

**Effect of inclusion in the interim Heritage Objects Register**

Pursuant to section 8 of the *Heritage Objects Act 1991*, the interim Heritage Objects Register has effect as if it were the Heritage Objects Register.

The provision for an object of heritage significance in the interim Heritage Objects Register requires that during the defined period the Territory, the Executive, or a Minister shall not do any act, or approve the doing of any act, that would be inconsistent with the interim Heritage Objects Register as if it were the Heritage Objects Register.

Under section 8 (3) the above does not apply in relation to the doing of any act, or the approval of the doing of any act, by the Territory, the Executive or a Minister where there is no prudent and feasible alternative and all prudent and feasible measures to comply with any requirement specified in the interim or Heritage Objects Register for the conservation of the heritage significance of the object are taken or to be taken in doing that act.

The "defined period" referred to above (being a period not exceeding one year) means the period that commences on the day of the publication of this notice and which terminates at the expiration of:

the day before the date the object is entered in the Heritage Objects Register; or  
the day before the date the object is refused entry in the Heritage Objects Register.

Signed, on behalf of the Heritage Council of the ACT.
