Utilities (Variation of Terms – ActewAGL Retail Standard Customer Contract) Approval Notice 2012

Notifiable Instrument NI2012-318

made under the

Utilities Act 2000, s 91 (Notification and application of terms etc) and s 93 (Variation of terms)

1 Name of instrument

This instrument is the *Utilities (Variation of Terms – ActewAGL Retail Standard Customer Contract) Approval Notice 2012*.

2 Commencement

This instrument commences on the day after it is notified.

3 Approval of variation of standard customer contract for electricity supply services

The Independent Competition and Regulatory Commission approves the variation at Schedule 1 to ActewAGL Retail's schedule of charges in the standard customer contract for electricity supply services.

Malcolm R Gray
Senior Commissioner
Independent Competition and Regulatory Commission

20 June 2012

ActewAGL Retail

Schedule of charges for standard retail electricity supply for the ACT 2012-13

The following charges have been approved by the Independent Competition and Regulatory Commission as consistent with its pricing decision for customers who are on the Transitional Franchise Tariff. Unless otherwise stated, these charges apply to electricity usage on and from 1 July 2012.

For premises with standard meters, it is assumed that consumption each day is equal to the daily average. For meter reading periods that bridge 1 July 2012, consumption prior to 1 July is charged at 2011-12 rates.

14 Application of rates

14.1 The charge applicable for supply to each installation shall be in accordance with the following classification of premises, places and purposes.

14.2 The **Always Home@ActewAGL plan** charge shall be applicable to installations at private dwellings, excluding serviced apartments, but including:

- living quarters for members and staff of religious orders
- living quarters on farms
- charitable homes
- retirement villages
- residential sections of nursing homes and hospitals
- residential sections of boarding schools and educational institutions
- churches, buildings or premises which are used principally for public worship
- approved caravan sites.

Serviced apartments are premises which from time to time are available for hire for accommodation for periods which may be less than one month and where service available to the apartments includes provision and laundering of bed linen.

In respect of multiple dwellings of three or more dwelling units, a “Home “ plan charge will only be applicable where each dwelling unit is given a separately metered supply and the account is in the name of the occupant. A “Home” plan means one of the tariffs numbered 1 to 4.

When a portion of a premises is used principally for domestic purposes, loads not exceeding five kilowatts, which are used for other than domestic purposes may be supplied at the Always Home@ActewAGL plan charge. For this purpose, the loading of equipment shall be taken to be:

- for permanently connected equipment, the actual rating of the equipment
- for light fittings, 60 watts per light fitting
- for plug sockets:
 - sockets rated 10 amperes or 10 amperes per phase: 500 watts or 500 watts per phase
 - sockets rated other than 10 amperes: the wattage rating shall be taken as 50 times the current rating of the socket.

14.3 The **Always Home@ActewAGL Saver plan** charge is available only to customers eligible for the Always Home@ActewAGL plan charge. Customers are ineligible to apply for this charge if they have been on this charge in the previous 12 months and have since been supplied energy on another “Home” plan or to that premises.

14.4 The **Always Home@ActewAGL Saver Plus plan** charge is available only to customers eligible for the Always Home@ActewAGL plan charge and who have installed a fixed operational electric appliance which incorporates a mechanical refrigeration unit and a fan or fans, arranged so that the evaporator and the condenser can be switched to heat or cool air blown through the appliance (heat pump). Customers are ineligible to apply for this charge if they have been on this charge in the previous 12 months and have since been supplied energy on another “Home” plan to that premises.

14.5 The **Always Home@ActewAGL SmartSaver plan** charge is available only to customers eligible for the Always Home@ActewAGL plan with a meter able to be read as a time-of-use meter and to recharge facilities for electric vehicles on residential

premises. **Consumers on this tariff with a meter with two elements providing separate time-of-use consumption data from each element may have the time-of-use charges applied separately to each register.**

- 14.6** The **Business** plan charge is available to installations not taking supply at any other defined charge except for off-peak charges, and shall include:
- installations on farms which are not living quarters and have loads exceeding five kilowatts (as defined above)
 - nursing homes and hospitals, excluding residential sections
 - boarding schools and educational institutions, excluding residential sections
 - motels, hotels, serviced apartments and any form of accommodation used to house temporary residents for periods of less than one month at caravan parks or other temporary accommodation sites
 - shops, offices, warehouses, factories, professional rooms
 - social or sporting club facilities not used for domestic accommodation.
- 14.7 Temporary supply** (for example, for building purposes) may be rendered at the discretion of ActewAGL Distribution. ActewAGL Distribution shall estimate the cost for single or three phase installation, of installing, dismantling, connecting and disconnecting mains, lines and apparatus. The rate chargeable for power used shall be at the Business plan charge.
- 14.8** The **community services discount** is obsolete. It shall be available only to existing installations receiving this discount.
- 14.9 Off-peak charges** are available only to customers taking all other energy at Always Home@ActewAGL, Always Home@ActewAGL SmartSaver plan or Business plan rates.

The **Off-Peak 1 charge** (standard off-peak) shall provide operation for a minimum of six hours and a maximum of eight hours within any one day, between 2200 hours (10.00pm) and 0700 hours (7.00am).

This off-peak charge is applicable to:

- recharging electric vehicles,
- compressing natural gas for CNG vehicles,
- water heating storage units where electricity is used to supplement other forms of energy (for example, solar hot water), and
- permanent heat (or cold) storage installations of a design and rating acceptable to ActewAGL, which absorb their major energy during restricted times, but which may be boosted at the principal charge at other times.
- .

The **Off-Peak Saver Electricity plan** charge shall provide operation for a total of 13 hours in any one day. The said 13 hours shall be comprised of eight hours between 2200 hours (10.00pm) and 0700 hours (7.00am) and five hours between 0900 hours (9.00am) and 1700 hours (5.00pm).

The actual settings on the time switch will be nominated by ActewAGL. Times referred to in this clause are in Australian Eastern Standard Time.

The Off-Peak Saver Electricity plan charge is applicable to the following.

- Water heating storage units for which a test certificate has been issued indicating compliance with Australian Standard 1056 and having lower or upper and lower elements, but with any upper element connected to the principal charge. Rated delivery shall be not less than 160 litres.
- Water heating storage units where electricity is used to supplement other forms of energy (for example, solar hot water).
- Storage space heating or cooling including under-floor, concrete-slab heating systems.

- Swimming or spa pool heating, and associated auxiliaries, but not to spa baths.

14.10 The **streetlighting** charge shall be applicable to the night-time lighting of streets and public ways and places.

14.11 Time of use demand charges.

Subject to an applicant providing at their own cost all necessary equipment together with adequate accommodation for the installation and proper maintenance of that installation all to the satisfaction of ActewAGL, time of use demand supply may be made available to that installation.

The high voltage time of use demand charge may be available to consumers taking supply at a nominal voltage not less than 11,000 volts.

14.12 Time periods

For residential tariffs:

Peak times are defined as from 0700 hours (7.00am) to 0900 hours (9.00am) and from 1700 hours (5.00pm) to 2000 hours (8.00pm) daily.

Shoulder times are defined as from 0900 hours (9.00am) to 1700 hours (5.00pm) and from 2000 hours (8.00pm) to 2200 hours (10.00pm) daily.

Residential off-peak times are defined as all other times.

Residential controlled off-peak energy rate is available only to consumers who do not have their meter read as an interval meter. The times and rules relating to the Off-Peak Saver Electricity plan apply to the residential controlled off-peak energy service.

For non-residential tariffs:

Business times are defined as from 0700 hours (7.00am) to 1700 hours (5.00pm) on weekdays.

Evening times are defined as from 1700 hours (5.00pm) to 2200 hours (10.00pm) on weekdays.

Business off-peak times are defined as all other times.

Times referred to in this clause for time of use charges are Australian Eastern Standard Time. Weekdays are Monday to Friday.

14.13 Meter readings

Meter readings (other than readings taken at the termination of supply) shall be taken to the nearest 10 kilowatt hours (kWh). The billing period for the purpose of determining the maximum demand charge shall be one month or part thereof where a customer changes their retail supplier.

Supply and miscellaneous energy charges shall be applied per connection point and applied daily.

17 Renewable Energy Generation

If a customer has a grid-connected renewable (solar or wind) energy generator and the customer is not receiving the ACT feed-in tariff¹, the following arrangements apply:

- All consumption is billed at the customer's published energy tariff rate(s).
- For customers supplied under non time of use residential plans ActewAGL will purchase all metered generation at the customer's published energy tariff rate(s).
- For customers supplied under non time of use business plans ActewAGL will purchase all metered generation at the customer's published energy tariff rate(s).
- For customers supplied under time of use residential plans ActewAGL will purchase all metered generation at the customer's published energy shoulder tariff rate.
- For customers supplied under time of use business plans ActewAGL will purchase all metered generation at the customer's published energy evening time tariff rate.
- The customer will continue to pay the supply charge and any other applicable charges.
- This arrangement is available only to customers with less than 30 kilowatts installed capacity of renewable generation.

¹ As established by the *Electricity Feed-in (Renewable Energy Premium) Act 2008* (Feed-in tariff Act)

Where the customer is receiving the ACT feed-in tariff, the following arrangements apply:

- All consumption is billed at the customer's published energy tariff rate(s).
- The customer will be paid in accordance with their ACT feed-in contract with ActewAGL for all metered generation.
- The customer will continue to pay the supply charge and any other applicable charges.
