

# Nature Conservation Threatened Native Species List 2016 (No 1)

## Notifiable Instrument NI2016–265

made under the

**Nature Conservation Act 2014, s 94 (Minister may make minor amendments)**

---

### 1 Name of instrument

This instrument is the *Nature Conservation Threatened Native Species List 2016 (No 1)*.

### 2 Commencement

This instrument commences on the day after notification.

### 3 Minor amendments to List of threatened species

Under section 94 of the *Nature Conservation Act 2014* (the Act), I prepare a new threatened native species list (new list), incorporating the minor amendments into the existing threatened native species list, and prepare a final version of the new list, as set out in the schedule.

*existing threatened native species list* means the *Nature Conservation Threatened Native Species List 2015 (No 1)* NI2015–438.

*Note 1:* Section 94 of the Act provides that the Minister may prepare a new list if the Minister considers that a minor amendment to a list is appropriate. In this case, the Minister need not comply with the requirements of ss 84 to 92 of the Act.

*Note 2:* Section 93 of the Act defines a *minor amendment* to include updating the name of a threatened native species. This amendment updates the scientific name of the Scarlet Robin from *Petroica multicolor* to *Petroica boodang*. The scientific name of the Regent Honeyeater is also updated from *Xanthomyza phrygia* to *Anthochaera phrygia*. These updates reflect the naming used in the Australian Faunal Directory (ABRS 2009. *Australian Faunal Directory*. Australian Biological Resources Study, Canberra. Viewed 07 April 2016. <http://www.environment.gov.au/biodiversity/abrs/online-resources/fauna/afd/index.html> ).

*Note 3:* Section 91 of the Act provides that the final version of a threatened native species list is a notifiable instrument.

#### **4 Revocation**

The *Nature Conservation Threatened Native Species List 2015 (No 1)*  
NI2015–438 is revoked.

Simon Corbell  
Minister for the Environment and Climate Change
