

Planning (Lease Variation Charges) Determination 2026

Disallowable instrument DI2026–142

made under the

***Planning Act 2023*, s 331 (2) (Standard chargeable variations)**

1 Name of instrument

This instrument is the *Planning (Lease Variation Charges) Determination 2026*.

2 Commencement

This instrument commences on 1 July 2026.

3 Definitions

In this instrument:

Act means the *Planning Act 2023*.

chargeable variation—see the Act, dictionary.

development application—see the Act, dictionary.

dwelling means—

(a) a dwelling—see the *Planning (General) Regulation 2023*, section 6; or

(b) a unit—see the *Unit Titles Act 2001*, dictionary.

GFA means gross floor area.

gross floor area—see the Act, dictionary.

lease—see the Act, dictionary.

lease variation charge means, for a variation of a nominal rent lease, the lease variation charge applying under the Act, section 331.

nominal rent lease—see the Act, dictionary.

residential lease—see the Act, dictionary.

standard chargeable variation—see the Act, section 331.

suburb means a district under the *Districts Act 2002*, section 5.

zone—see the Act, dictionary.

4 Meaning of *lodged* and *submitted*

In this instrument:

lodged means—

- (c) for a development application prior to commencement of the Act, division 10.7.3 (Variation of nominal rent leases)—a development application that had passed a completeness check, had fees paid and the assessment timeframes under the Act have commenced; or
- (d) at any other time—where a development application has been made under the Act, section 166 (Application for development approval).

submitted means—

- (a) for a development application prior to commencement of the Act, division 10.7.3 (Variation of nominal rent leases)—a development application that has been submitted to the ACT planning and land authority in its electronic development application lodgement system, and that has not been lodged; or
- (b) for any other development application—where a development proposal is or has been considered under the Act, section 164 (Consideration of development proposals).

5 Application

This instrument applies to standard chargeable variations for development applications submitted on or after 1 July 2026 but before 1 July 2027 and lodged before 1 April 2028.

6 Working out lease variation charge for more than 1 standard chargeable variation—Act, s 330 (a)

The lease variation charge is the total of the determined charges for each standard chargeable variation.

7 Consultation and advice—Act, s 331 (2) & (3)

In making this determination, I:

- (e) consulted with the Minister for Planning; and
- (f) received and had regard to advice from an accredited valuer.

8 Determination of lease variation charges—schedule 1—Act, s 331 (2)

- (1) This section applies to a chargeable variation of a nominal rent lease of a kind mentioned in:

- (a) schedule 1, Table 1, columns 2 and 3,

to which the criteria in:

- (b) schedule 1, Table 1, column 4,
for the variation apply.
- (2) The determined lease variation charge for the chargeable variation is the amount for the variation in:
- (a) schedule 1, Table 1, column 5.
- (3) If this section applies to a chargeable variation of a nominal rent lease and, but for this section, a charge under another schedule would apply to the variation, the determined lease variation charge for the variation is the charge in schedule 1, Table 1, column 5 for the variation.

Example

Development approval has been given for a lessee to vary a lease in Braddon to increase the maximum GFA of the service station on the land under the lease. The lease variation charge for that variation is the charge mentioned in schedule 1 for service stations, not the charge mentioned in relation to the zone and suburb in schedule 3.

Note 1 Section 6 provides for working out the total lease variation charge if a development approval relates to 2 or more standard chargeable variations, for example, a variation mentioned in schedule 1 and a variation mentioned in schedule 3.

Note 2 An example is part of the instrument, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

Note 3 Section 48 of the Legislation Act provides that a power given under an Act to make a statutory instrument includes power to make different provisions in relation to different matters or different classes of matters.

**9 Determination of lease variation charges—schedule 2—
Act, s 331 (2)**

- (1) This section applies—
- (a) to a lease that authorises a residential use of the land described in the lease in a suburb mentioned in schedule 2, Table 1; and
- (b) if a development approval approves a chargeable variation of the lease to increase the number of dwellings permitted on the land under the lease.
- (2) The determined lease variation charge for the chargeable variation of the lease is worked out as follows:

increased number of dwellings* × *additional dwelling amount

- (3) In this section:

additional dwelling amount, for a chargeable variation of a lease that authorises a residential use of the land described in the lease in a suburb, means the amount mentioned in the column for the suburb for the total approved number of dwellings in schedule 2, Table 1, columns 2 to 9.

increased number of dwellings means the difference between the number of dwellings permitted on the land under the lease before the chargeable variation of the lease is executed and the number of dwellings permitted on the land after the variation is executed.

total approved number of dwellings, for a lease, means the total number of

dwelling permitted on the land under the lease after a chargeable variation is executed.

10 Determination of lease variation charges—schedule 3— Act, s 331 (2)

- (1) This section applies—
- (a) to a lease that authorises:
 - (i) a commercial use of the land described in the lease in a suburb mentioned in schedule 3, Table 1 to 3, column 1 and 2; or
 - (ii) an industrial use of the land described in the lease in a suburb mentioned in schedule 3, Table 4, column 1 and 2; and
 - (b) if a development approval approves a chargeable variation of the lease to increase the maximum GFA of any building or structure permitted for industrial or commercial use on the land under the lease.
- (2) The determined lease variation charge for the chargeable variation of the lease is worked out as follows:

$$\textit{increased GFA} \times \textit{additional GFA amount}$$

- (3) In this section:

additional GFA amount, for a chargeable variation of a lease in a suburb in a zone to which the criteria (if any) for the variation applies, means the amount mentioned in schedule 3, Tables 1 to 4, column 4 for the suburb, zone and criteria (if any).

criteria, for a chargeable variation of a lease, means—

- (a) for a suburb and zone that the lease is in, the detail mentioned in schedule 3, Tables 1 to 4, column 3; or
- (b) the applicable criteria that applies to the total GFA of a building or structure permitted for industrial or commercial use on the land under the lease after the variation is executed mentioned in schedule 3, Tables 1 to 4, column 3.

increased GFA means the difference, expressed in square meters, between the maximum GFA of any building or structure permitted for non-residential use on the land under the lease—

- (a) before the chargeable variation of the lease is executed; and
- (b) after the variation is executed.

11 Reasons etc for determining lease variation charges—schedule 4—Act, s 331 (5)

The reasons for determining the lease variation charges in this instrument and a statement about how the charges were determined are set out in schedule 4.

12 Amendment

(1) This instrument amends DI2025-179, as follows:

Substitutes section 5:

5 Application

This instrument applies to standard chargeable variations for development applications submitted on or after 1 July 2025 but before 1 July 2026 and lodged before 1 April 2027.

Chris Steel MLA
Treasurer

24 June 2026

Schedule 1

Lease Variation Charge Determination—Specific charges

Table 1: Specific charges—

column 1	column 2	column 3	column 4	column 5
Item No.	Chargeable variation	Relevant provision under Act or regulation	Additional criteria (if any)	Lease variation charge
1	Variation to limit the maximum number of dwellings permitted on the land under a residential lease.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (b)	Lease is in one of the following zones: * RZ1; * RZ2; * RZ3; * RZ4; * RZ5.	\$49,000 for each dwelling
2	Variation to limit the maximum number of non-residential units (however described) permitted on the land under a non-residential lease to 3 non-residential units or less.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (j)	Lease is in one of the following zones: * IZ1; * IZ2.	\$7,500 for each non-residential unit
3	Variation to limit the maximum number of non-residential units (however described) permitted on the land under a non-residential lease to a number greater than 3.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (j)	Lease is in one of the following zones: * IZ1; * IZ2 .	\$7,500 for each of the first 3 non-residential unit plus \$5,000 for each additional unit
4	Variation to consolidate 2 or 3 leases.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (d)		\$7,500
5	Variation to consolidate 4 or more leases.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (d)		\$7,500 for the first 3 leases plus \$5,000 for each additional lease
6	Variation to subdivide a lease into 2 or 3 leases.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (e)		\$7,500 for each additional lease

column 1	column 2	column 3	column 4	column 5
Item No.	Chargeable variation	Relevant provision under Act or regulation	Additional criteria (if any)	Lease variation charge
7	Variation to subdivide a lease into 4 or more leases.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (e)		\$7,500 for each of the first 2 additional leases and \$5,000 for each additional lease
8	Variation to increase maximum gross floor area of service station (as defined in the Territory Plan).	<i>Planning (General) Regulation 2023</i> , s 75 (1) (c) (ii)	(1) Lease authorises the land to be used for a service station. (2) Lease limits the maximum gross floor area that can be used for the purpose of a service station.	\$375 for each additional square metre of gross floor area
9	Variation to increase maximum gross floor area of a club (as defined in the Territory Plan) holding a club licence under the <i>Liquor Act 2010</i> .	<i>Planning (General) Regulation 2023</i> , s 75 (1) (c) (ii)	(1) The lessee of the lease holds a club licence under the <i>Liquor Act 2010</i> . (2) The lease authorises the land to be used for a club that is authorised to sell liquor under the <i>Liquor Act 2010</i> .	\$187.50 for each additional square metre of gross floor area
10	Variation to increase the maximum number of self care units in a retirement complex.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (h) (i)	(1) Lease authorises the land to be used for a retirement complex. (2) Lease limits the maximum number of self-care units.	\$40,000 for each additional self-care unit
11	Variation to increase the maximum number of care beds in a retirement complex.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (h) (ii)	(1) Lease authorises the land to be used for a retirement complex. (2) Lease limits the maximum number of self-care units.	\$10,000 for each additional care bed
12	Variation of a lease that authorises an incorporated association to use the land in the lease for a stated purpose to remove the reference in the lease to the association in the relation to the stated purpose.	<i>Planning (General) Regulation 2023</i> , s 75 (1) (i)		\$7,500

Schedule 2

Lease Variation Charge Determination—Residential

Table 1: Residential Development Application

Lease Variation Charge Determination—Statement of Reasons

Determining Lease Variation Charges—section 331 (4) (a) of the Act

Since the 2009-10 Budget, Lease Variation Charges (LVC) have been codified in response to industry concerns about the degree of uncertainty in change of use charge determinations. The agreed codification is achieved in part through determining the charges covered by this LVC Determination.

The LVC Determination is assigns clear, fixed, unambiguous LVC values to specified lease variations. Only one LVC value is assigned to any given lease variation. This approach has several benefits.

The assessment of the LVC for lease variations covered by the LVC Determination are efficient, transparent and straightforward. A lessee is able to determine the LVC for a proposed lease variation essentially by looking at the dollar value the LVC Determination applies to the proposed variation at the block, section and suburb of the lease.

The approach also means that the LVC codified amounts (also known as standard chargeable variations) and the calculation for every lease variation covered are clear and therefore accountable.

The above benefits of transparency and efficiency also:

- assist the property development industry with upfront project planning;
- reduce holding costs because the LVC can be determined more quickly;
- reduce administrative costs for applicants because a valuation report prepared by an accredited valuer will not be required; and
- provide increased certainty and predictability in LVC determinations.

The intention is for the above benefits to be applied to as broad a range of lease variations as possible. As a result, the LVC Determination includes all lease variations to increase the maximum number of dwellings, all variations to increase the maximum gross floor area for non-residential use and several other categories.

Schedules 1, 2 and 3—charges

Since 1 July 2025, Schedule 2 uses a new simplified charging structure for standard chargeable variations.

Consistent with sections 331 (2) and (3) of the Act, the Treasurer has consulted with the Minister for Planning and Sustainable Development and had regard to the advice of an accredited valuer in updating the standard chargeable variations.

How the Lease Variation Charge is determined—section 331 (5) (b) of the Act

The LVCs for lease variations to which schedule 1 applies (specific charges) have been worked out as follows.

The charges in schedule 1 apply to specified types of standard chargeable variations irrespective of where the parcel of land is located in the ACT.

Charges in schedule 1 are maintained at amounts as per the *Planning (Lease Variation Charges) Determination 2025 (No 2)*, except table 1, Item 1 is increased from \$46,000 to \$49,000 in line with the changes announced in the 2023-24 Budget to increase the amount to \$55,000 over five years.

The LVCs for lease variations to which schedule 2 applies (lease variations to increase the maximum number of dwellings permitted under the lease) have been worked out as follows.

The charges in schedule 2 apply to a chargeable variation to increase the maximum number of dwellings permitted under the lease.

The LVCs for schedule 2 are based on average market values up to 1 January 2026. A rolling 3-year average of market values of land in each suburb is used, which provides a buffer from market changes. A 25 per cent reduction is applied to adjust charges to 75 per cent of the average market value.

The suburbs are districts determined under the *Districts Act 2002*.

The LVCs are based on land values only and do not take account of improvements to the land.

The above methodology for residential land determined the added value associated with current land components of a typical benchmark property for each suburb. The schedules provide the average increase per additional dwelling unit, taking into account the scale of the development.

For each suburb, different values are set for the total number of approved dwellings (from 2 dwellings to over 100 dwellings) on a site according to a sliding scale.

The LVCs for lease variations to which schedule 3 applies (lease variations to increase the maximum gross floor area permitted under the lease for non-residential use) have been worked out as follows.

The charges in schedule 3 apply to a chargeable variation to increase the maximum gross floor area permitted under the lease to be used for non-residential purposes.

The LVCs for schedule 3 are based on a 3-year average of market values up to 1 January 2026. A 25 per cent reduction is applied to adjust charges to 75 per cent of market values.

The LVC was calculated using average market values and other relevant property data per square metre of gross floor area (GFA) for each suburb. The calculation is based on market sales transactions relevant to the suburb.

The suburbs are districts determined under the *Districts Act 2002*.

Arrangements for pre-1 July 2026 development applications

To ensure fairness and equity for developers who were notified of the change when the determination was notified, the previous charges continue in effect for variations before 1 July 2026 under the *Planning (Lease Variation Charges) Determination 2025 (No 2)*.
