Taxation Administration (Amounts Payable—Utilities (Network Facilities Tax)) Determination 2021

Disallowable instrument DI2021–46

made under the

Taxation Administration Act 1999, s 139 (Determination of amounts payable under tax laws)

EXPLANATORY STATEMENT

This instrument is the *Taxation Administration (Amounts Payable—Utilities (Network Facilities Tax)) Determination 2021*.

This instrument commences on the day after its notification day.

The purpose of this instrument to determine a new rate for the calculation of Utilities Network Facilities Tax (UNFT) payable under the *Utilities (Network Facilities Tax) Act 2006* (the UNFT Act) and to revoke DI2020-37.

Section 139 of the *Taxation Administration Act 1999* empowers the Minister to determine amounts for taxes, duties and levies payable under a tax law, including the rate for the UNFT under section 8 of the UNFT Act. The tax is calculated by multiplying the determined rate by the total network route length, measured in kilometres.

The UNFT is a tax payable by the owners of utility network infrastructure located in the ACT. The UNFT applies to telecommunication, gas, electricity, water and sewerage network providers.

Utilities network owners must lodge an annual return for each year ending 31 March. The 2020-21 return is for the period 1 April 2020 to 31 March 2021, and is payable by 30 May 2021, 60 days after the end of the year.

The UNFT rate is indexed by the annual Wage Price Index for the preceding December quarter.

The UNFT rate will increase from \$1,265 to \$1,283 per kilometre for the year ending 31 March 2021 (a 1.4 per cent increase rounded to the nearest whole dollar).

This instrument determines that, for the purpose of section 8 of the UNFT Act, the determined rate will be \$1,283 per kilometre of network route length.
