

Construction Occupations (Licensing) (Qualifications) Declaration 2024 (No 2)

Disallowable instrument DI2024-41

made under the

**Construction Occupations (Licensing) Regulation 2004, s 13 (Eligibility for licence—
suitability and financial requirements—Act, s 18 and s 24A)**

1 Name of instrument

This instrument is the *Construction Occupations (Licensing) (Qualifications) Declaration 2024 (No 2)*.

2 Commencement

This instrument commences on the day after notification.

3 Declaration

I declare that for an individual to be eligible for a licence or endorsement specified in schedule 1, it is necessary that the individual meets the qualification requirements in column 3 of the relevant part of schedule 1 for the construction occupation or construction occupation class or endorsement.

4 Eligibility where more than one method is prescribed

Where more than one method is prescribed for a particular occupation class or endorsement, an applicant need only demonstrate eligibility in accordance with one of the methods.

5 Revocation

This instrument revokes the *Construction Occupations (Licensing) (Qualifications) Declaration 2024 (DI2024-35)*.

Rebecca Vassarotti MLA
Minister for Sustainable Building and Construction
20 March 2024

Schedule 1
(See section 3)

**Construction Occupations (Licensing)
Regulation 2004
Qualifications
Schedule**

Contents

Notes	3
Dictionary	3
Part 1 – Building Assessor	6
Part 2 – Drainer	9
Part 3 – Electrician	11
Part 4 – Gasfitter and Gas Appliance Worker	27
Part 5 – Plumber and Plumbing Plan Certifier	38
Part 6 – Works Assessor	44
Part 7 – Builder	46
Section 1 – Qualification requirements	46
Section 2 – Mandatory building work experience requirements	66
Section 3 – Building technology	68
Part 8 – Building Surveyor	71

Notes

1. An applicant is only required to meet one of the methods listed for a particular occupation class.
2. Terms in italics, for example *registered training organisation*, are defined in the dictionary at the beginning of this schedule.
3. A qualification is not limited to a formal academic qualification and may include a stated period or type of experience, a method of qualifying, or that the applicant has not been refused a licence under the Act within a stated period. An applicant must meet all qualification requirements in a method.

Dictionary

TERM	MEANING
<i>1 year full time</i>	means 1,825 hours undertaken over a period of not less than one year.
<i>2 years full time</i>	means 3,650 hours undertaken over a period of not less than two years.
<i>3 years full time</i>	means 5,472 hours undertaken over a period of not less than three years.
<i>Assessment</i>	means an assessment of obligations, practices, capabilities and knowledge relevant to the occupation and class of licence being applied for and may include an examination which may have practical, written and oral aspects or the undertaking of a test, or series of tests approved by the construction occupations registrar
<i>Basic building work</i>	as defined under section 10 of the <i>Building Act 2004</i> .
<i>Building technology</i>	means undertaking or supervising manual building work of the type identified in Part 7, section 3 of this Schedule

TERM	MEANING
Building work experience	<p>Means:</p> <ul style="list-style-type: none"> i. the mandatory building work experience requirements identified in schedule 2 for the relevant class of licence applied for; and ii. Building technology that equates to not less than 1,825 hours of the 2 years full time or 2,736 hours of the 3 years full time and that is in relation to building projects that are relevant to the class of licence applied for as identified in column 1 of section 2 of Part 7 of this Schedule. <p>It does not include:</p> <ul style="list-style-type: none"> i. Experience obtained while performing unlawful work, including, but not limited to, work without a building approval, when a building approval is required; ii. Experience that has not been independently verified. iii. Quantity surveying, designing, drafting or off-site fabrication. iv. Experience obtained more than five years previous to the date of licence application
COLR	<i>Construction Occupations (Licensing) Regulation 2004</i>
Commencement notice	as described under section 37 of the <i>Building Act 2004</i> or the interstate equivalent.
Competent person	means the licensed builder that was appointed as the builder and nominee on the commencement notice and was responsible for supervising the building work relevant to applicant's experience. A competent person does not include the building surveyor, architect or engineer for the project where the building work has been undertaken.
Course	includes a certificate, diploma, unit of competency and training course
Course code	means the code specified in the schedule for a specific certificate, diploma, unit of competency or training course and includes course codes not specified but that are applied to versions that have different course codes but are identical in content or an equivalent competency. Where the schedule requires the course to have been completed no longer than five years prior to the date of application this definition does not provide for recognition of course codes that apply to those courses.
Endorsed Software	means software endorsed under section 31A of the <i>Construction Occupations (Licensing) Regulation 2004</i> for the purposes of providing builder assessor services
Independently verified	means verification by a competent person who was responsible for the supervision of the building work experience being undertaken by the applicant. The verification must attest to the extent, quality, relevance and recency of the building work undertaken. The verification must detail the experience including confirming the number of hours and the building work experience undertaken by the applicant.
Letter of need	means a statement from the applicant's employer, or from the applicant if self-employed, stating the principal trade to which the incidental electrical work the applicant wished to be licensed to undertake, the need for the restricted electrical permit or licence in that trade, and, for permits, including the name and licence number of the person who will be supervising their work.

TERM	MEANING
<i>Registered training organisation</i>	means a training provider registered by ASQA or a state regulator, to deliver vocational education and training services within the scope of registration required for the relevant competency, course or qualification.
<i>Relevant practical drainage experience</i>	means drainage work, as defined under the <i>Water and Sewerage Act 2000</i> , in the scope of work relevant to the class of licence being applied for
<i>Relevant practical gasfitting experience</i>	means gasfitting work, as defined under the <i>Gas Safety Act 2000</i> , in the scope of work relevant to the class of licence being applied for.
<i>Relevant practical gas appliance work experience</i>	means gas appliance work as defined under the <i>Gas Safety Act 2000</i> .
<i>Relevant practical plumbing work experience</i>	means plumbing work, as defined under the <i>Water and Sewerage Act 2000</i> , in the scope of work relevant to the class of licence being applied for.
<i>Sanitary plumbing work</i>	as defined under the <i>Water and Sewerage Act 2000</i> .
<i>Specialist building work</i>	as defined under section 9 of the <i>Building Act 2004</i> .
<i>Tertiary qualification in building</i>	is a qualification primarily related to the undertaking, management and supervision of building work of the type regulated under the ACT <i>Building Act 2004</i> , and does not include qualifications primarily related to other building industry matters such as planning and development, economics, industrial relations, construction law, regulatory theory and the like.
<i>Unconditional</i>	means not subject to a condition specific to the licensee and imposed by the construction occupations registrar or a relevant tribunal or court of competent jurisdiction.
<i>Water supply plumbing work</i>	as defined under the <i>Water and Sewerage Act 2000</i> .

Part 1 – Building Assessor

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Qualification Requirements
Building Assessor	Class A – Energy Efficiency	<p>Method 1 - Educational qualification</p> <p>The applicant has completed one of the following qualifications:</p> <p>a) The Home Sustainability Assessment and Thermal Performance Assessment Package from the Certificate IV in Home Energy Efficiency and Sustainability (CPP41119) as assessed by a registered training organisation</p> <p>OR</p> <p>b) at least the following units of competency from Certificate IV in NatHERS Assessment (CPP41212) as assessed by a registered training organisation:</p> <ul style="list-style-type: none"> i. BSBRK401A Identify risk and apply risk management processes ii. CPPACC4015A Follow site occupational health and safety requirements iii. CPPCMN4008A Read and extract information from plans, drawings and specifications for residential buildings iv. CPPHSA4012A Conduct NatHERS assessment of planned residential buildings v. CPPHSA4015A Assess impact of building elements on thermal performance of residential buildings vi. CPPHSA4018A Manage own work, professional development and ethical behaviour vii. CPCBC4014A Prepare simple building sketches and drawings viii. CPPHSA4020A Operate computer systems to support NatHERS assessment ix. CPPCMN3004 Respond to enquiries and complaints x. CPPHSA5001A Assess thermal performance of complex residential buildings (or an equivalent unit that supersedes this unit). <p>Method 2 - Formerly held licence</p> <p>The applicant held a Building Assessor Class A – energy efficiency licence in the ACT within a one (1) year from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Qualification Requirements
	Class A –Software Endorsement under section 31A of the COLR	The applicant satisfies the registrar that the applicant has the relevant training and competency to operate the endorsed software for the purposes of providing a building assessment service
	Class B – energy efficiency	<p>Method 1 -Educational Qualification</p> <p>The applicant has completed one of the following qualifications:</p> <p>a) The Thermal Performance Assessment Package or the Home Sustainability Assessment and Thermal Performance Assessment Package from the Certificate IV in Home Energy Efficiency and Sustainability (CPP41119) as assessed by a registered training organisation</p> <p>Or</p> <p>b) at least the following units of competency from Certificate IV in NatHERS Assessment (CPP41212) as assessed by a <i>registered training organisation</i>—</p> <ul style="list-style-type: none"> i. BSBRK401 Identify risk and apply risk management processes ii. CPPACC4015A Follow site occupational health and safety requirements iii. CPPCMN4008A Read and extract information from plans, drawings and specifications for residential buildings iv. CPPHSA4012A Conduct NatHERS assessment of planned residential buildings v. CPPHSA4015A Assess impact of building elements on thermal performance of residential buildings vi. CPPHSA4018A Manage own work, professional development and ethical behaviour vii. CPPHSA4020A Operate computer systems to support NatHERS assessment viii. CPPCMN3004 Respond to enquiries and complaints ix. CPPHSA5001A Assess thermal performance of complex residential buildings (or an equivalent unit that supersedes this unit). <p>Method 2 - Formerly held licence</p> <p>The applicant held a Building Assessor Class B or Class A – energy efficiency in the ACT within a one (1) year period from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to</p>

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Qualification Requirements
		avoid occupational discipline or another regulatory action against the licensee (however described).
	Class B –Software Endorsement under section 31A of the COLR	The applicant satisfies the registrar that the applicant has the relevant training and competency to operate the endorsed software for the purposes of providing a building assessment service

Part 2 – Drainer

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
Drainer	Advanced Sanitary Drainer	<p>Method 1 - Existing licence, educational qualification and drainage work experience</p> <p>The applicant—</p> <p>a) holds, or has previously held within 12 months prior to application, a Journeyperson Drainer licence, or an interstate equivalent if that licence was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described); and</p> <p>b) obtained the following Certificate IV level competencies no greater than five years prior to making the application—</p> <ul style="list-style-type: none"> i. BSBESB402 Establish legal and risk management requirements of new business ventures. ii. CPCBC4012B, CPCCB4012 Read and interpret plans and specifications. iii. CPCPCM4011 Carry out work-based risk control processes. iv. CPCPCM4012A, CPCPCM4012 Estimate and cost work. v. CPCPDR4011B, CPCPDR4011 Design and size sanitary drainage systems. vi. CPCPDR4012B, CPCPDR4012 Design and size stormwater drainage systems. vii. CPCPDR4013B, CPCPDR4013 Design and size domestic treatment plant disposal systems; and <p>c) has undertaken and documented not less than <i>1 year full time relevant practical drainage work experience</i> carried out by the applicant while licensed as a journeyperson drainer under the direct supervision of a licensed Advanced Sanitary Drainer or interstate equivalent.</p> <p>Method 2 - Formerly held licence</p> <p>The applicant held an Advanced Sanitary Drainer Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
	Journeyman Drainer	<p>Method 1 - Educational Qualification</p> <p>a) The applicant obtained a Certificate III in Plumbing (CPC32413) and the certificate was obtained:</p> <ul style="list-style-type: none"> i. no greater than five (5) years prior to making the application; and ii. through a nationally recognised contract of training as a plumbing apprentice; and iii. through completion of the Drainage stream to attain the certificate. <p>Or</p> <p>b) The applicant obtained a Certificate III in Plumbing (CPC32420) and the certificate was obtained:</p> <ul style="list-style-type: none"> i. no greater than five (5) years prior to making the application; and ii. through a nationally recognised contract of training as a plumbing apprentice. <p>Method 2 - Formerly held licence</p> <p>The applicant held a Journeyman Drainer Licence or Advanced Sanitary Drainer within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
	Operative Drainer	<p>Method 1 - Educational Qualification</p> <p>The applicant obtained a Certificate II in Draining with one of the following course numbers issued within five years prior to making the application:</p> <ul style="list-style-type: none"> i. CPC20712 ii. CPC20720 <p>Method 2 - Formerly held licence</p> <p>The applicant held an Operative Drainer Licence or an Advanced Sanitary Drainer licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>

Part 3 – Electrician

NOTES

<p>Restricted Permit</p>	<p>The category Restricted Permit Electrotechnology Systems may be used for individuals to undertake supervised work and training at a registered training organisation (RTO) to gain the qualifications required for a Restricted Licence in the class of licence relevant to their trade background. Not all trades qualify for a Restricted Permit Electrotechnology Systems or Restricted Licence Electrotechnology System.</p>
<p>Gap Training & Unrestricted Permit Electrotechnology Systems Permit</p>	<ul style="list-style-type: none"> • The Unrestricted Permit Electrotechnology Systems Permit may be used for individuals to undertake supervised work and training at a registered training organisation (RTO) to gain the qualification acceptable for obtaining an Unrestricted Licence. This training fills the gap between their initial qualification and the current Certificate III in Electrotechnology Electrician and is referred to as 'gap training'. • The gap training may take the form of a training package delivered by the RTO, or individual units of competency required by the RTO, so the applicant can gain the Certificate III in <i>Electrotechnology Electrician</i>. It is expected that gap training should not exceed 18 months of part time study. • If an applicant requires more than 18 months part time study to gain the required qualification, the Registrar may require the applicant undertake a nationally recognised contract of training as an electrical apprentice to gain the required qualification to be licenced as an unrestricted electrician.
<p>Letters of need (NB: see dictionary)</p>	<p>All applicants for unrestricted permits, restricted permits, and restricted licences in the occupation of electrician must provide a statement from their employer, or from the applicant if self-employed, stating the principal trade to which the incidental electrical work applies, and the need for the restricted electrical permit or licence in that trade. For permits, the letters must include the name and licence number of the person who will be supervising their work</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
Electrician	Unrestricted Licence	<p>Method 1 - Educational Qualification(s)</p> <p>The applicant holds—</p> <ul style="list-style-type: none"> a) one of the following <i>Certificate III in Electrotechnology Electrician</i> qualifications as described on the national training register, obtained through a nationally recognised contract of training as an electrical apprentice, and issued within five (5) years prior to making the application: <ul style="list-style-type: none"> i. UEE30811; or ii. UEE30820 <p>And</p> <ul style="list-style-type: none"> b) one of the following units of competency not obtained through recognition of prior learning (RPL): <ul style="list-style-type: none"> i. UEENEEG105A Verify compliance and functionality of low voltage general electrical installations. ii. UEEEL0039 Design, Install and Verify compliance and functionality of general electrical installations. <p>Method 2 - Formerly held licence</p> <p>The applicant held an Unrestricted Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described)</p>
	Section 31D, COLR – endorsement for work on distributed energy resources declared under the <i>Construction Occupations (Licensing) Energy Resource) Declaration 2024.</i>	<p><i>Note: only holders of an unrestricted electrician or an electrical contractor licence are eligible for an endorsement for work on distributed energy resources. Individuals can demonstrate eligibility against multiple points under Method 1.</i></p> <p>Method 1 - Educational qualification</p> <ul style="list-style-type: none"> a) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation: <ul style="list-style-type: none"> i. UEERE0054 Conduct site survey for grid-connected photovoltaic and battery storage systems; and ii. UEERE0081 Install photovoltaic systems to power conversion equipment; and

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<ul style="list-style-type: none"> iii. UEERE0080 Install photovoltaic power conversion equipment to grid; and iv. UEERE0061 Design grid-connected photovoltaic power supply systems. <p>Or</p> <ul style="list-style-type: none"> b) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation within five years prior to application: <ul style="list-style-type: none"> i. UEENEEK125A Solve basic problems in photovoltaic energy apparatus and systems; and ii. UEENEEK148A Install, configure and commission LV grid connected photovoltaic power systems; and iii. UEENEEK135A Design grid connected photovoltaic power supply systems. <p>Or</p> <ul style="list-style-type: none"> c) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation within five years prior to application: <ul style="list-style-type: none"> i. UEERE0022 - Solve basic problems in photovoltaic energy apparatus and systems; and ii. UEERE0016 - Install, configure and commission LV grid-connected photovoltaic power system; and iii. UEERE0011 - Design grid-connected photovoltaic power supply systems. <p>And/Or</p> <ul style="list-style-type: none"> d) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation: <ul style="list-style-type: none"> i. UEERE0054 - Conduct site survey for grid-connected photovoltaic and battery storage systems; and ii. UEERE0078 - Install battery storage to power conversion equipment; and iii. UEERE0077 - Install battery storage equipment power conversion equipment to grid; and iv. UEERE0060 - Design grid-connected battery storage systems.

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>Or</p> <p>e) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation within five years prior to application:</p> <ul style="list-style-type: none"> i. UEERE4001 - Install, maintain and fault find battery storage systems for grid-connected photovoltaic systems; and ii. UEERE5001 - Design battery storage systems for grid-connected photovoltaic systems. <p>Method 2 – Existing accreditation</p> <p>The applicant holds a current accreditation with the accreditation scheme operator for the Small-scale Renewable Energy Scheme.</p> <p>Method 3 - Formerly held endorsement</p> <p>The applicant held an endorsement for work on declared distributed energy resources in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
	<p>Section 31C, COLR- – endorsement for interval metering work</p>	<p><i>Note: only holders of an unrestricted electrician or an electrical contractor licence are eligible for an interval metering work endorsement.</i></p> <p>Method 1 - Educational qualification</p> <p>The applicant has completed—</p> <p>a) one of the following units of competency as described on the national training register and provided by a <i>registered training organisation</i>:</p> <ul style="list-style-type: none"> i. UEEL0013 Install set up and commission interval metering or UEEL0078 Install and commission whole current electricity meters (release 1) ii. UEENEG171A Install, set up and commission interval metering <p>Or</p> <p>b) a unit of competency that is recognised on the national training register as a unit that supersedes and is equivalent to UEEL0078 (release 1).</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>Method 2 - NSW Accredited Service Provider – interval metering</p> <p>The applicant, no more than three years prior to the date of application—</p> <ul style="list-style-type: none"> a) held an accreditation as an accredited service provider under the <i>NSW Electricity Supply (Safety and Network Management) Regulation 2014</i>, where the accreditation included the provision of interval metering work (however described); or b) was registered under the accreditation of an accredited service provider under the <i>NSW Electricity Supply (Safety and Network Management) Regulation 2014</i>, and the registration included the provision of interval metering work (however described). <p>Method 3 - Formerly held endorsement</p> <p>The applicant held an interval metering work endorsement in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
	Unrestricted Permit Electrotechnology Systems	<p>Method 1 - Educational qualification, enrolment, and letter of need</p> <p>The applicant—</p> <ul style="list-style-type: none"> a) holds a qualification in either, a Trade Certificate for Electrical Mechanic/Fitter (or equivalent), or a Certificate III in Electrotechnology Electrician, issued more than five (5) years prior to application, or b) holds a Certificate III in Electrotechnology Electrician issued by a trade recognition body (or RTO) that requires “gap training” by a Registered Training Organisation, or c) holds a qualification in an electrical or related field that does not meet the requirements to obtain an Unrestricted Electrical Licence, that requires “gap training” <p>Note: The Registrar may refer the applicant for a skills assessment at an ACT RTO for evidence to meet this requirement.</p> <p>Note: An email or letter from an ACT RTO will suffice as evidence to meet the time requirement of gap training.</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>And</p> <p>d) the applicant is enrolled at a <i>registered training organisation</i> (RTO) to obtain a Certificate III in <i>Electrotechnology Electrician</i> acceptable for obtaining an Unrestricted Electrician’s Licence.</p> <p>Note: An email or letter from an ACT RTO will suffice as evidence to meet this requirement</p> <p>And</p> <p>e) has a <i>letter of need</i>.</p> <p>Method 2 -Formerly held licence</p> <p>The applicant—</p> <p>a) held an Unrestricted Permit Electrotechnology Systems or an Unrestricted Electrical Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described);</p> <p>And</p> <p>b) has a <i>letter of need</i>.</p>
	<p>Restricted Licence Electrotechnology Assembly and Servicing Electrical Fitting</p>	<p>Method 1 - Educational Qualification</p> <p>The applicant holds a Certificate III in Electrical Fitting (UEE33011 or UEE33020) issued within five years prior to the date the application is made.</p> <p>Method 2 - Educational Qualification</p> <p>The applicant—</p> <p>a) holds one of the following qualifications:</p> <ol style="list-style-type: none"> i. a Certificate III in Electrical Fitting (UEE33011 or UEE33020) issued more than five (5) years prior to the date the application is made. ii. a Certificate III in Electrical Fitting from a superseded qualification.

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>iii. an equivalent trade certificate in electrical fitting.</p> <p>And</p> <p>b) has completed the following units of competency or an equivalent competency within five years prior to the date the application is made:</p> <ul style="list-style-type: none"> i. UEERL0004 <i>Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring.</i> ii. UEERL0005 <i>Locate and rectify faults in low voltage (LV) electrical equipment using set procedures.</i> <p>And</p> <p>c) where the applicant has the unit of competency UEERL0004 (<i>Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring</i>) the unit of competency UEERL0001 <i>attach cords and plugs</i> is also required.</p> <p>And</p> <p>d) has a <i>letter of need</i>.</p> <p>Method 3 - Formerly held licence</p> <p>The applicant held a Restricted Licence Electrotechnology Assembly and Servicing Electrical Fitting or an Unrestricted Electrical Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
	Restricted Licence Electrotechnology Systems Mechanical Fitting	<p>Method 1 – Educational qualification</p> <p>The applicant—</p> <ul style="list-style-type: none"> a) holds one of the following qualifications: <ul style="list-style-type: none"> i. a trade certificate in the mechanical (services) trades ii. a Certificate III in Data and Voice Communications, (UEE30420, UEE30411) iii. a Certificate III, Certificate IV or Certificate V in Electronics and Communications, (UEE30920, UEE40720, UEE50520, UEE30911, UEE40711, UEE50511, UEE30411) iv. an equivalent certificate of competency <p>And</p> <ul style="list-style-type: none"> b) has completed the following units of competency or an equivalent competency issued within five years prior to the date the application is made: <ul style="list-style-type: none"> i. UEERL0004 <i>Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring.</i> ii. UEERL0005 <i>Locate and rectify faults in low voltage (LV) electrical equipment using set procedures.</i> <p>And</p> <ul style="list-style-type: none"> c) where the applicant has the unit of competency UEERL0004 (<i>Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring</i>) the unit of competency UEERL0001 <i>attach cords and plugs</i> is also required. <p>And</p> <ul style="list-style-type: none"> d) has a <i>letter of need</i>. <p>Method 2 - Formerly held licence</p> <p>The applicant held a Restricted Licence Electrotechnology Systems Mechanical Fitting or an Unrestricted Electrical Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p> <p>Note: This occupation class is not applicable to Automotive Mechanics.</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
	Restricted Licence Electrotechnology Systems Plumbing and Gasfitting	<p>Method 1 - Existing licence</p> <p>The applicant—</p> <p>a) holds a licence issued under the <i>Construction Occupations (Licensing) Act 2004</i> in one of the following occupation classes:</p> <ul style="list-style-type: none"> i. Advanced Sanitary Drainer ii. Journeyperson Drainer iii. Advanced Gasfitter iv. General Gasfitter v. Journeyperson Gasfitter vi. Sanitary Plumber vii. Water Supply Plumber viii. Journeyperson Plumber <p>And</p> <p>b) has completed the following unit of competency or an equivalent competency within five (5) years prior to the date the application is made:</p> <ul style="list-style-type: none"> i. UEERL0004 <i>Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring.</i> <p>And</p> <p>c) has completed one of the following units of competency or an equivalent competency within five (5) years prior to the date the application is made:</p> <ul style="list-style-type: none"> i. UEERL0005 <i>Locate and rectify faults in low voltage (LV) electrical equipment using set procedures.</i> ii. UEENEEP016A <i>Locate and Rectify Faults in Low Voltage Appliances.</i> <p>And</p> <p>d) where the applicant has the unit of competency UEERL0004 (<i>Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring</i>) the unit of competency UEERL0001 <i>attach cords and plugs</i> is also required.</p> <p>And</p> <p>e) has a <i>letter of need</i>.</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>Method 2 - Formerly held licence</p> <p>The applicant held a Restricted Licence Electrotechnology Systems Plumbing and or an unrestricted electrical licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
