

Australian Capital Territory

Construction Occupations (Licensing) (Mandatory Qualifications) Declaration 2010 (No 1)

Notifiable Instrument NI2010-450

made under the

Construction Occupations (Licensing) Regulation 2004, section 13 (Qualifications for individuals)

1. Name of instrument

This instrument is the *Construction Occupations (Licensing) (Mandatory Qualifications) Declaration 2010 (No 1)*.

2. Commencement

This instrument commences on 1 September 2010.

3. Declaration

I declare those qualifications specified in column 3 of the schedule to this instrument to be necessary for an individual to be eligible to be licensed in the construction occupation and occupation class specified in columns 1 and 2 respectively.

4. Revocation

NI2009-269 is revoked.

David Middlemiss
Australian Capital Territory Construction Occupations Registrar

9 August 2010

Registrar’s Initials _____

Notes, Terms and Definitions

Reference to ***building work experience*** does not include—

quantity surveying, administering contracts, designing, drafting, and off-site fabricating, except for any periods where the activity involved the actual carrying out of building work by the person independently or under supervision; or

building work experience that is not verified to the satisfaction of the registrar, in that it is not independently verified by a person or people who are competent in making a verification of the extent, quality, relevance and recency of the applicant's experience doing similar work to, or work that is equally complex as, the work relevant to the application.

Examples of a ***competent person***—

1. a person who holds a builders licence or building surveyor's licence authorising supervision or certification of similar kinds of building work to that which is the subject of the application; or
2. a structural engineer or architect acceptable to the registrar.

Reference to *journey person*, includes a reference *journeyman* as previously defined under legislation repealed upon the commencement of the *Construction Occupations (Licensing) Act 2004*.

Basic building work has the same meaning as the term defined under section 10 of the *Building Act 2004*.

Full time means, in respect of a period of time, the approximate total number of normal working hours that a person employed full time in the construction industry would be reasonably expected to work during that period.

Part time means, in respect of a period of time, half the approximate total number of normal working hours that a person employed full time in the construction industry would be reasonably expected to work during that period, but only for the 4-year period preceding lodging an application for a licence to which the term ***part time*** is applied in determining the application.

Relevant Practical means *within the last 5 years*

Unconditional means not subject to a condition or endorsement imposed by the registrar.

Evidence of Practical wiring experience means completing the equivalent of the practical experience required for the Certificate III in Electrotechnology Systems Electrician.

Examples of trade courses that are equivalent to a systems electrician are, completing a trade or apprenticeship as an electrical mechanic or electrical fitter/mechanic.

Note—

Where the registrar is not satisfied that an applicant has a qualification require to be eligible for the licence applied for, the registrar may (but does not necessarily have to) require the applicant to undertake an assessment to find out whether the applicant has a skill

Registrar's Initials _____
