1. INTRODUCTION

1.1 Purpose

This technical amendment makes the following changes to the Territory Plan:

Territory Plan Map

- The Territory Plan map is varied to remove the Future Urban Overlay from sections 22, 26, 30, Part Section 31 and Part Section 80 in the Division of Denman Prospect.

Denman Prospect Precinct Map and Code

- The Denman Prospect Precinct Map and Code is introduced

1.2 Public consultation

Under section 87(1)(c) of the *Planning and Development Act 2007* (the Act) this type of technical amendment is not subject to public consultation.

1.3 National Capital Authority

The National Capital Authority does not need to be advised of this technical amendment as per 1.2.

1.4 Process

This technical amendment has been prepared in accordance with section 87 and made in accordance with section 89 of the Act.

1.5 Types of technical amendments under the Act

The following categories of technical amendments are provided under section 87 of the Act:

- (1) Each of the following territory plan variations is a **technical amendment** for which no consultation is needed before it is made under section 89:
 - (a) a variation (an **error variation**) that –
 - (i) would not adversely affect anyone's rights if approved; and
 - (ii) has as its only object the correction of a formal error in the plan;
 - (b) a variation to change the boundary of a zone or overlay under section 90A (Rezoning – boundary changes);
 - (c) a variation, other than one to which subsection (2) (d) applies, in relation to an estate development plan under section 96 (Effect of approval of estate development plan);
 - (d) a variation required to bring the territory plan into line with the national capital plan;

- (e) a variation to omit something that is obsolete or redundant in the territory plan.
- (2) Each of the following territory plan variations is a **technical amendment** for which only limited public consultation is needed under section 90:
- (a) a variation (a **code variation**) that –
 - (i) would only change a code; and
 - (ii) is consistent with the policy purpose and policy framework of the code; and
 - (iii) is not an error variation;
 - (b) a variation to change the boundary of a zone under section 90B (Rezoning – development encroaching on adjoining territory land);
 - (c) a variation in relation to a future urban area under section 90C (Technical amendments – future urban areas);
 - (d) a variation in relation to an estate development plan under section 96 (Effect of approval of estate development plan) if it incorporates an ongoing provision that was not included in the plan under section 94 (3) (g);
 - (e) a variation to clarify the language in the territory plan if it does not change the substance of the plan;
 - (f) a variation to relocate a provision within the territory plan if the substance of the provision is not changed.

TA2016-07 has been prepared in accordance with section 87 (1)(c).

Introduction

Name

The name of this code is the **Denman Prospect Precinct Code**.

Application

The code applies to the Division of Denman Prospect.

Purpose

This code provides additional planning, design and environmental controls for specific areas or blocks and may also contain references to provisions in other codes.

In conjunction with other relevant codes it will be used by the *Authority* to assess development applications and offer guidance to intending applicants in designing development proposals and preparing development applications.

Structure

This code contains additional rules and/or criteria for particular blocks or parcels identified as areas RCn on the precinct map, to be read in conjunction with the relevant development code. It may also contain sub-parts.

Each element has one or more rules and, unless the respective rule is mandatory, each rule has an associated criterion. Rules provide quantitative, or definitive, controls. By contrast, criteria are chiefly qualitative in nature.

In some instances rules are mandatory. Such rules are accompanied by the words “This is a mandatory requirement. There is no applicable criterion.” Non-compliance with a mandatory rule will result in the refusal of the development application. Conversely, the words “There is no applicable rule” is found where a criterion only is applicable.

Code hierarchy

Under the *Planning and Development Act 2007*, where more than one type of code applies to a development, the order of precedence if there is inconsistency of provisions between codes is: precinct code, development code and general code.

If more than one precinct code applies to the site, the most recent precinct code takes precedence to the extent of any inconsistency.

Definitions

Defined terms, references to legislation and other documents are italicised.

Definitions of terms used in this code are listed in part 13 of the Territory Plan or, for terms applicable only to this code, associated with the respective rule.
