

AUSTRALIAN CAPITAL TERRITORY
FILM CLASSIFICATION ORDINANCE 1972

EXPLANATORY MEMORANDUM

The Senate Standing Committee on Regulations and Ordinances has expressed concern that, under the provisions of the existing legislation, a person or organisation could be penalised for receiving some of the proceeds from the exhibition of a film, without having any knowledge of or control over the conditions of the exhibition.

The proposed Film Classification Ordinance 1972 will limit liability to the person who has the management of the place at which the film is exhibited.
