Blood Donation (Transmittable Diseases) Blood Donor Form 2019 (No 1)

Disallowable instrument DI2019-223

Approved form AF2019-54

made under the

Blood Donation (Transmittable Diseases) Act 1985, s 10(3) (Approved Forms)

1 Name of instrument

This instrument is the *Blood Donation (Transmittable Diseases) Blood Donor Form 2019 (No 1)*.

2 Commencement

This instrument commences on 2 December 2019.

3 Declaration

I approve the attached Blood Donor Declaration Form prepared by the Australian Red Cross Blood Service.

4 Revocation

The following instruments are repealed:

DI2018-28;

DI2018-211;

AF2018-2;

AF2018-23.

Rachel Stephen-Smith MLA Minister for Health 27 September 2019

Donor questionnaire

Thank you for your generosity

Important information for a safe, comfortable donation

Blood donation is very safe, but occasionally problems can happen. This questionnaire helps keep you and patients safe.

All of these questions are important and you need to answer each one honestly. Providing false or misleading information may lead to fines and imprisonment. Some people MUST NOT give blood as it may not be safe for them, or for the patient who receives their donation.

Fainting

About 1 in 100 donors feel faint (dizzy, light-headed, hot, sweaty or unwell) during or straight after donating.

Even fewer, about 1 in 1000, faint (lose consciousness).

Some donors may feel faint or faint after leaving the donor centre.

Tips to reduce the risk of fainting

In the 24 hours before you donate, drink plenty of fluids, especially in warm weather.

In the 3 hours before:

- · Drink 750 mL of fluids
- · Have something savoury to eat
- · Avoid strenuous exercise.

Afterwards, spend at least 15 to 20 minutes in the refreshment area.

For 8 hours after:

- · Drink plenty of fluids
- · Avoid alcoholic and hot drinks
- · Avoid standing for long periods
- Avoid getting overheated.

For at least 12 hours, avoid strenuous or hazardous activities, including jobs where public safety may be affected.

You should check any employment or safety requirements you have. If unsure, please discuss at your interview.

If you feel faint:

- · Lie or sit down with your head between your knees
- · Ask for help
- If you're driving, pull over, park, lay your seat back and call for assistance.

Do not continue driving.

Bruising

Small bruises are not uncommon and generally resolve in a few days. Larger bruises, which may be uncomfortable, occur once in every 300 donations. To reduce the risk:

- · Keep the bandage on for 2 hours
- · Minimise lifting or carrying with your donation arm for 24 hours.

If you develop a bruise, an ice pack and/or pain reliever may help. If you bleed, apply pressure and raise your arm.

Iron levels

Blood donation can cause low iron (iron deficiency), particularly in:

- · frequent whole blood donors
- · women of child-bearing age.

Low iron may cause tiredness, difficulty concentrating and low haemoglobin (anaemia).

We check haemoglobin before each donation, but not iron. Haemoglobin can be normal in early iron deficiency.

We recommend:

- · A healthy, iron-rich diet
- Women 18-45 take iron after each whole blood donation
- Women trying to become pregnant build healthy iron levels for the increased requirements of pregnancy.

Speak with your doctor before donating if you're concerned about iron or how often to donate. For more information ask our staff or visit **lifeblood.com.au**

Rare complications may occur in 1 in every 1500 donations and include:

- Nerve irritation
- · Local infection orclot
- · Insertion of the needle into an artery.

Testing your donation

To ensure patient safety, we test all successful donations for hepatitis B, hepatitis C and HIV (AIDS virus). We test some donation types for HTLV and syphilis.

If your results are significantly abnormal, we'll notify you using the contact details you provided.

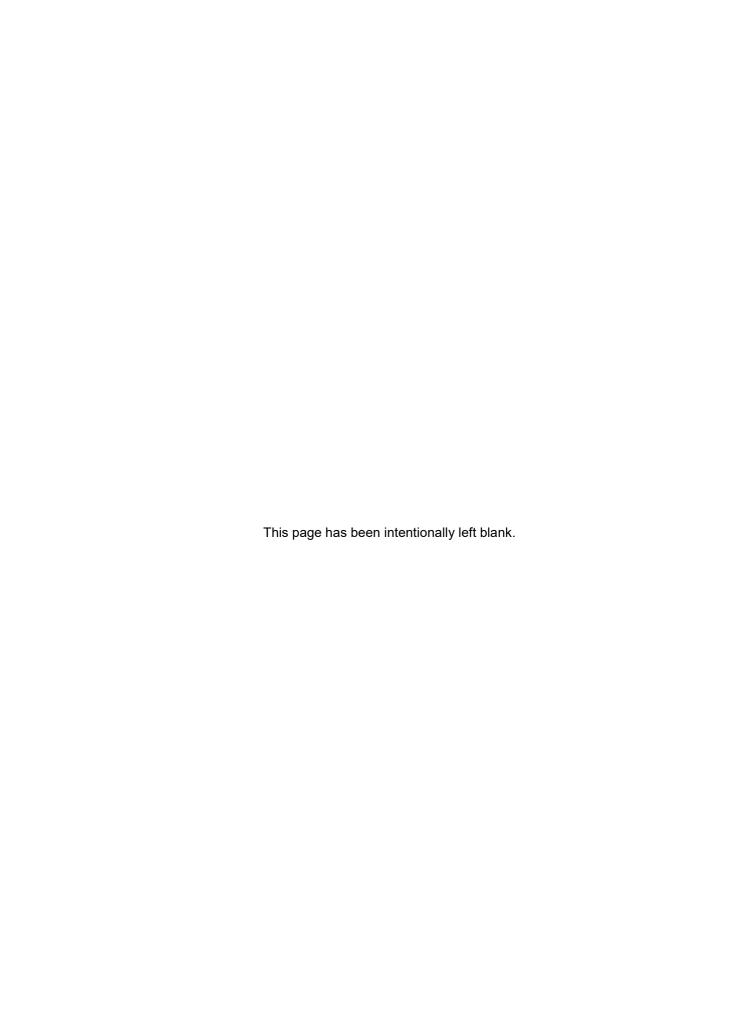

You can change your mind about donating any time. Just tell a staff member.

If you learn of any reason why your blood shouldn't be used, please call us on 13 14 95. In particular, notify us immediately if you:

- Develop a cough, cold, diarrhoea or other infection within a week of donating, or
- Are diagnosed or hospitalised with a serious infection within 2 months of donating

Remember, our staff are trained to deal with any potential problems and are here to help. If you have any questions or concerns, or you feel unwell, please ask a staff member.

If you feel unwell, or are concerned after your donation call us on 13 14 95 or see your doctor.

A New and returned donors Please complete this section only if:

- you are a new donor,or
- you have not donated within the last 2 years.

Otherwise, proceed to section B.

Please complete using blue or black ink (not pencil) by placing a cross or a tick in the relevant box.

A1	Have you ever volunteered to donate blood before? A1a. If yes – where?When?	Yes	No
A2	Have you ever been advised not to give blood?	Yes	No
A3	Have you ever had: • Anaemia or any blood disorder? • A serious illness, operation or been admitted to hospital?	Yes	No
A4	Have you ever been pregnant (including miscarriage and termination of pregnancy)?	Yes	No
	A4a. If your answer is "Yes" – have you been pregnant in the last 9 months?	Yes	No
A5	Have you ever had: • A head injury? • Stroke or epilepsy? • Heart or blood pressure problems, or chest pain? • Rheumatic fever or a heart murmur?	Yes	No
A6	Have you ever had: Bowel disease? Stomach or duodenal problems or ulcers? Kidney or liver problems? Lung problems including tuberculosis (TB)?	Yes	No No
A7	Have you ever had: Diabetes? A thyroid disorder? An autoimmune disease e.g. rheumatoid arthritis or lupus?	Yes	No 🗀
A8	 Have you ever: Had cancer of any kind including melanoma? Received a transplant or graft (organ, bone marrow, cornea, dura mater, bone, etc.)? 	Yes	No
A9	Have you ever had: Jaundice (yelloweyes/skin) or hepatitis? Malaria, Q fever, leptospirosis or Chagas' disease?		
A10	Have you ever had treatment with the medication TIGASON (Etretinate) or NEOTIGASON (Acitretin)?	Yes	No
A11	Have you had a neurosurgical procedure involving the head, brain or spinal cord between 1972 and 1989?	Yes	No
A12	Have you received injections of human growth hormone for short stature or human pituitary hormone for infertility prior to 1986?	Yes	No
A13	What was your country of birth?		
A14	Have you ever been outside Australia?	Yes	No
lf y	our answer to question 14 is 'No' please go straight to Section B on the	e next p	age
A15	Have you spent a continuous period of 6 months or more outside Australia at any stage of your life?	Yes	No
A16	Have you been outside Australia in the last 3 years?	Yes	No
	A16a. If your answer is "Yes" – Have you been in Papua New Guinea (PNG) in the last 3 years?	Yes	No
A17	Have you ever received a transfusion or injection of blood or blood products outside Australia?	Yes	No
A18	From 1 January 1980 through to 31 December 1996 inclusive, have you spent (visited or lived) a total time which adds up to 6 months or more in England, Scotland, Wales, Northern Ireland, the Channel Islands, the Isle of Man, or the Falkland Islands?	Yes	No

B Medical questionnaire All donors please complete this section

Please complete using blue or black ink (not pencil) by placing a cross or a tick in the relevant box.

B1	Are you feeling healthy and well?		Yes	No
B2	Did you have any side effects after leaving the donor centre after your last donation?	y first donation	Yes	No
	B2a. If your answer is "Yes" – did you report this to Australian Red Cross Lifeblood?		Yes	No
ВЗ	Are you allergic to the antiseptic chlorhexidine?		Yes	No
B4	What is your weight?kg Note: If you're unsure, please weigh yourself on the scales provided.		\Box	\Box
B5	In the next 3 days, do you intend to participate in any activity which would place you or others a risk of injury if you were to become unwell after donating, such as driving public transport, operating heavy machinery, underwater diving, piloting a plane or other activities?	t	Yes	No
В6	In the last week, have you:		Yes	No
	 Had dental work, cleaning, fillings or extractions? Taken any aspirin, pain killers or anti-inflammatory preparations? Had any cuts, abrasions, sores or rashes? 			
В7	In the last week, have you had a gastric upset, diarrhoea, abdominal pain or vomiting?		Yes	No
B8	Since your last donation, have you – or if you're a new donor, have you in the last 12 months: • Been unwell?		Yes	No
	 Seen a doctor or any health care practitioner? Undergoneanytests/investigations? Had an operation/surgical procedure? 			
В9	Since your last donation, have you – or if you're a new donor, have you in the last 12 months – had chest pain/angina or an irregular heartbeat?		Yes Yes	No No
B10	 Since your last donation, have you – or if you are a new donor, have you in the last 12 month Had shingles or chickenpox? Had any immunisations/vaccinations (including as part of a clinical trial)? 	s:	Yes	No 🗔
B11 \$	Since your last donation, have you – or if you're a new donor, have you in the last 12 months had a sexually transmitted infection e.g. syphilis, gonorrhoea or genital herpes?	_	Yes	No 🗔
B12 \$	Since your last donation, have you – or if you're a new donor, have you in the last 12 months taken or used any medication, including: Regular or clinical trial medication? Acne or other skin condition medications? PrEP (pre-exposure prophylaxis) to prevent HIV infection? Injectable medications?	-	Yes	No
B13	Do you know anyone in your family who had or has: Creutzfeldt-Jakobdisease(CJD)? Gerstmann-Straussler-Scheinker syndrome (GSS)? Fatal familial insomnia (FFI)?			
•	ou have completed Section A today, please go to Section C on t page.	the		
B14	Have you been in Papua New Guinea (PNG) in the last 3 years?		Yes	No
B15 \$	Since your last donation, have you been outside Australia?		Yes	No
B16	Since your last donation, have you received a transfusion or injection of blood or blood products	s?	Yes	No
B17 \$	Since your last donation, have you been pregnant (including miscarriage and termination of pregnancy)?	I am male	Yes	No
	B17a. If your answer is "Yes" – have you been pregnant in the last 9 months?		Yes	No

C Donor declaration All donors please complete this section

Please complete using blue or black ink (not pencil) by placing a cross or a tick in the relevant box.

C1	To the best of your knowledge, have you EVER thought you could be infected with HIV or have AIDS?	Yes No
C2	To the best of your knowledge, have you EVER had a test which showed you had hepatitis B, hepatitis C, HIV or HTLV?	Yes No
C3	To the best of your knowledge, in the last 5 years have you "used drugs" by injection or been injected with drugs not prescribed by a doctor or dentist?	Yes No
C4	In the last 12 months have you had an illness with both a rash AND swollen glands, with or without a fever?	Yes No
C5	In the last 12 months have you engaged in sexual activity with someone who: You think could be infected with HIV or have AIDS? Had a test which showed they had hepatitis B, hepatitis C, HIV or HTLV? Ever "used drugs" by injection or been injected, even once, with drugs not prescribed by a doctor or dentist? Had an illness with both a rash AND swollen glands, with or without a fever?	Yes No
C6	In the last 12 months have you had sexual activity with a new partner who currently lives or has previously lived overseas?	Yes No
C7	In the last 12 months have you had sex (with or without a condom) with a man who you think may have had oral or anal sex with another man?	
	,	
C8	In the last 12 months have you had male to male sex (that is, oral or anal sex) with or without a condom?	Yes No
C8 C9	In the last 12 months have you had male to male sex (that is, oral or anal sex) with	Yes No
C9	In the last 12 months have you had male to male sex (that is, oral or anal sex) with or without a condom? In the last 12 months have you been a male or female sex worker (e.g. received payment	
C9 C10	In the last 12 months have you had male to male sex (that is, oral or anal sex) with or without a condom? In the last 12 months have you been a male or female sex worker (e.g. received payment for sex in money, gifts or drugs)?	Yes No
C9 C10 C11	In the last 12 months have you had male to male sex (that is, oral or anal sex) with or without a condom? In the last 12 months have you been a male or female sex worker (e.g. received payment for sex in money, gifts or drugs)? In the last 12 months have you engaged in sexual activity with a male or female sex worker?	Yes No
C9 C10 C11 C12	In the last 12 months have you had male to male sex (that is, oral or anal sex) with or without a condom? In the last 12 months have you been a male or female sex worker (e.g. received payment for sex in money, gifts or drugs)? In the last 12 months have you engaged in sexual activity with a male or female sex worker? In the last 12 months have you been imprisoned in a prison or been held in a lock-up or detention centre?	Yes No Yes No No
C9 C10 C11 C12 C13	In the last 12 months have you had male to male sex (that is, oral or anal sex) with or without a condom? In the last 12 months have you been a male or female sex worker (e.g. received payment for sex in money, gifts or drugs)? In the last 12 months have you engaged in sexual activity with a male or female sex worker? In the last 12 months have you been imprisoned in a prison or been held in a lock-up or detention centre? In the last 12 months have you had a blood transfusion?	Yes No Yes No Yes No No
C9 C10 C11 C12 C13 C14	In the last 12 months have you had male to male sex (that is, oral or anal sex) with or without a condom? In the last 12 months have you been a male or female sex worker (e.g. received payment for sex in money, gifts or drugs)? In the last 12 months have you engaged in sexual activity with a male or female sex worker? In the last 12 months have you been imprisoned in a prison or been held in a lock-up or detention centre? In the last 12 months have you had a blood transfusion? In the last 12 months have you had (yellow) jaundice or hepatitis or been in contact with someone who has?	Yes No Yes No Yes No Yes No Yes No

How your information will be used

Your information will be:

Surname/family name

- · used to:
 - assess your eligibility to donate blood,
 - ensure the safety of both donors and recipients,
 - contact you for future donations, and
 - assist with research including improving the safety of transfusion and donation;
- treated as confidential and held in compliance with the Privacy Act 1988 (Cth), State/Territory health records legislation and Lifeblood's Privacy Policy. Our
 Privacy Policy explains how we collect, use, store and disclose your personal information; how you may access or seek correction
 of your personal information; how to make a complaint about a breach of your privacy, and how we will handle that complaint.

Given name

Our Privacy Policy is available on donateblood.com.au

How your blood will be used

Thank you for your special gift of blood

Here's how your blood donation will be used:

- Most of the time, we'll use your donation to help people who are unwell. This may include the supply of plasma from your donation to CSL Behring who is contracted by the Australian government to manufacture plasma-derived medicines for Australians.
- · Your donation may be used by Lifeblood or other approved organisations for the purposes of research, teaching and checking quality.
- We may supply some red cells from your donation for the production of red cell testing kits which are used by hospitals, pathology services and blood banks in Australia to assist in the correct matching of blood for transfusions.
- A part of your donation will also be stored in our Blood Sample Archive for possible future testing and research;
 samples that are no longer required will be destroyed.

Approval from an appropriate Human Research Ethics Committee is required before any research is undertaken on any part of your donation.

Occasionally we may ask you to undergo follow up tests which you have the option to decline.

Declaration

- · I agree for my donation to be used for the purposes set out above;
- I have been provided with, read and understood "Important information for a safe, comfortable donation" and had the opportunity to ask questions;
- · I accept the risks associated with blood donation and agree to follow the instructions of Lifeblood staff to minimise these risks;
- · I agree to notify Lifeblood if, after my donation, I become aware of any reason why my donation should not be used;
- · I declare that I have understood the information on this form and answered the questions honestly and to the best of my knowledge; and
- · I understand there are penalties, including fines and imprisonment, for providing false and misleading information.

This declaration is to be signed in the presence of a Lifeblood staff member
