Utilities Notice (Variation of Licence) 2002 (No 2)

Notifiable Instrument NI2002-367

made under the

Utilities Act 2000, s 52 (1) (c) (Public notice of licence decisions)

The Independent Competition and Regulatory Commission (ICRC) has varied the utility licence issued to East Australian Pipeline Limited (EAPL) under section 38 of the *Utilities Act 2000*.

The additional requirements specified in the schedule of EAPL's licence have been varied to remove a number of inappropriate or inapplicable requirements. Also EAPL's reporting requirements have been amended to bring them into line with its reporting requirements in New South Wales.

Although licence variations are not notifiable instruments, advice about the variations is included on the legislation register for information.

The variations took effect on 19 November 2002.

Copies of EAPL's and other utility licences are available for inspection during ordinary office hours from the ICRC, Level 7 Eclipse House, 197 London Circuit, Canberra City.

Licences are also available on the ICRC's website at www.icrc.act.gov.au and the ACT legislation register at www.legislation.act.gov.au
