# Road Transport (General) (Vehicle Registration) Exemption 2010 (No 1)

Disallowable instrument DI2010—9

made under the

**Road Transport (General) Act 1999, section 13 (Power to exclude vehicles, persons or animals from road transport legislation)**

## EXPLANATORY STATEMENT

---

Subsection 13(1) of the *Road Transport (General) Act 1999* (the Act) empowers the Minister to declare that the road transport legislation does not apply to a vehicle, person or animal in a place or circumstance stated in the declaration.

Section 32B(2) of the *Road Transport (Vehicle Registration) Regulation 2000* (the regulation) provides that the Road Transport Authority must refuse to approve an application for registration of a vehicle as a wheelchair accessible taxi if:

- (a) the vehicle has been used as a taxi for 8 years or more; or
- (b) for an application for the 1st registration of the vehicle as a wheelchair-accessible taxi - the vehicle is 2 years old or older.

The purpose of this instrument is to exempt a 2000 Toyota Commuter 120 series dual capacity wheelchair accessible taxi identified by VIN JT743UHC704003453 from the provisions of section 32B(2)(a) of the regulation so that it may continue to be used as a dual capacity wheelchair accessible taxi after it has reached the maximum permissible time for which a vehicle may be used as a taxi.

Allowing the vehicle to remain on the road maintains the number of wheelchair accessible taxis operating which are able to undertake jobs involving larger wheelchairs or double wheelchair bookings.

The operator has indicated that the vehicle is in good condition and fully operational as a dual wheelchair accessible taxi. The vehicle passed a roadworthy inspection on 8 January 2010.
