

Planning (Removing the FUA overlay and setting zoning for a number of sites including Bluetts block and Coombs peninsula) Major Plan Amendment 2025

Notifiable instrument NI2025–646

made under the

Planning Act 2023, s 75 (Minister's powers in relation to draft plan amendments)

1 Name of instrument

This instrument is the *Planning (Removing the FUA overlay and setting zoning for a number of sites including Bluetts block and Coombs peninsula) Major Plan Amendment 2025*.

2 Major plan amendment

- (1) I approve under section 75 (2) (a) of the *Planning Act 2023* (the *Act*) the Major Plan Amendment 05 to the Territory Plan.
- (2) In accordance with the Act, section 75 (5) (c), a major plan amendment must be presented to the Legislative Assembly and may only commence by commencement notice under section 80 (2).

3 Dictionary

In this instrument:

Major Plan Amendment 05 to the Territory Plan means the Major Plan Amendment in schedule 1.

Chris Steel MLA
Minister for Planning and Sustainable Development
27 November 2025

1.0 Introduction

1.1 Purpose

This document is major plan amendment 05 (MPA-05) to the Territory Plan.

Key parts of this document are:

- section 2 – summarises the MPA, including amendments to the Territory Plan and associated documents
- section 3 – why this MPA was undertaken
- section 5 – detailed amendment instructions to the Territory plan made by this MPA.

1.2 Outline of process

A major plan amendment (MPA) is a statutory process under the Planning Act that enables the Territory Plan to be amended. The three types of MPAs are:

- Proponent-initiated
- Authority-initiated
- Minister-initiated

MPA-05 is an Authority-initiated MPA.

Under section 63 of the Planning Act, the Authority made MPA-05 available for public comment from 30 June 2025 to 11 August 2025. Following consultation, the Authority considered whether to revise or withdraw the DPA.

After consultation concluded, the Authority considered the comments and gave DPA-05 to the Minister for referral to the relevant Legislative Assembly Standing committee (the Standing Committee). The Standing Committee did not prepare a report in relation to DPA-05.

With the above complete, and in considering the background papers, the ACT Planning Strategy 2018 and relevant District Policies, the Minister for Planning and Sustainable Development approved MPA-05.

The Minister must now present MPA-05 to the Legislative Assembly which may reject it completely or partly. If passed by the Legislative Assembly, the MPA may commence and become part of the Territory Plan.

A commencement notice or rejection notice will be published on the [major plan amendment](#) webpage.

For more information about the content of the [Territory Plan](#) and the [major plan amendment](#) processes please refer to the City and Environment (CED) website.

2.0 Summary of MPA-05

This section summarises:

- the amendments MPA-05 made to the Territory Plan and supporting documents
- outlines the relevant subject area

Amendments to the Territory Plan by this MPA are summarised in section 2.2 and shown in detail at section 6 of this document.

2.1 Site description

MPA-05 amends the Territory Plan map to remove a number of sites from the future urban area (FUA) overlay. Where the FUA overlay is removed the land use zoning is confirmed. This MPA also makes some adjustments to the Molonglo River Reserve boundary.

The subject sites are located at:

- Block 403 Stromlo and part Block 12 Section 1 Denman Prospect (Bluetts block)
- Various parts along the edge of Coombs and the Molonglo River Reserve, including Coombs Peninsula
- Land between Sections 96 and 116 Denman Prospect and the Molonglo River Reserve and some small parts to the north
- Block 1650 Belconnen, Block 15 Section 39 Whitlam, Blocks 88 and 89 Molonglo Valley (infrastructure sites)
- Block 6 Section 109 Amaroo (adjoining the proposed tennis centre)
- Block 1 Section 17 Gungahlin (enclosed oval) and Block 3 Section 19 Gungahlin (urban open space at the western end of the Gungahlin Town Centre) and Block 3 Section 232 Gungahlin, and the nearby parts of Gungahlin Place
- Block 8 Section 96 Weston Creek

2.2 Sites and changes

These sites and changes are described under individual site headings below.

Bluetts Block – remove FUA (Stromlo and Denman Prospect)

MPA-05 considers the area of Bluetts Block (Block 403 Stromlo and part block 12 section 1 Denman Prospect – Figure 1).

This area was identified as nature reserve on 14 February 2025 in Minor Amendment 2024-m. When the minor amendment was placed on public consultation, comments from the Canberra community and environmental groups expressed concern that the site remained under the FUA overlay. This overlay was not able to be uplifted as a part of the minor amendment, consistent with the Act. Therefore, the removal of the FUA over Bluetts Block is made as a

part of this MPA. This also confirms the zoning of the area as NUZ3 Hills, Ridges and Buffer.

An ACT Legislative Assembly resolution requested the ACT Government to release a plan amendment to remove the FUA overlay (see section 2.2 below for further details).

The existing Territory Plan zoning and overlays are shown in Figure 2 and proposed in Figure 3.

Figure 1 – Location Map – Bluetts block

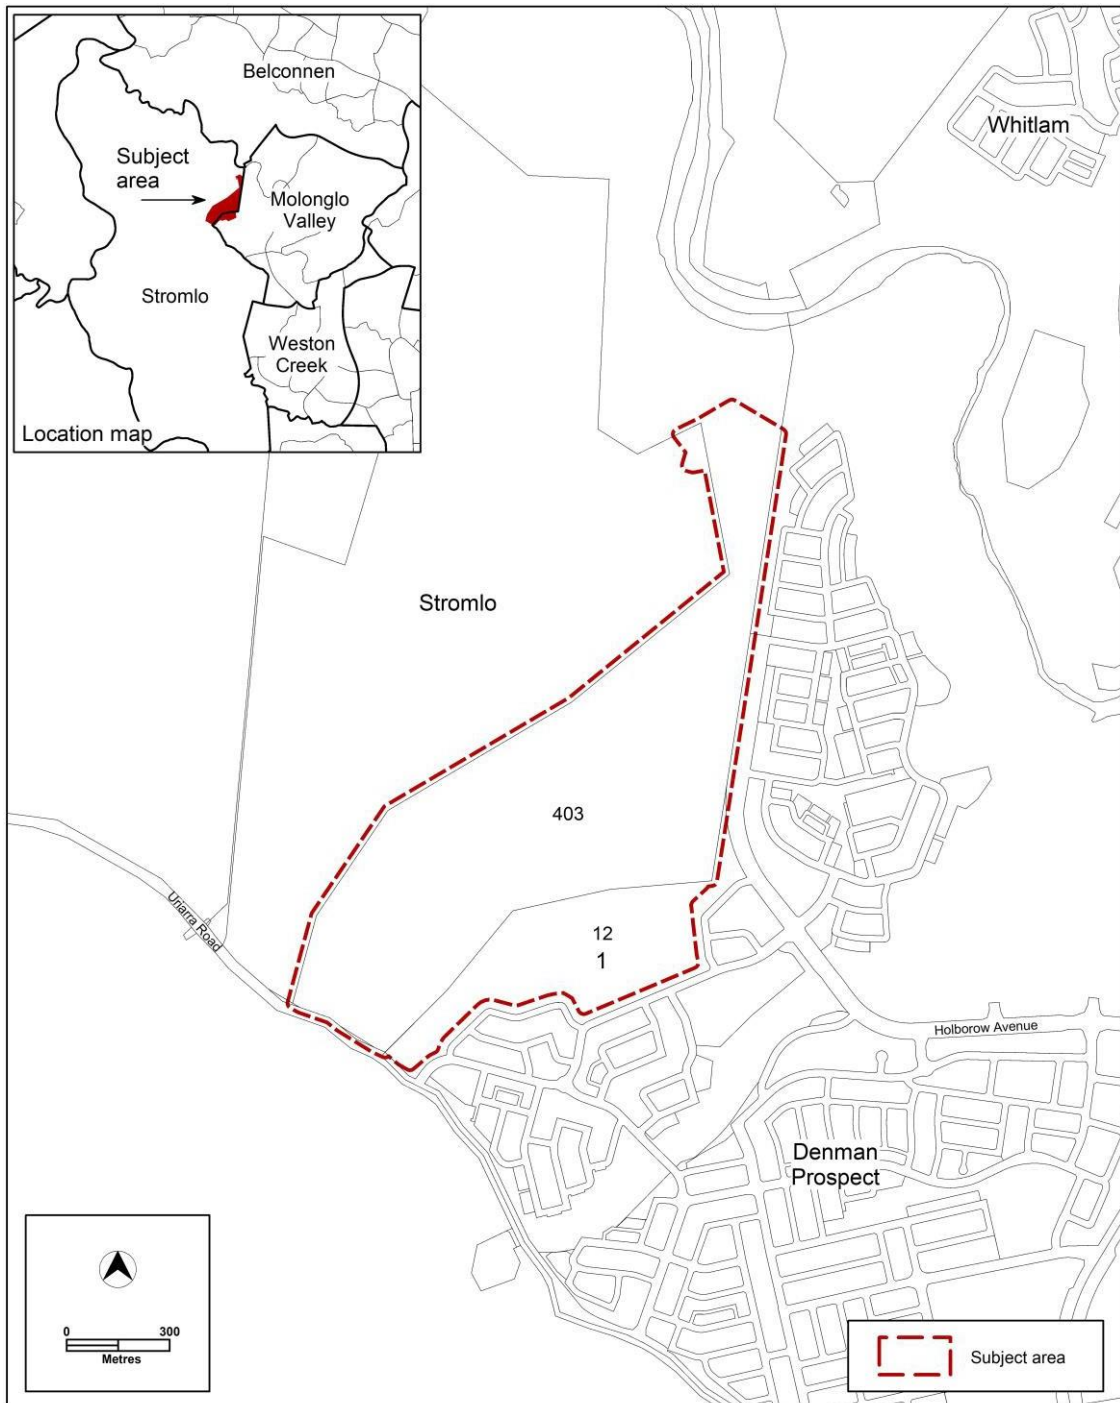

Figure 2 – Existing Territory Plan Map – Bluetts block

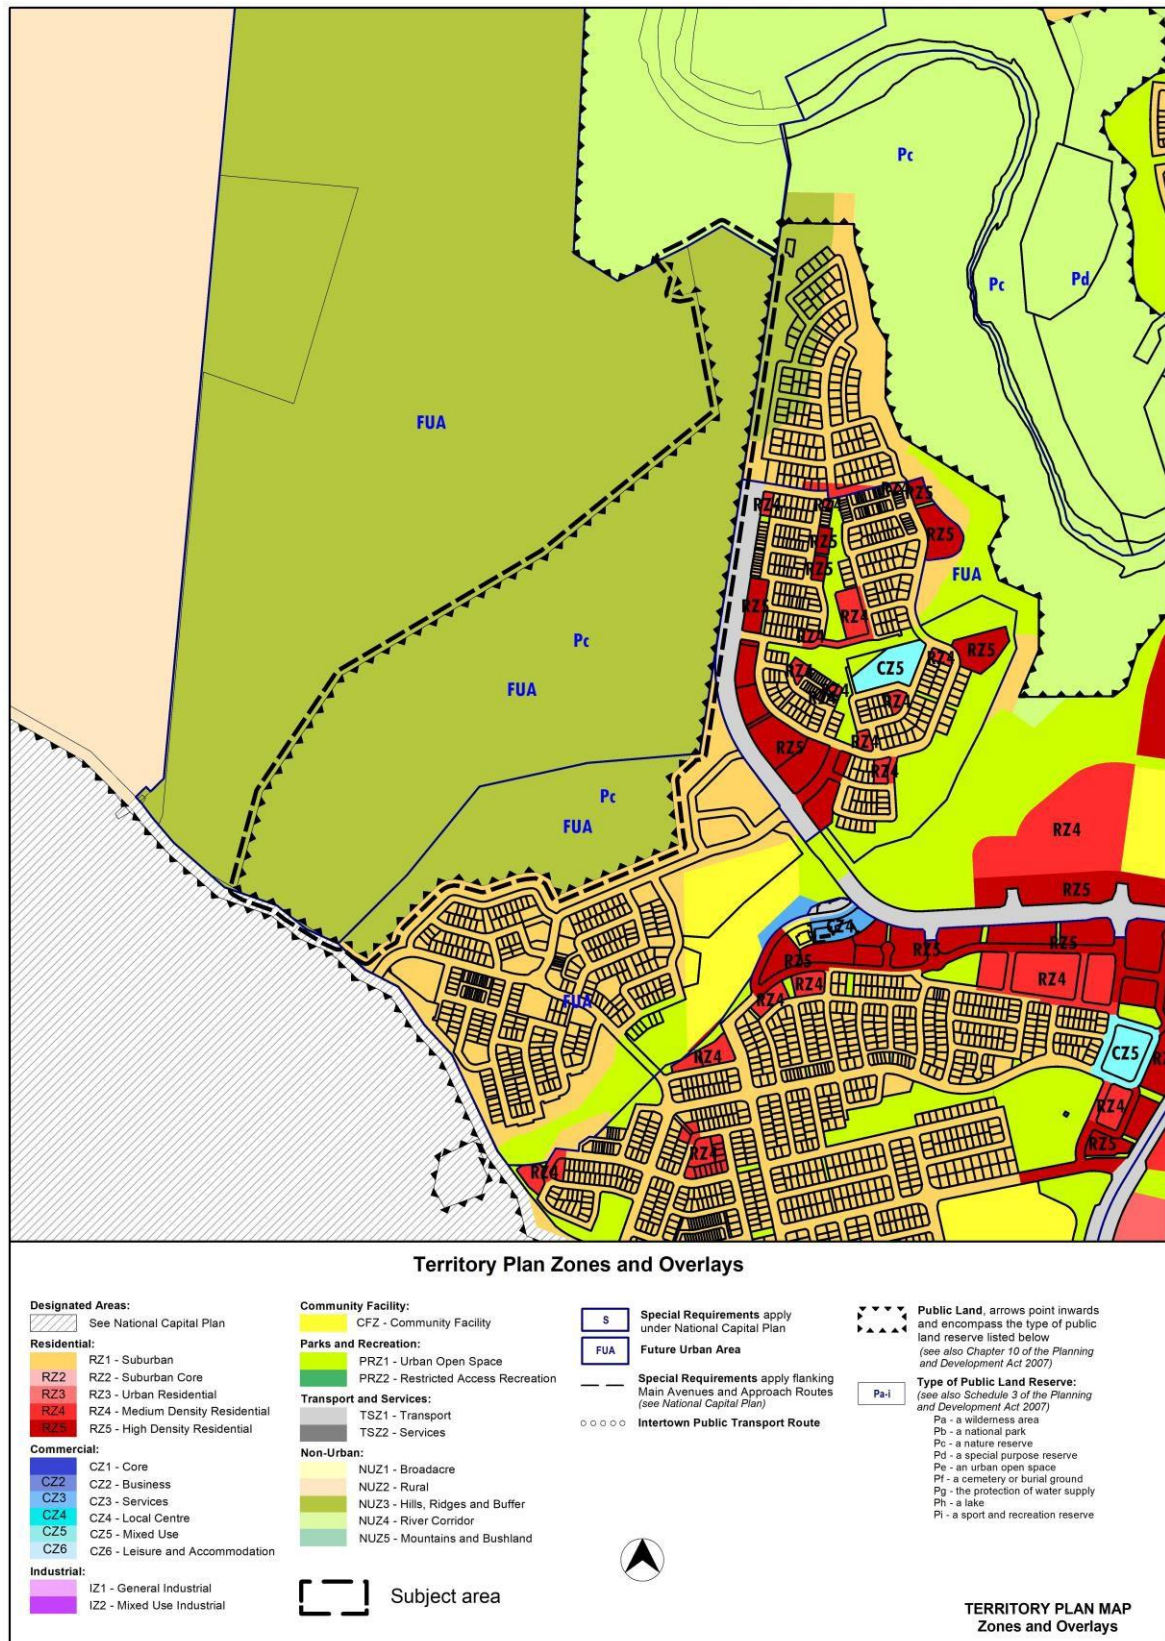

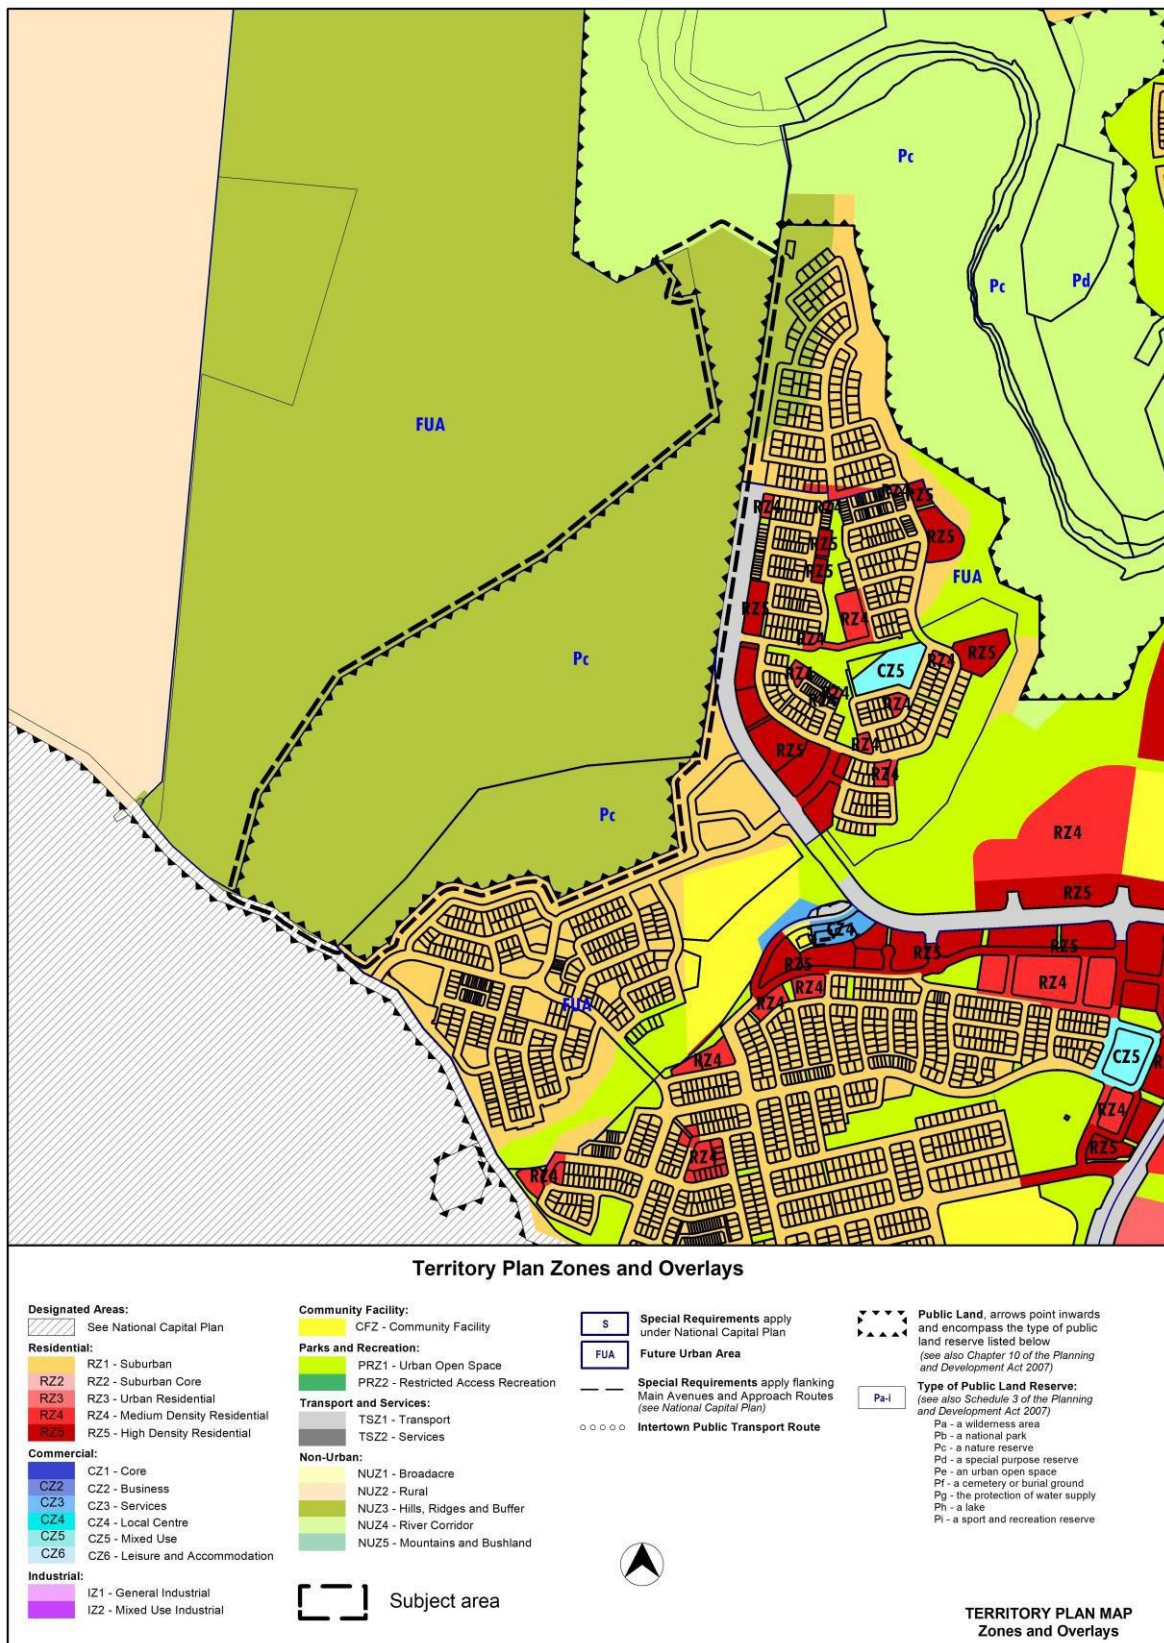

Figure 3 – Proposed Territory Plan Map – Bluetts block

Coombs Peninsula and Molonglo River Reserve – remove FUA, reserve boundary changes and set zoning

MPA-05 proposes the following over Coombs Peninsula (Figure 4):

- remove the FUA overlay
- rezone the majority of the area as NUZ4 River Corridor
- add a 'Pd' special purpose reserve overlay to protect the site for recreational purposes and form a part of the Molonglo River Reserve.
- rezone parts of Coombs Peninsula adjoining the suburb of Coombs to the PRZ1 Urban Open Space zone to allow it to be used as a bushfire inner asset protection zone and enable the development of a future shared path to be accommodated. The area of PRZ1 zoned land adjacent to Annabelle View will allow the future shared path to meet relevant design standards, as there is a significant grade change in this area, and will also enable connection to the existing path.

The FUA overlay is being removed from the majority of the Molonglo River Reserve (Figure 5). PRZ1 Urban Open Space zone is being adopted between the suburb of Coombs and along the edge of the Molonglo River Reserve (Figures 5 and 7). Parts of the boundary of the Molonglo River Reserve are being adjusted in a minor way to follow fence lines and enable better land management practices.

A small area to the east of Coombs in North Weston is retaining the existing FUA overlay as this area is anticipated to be contained in a future subdivision design application, which will be followed by a minor amendment to set the zoning and uplift the FUA. The existing Territory Plan zoning and overlays can be seen in Figure 6.

An ACT Legislative Assembly resolution requested the Coombs Peninsula to be rezoned consistent with the rest of the Molonglo River corridor (see section 3 under the heading "Anything else the territory planning authority considers relevant to the amendment" for Coombs Peninsula).

The specific changes to the Molonglo River reserve are as follows:

- A total of 5.3 ha is added to the reserve network, which comprises 6.7 ha added to the Coombs Peninsula special purpose reserve, with a net loss of 1.4 ha to the river reserve. As outlined in figure 5, this includes both minor increases and decreases elsewhere along the boundary. These changes have been made to align with existing fence lines and land management practices.
- These adjustments include:
 - decreasing the reserve along part of Annabelle View by moving the boundary from the western side of the existing shared path to the eastern side, where the fence line is located.
 - increasing the reserve elsewhere along Annabelle View by moving the boundary from its existing location to the existing fence line.
 - decreasing the reserve near Harold White Avenue to remove land that is not managed as a nature reserve.

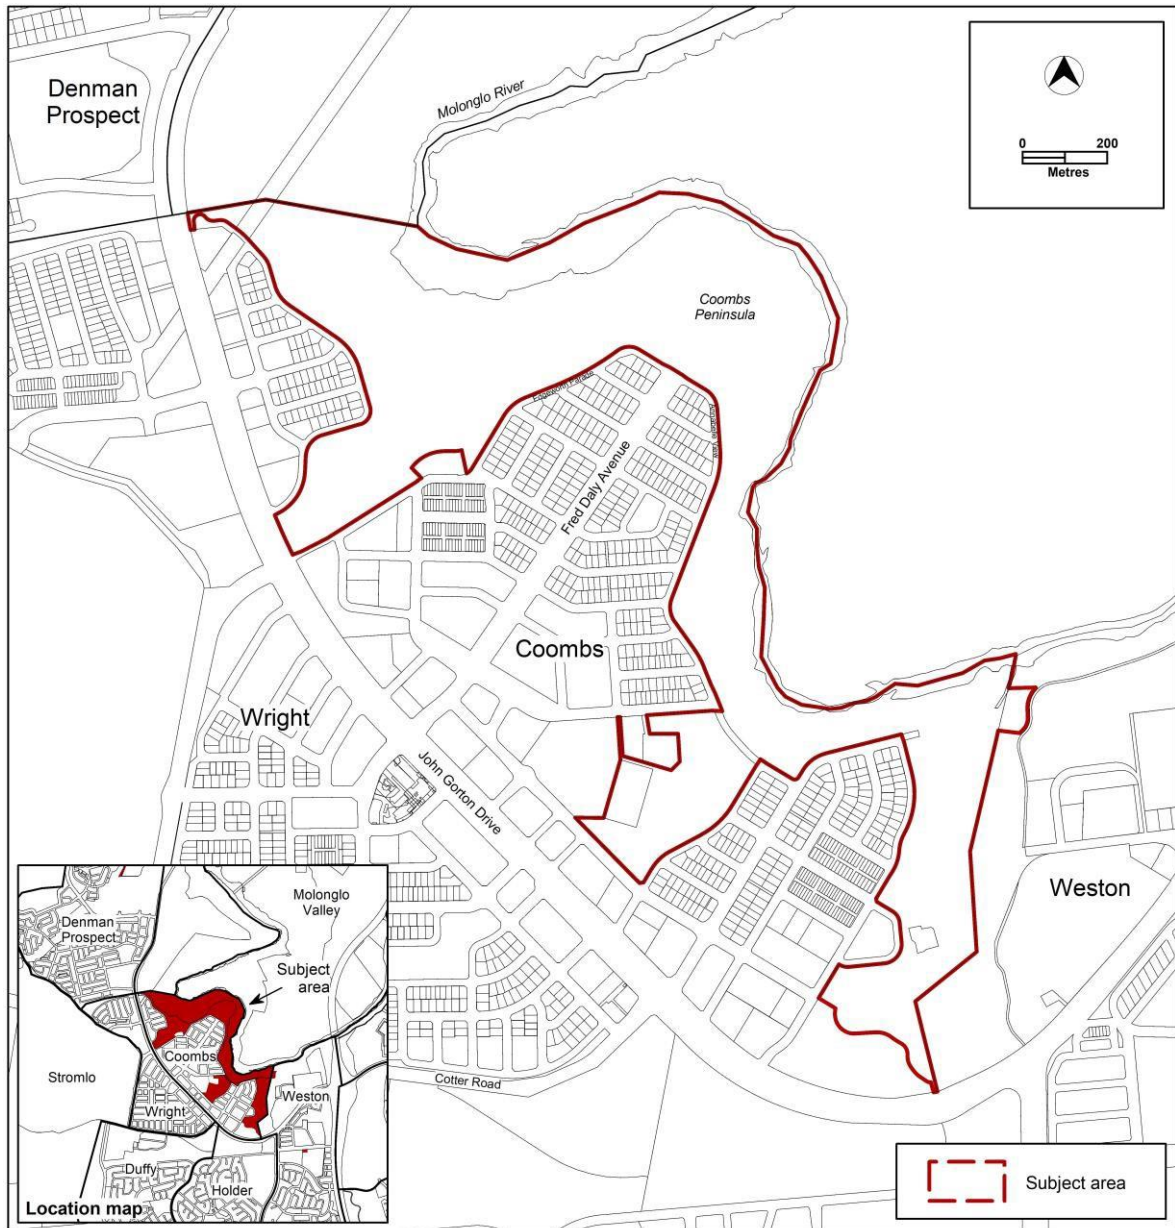

Figure 5 Coombs peninsula and Molonglo River Reserve – changes to zoning and FUA overlay

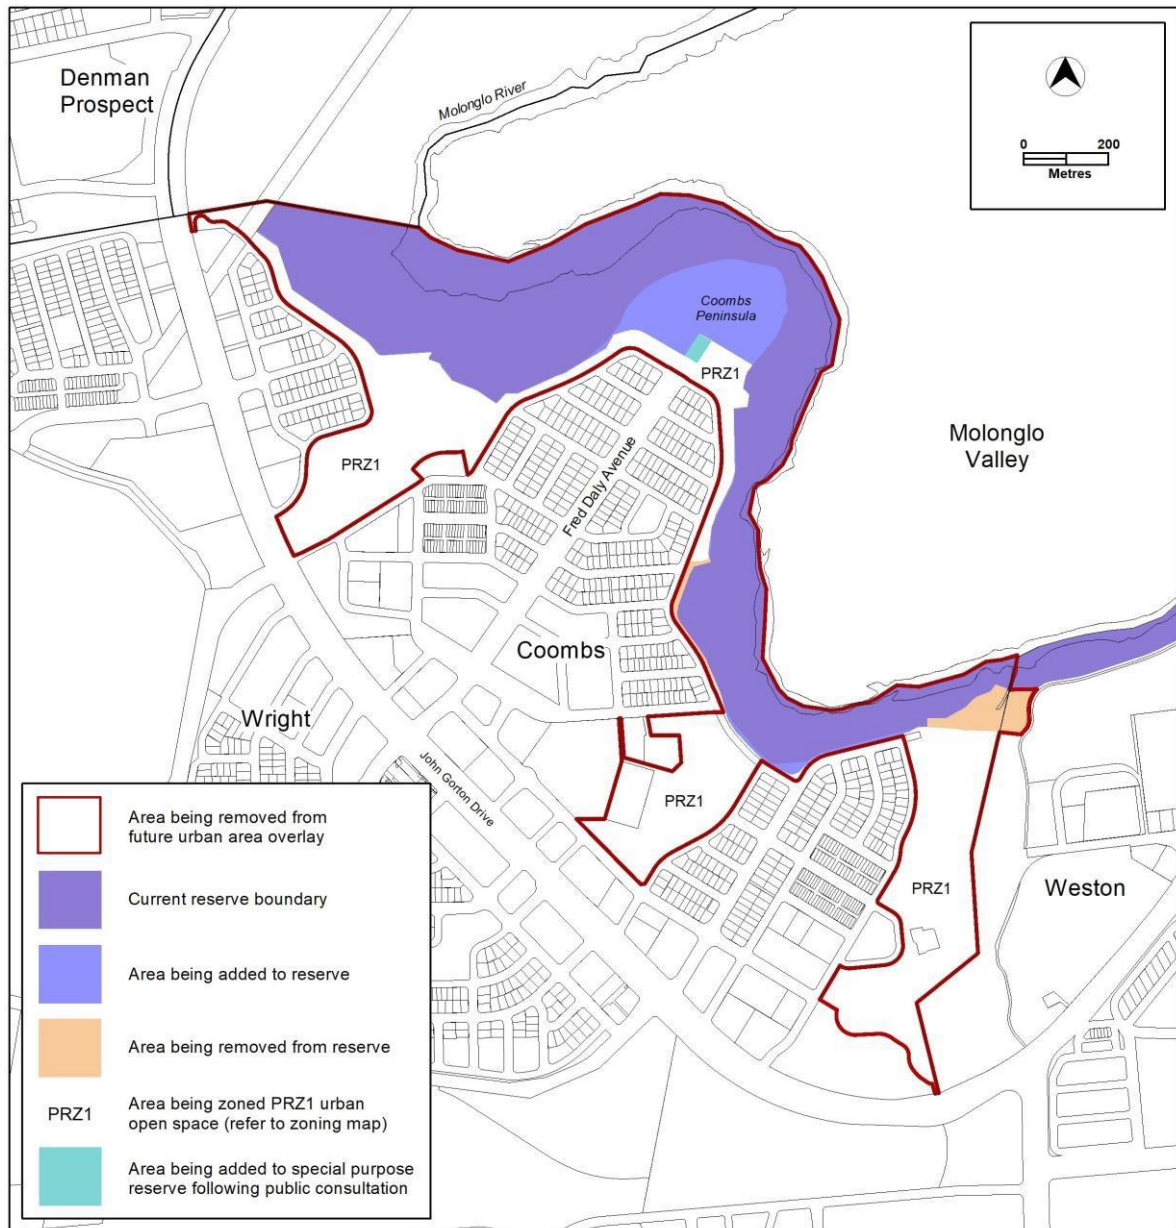

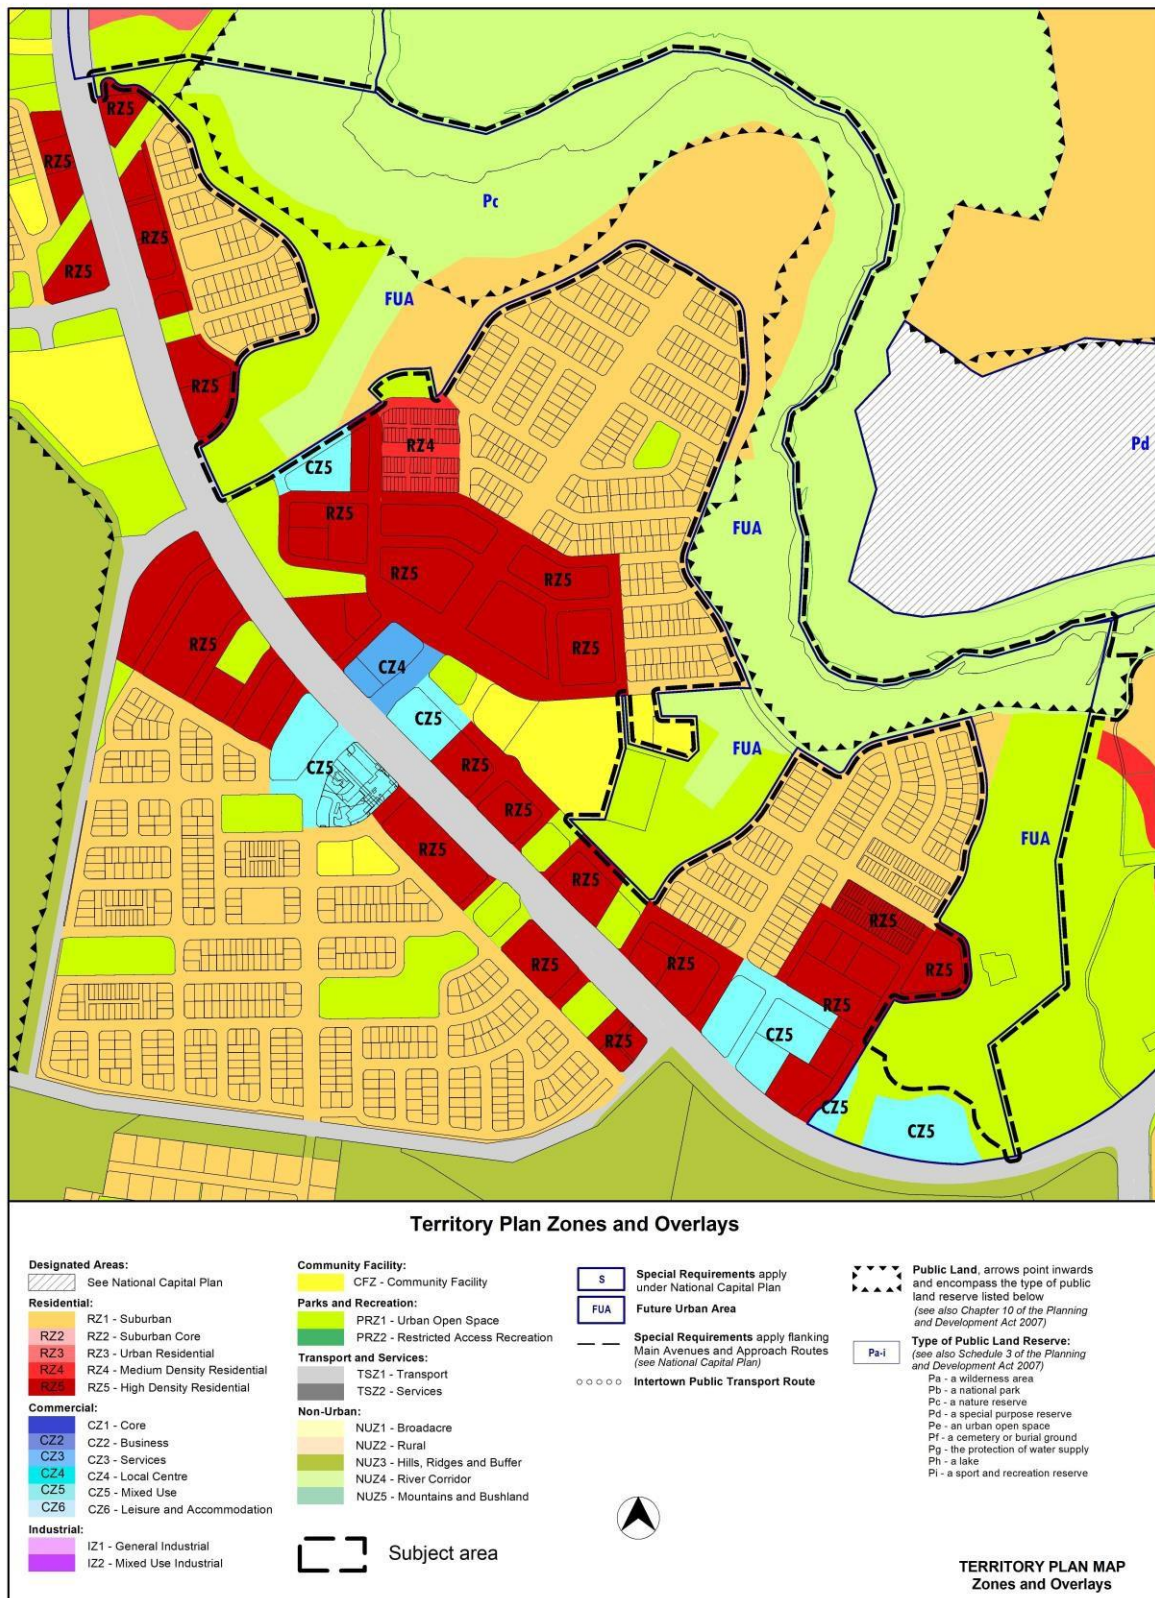

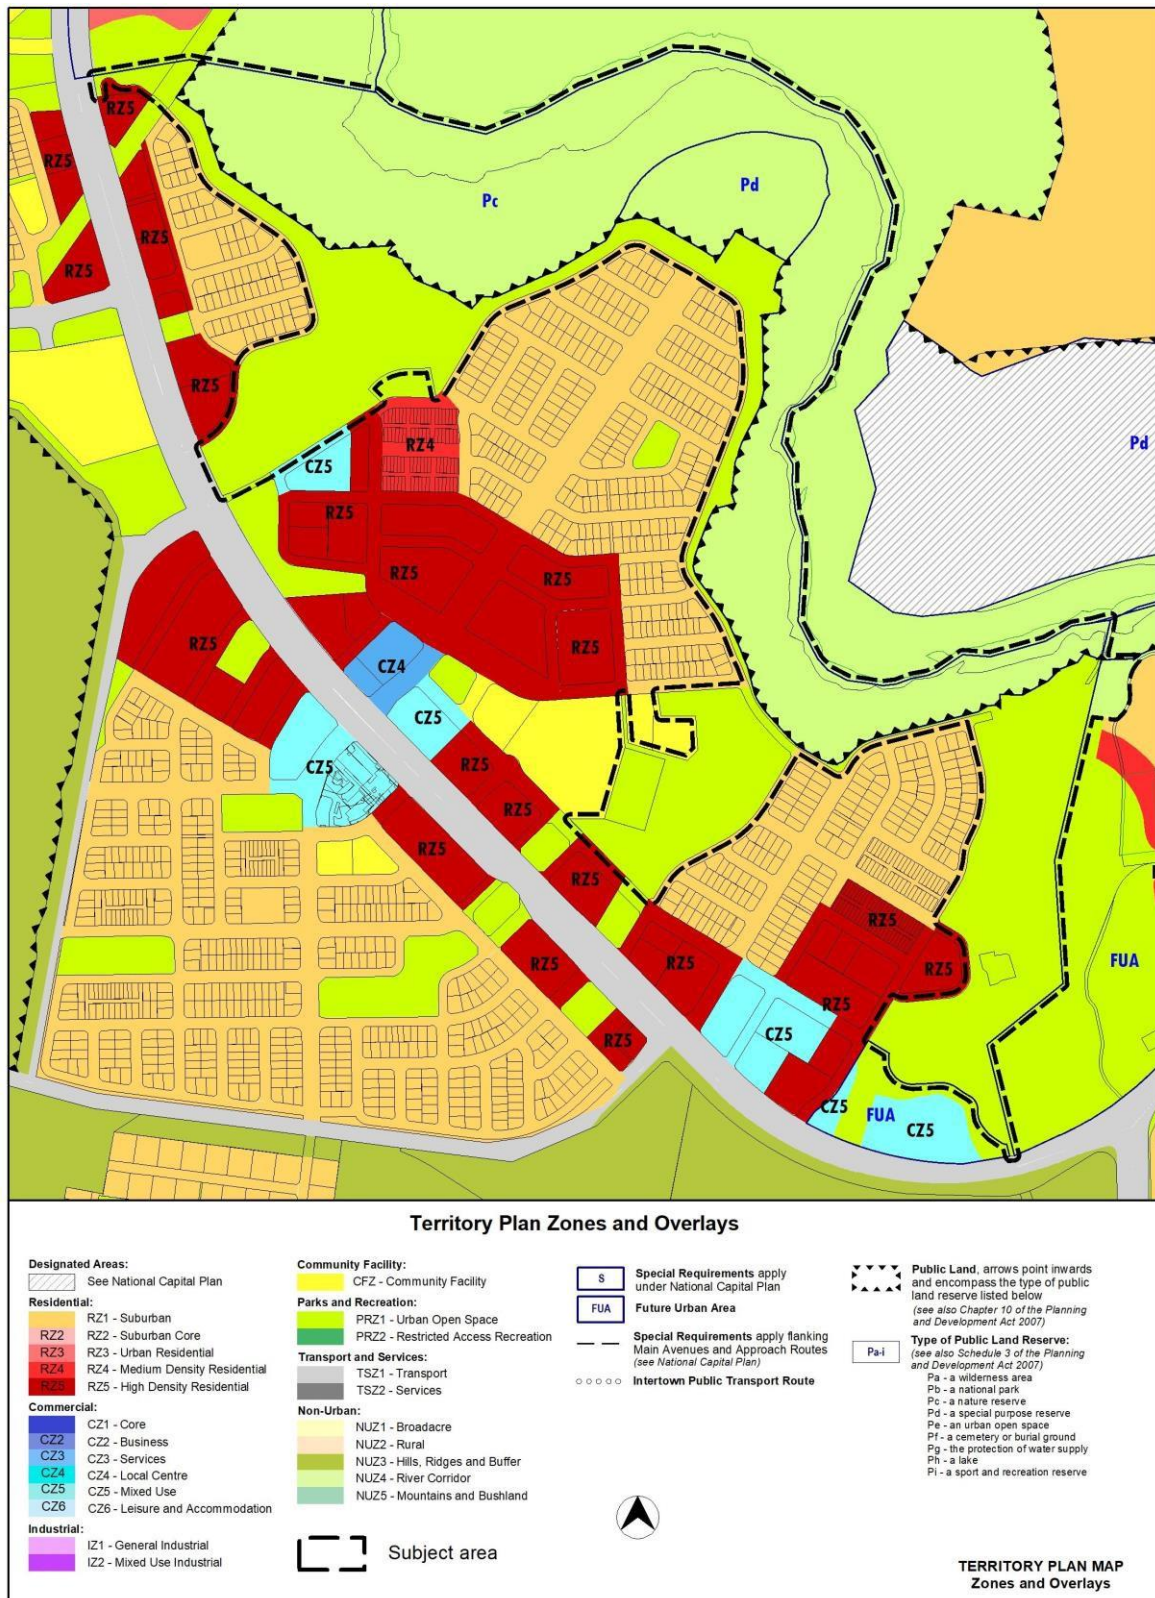

Figure 6 – Existing Territory Plan Map – Coombs

NOVEMBER 2025

Figure 7 – Proposed Territory Plan Map – Coombs

NOVEMBER 2025

Denman Prospect – set zoning (retain FUA)

MPA-05 considers an area of Denman Prospect between the existing urban area and the Molonglo River Reserve (Figure 8). The existing Territory Plan zoning and overlays can be seen in Figure 10.

A further 3.5 ha is added to the Molonglo River Reserve by zoning NUZ4 River Corridor (Figure 9 and 11). These adjustments are being made to the Molonglo River Reserve boundary, adjacent to Denman Prospect, to incorporate and protect recently surveyed pink-tail worm-lizard habitat into the Molonglo River Reserve.

The FUA overlay is retained over this area to enable the final suburb boundary and zoning to be fully considered as a part of a future subdivision design application.

Figure 8 – Location Map – Denman Prospect

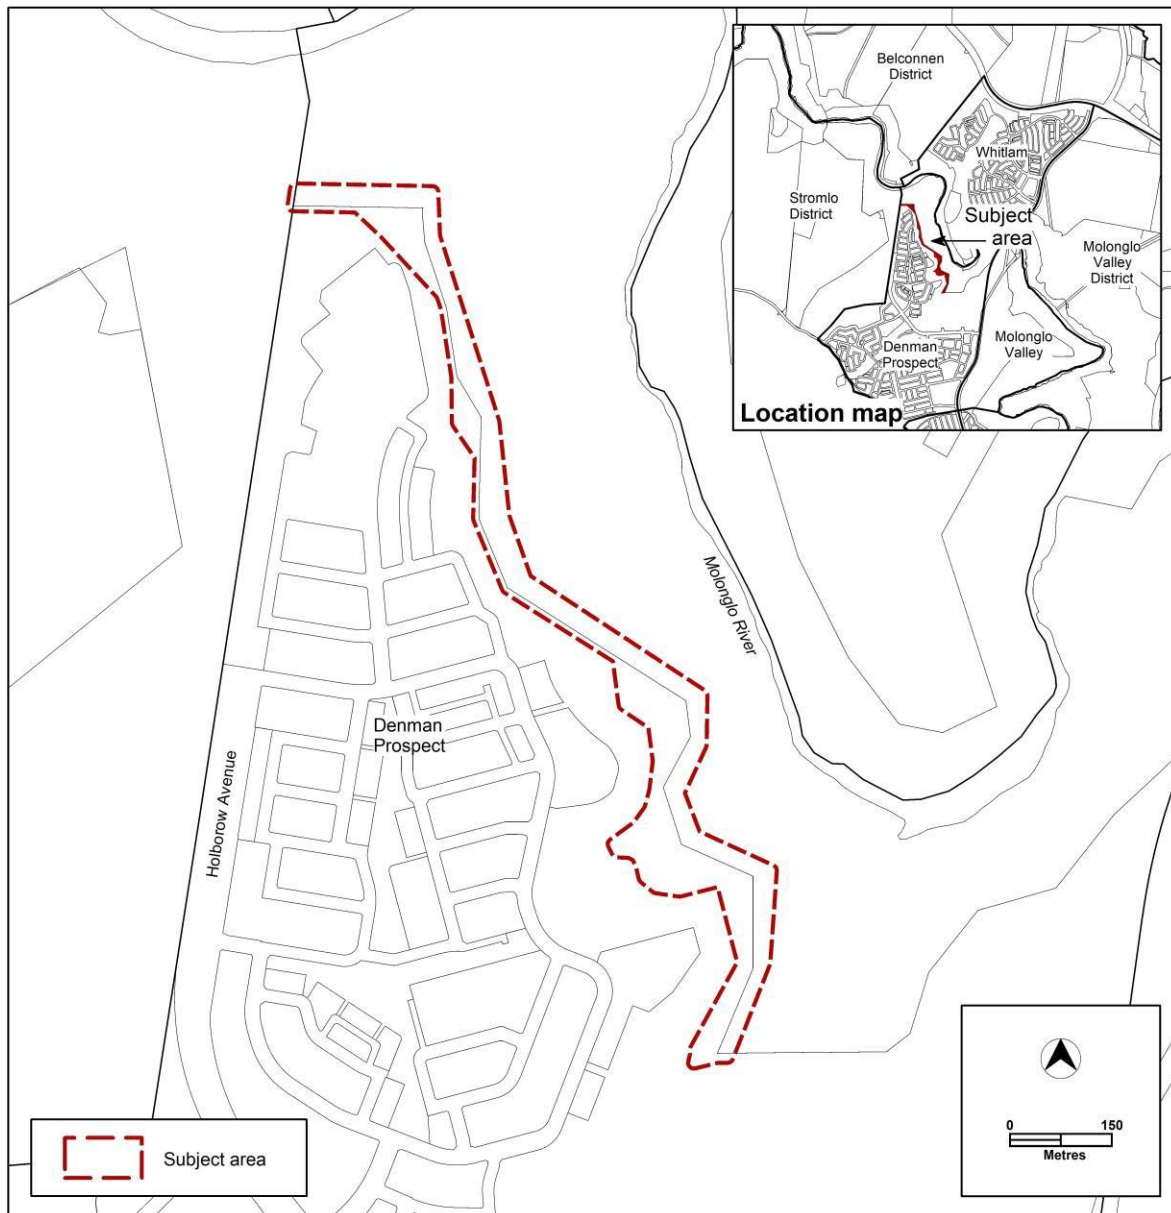

Figure 9 Denman Prospect additions Molonglo River Reserve – changes to zoning

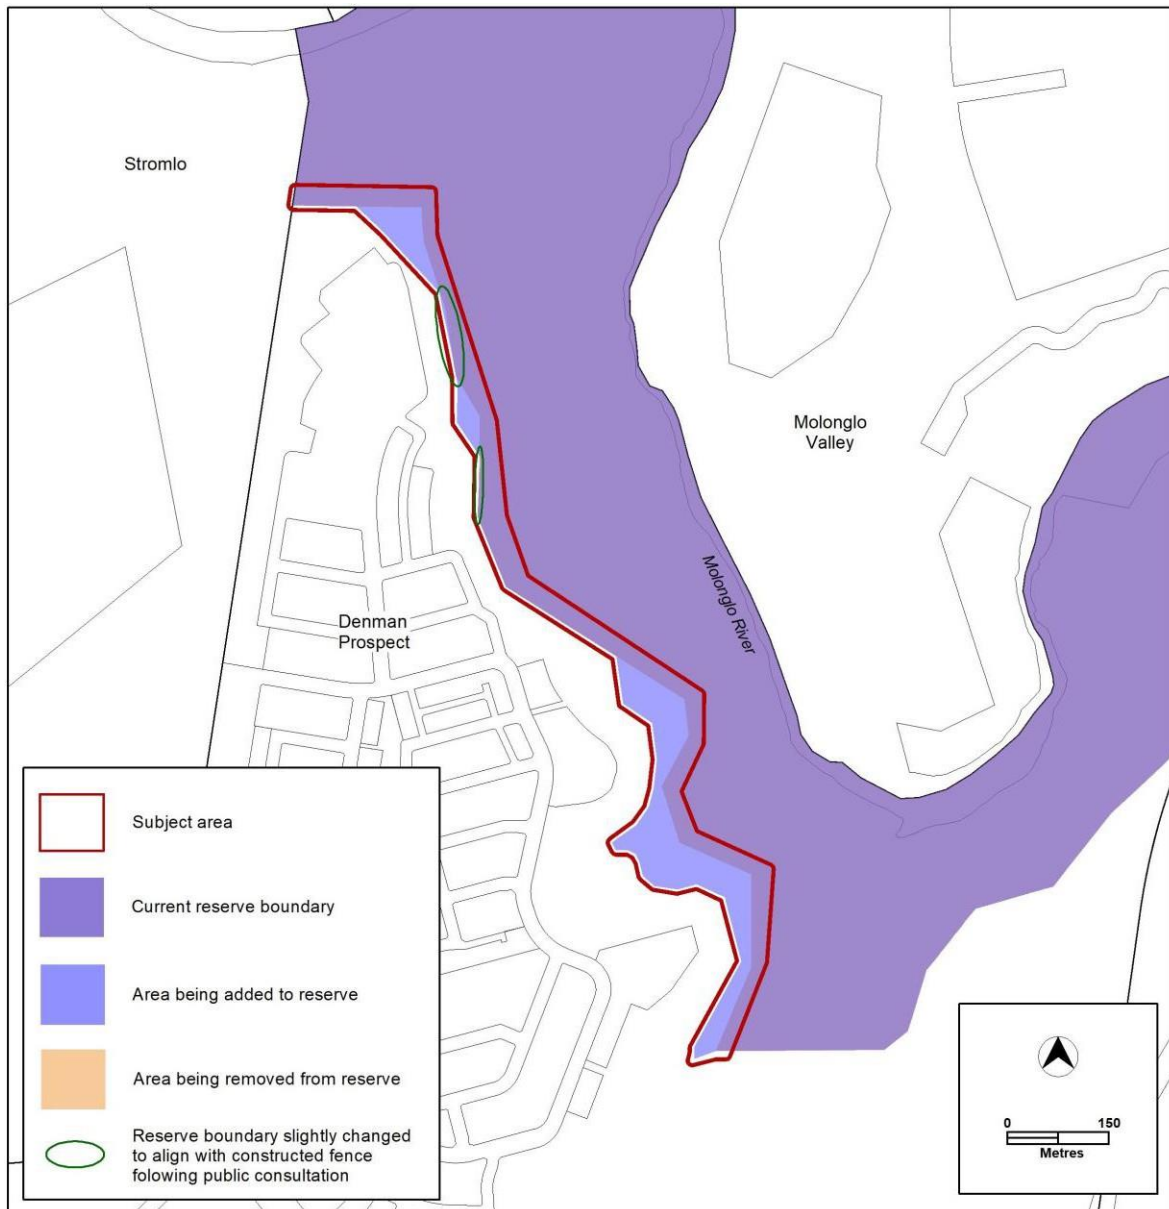

Figure 10 – Existing Territory Plan Map – Denman Prospect

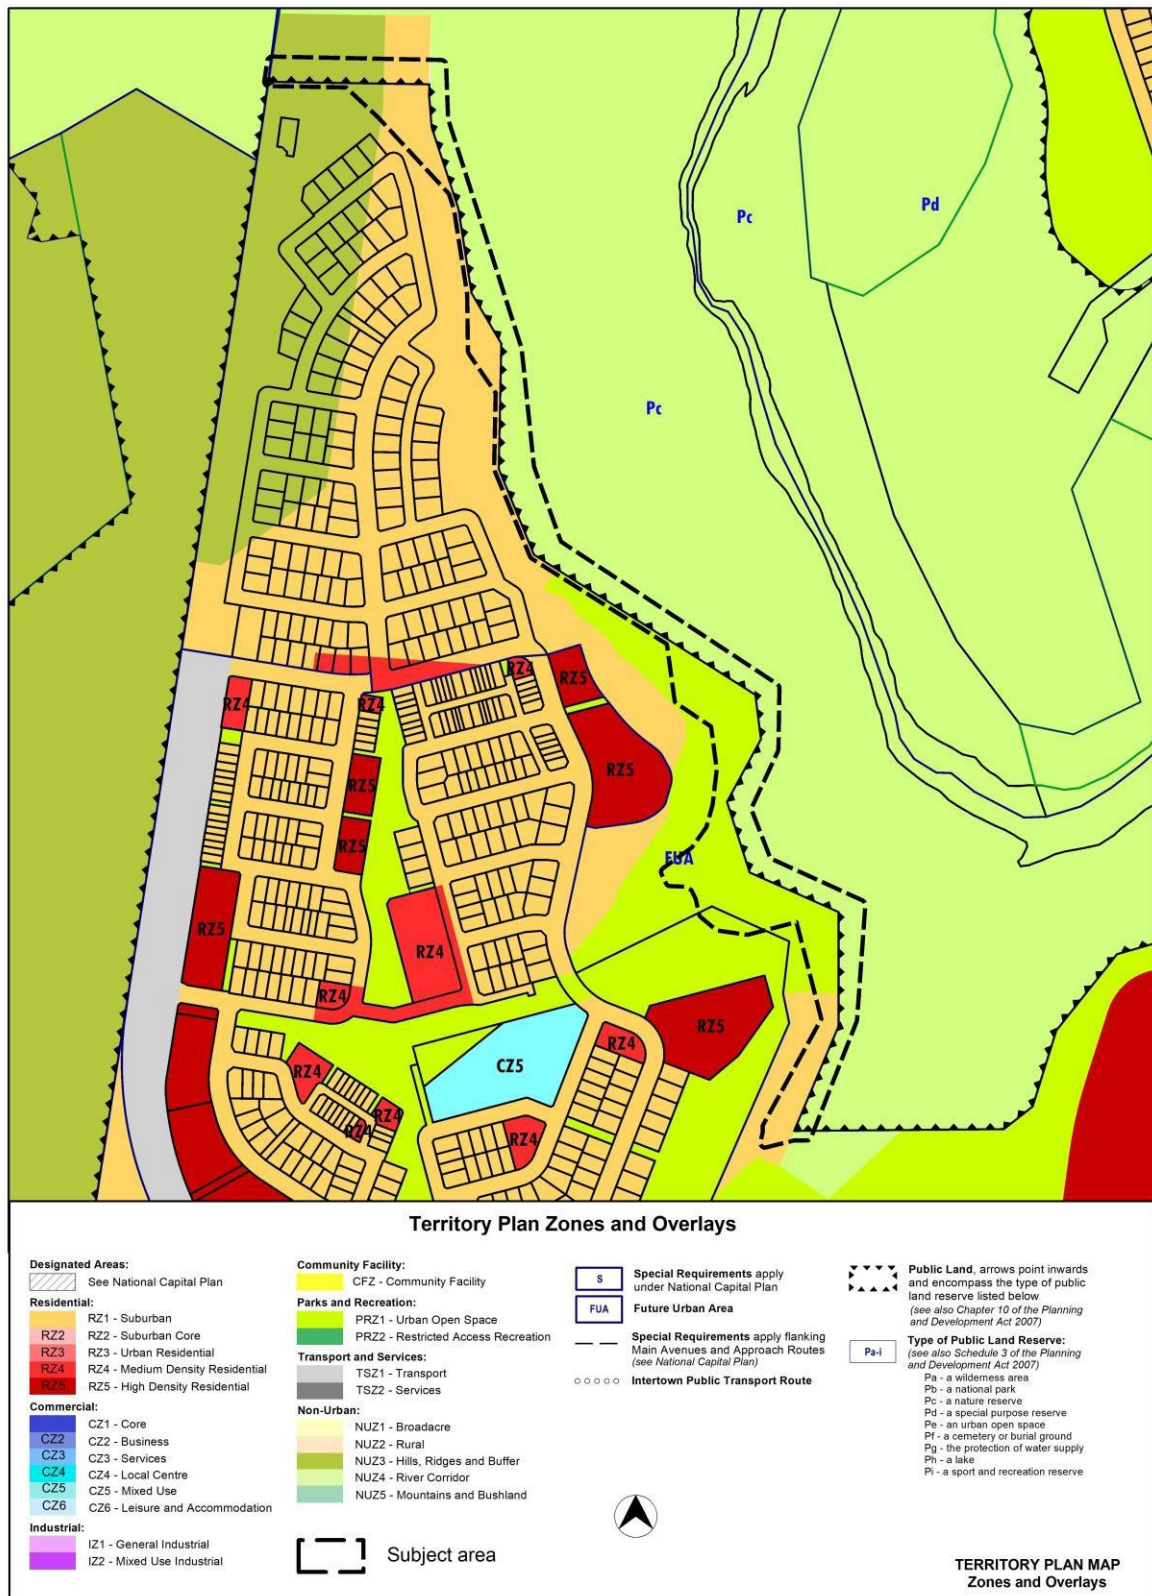

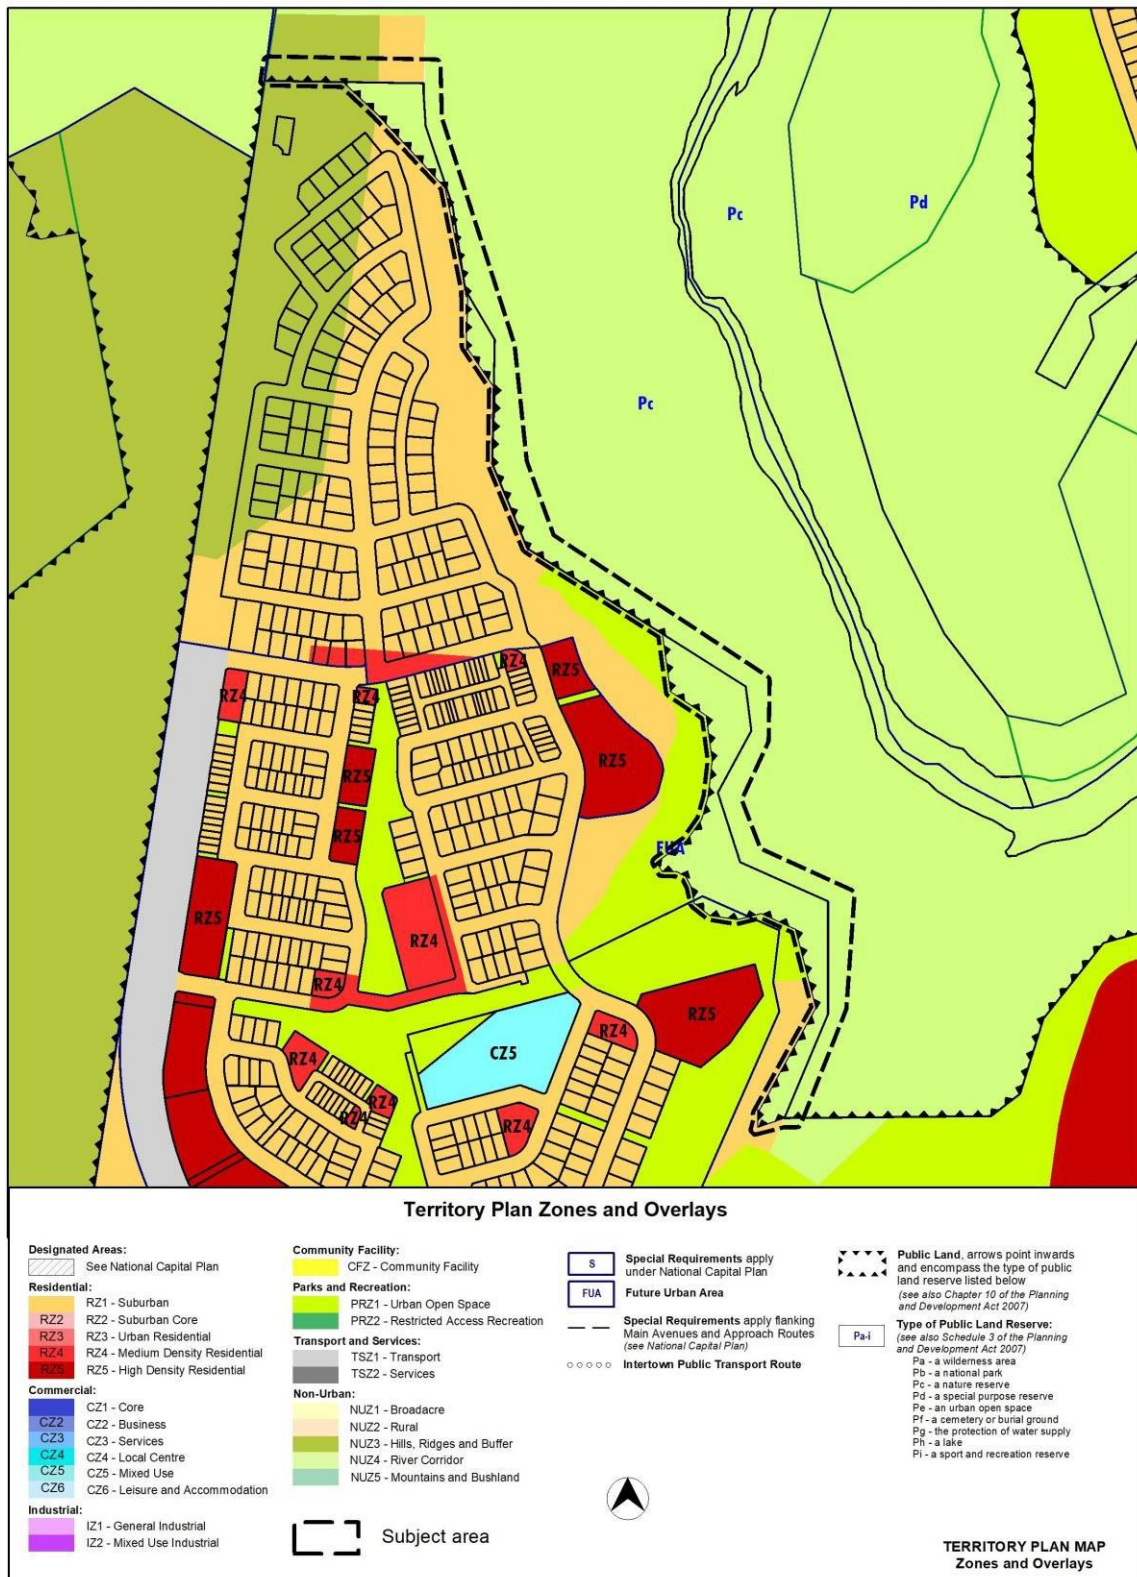

Figure 11 – Proposed Territory Plan Map – Denman Prospect

Molonglo Valley and Belconnen – infrastructure sites – remove FUA and set zoning

MPA-05 makes changes to four infrastructure sites (Figure 12). Three of the sites are located in the Molonglo Valley (Blocks 87 and 89, Molonglo Valley, and Block 15 Section 39 Whitlam), and one site is located in Belconnen (Block 1650). The existing Territory Plan zoning and overlays for these sites can be seen in Figure 13.

The FUA overlay is removed and to set final zoning as TSZ2 Services (Figure 14). This is to facilitate the development of Icon Water facilities (Figure 12).

Figure 12 – Location Map – infrastructure sites

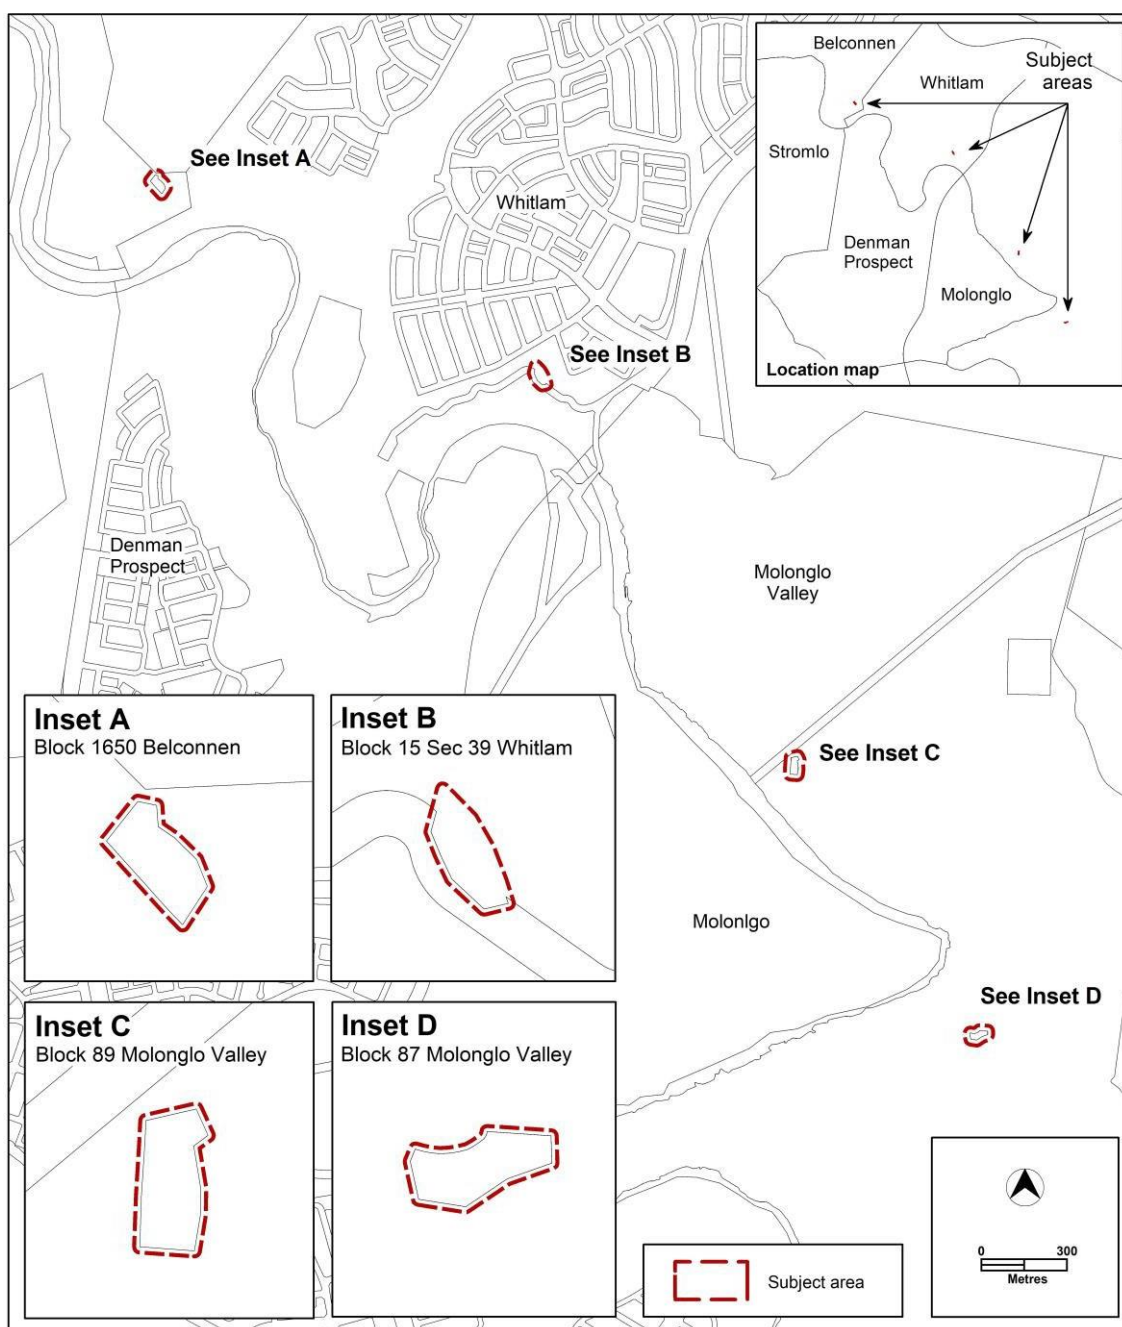

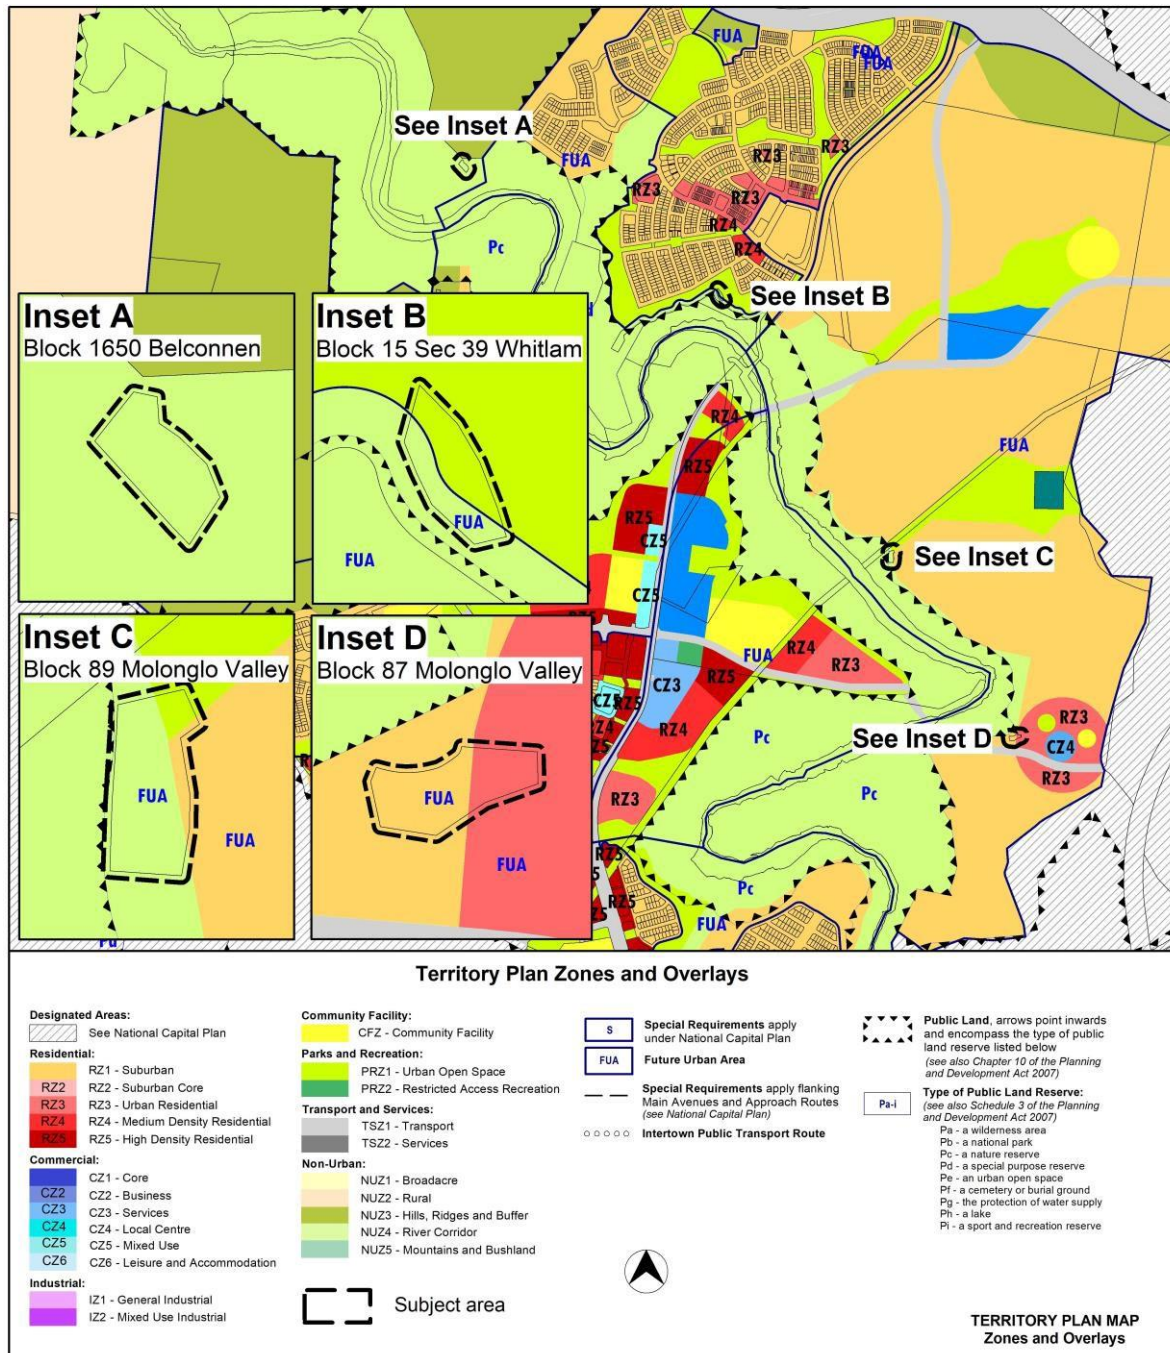

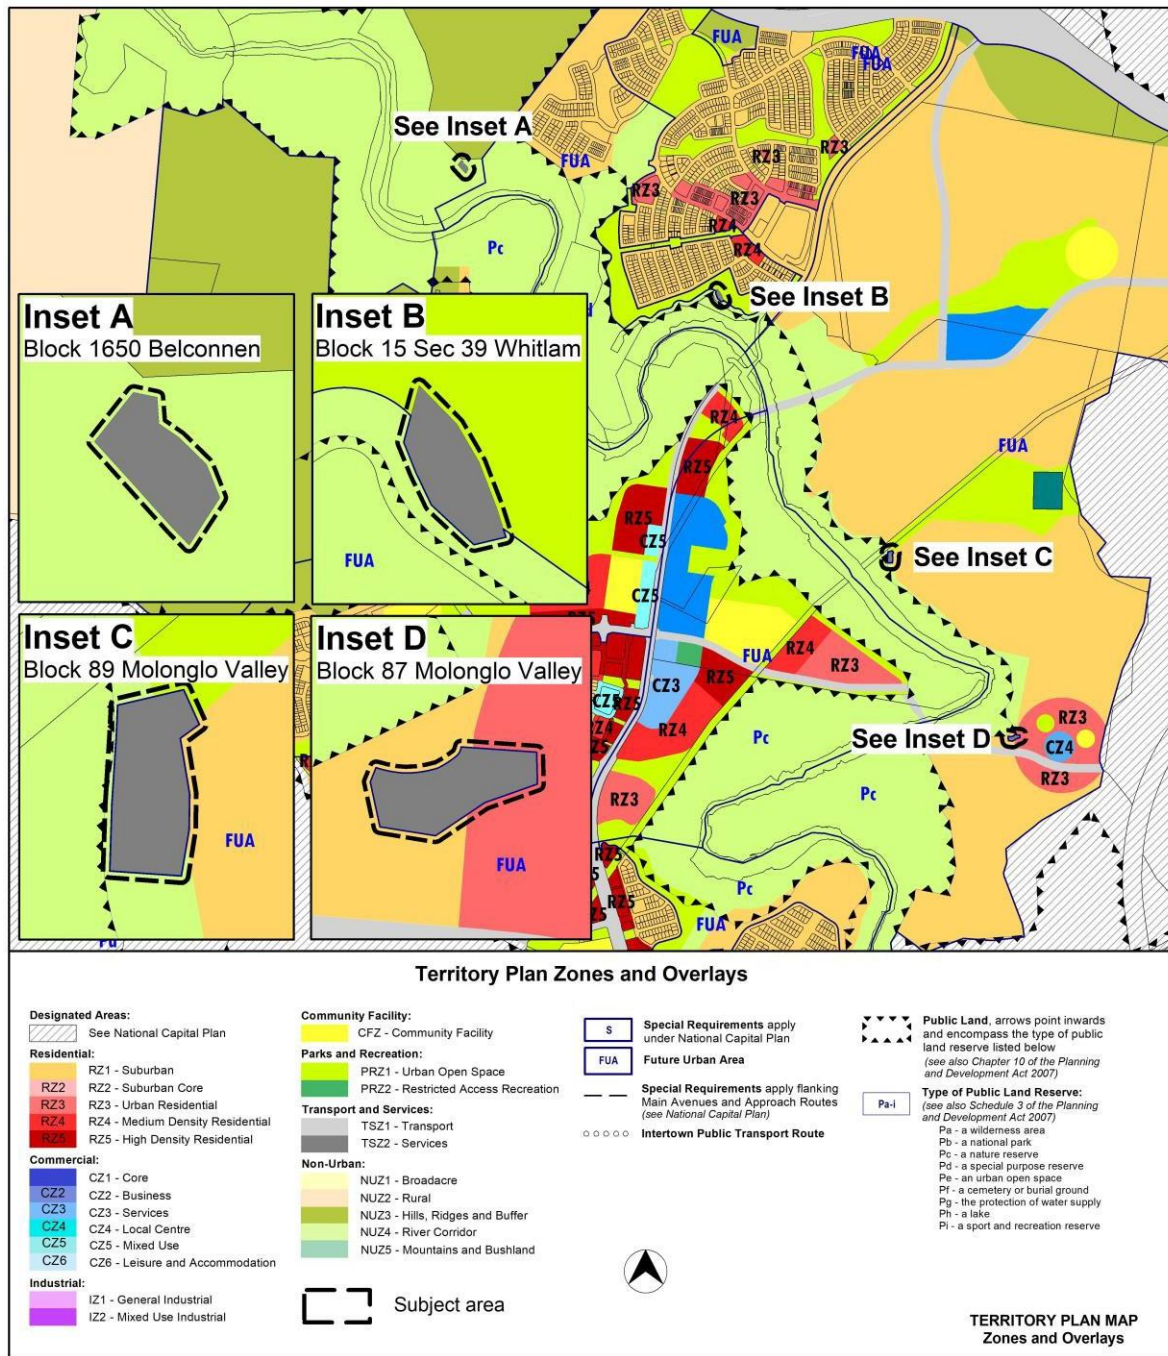

Figure 13 – Existing Territory Plan Map – infrastructure sites

MAJOR PLAN AMENDMENT 05 – APPROVED VERSION

Figure 14 – Proposed Territory Plan Map – infrastructure sites

NOVEMBER 2025

Gungahlin Town Centre – remove FUA and set zoning

There are a number of remnant sites in the western part of the Gungahlin Town Centre, which were not subject to an estate development application under the previous planning system or a subdivision design application under the current planning system (Figure 15). This means that the FUA overlay is unable to be removed through a minor plan amendment process. As a result, these are removed as a part of this MPA.

The sites, which are outlined in Figure 15, and the changes are described below:

- Block 1, Section 17 Gungahlin (enclosed oval):
 - Remove FUA overlay
 - Set final zoning as PRZ2 Restricted Access Recreation.
- Block 3, Section 19 Gungahlin (open space)
 - Remove FUA overlay
 - Set final zoning as PRZ1 Urban Open Space.
- Block 3, Section 232 Gungahlin (surface car park):
 - Remove FUA overlay
 - Confirm final zoning as CZ1 Commercial Core.
- Block 1 Section 250 Gungahlin (open space)
 - Remove FUA overlay
 - Set final zoning as PRZ1 Urban Open Space.
- The road around Block 1 Section 250 Gungahlin:
 - Remove FUA overlay
 - Set final zoning as TSZ1 Transport.
- Block 1 Section 38 Gungahlin:
 - Remove FUA overlay
 - Set final zoning as CZ1 Core, consistent with the surrounding zoning.

The existing Territory Plan zoning and overlays can be seen in Figure 16 and the proposed zoning can be seen in Figure 17.

Figure 15 – Location Map – Gungahlin

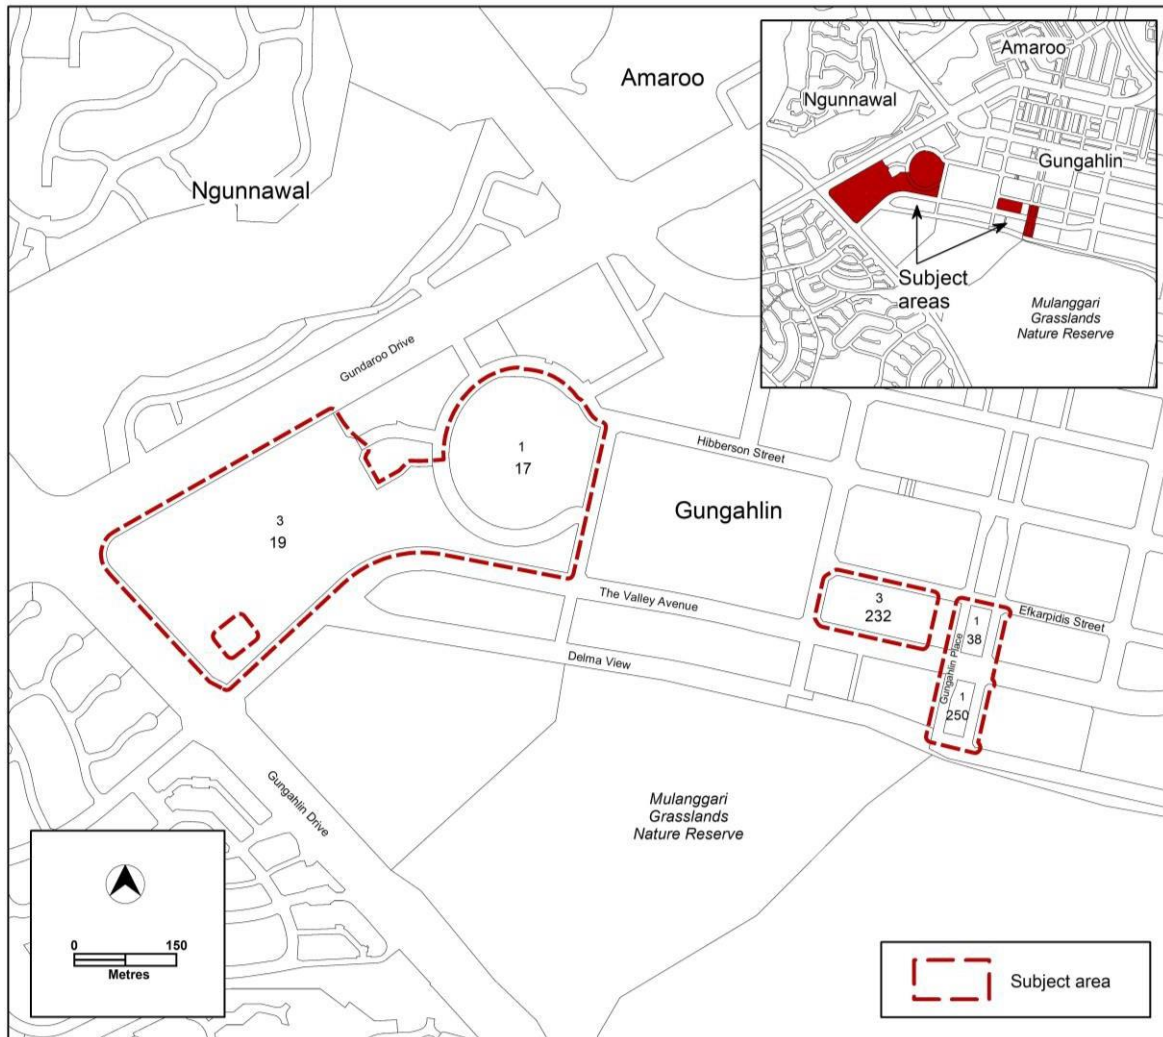

Figure 16 – Existing Territory Plan Map – Gungahlin

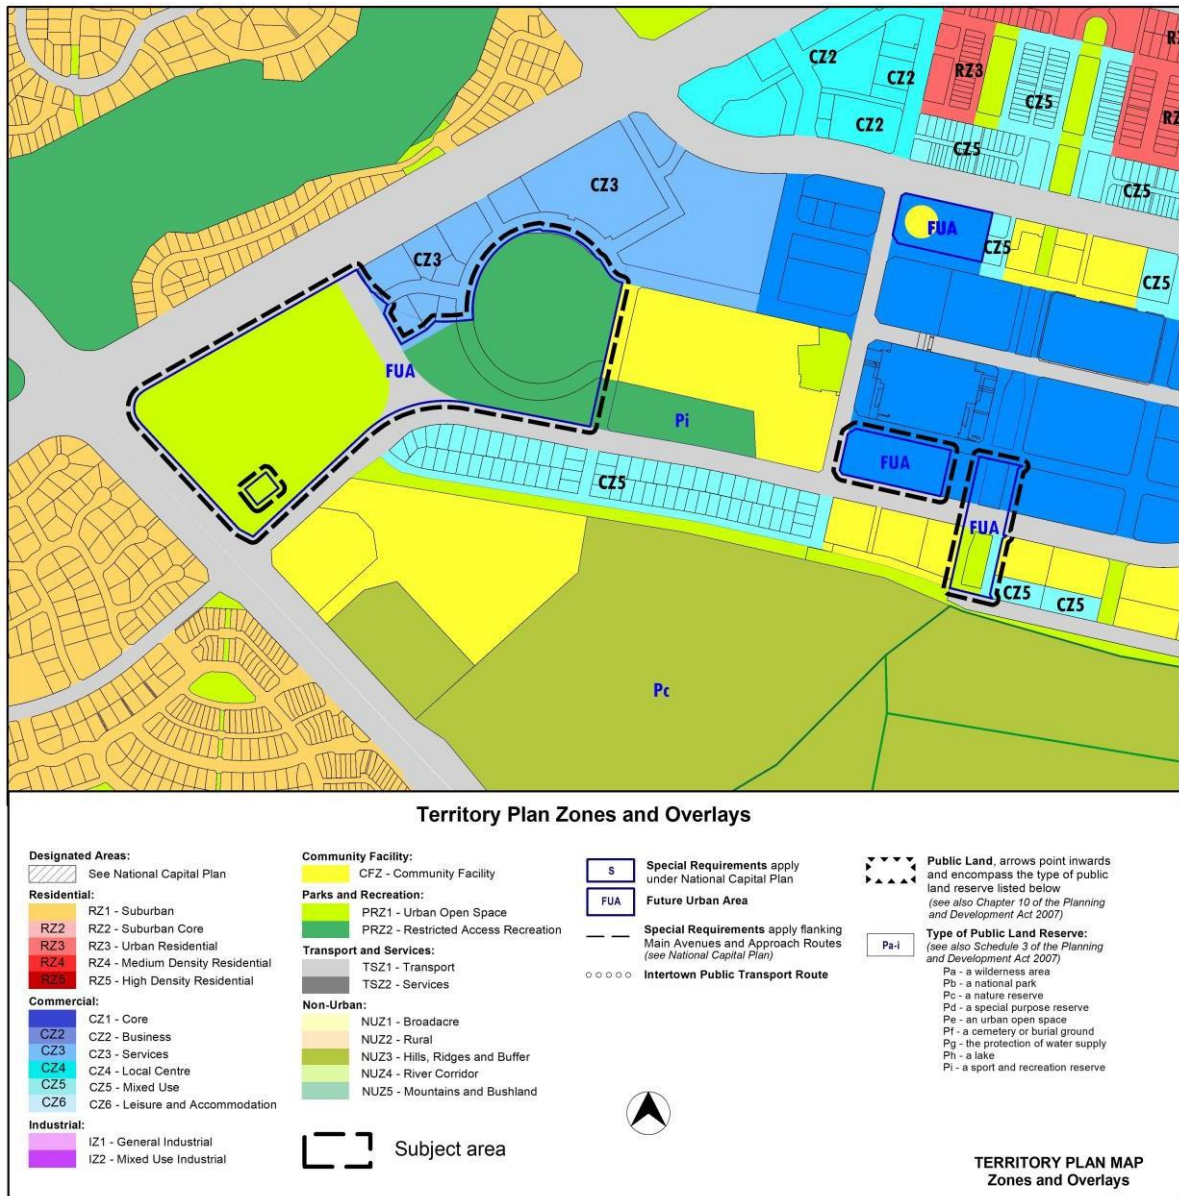

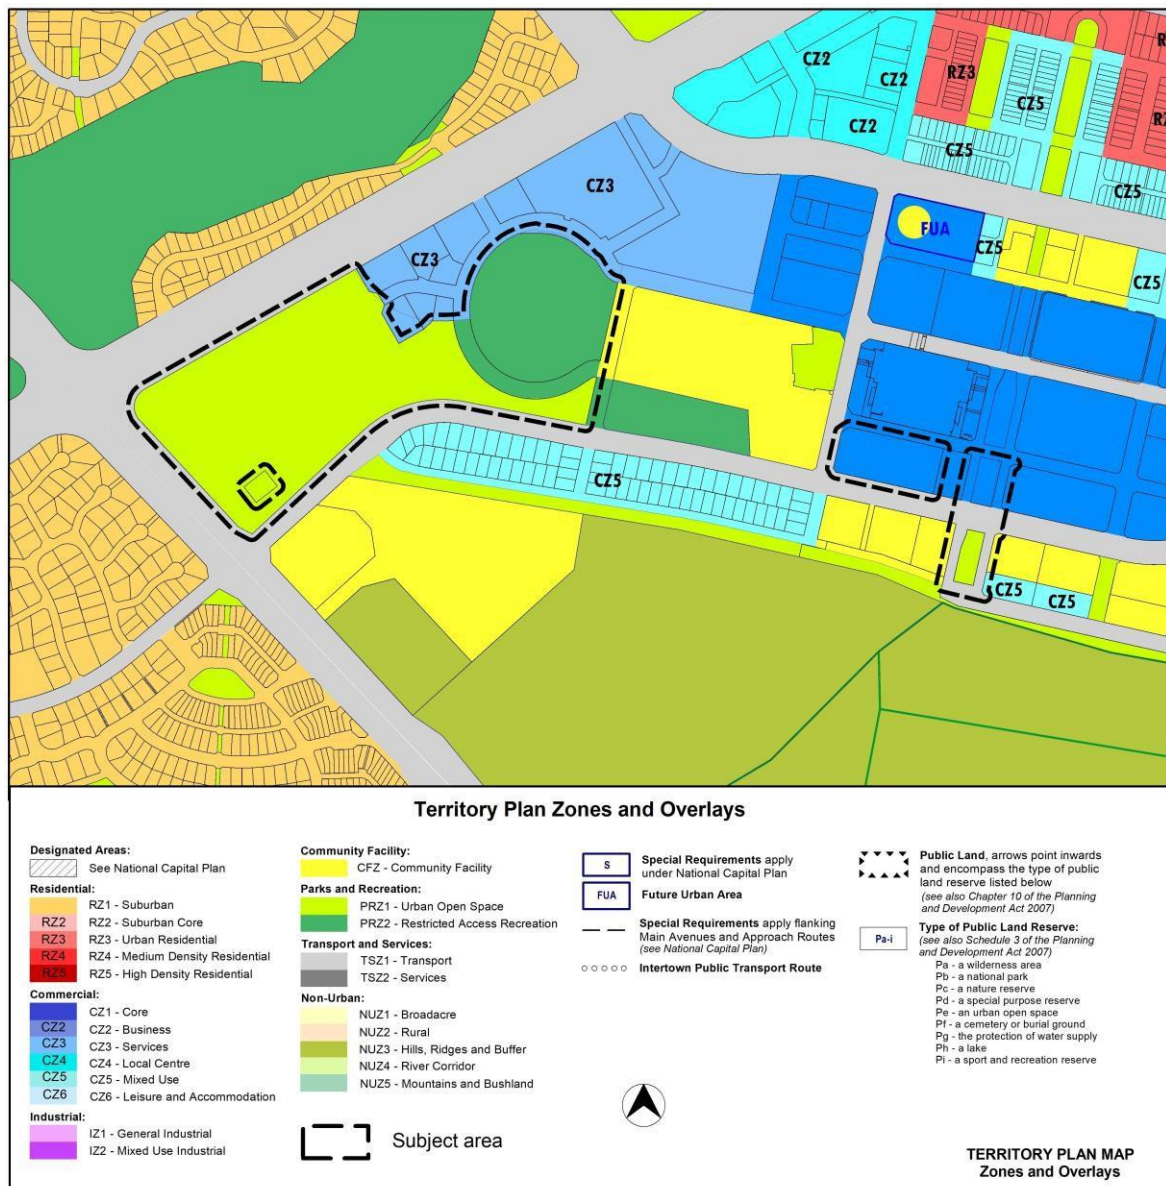

Figure 17 – Proposed Territory Plan Map – Gungahlin

Amaroo Urban Open Space – remove FUA and set zoning

MPA-05 makes changes to one remaining parcel of open space in Amaroo (Block 6 Section 109 – Figure 18). This area is the last part of the suburb to have a FUA overlay. The existing Territory Plan zoning and overlays can be seen in Figure 19.

The FUA overlay is removed which confirms the zoning as PRZ1 Urban Open Space. A small strip of land adjacent to Horse Park Drive (currently zoned TSZ1 Transport) is zoned to PRZ1 to regularise the zoning (Figure 20).

Figure 18 – Location Map – Amaroo

Figure 19 – Existing Territory Plan Map – Amaroo

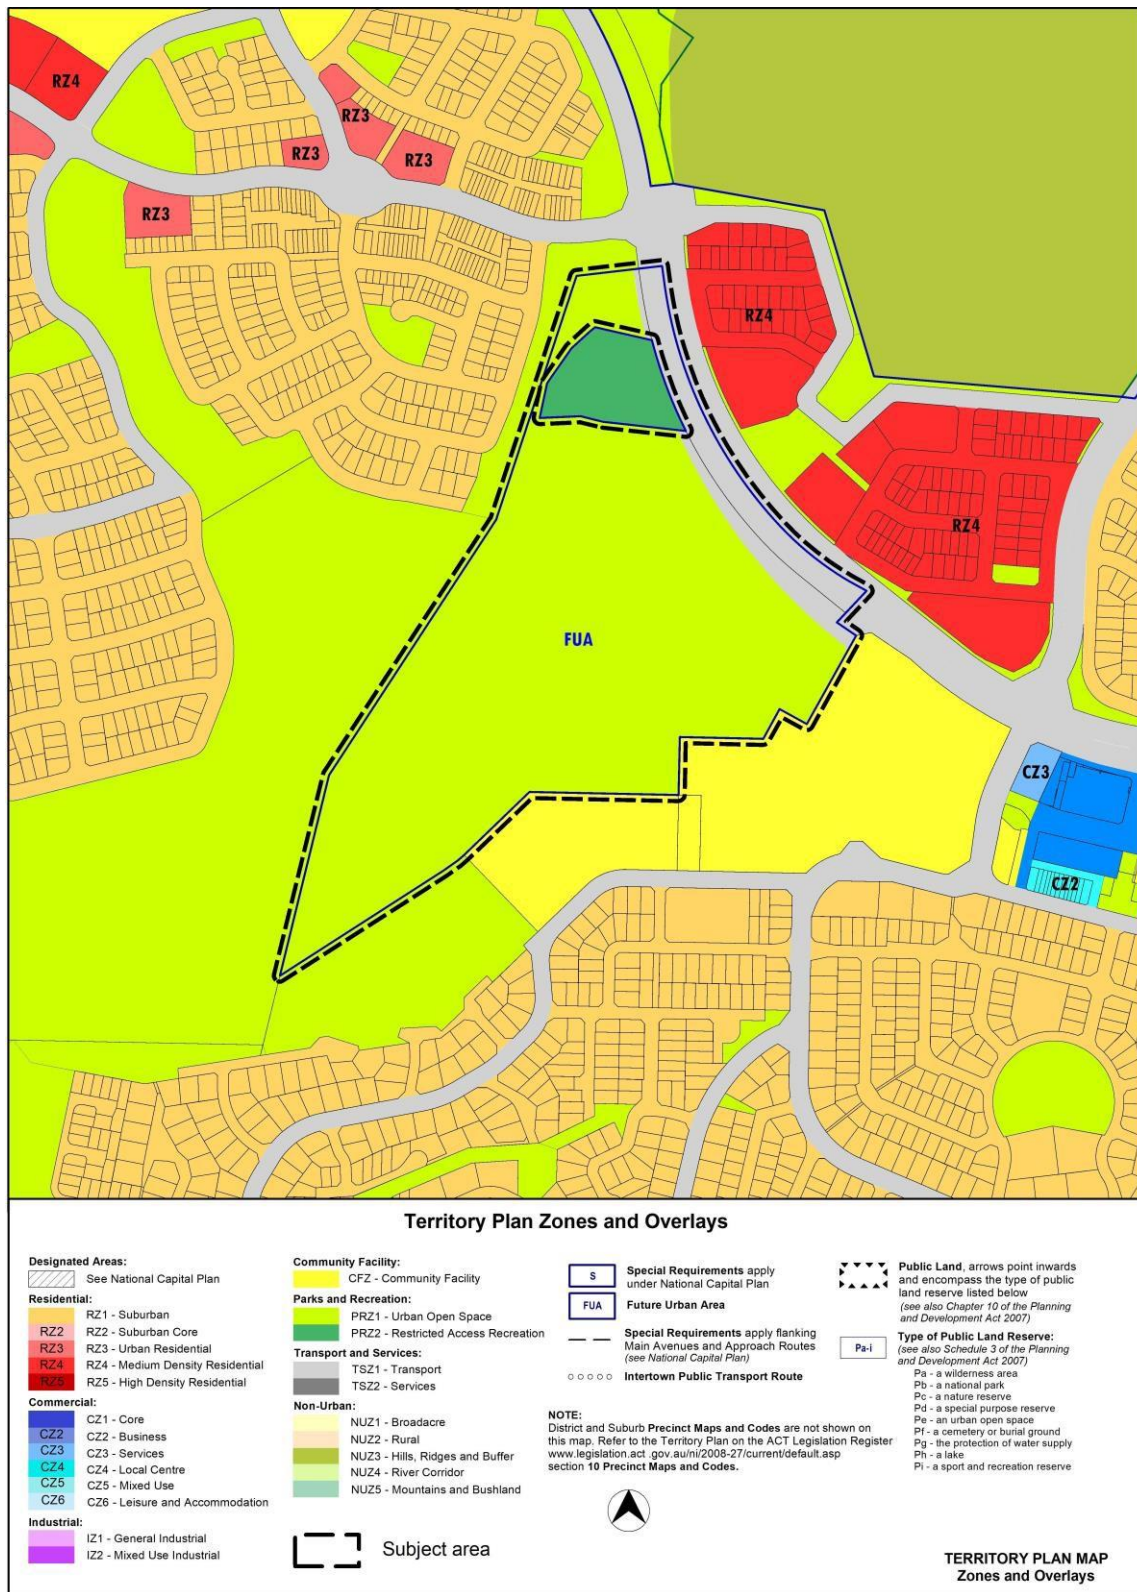

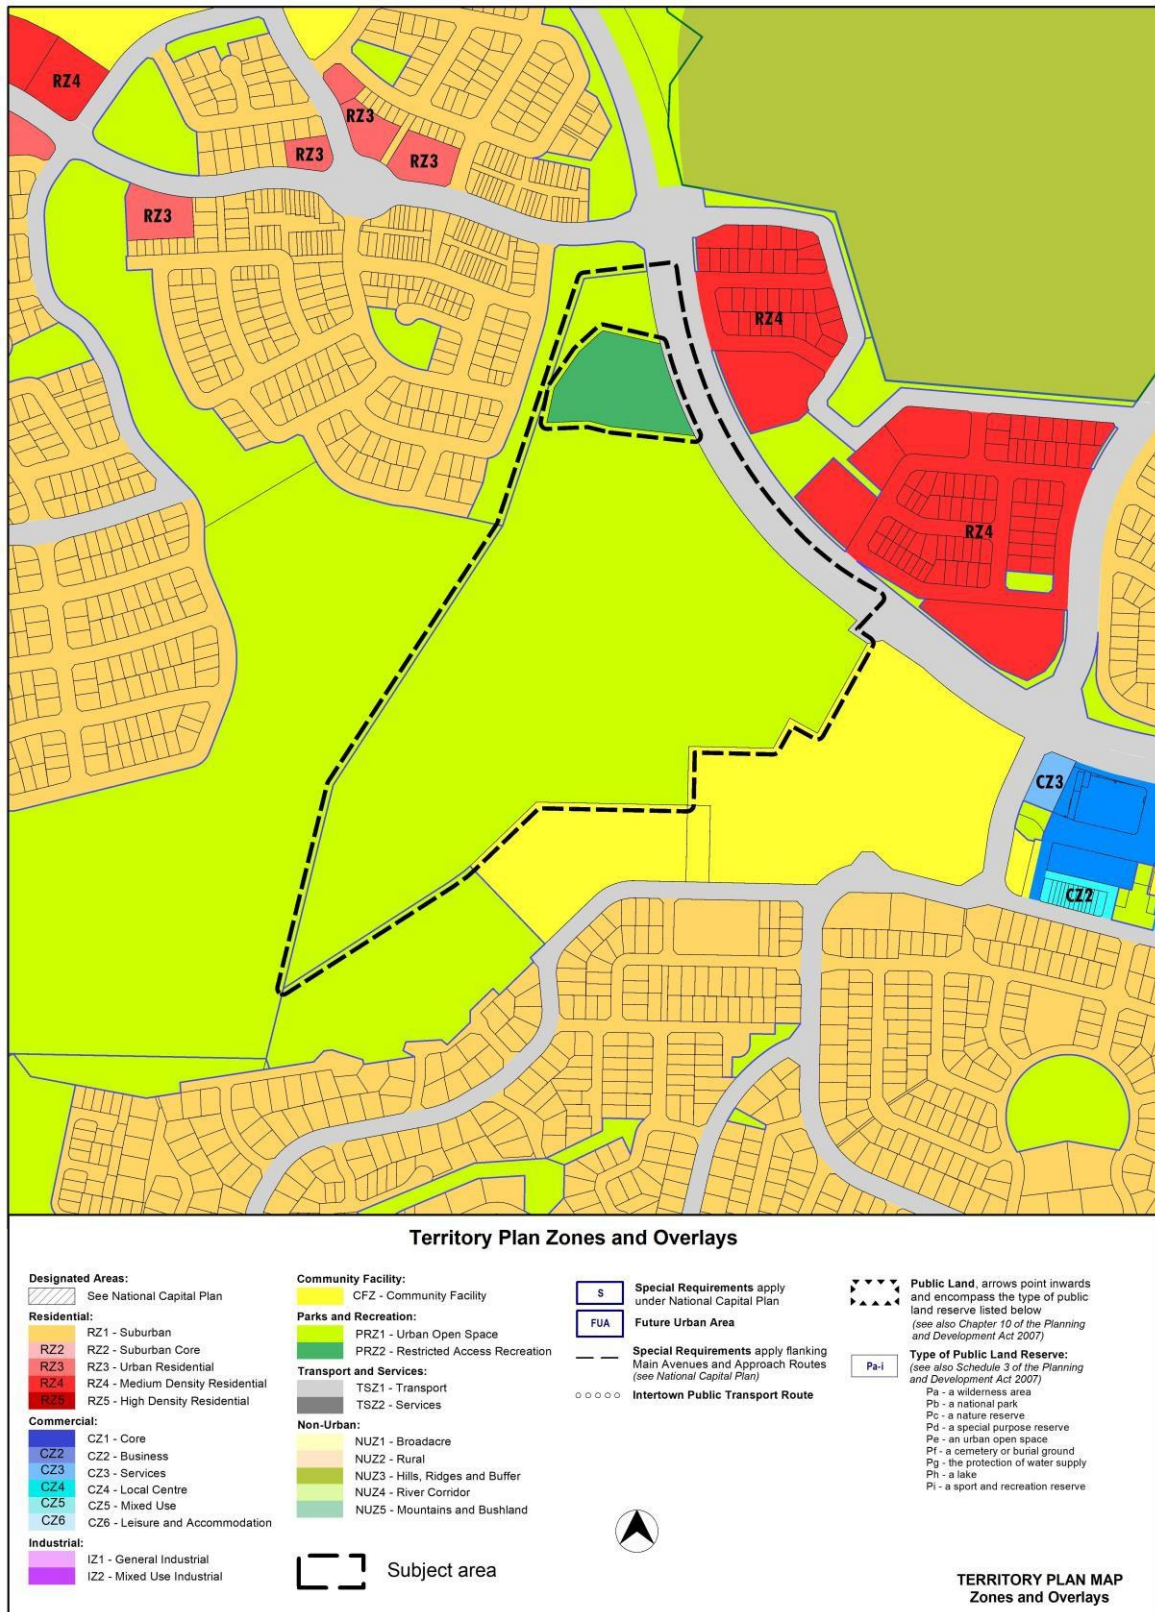

Figure 20 – Proposed Territory Plan Map – Amaroo

Weston Urban Open Space – remove FUA and set zoning

MPA-05 makes changes to Block 8 Section 96 Weston (Figure 21), which is a remnant block with an FUA overlay. The existing Territory Plan zoning and overlays can be seen in Figure 22.

The FUA overlay is removed which sets the zoning as PRZ1 Urban Open Space. The change from the indicative RZ4 Medium Density Residential zoning reflects the current use and management of the land. (Figure 21 and 23).

Figure 21 – Location Map – Weston

Figure 22 – Existing Territory Plan Map – Weston

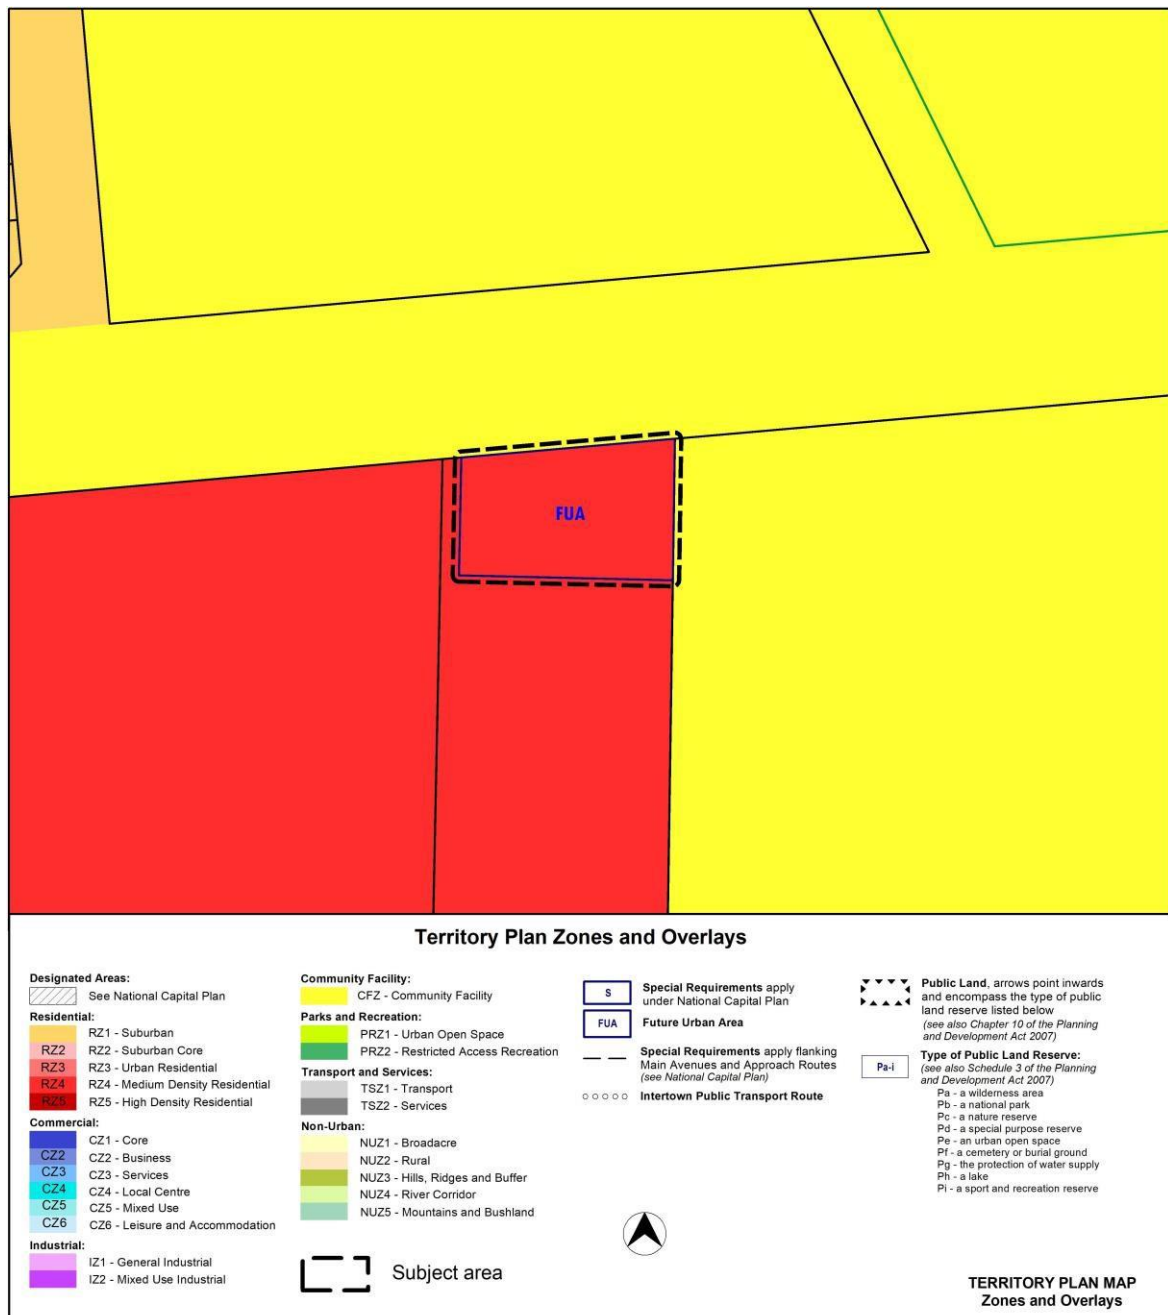

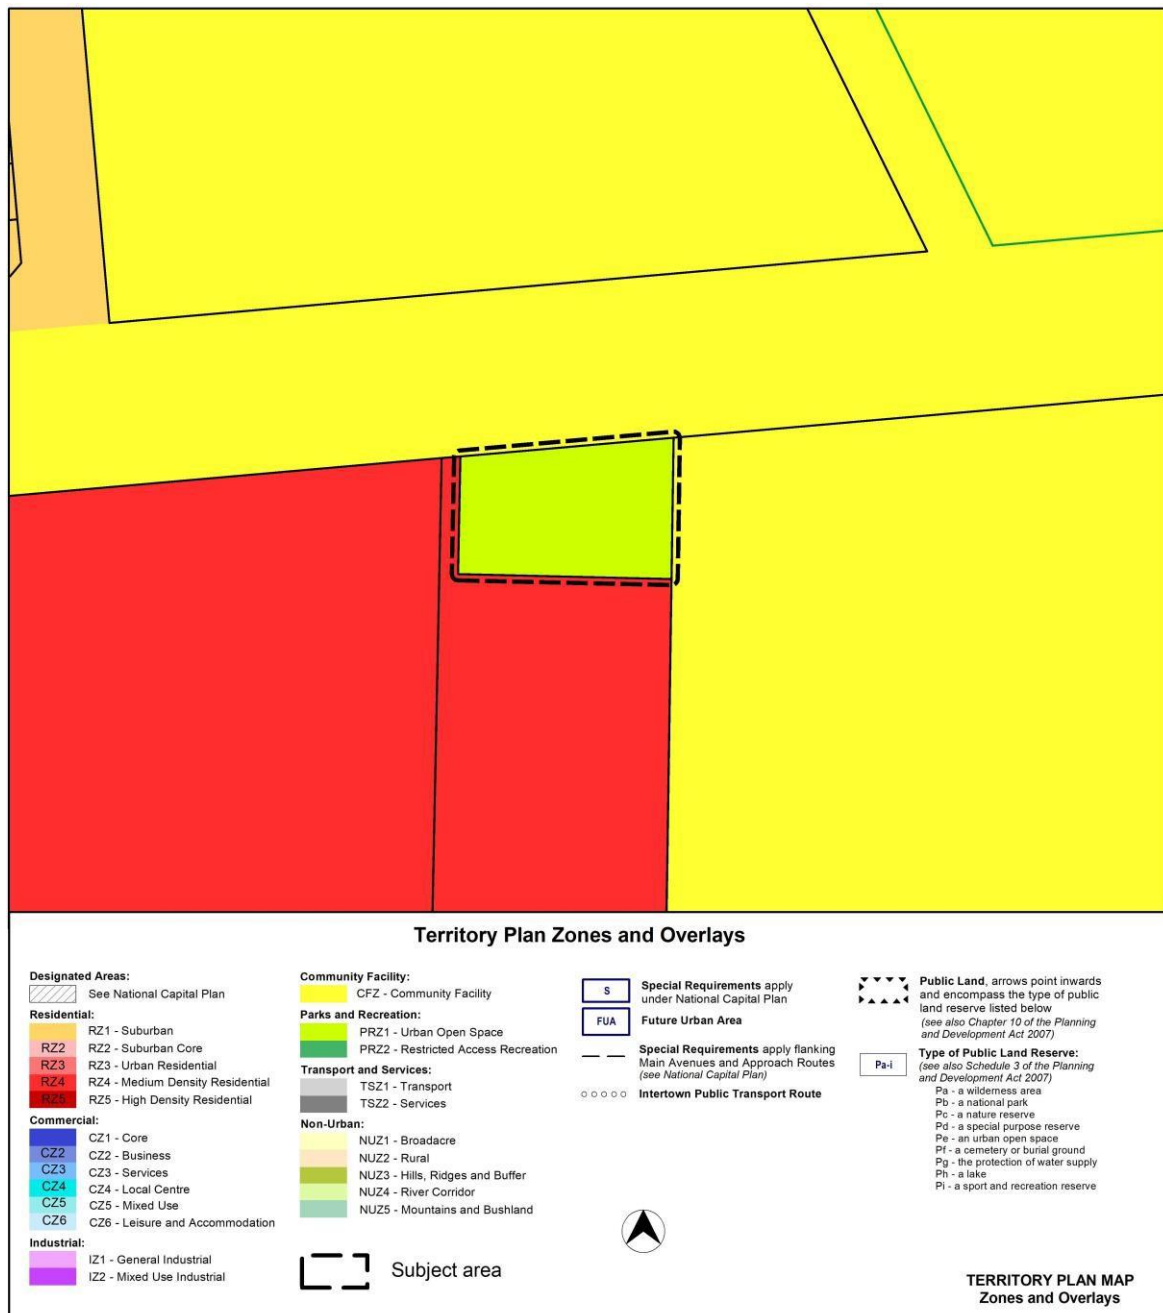

Figure 23 – Proposed Territory Plan Map – Weston

2.3 Summary of amendments to the Territory Plan

MPA-05 amends the Territory Plan by removing the Future Urban Area (FUA) overlay from a number of sites and confirms land use zoning. Removal of the sites from the FUA will facilitate conservation of sites where appropriate, including Bluetts block, Coombs peninsula and the river corridor and allow urban development including in the Gungahlin Town Centre, and allow the development of infrastructure in the Molonglo Valley.

3.0 SUPPORTING REPORT

The need for the proposed amendment

The sites identified in this DPA largely have FUA overlays remaining as these areas were not contained in previous subdivision design applications when the areas were developed. Following approval of previous subdivision design applications, surrounding FUA overlays have been uplifted through minor amendments to the Territory Plan, in accordance with the Act.

In this instance, as these sites are now surrounded by leased blocks and were not contained in a subdivision design application, the changes are required to be made by a major plan amendment.

Positive and negative impacts

The positive impact of the major plan amendment is the removal the FUA overlay and setting of zones enables land to be developed for urban purposes or to further protect land in the Molonglo River Reserve, such as Bluetts block.

There is potential of a future negative impact, being the opportunity cost of setting the zoning in place and removing the FUA overlay. If future changes are required to zoning and overlays, they would need to occur via an MPA and there would be no possibility of using a minor plan amendment (a much more streamlined process) to amend zoning of the sites.

The planning strategy

The proposed changes align with the five (5) themes of the ACT Planning Strategy: compact and efficient city, diverse Canberra, sustainable and resilient Territory, liveable Canberra and accessible Canberra.

Removing sites from the FUA overlay and confirming zoning aligns with the directions of the ACT planning strategy by limiting urban growth, managing waterways, and protecting parks and reserves for the community and biodiversity.

The relevant district strategy

The district strategies seek to capture and protect the valued character and attributes of the nine districts of Canberra. The district strategies deliver the ACT Planning Strategy by providing more specific and targeted directions for each district. The districts strategies guide the strategic management of growth and change on a district scale in the context of green and blue spaces, good travel connections, housing, employment growth and support commercial areas.

The proposal is consistent with the relevant District Strategies because the zoning for most of the sites that are being removed from the FUA overlay is being confirmed as is, or is rezoned to urban open space or river corridor. This is consistent with the initiative for blue-green network.

This amendment is also consistent with other drivers and initiatives of the district strategies. These are considered further in the table below.

MAJOR PLAN AMENDMENT 05 – APPROVED VERSION

Site	Relevant District Strategy	Compliance with drivers and initiatives
Bluetts Block- remove FUA (Stromlo and Denman Prospect)	Molonglo Valley	Blue-green network preservation and expansion. Identified as part of the ecological network.
Coombs Peninsula and Molonglo River Reserve – remove FUA and set zoning	Molonglo Valley	Blue-green network preservation and expansion. Coombs peninsula is identified as part of the ecological network which is consistent with zoning the site river corridor. The river corridor is identified as part of the ecological network and protected river corridor.
Denman Prospect – set zoning (retain FUA)	Molonglo Valley	Blue-green network preservation and expansion. The river corridor is identified as part of the ecological network and protected river corridor. This is consistent with adding 3.5 hectares to the river corridor.
Molonglo Valley – infrastructure sites – remove FUA and set zoning	Molonglo Valley Belconnen	The changes will facilitate integrated infrastructure planning initiative.
Gungahlin Town Centre – remove FUA and set zoning	Gungahlin	Blue-green network preservation and expansion. The changes will facilitate the inclusive centres and communities initiative.

MAJOR PLAN AMENDMENT 05 – APPROVED VERSION

Amaroo Urban Open Space – remove FUA and set zoning	Gungahlin	Blue-green network preservation and expansion. Identified as urban open space which is consistent with zoning the site urban open space.
Weston Urban Open Space – remove FUA and set zoning	Weston Creek	Blue-green network preservation and expansion. Identified as part of the ecological network which is consistent with zoning the site urban open space.

Any current or proposed amendments of, or of policies in, the Territory Plan

Policies within the Territory Plan are key to shaping places and communities in the ACT, implementing strategic planning objectives, protecting and minimising the impacts on our environment, and establishing future urban form and development patterns. The policies outline the desired outcomes that are important to a district or zone, and include assessment outcomes and key assessment requirements that must be met by proposed development.

The proposal is consistent with the relevant policy outcomes in the Belconnen District Policy, Gungahlin District Policy, Weston Creek District Policy, and the Non-Urban District Policy.

The statement of planning priorities

The relevant minister responsible for planning and sustainable development can set a statement of planning priorities. These planning priorities must arise from the planning strategy and contain actions to be taken in the short to medium term to achieve the priorities.

The removal of land from the FUA is not inconsistent with the 2024-2025 Statement of Planning Priorities. Specifically, one of the priorities is to facilitate environmental protection of block 403 Stromlo and block 12 section 1 Denman Prospect (Bluetts block).

Anything else the territory planning authority considers relevant to the amendment

Coombs Peninsula

On 14 May 2025, the ACT Legislative Assembly passed a Resolution seeking to protect Coombs Peninsula from future development. Specifically, the resolution called on the ACT Government to:

- (a) remove the Coombs Peninsula from the land release program and rezone it to be consistent with the rest of the Molonglo River corridor, for example the Non-Urban NUZ4- River Corridor Zone; and*
- (b) report back to the Assembly by 3 September 2025 with the rezoning paperwork for the Minister to refer to the appropriate committee.*

The changes have been incorporated into this DPA consistent with the resolution of the Legislative Assembly. Coombs peninsula is proposed to be rezoned to NUZ4 Non Urban River Corridor to form part of the Molonglo River Reserve and be protected by a 'Pd' special purpose reserve overlay. The ACT Government formally responded to the resolution of the Legislative Assembly on 3 September 2025, and outlined the public consultation period and that following consideration of comments the Authority may revise the DPA prior to giving it to the Minister to refer to the Standing Committee on Environment and Planning, in accordance with usual MPA processes. This is the revised DPA given to the Minister that will be referred to the Committee.

Bluetts Block

On the 10 April 2025 the ACT Legislative Assembly passed a Resolution calling on the ACT Government to protect the Western Edge and Eastern by undertaking a number of actions. One of these actions included to following, which is relevant to this DPA:

- c) removing the Future Urban Area overlay for Block 403 and part Block 12 Section 2 Denman Prospect and implementing this by releasing an amendment to the Territory Plan by 30 June 2025.*

Under the Molonglo Valley Plan for the Protection of Matters of National Environmental Significance (NES Plan) that was endorsed by the relevant Commonwealth Minister on 7 October 2011, minor changes to the Molonglo River reserve as permitted to ensure conservation outcomes of the corridor are maintained. In this instance, these changes are being undertaken through the DPA, as opposed to a subdivision design application.

Separately to DPA-05, the ACT Government is working to program the delivery of the 'missing link' in the shared path adjacent to Edgeworth Parade and Annabelle View at Coombs peninsula.

4.0 REASONS FOR THE MAJOR PLAN AMENDMENT

A supporting report was prepared for the proposed DPA (included in this MPA) at Section 3.0 in this document. The supporting report outlines:

- the need for the proposed amendment.
- the positive and negative impacts of the proposed amendment.
- how the proposed amendment would give effect to the planning strategy and any relevant district strategy.
- how the proposed amendment would be consistent or inconsistent with relevant planning outcomes contained in other government strategies and policies.
- any consultation undertaken including with relevant entities who may have an interest in the proposed amendment.

An FUA overlay generally indicates an intention that land will be used for urban purposes in the future. The overlay is generally placed over rural or undeveloped areas, for example the Molonglo Valley.

Over time, subdivision design applications consider how the land can be effectively used for urban purposes and, following the approval of the application, zones and block boundaries are set. Subsequently, FUA overlays can be uplifted through a minor amendment, in accordance with the Act. In some circumstances, like with many of the sites subject to this MPA, there may be land which has been placed under an FUA which is not subject to a subdivision design application. In this instance, a major plan amendment may be required to remove the FUA and set zoning.

The sites where a FUA overlay is being removed and zones confirmed is explained in section 2.2 of this document. The uplifting of a FUA overlay enables final zoning to be set, giving certainty to where land may be developed for urban purposes, remain as open space or as a reserve, such as the Molonglo River Reserve.

The reasons for undertaking this major plan amendment can be summarised as:

- Allowing land to be developed for urban purposes and in some instances recognising the exiting uses of sites by removing the FUA overlay.
- Protecting non-urban land and land from development within a reserve (i.e. nature and special purpose reserves).

5.0 CONSULTATION

5.1 Consultation with entities

In accordance with section 62 of the Planning Act the Authority must consult with each of the following in relation to this MPA:

- the National Capital Authority
- the Conservator of Flora and Fauna
- the Environment Protection Authority
- the Heritage Council
- each referral entity
- if unleased or leased public land, each custodian of the land likely to be affected.

5.2 Consultation with the public

Written comments were invited from the public on this MPA from 30 June 2025 to 11 August 2025.

Seven comments were received during the public consultation period.

Comments received from the public during the consultation period were considered by the Minister in approving this MPA.

6.0 MAJOR PLAN AMENDMENT 05

This section details how MPA-05 amends the Territory Plan.

6.1 Amendment to the Territory Plan Map

The relevant part of the Territory Plan map is varied in accordance with Figures 24 to 30 below.
