Macgregor Precinct Map and Code
This page is intentionally blank.
Assessment Tracks

The following tables identify the additional prohibited development and additional merit track development for blocks and parcels shown in the Macgregor Precinct Map (identified as PDn or MTn). Development that is exempt from requiring development approval, other prohibited development and the minimum assessment track applicable to each development proposal is set out in the relevant zone development table.

The following table constitutes part of the relevant zone development table.

Introduction

Name
The name of this code is **Macgregor Precinct Code**.

Application
The code applies to the Division of Macgregor.

Purpose
This code provides additional planning, design and environmental controls for specific areas or blocks and may also contain references to provisions in other codes.

In conjunction with other relevant codes it will be used by the Authority to assess development applications and offer guidance to intending applicants in designing development proposals and preparing development applications.

Structure
This code contains additional rules and/or criteria for particular blocks or parcels identified as areas RCn on the precinct map, to be read in conjunction with the relevant development code. It may also contain sub-parts.

Each element has one or more rules and, unless the respective rule is mandatory, each rule has an associated criterion. Rules provide quantitative, or definitive, controls. By contrast, criteria are chiefly qualitative in nature.

In some instances rules are mandatory. Such rules are accompanied by the words “This is a mandatory requirement. There is no applicable criterion.” Non-compliance with a mandatory rule will result in the refusal of the development application. Conversely, the words “There is no applicable rule” is found where a criterion only is applicable.

Code hierarchy
Under the *Planning and Development Act 2007*, where more than one type of code applies to a development, the order of precedence if there is inconsistency of provisions between codes is: precinct code, development code and general code.

If more than one precinct code applies to the site, the most recent precinct code takes precedence to the extent of any inconsistency.

Definitions
Defined terms, references to legislation and other documents are italicised.

Definitions of terms used in this code are listed in part 13 of the Territory Plan or, for terms applicable only to this code, associated with the respective rule.

Other ongoing provisions

This part applies to blocks and parcels identified as ongoing provisions (OPn) in the Macgregor Precinct Map. It should be read in conjunction with the relevant zone development code and related codes.

OP1 – Macgregor West residential area 1

This part applies to blocks and parcels identified in area OP1 shown on the Macgregor Precinct Map.

The following provisions relate to rules and criteria in the Single Dwelling Housing Development Code

- Side setback-boundary 2
- Blocks >500m² ≤550m² - subject to mkt sized block provisions

Figure 1 Macgregor West residential area 1
**OP2 – Macgregor West residential area 2**

This part applies to blocks and parcels identified in area OP2 shown on the Macgregor Precinct Map.

The following provisions relate to rules and criteria in the Single Dwelling Housing Development Code:

- Side setback-boundary 2
- Bushfire Attack Level (BAL)-19 kilowatts/m²

**Figure 2 Macgregor West residential area 2**
OP3 – Macgregor West residential area 3

This part applies to blocks and parcels identified in area OP3 shown on the Macgregor Precinct Map.

The following provisions relate to rules and criteria in the Single Dwelling Housing Development Code:

- Bushfire Attack Level (BAL) - 12.5 kilowatts/m² Australian Standard AS3959. Construction of buildings in bushfire prone areas.
- Bushfire Attack Level (BAL) - 19 kilowatts/m² Australian Standard AS3959. Construction of buildings in bushfire prone areas.
- Side setback-boundary 2

Note: Options for development in accordance with the Single Dwelling Housing Code particularly development at the upper floor level may be more limited on these blocks compared to similar sized complying blocks.
