Dear Mr Dixon

**Royalla Solar PV Generating Facility - s211 exemption from the requirement to complete an Environmental Impact Statement**

I have reviewed the information provided in your application under Section 211 of the *Planning and Development Act 2007* (the Act) for an exemption from the requirement to complete an Environmental Impact Statement (EIS).

The proposed development is listed in Schedule 4 of the Act as an activity that requires an EIS to be completed. However, the proposal may be considered exempt from the EIS requirement if I consider that the expected environmental impact of the proposal has already been sufficiently addressed by another study or studies. Having considered the information submitted in support of your request, I consider that the proposal as submitted meets this exemption criterion.

As Minister responsible for the Act, I advise that the proposed development of Royalla Solar PV Generating Facility as indicated in the attached map will not require any further environmental assessment. You are now able to lodge an impact track development application with the Environment and Sustainable Development Directorate. Please ensure that you include a copy of this letter with your development application

Yours sincerely

Simon Corbell MLA  
Minister for the Environment and Sustainable Development
