna shall be notified as soon as possible, or in any case, within 24 hours.
