

AUSTRALIAN CAPITAL TERRITORY

WATER RATES ORDINANCE 1973

EXPLANATORY MEMORANDUM

The proposed Water Rates Ordinance 1973 will enable the quantity of water which is supplied through a meter to a parcel of land to be recorded in kilolitres. At present the quantity of water supplied may be recorded only in units of one thousand gallons.

The proposed Ordinance will also amend references in the Water Rates Ordinance 1959-1972 to the former Department of the Interior.
