

Australian Capital Territory

Building Regulations 1972 No 8

made under the

Building Act 1972

Republication No 11

Effective: 9 September 2003 - 31 August 2004

Republication date: 9 September 2003

Last amendment made by A2003-38

Authorised by the ACT Parliamentary Counsel

About this republication

The republished law

This is a republication of the *Building Regulations 1972*, made under the *Building Act 1972* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 9 September 2003. It also includes any amendment, repeal or expiry affecting the republished law to 9 September 2003.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced or is affected by an uncommenced amendment, the symbol **U** appears immediately before the provision heading. The text of the uncommenced provision or amendment appears only in the last endnote.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see *Legislation Act 2001*, section 95.

Penalties

The value of a penalty unit for an offence against this republished law at the republication date is—

- (a) if the person charged is an individual—\$100; or
- (b) if the person charged is a corporation—\$500.

Australian Capital Territory

Building Regulations 1972

made under the

Building Act 1972

1 Name of regulations

These regulations are the *Building Regulations 1972*.

2 Dictionary

The dictionary at the end of these regulations is part of these regulations.

Note 1 The dictionary at the end of these regulations defines certain words and expressions used in these regulations, and includes references (*signpost definitions*) to other words and expressions defined elsewhere in these regulations or in other legislation, the building code or the Australian standards.

For example, the signpost definition '*registered construction practitioner*—see the *Construction Practitioners Registration Act 1998*, section 3.' means that the expression 'registered construction practitioner' is defined in that section and the definition applies to these regulations.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire regulation unless the definition, or another provision of the regulation, provides otherwise or the contrary intention otherwise appears (see *Legislation Act 2001*, s 155 and s 156 (1)).

2A Notes

A note included in these regulations is explanatory and is not part of these regulations.

Note See *Legislation Act 2001*, s 127 (1), (4) and (5) for the legal status of notes

3 Specialist building work

(1) For the Act, section 5, definition of *specialist building work* the following building work is prescribed:

- (a) the installation of a swimming pool;
- (b) the erection of a prefabricated building;

- (c) the installation of a mechanical ventilation system in a building, the modification of the structure of a mechanical ventilation system installed in a building or the removal from a building of a mechanical ventilation system that has been installed in it;
 - (d) building work that involves the handling of asbestos or the disturbance of loose asbestos;
 - (e) the demolition of a building;
 - (f) the erection of an outbuilding.
- (2) For subregulation (1) (d), the handling of asbestos does not include the handling of stable asbestos cement sheeting that forms part of a residential building.

4 Prescribed buildings

- (1) For the Act, section 6AA, each of the following buildings is a prescribed building:
- (a) a fence or wall that—
 - (i) does not exceed 1.8m in height; and
 - (ii) does not form an integral part of an enclosure for a swimming pool;
 - (b) a retaining wall the top of which does not exceed 1.2m above the lower ground level;
 - (c) a carport or, subject to subregulation (2), a pergola—
 - (i) the plan area of which does not exceed 25m²; and
 - (ii) the height of which does not exceed 3m; and
 - (iii) the distance between any 2 adjacent supports of which does not exceed 4m; and

- (iv) if it is attached to an approved building—that does not project above the line of any adjacent guttering on that building;
 - (d) a shed, gazebo, greenhouse or similar structure the roof area of which does not exceed 10m²;
 - (e) an external timber deck the height of the floor level of which does not exceed 1m above ground level;
 - (f) an antenna or aerial not exceeding 5m in height;
 - (g) a swimming pool the capacity of which does not exceed 10m³ and designed to be assembled and installed above ground level;
 - (h) an internal alteration to an approved building the effect of which does not alter the classification of the building;
 - (i) an outdoor ornamental pond the depth of which does not exceed 300mm;
 - (j) a barbeque, letterbox, or other structure, having a plan area not exceeding 2m² and that is not more than 1.8m high;
 - (k) a water tank—
 - (i) having a capacity not exceeding 17kL; and
 - (ii) the top of which is not more than 2.4m above ground level; and
 - (iii) that is not connected to the water supply of the ACTEW Corporation Limited.
- (2) Subregulation (1) (c) (i) applies to a roofed pergola.
- (3) Subregulation (1) does not apply if—
- (a) the building work in relation to the prescribed building affects—
 - (i) the structural sufficiency, soundness or stability of part of any approved building; or

- (ii) a fire-rated wall, ceiling or floor;
 - (iii) any ventilation or air-handling system, fire protection system or other mechanical service; or
 - (iv) any fire-escape, emergency lift, stairway, exit or passageway to an exit; or
- (b) the building proposed to be built adversely affects the provision of natural light or ventilation to any approved building.

5 Applications for owner-builder licences

For the Act, section 23A (2) (c), the following information is prescribed:

- (a) the full name of the applicant;
- (b) an address to which correspondence to the applicant may be sent;
- (c) a telephone number at which the applicant may be contacted;
- (d) if the applicant has either—
 - (i) been granted an endorsement in a building permit under the Act, section 39 (1) as in effect immediately before the commencement of this subparagraph; or
 - (ii) held an owner-builder licence;during the 5 years immediately before the application—the details of that permit or licence, including the location and nature of the work permitted under the permit or licence.

6 Qualifications for certifiers and government certifiers for categories of building work—Act, s 30 (1) (b)

- (1) A principal building surveyor or principal government building surveyor is qualified for any building work.

(2) A building surveyor or government building surveyor is qualified for building work in relation to a building—

- (a) that is 3 storeys or lower; and
- (b) with a floor area not larger than 2 000m².

(3) In this regulation:

building surveyor means a person registered in the category of building surveyor under the CPR Act.

CPR Act means the *Construction Practitioners Registration Act 1998*.

government building surveyor means a person registered in the category of government building surveyor under the CPR Act.

principal building surveyor means a person registered in the category of principal building surveyor under the CPR Act.

principal government building surveyor means a person registered in the category of principal government building surveyor under the CPR Act.

6A Criteria for appointment of government certifier—Act, s 31A (4)

The criteria for the appointment of a government certifier for building work are—

- (a) a building approval for the work is in force; and
- (b) a licensed builder has started the work; and
- (c) the owner of the land where the work is being carried out cannot, after making reasonable efforts, appoint a certifier for the work.

7 Applications—copies of plans

For the Act, section 33A (3) (c), the prescribed number of copies of the plans is 3.

8 Applications—general requirements

For the Act, section 33A (3) (e), the following are prescribed requirements in relation to all applications:

- (a) an application shall contain an estimate of the cost of the building work calculated in accordance with a method determined by the building controller;
- (b) if building work is proposed to be carried out at or near a street or place that is open to or used by the public—an application shall contain particulars of the precautions proposed to be taken to protect the safety of persons using that street or place during the period when the building work is to be carried out;
- (c) an application shall contain a waste management plan unless the application is in relation to building work that solely involves—
 - (i) the erection of a building; or
 - (ii) the alteration of a class 1, class 2 or class 10a building;
- (d) an application shall specify the area of the parcel of land.

9 Applications—erection or alteration of buildings

- (1) For the Act, section 33A (3) (e), the following are prescribed requirements in relation to an application in relation to building work that involves the erection or alteration of a building:
 - (a) the application shall specify the class of the building, as provided by the building code, according to the intended use of the building as proposed to be erected or altered;

- (b) the application shall specify, in accordance with the classification provided by the building code, the type of construction of the building as proposed to be erected or altered;
- (c) if an application relates to the erection or alteration of a class 1 or class 10a building, the application shall set out, in accordance with the classification provided by the building code, the site classification of the parcel of land;
- (d) if an application relates to the alteration of a building—the application shall specify—
 - (i) the class and type of construction of the existing building classified as provided by the building code according to occupancy; and
 - (ii) the materials used in the existing building;
- (e) the application shall specify the number of storeys of the building as proposed to be erected or altered;
- (f) the application shall specify the number of new dwellings (if any) created by the building work;
- (g) the application shall specify the floor area of the proposed building or proposed new part of the building, as the case requires;
- (h) the application shall specify the materials to be used in the frame, floor, walls and roof of the proposed building or proposed new part of the building, as the case requires;
- (i) if it is proposed that an alternative solution be used to comply with a performance requirement of the building code—the application shall specify—
 - (i) the performance requirement; and
 - (ii) the alternative solution; and

- (iii) each assessment method used to show that the alternative solution complies with the performance requirement;
 - (j) if the building code does not specify a standard of work in relation to any part of the proposed building work and it is intended to carry out that part of the proposed building work in accordance with a standard of work specified in another document—the application shall specify—
 - (i) the nature of the proposed building work; and
 - (ii) the title of the document; and
 - (iii) each assessment method used to show that the proposed building work complies with the standard of work specified in the document.
- (2) In this regulation:

assessment method—see the building code.

performance requirement—see the building code.

10 Applications—removal or demolition of buildings

For the Act, section 33A (3) (e), the following are prescribed requirements in relation to an application in relation to building work that involves the removal or demolition of a building:

- (a) the application shall contain details of the methods to be employed in the execution of the building work including a work plan specified or set out in Australian Standard 2601 as in effect on the day this paragraph commences;
- (b) the application shall specify the number of dwellings demolished, if any.

11 Applications—asbestos removal requirements

- (1) For the Act, section 33A (3) (e), if an application in relation to building work involves the removal of stable asbestos cement

sheeting from a residential building, the application shall contain a statement describing the method proposed to be used to remove the sheeting from the building.

- (2) For the Act, section 33A (3) (e), the following are prescribed requirements in relation to an application in relation to building work that involves the removal of asbestos, other than stable asbestos cement sheeting, from a residential building:
- (a) the application shall contain a statement describing—
 - (i) the method proposed to be used to remove the asbestos; and
 - (ii) the approximate quantity and type of asbestos to be removed; and
 - (iii) the equipment to be used to remove the asbestos, including any personal protective equipment;
 - (b) the application shall include a program for monitoring airborne asbestos, prepared in accordance with the building code.

12 Plans—general requirements

- (1) For the Act, section 34 (1) (c), the following are prescribed requirements in relation to plans to accompany all applications:
- (a) the plans, other than existing plans, shall be drawn in accordance with Australian Standard 1100 as in effect on the day this paragraph commences;
 - (b) the plans shall show any area marked on a certificate of title or deposited plan as an easement;
 - (c) the plans shall show any point of connection of a pipe on the parcel of land to—
 - (i) the sewerage system; and
 - (ii) the water main; and

(iii) the stormwater system;

and, if a point of connection is proposed to be altered during the building work, the plans shall show the proposed alteration;

(d) the plans shall show the proposed surface stormwater drainage on the parcel of land as at the completion of the proposed building work;

(e) the plans shall include a site plan on a scale of not less than 1:200 showing the block, section, boundaries and dimensions of the parcel of land.

(2) In this regulation:

easement—see the Act, section 42S.

stormwater system—the *Environment Protection Act 1997*.

the sewerage system—see Australian Standard 3500 as in effect on 1 March 1999.

water main—see Australian Standard 3500 as in effect on 1 March 1999.

13 Plans—erection or alteration of buildings

(1) For the Act, section 34 (1) (c), the following are prescribed requirements in relation to plans to accompany an application in relation to building work that involves the erection or alteration of a building:

(a) any section shown on the plans shall be on a scale of not less than 1:100;

(b) any detail shown on the plans shall be on a scale of not less than 1:50;

(c) the plans shall specify the dimensions of all parts, including the footings, of the proposed building or proposed new part of the building, as the case requires;

- (d) unless the application relates solely to the erection of a new building, the plans shall—
 - (i) include the most recent existing plans, including any amendments made to the plans during the building work to which the plans relate; and
 - (ii) show the existing building and the proposed alterations on the same plan in such a way that the existing building and the proposed new part of the building are clearly distinguishable;
 - (e) the plans shall show floor plans, sections and elevations (including existing and finished ground levels) to scale and structural details of the proposed building or proposed new part of the building, as the case requires;
 - (f) if any part of the building that is proposed to be erected or altered is designed to be used as a class 5, class 6, class 7, class 8 or class 9 building—the plans shall specify the maximum live load for that part;
 - (g) the plans shall specify the construction and materials to be used in the proposed building or in the proposed new part of the building, as the case requires;
 - (h) the plans shall show the location of any stormwater downpipe on the proposed building or on the proposed new part of the building, as the case requires.
- (2) In this regulation:

detail—see Australian Standard HB 50 as in effect on the day on which this regulation commences.

section—see Australian Standard HB 50 as in effect on the day on which this regulation commences.

14 Plans—asbestos removal requirements

- (1) If an application is for the approval of building work that involves the removal of stable asbestos cement sheeting, it is a requirement for the Act, section 34 (1) (c), that the accompanying plans show the location of that sheeting.
- (2) For the Act, section 34 (1) (c), the following are prescribed requirements in relation to the plans to accompany an application in relation to building work that involves the removal of asbestos, other than stable asbestos cement sheeting, from a residential building:
 - (a) the plans shall show the location of any asbestos that is to be removed during the building work;
 - (b) the plans shall show the boundary of the area where the persons removing the asbestos will be working;
 - (c) the plans shall show any place on the parcel of land where asbestos that has been removed from the building is to be stored;
 - (d) the plans shall show the location of any decontamination facility, air filter and air supply equipment proposed to be used during the building work on the parcel of land.
- (3) In this regulation:
 - air filter*—see the building code.
 - air supply equipment*—see the building code.
 - decontamination facility*— see the building code.

15 Consultation and consent

- (1) The requirements for the Act, section 34 (1) (d), are that the following consultations take place or consents or approvals be obtained:
 - (a) any consent or approval required under a Territory law in relation to the proposed building work;
 - (b) if the building work is, or forms part of, a development requiring approval under the Land Act, part 6.2—approval of the development;
 - (c) if the approval referred to in paragraph (b) contains conditions precedent to the commencement of building work—compliance with those conditions;
 - (d) if the parcel of land is in a designated area—approval under the *Australian Capital Territory (Planning and Land Management) Act 1988* (Cwlth), section 12;
 - (e) if the building work involves the erection or alteration of a lift—a permit under the *Scaffolding and Lifts Regulations 1950*, regulation 17;
 - (f) consultation with ACTEW Corporation Limited in relation to—
 - (i) the demolition of any building to which electricity, water or sewerage services are supplied or to which an electricity or water meter is connected; and
 - (ii) any encroachment of the proposed building or proposed new part of the building, as the case requires, onto an easement; and
 - (iii) the disposal of any non-domestic waste into the sewerage system;
 - (g) consultation with the fire commissioner and the chief fire control officer in relation to—

- (i) any use of an alternative solution in relation to a provision of the building code which deals with fire protection; and
 - (ii) any proposed building or proposed new part of a building, as the case requires, with a floor area exceeding 500m² that is not a class 1 or class 10 building;
 - (h) consultation with the chief executive in relation to—
 - (i) if the building work may involve the removal of asbestos—the relevant procedures; and
 - (ii) procedures to be used in the demolition of any building of class 2, class 3, class 4, class 5, class 6, class 7, class 8 or class 9; and
 - (iii) any waste management plan provided in the application;
 - (i) if it is proposed that the new building or new part of the building is to be used for the sale or supply of liquor—consultation with the registrar of liquor licences in relation to occupancy loading and kitchen, bar and toilet facilities;
 - (j) consultation with the chief health officer in relation to the application of any health law to the proposed new building or new part of the building, as the case requires;
 - (k) consultation with the environment protection authority—
 - (i) if it is proposed that the new building or new part of the building, as the case requires, is to be used to conduct a class A or class B activity; or
 - (ii) if an accredited code of practice is applicable to an activity intended to be carried out in the new building or new part of the building, as the case requires.
- (2) It is sufficient compliance with the obligation to consult under subregulation (1) (f), (g), (h), (i), (j) or (k) if—

- (a) notification of the details of an application for a building approval is given to the person with whom consultation is to take place; and
 - (b) 10 working days have elapsed since it has been given.
- (3) In this regulation:

accredited code of practice means a code accredited under the *Environment Protection Act 1997*, section 31 (1).

chief inspector—see the *Scaffolding and Lifts Act 1912*, dictionary.

class A activity means an activity listed in the *Environment Protection Act 1997*, schedule 1, clause 2.

class B activity means an activity listed in the *Environment Protection Act 1997*, schedule 1, clause 3.

designated area—see the *Australian Capital Territory (Planning and Land Management) Act 1988* (Cwlth).

health law means a Territory law that has as 1 of its objects or purposes the protection of public health.

16 Stages of building work

- (1) For the Act, section 38A (1), the prescribed stages of building work are—
- (a) completion of—
 - (i) excavation; and
 - (ii) placement of formwork; and
 - (iii) placement of steel reinforcing;for the footings but before any concrete for the footings is poured; and

- (b) completion of the structural framework and, for a class 1 or class 10 building, before the placement of any internal lining; and
 - (c) completion of placement of formwork, and placement of steel reinforcing, for—
 - (i) for a class 1 or class 10 building—any reinforced concrete member; and
 - (ii) in any other case—any reinforced concrete member specified by the certifier in the relevant building approval;but before any concrete for the member is poured; and
 - (d) completion of the building work approved in the relevant building approval.
- (2) In this regulation:
class 10, in relation to a building—see the building code.

17 Consent or approval on completion of building work

For the Act, section 40 (1) (f), the following consents or approvals are prescribed:

- (a) if an approval for building work given under the Land Act is subject to a condition—the approval of the person who gave that condition to the way in which the condition has been satisfied;
- (b) approval of the installation of any fire appliance in the new building or new part of the building, as the case requires, under the *Fire Brigade Regulations 1958*, regulation 3 (4);
- (c) approval under the *Scaffolding and Lifts Regulations 1950*, regulation 21.

18 Cost of work—Act, s 61 (1) (c)

The Act, part 6 does not apply in relation to residential building work if the cost of the work is less than \$12 000.

19 End of statutory warranties—Act, s 62 (3)

- (1) The prescribed period for the end of the warranties is—
 - (a) for residential building work in relation to a structural element—6 years; and
 - (b) for residential building work in relation to a non-structural element—2 years.

- (2) In this regulation—

non-structural element, of a building, means a component of the building that is not a structural element.

structural element, of a building, means—

- (a) an internal or external load-bearing component of the building that is essential to the stability of the building or any part of it; or
- (b) any component (including weatherproofing) forming part of the external walls or roof of the building.

Examples for par (a)

a foundation, floor, wall, roof, column or beam

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

20 Residential building work insurance

- (1) For the Act, section 64 (1) (b), the prescribed amount is \$85 000.
- (2) For the Act, section 64 (1) (c) and (d), the prescribed period is 5 years.

- (3) For the Act, section 64 (1) (i), the prescribed period is 90 days.
- (4) For the Act, section 64 (2), the prescribed amount is \$500.
- (5) For the Act, section 64 (7) (f), the prescribed amount is \$10 000.

20A Exempt buildings

- (1) The following buildings are exempt from the operation of the Act:
 - (a) bridges;
 - (b) dams;
 - (c) retaining walls that are associated with bridges, dams or roads;
 - (d) temporary buildings, other than dwelling places, erected on the site of the construction of bridges, dams or roads if the buildings are to be removed on completion of the work;
 - (e) stiles;
 - (f) mesh fences less than 3m in height;
 - (g) prefabricated bus shelters;
 - (h) prefabricated playground equipment;
 - (i) signs associated with roads;
 - (j) electricity network distribution equipment;
 - (k) reservoirs
 - (l) aqueducts;
 - (m) water and sewage treatment works;
 - (n) stormwater outfalls.
- (2) Poles and masts are exempt from the operation of the Act if they are the property of—
 - (a) the Territory; or

- (b) the Commonwealth; or
- (c) a public authority of the Territory or the Commonwealth; or
- (d) the provider of an electricity supply or telephone service.

21 Giving copies of documents

Copies of plans submitted in accordance with the Act shall not be given except in accordance with the instructions of—

- (a) the lessee or the owner of the parcel of land where the building to which the plans relate is erected; or
- (b) if the plans relate to a unit within the meaning of the *Unit Titles Act 2001*—the proprietor of the unit.

22 Exemptions for photovoltaic panels, solar water heaters and airconditioners

- (1) The Act, parts 3 and 6 do not apply to building work for the installation, alteration or removal of—
 - (a) an externally mounted photovoltaic panel or solar water heater for a class 1 or class 10a building, if the building work—
 - (i) does not involve any alteration that would affect the structural sufficiency or stability of the building; and
 - (ii) complies with the building code; or
 - (b) an externally mounted airconditioning unit for a class 1 or class 10a building, if—
 - (i) the building work does not involve any alteration that would affect the structural sufficiency or stability of the building; and
 - (ii) the building work complies with the building code; and
 - (iii) the unit is not the main source of ventilation—

- (A) if the unit is installed for a particular room—for that room; or
- (B) if the unit is installed for a building—for that building.

Note The building code includes standards for load bearing and waterproofing.

(2) In this regulation:

solar water heater, for a building, means a solar water panel designed to be mounted externally, together with any hot-water tank that holds water heated by the panel.

Dictionary

(see reg 2)

Note 1 The *Legislation Act 2001* contains definitions and other provisions relevant to this Act.

Note 2 In particular, the *Legislation Act 2001*, dict, pt 1, defines the following terms:

- chief health officer
- chief fire control officer
- environment protection authority
- fire commissioner
- working day.

alternative solution—see the building code, clause A1.1.

class 2, class 3, class 4, class 5, class 6, class 7, class 8 and class 9, for a building—see the building code, clause A3.2.

dwelling means a residence.

existing plans, in relation to plans for the alteration or demolition of a building, means approved plans in relation to the existing building on the parcel of land.

registered construction practitioner—see the *Construction Practitioners Registration Act 1998*, section 3.

residential building—see the Act, section 59.

site plan—see Australian Standard HB 50-1994 as in effect on 1 December 2000.

Endnotes

1 About the endnotes

Amending and modifying laws are annotated in the legislation history and the amendment history. Current modifications are not included in the republished law but are set out in the endnotes.

Not all editorial amendments made under the *Legislation Act 2001*, part 11.3 are annotated in the amendment history. Full details of any amendments can be obtained from the Parliamentary Counsel's Office.

Uncommenced amending laws and expiries are listed in the legislation history and the amendment history. These details are underlined. Uncommenced provisions and amendments are not included in the republished law but are set out in the last endnote.

If all the provisions of the law have been renumbered, a table of renumbered provisions gives details of previous and current numbering.

The endnotes also include a table of earlier republications.

If the republished law includes penalties, current information about penalty unit values appears on the republication inside front cover.

2 Abbreviation key

am = amended	ord = ordinance
amdt = amendment	orig = original
ch = chapter	p = page

3 Legislation history

3 Legislation history

These regulations were originally called the *Building Regulations* and were originally made under a Commonwealth ordinance—the *Building Ordinance 1972* No 26 (Cwlth).

The *Australian Capital Territory (Self-Government) Act 1988* (Cwlth), s 34 (4) converted most former Commonwealth ordinances in force in the ACT, and the regulations made under them, into ACT enactments. This allowed the ACT Legislative Assembly to amend and repeal the laws. The *Building Ordinance 1972* and the *Building Regulations* were converted into ACT enactments on 11 May 1989 (self-government day).

As with most ordinances in force in the ACT, the name of the ordinance was changed from *Ordinance* to *Act* by the *Self-Government (Citation of Laws) Act 1989* No 21, s 5 on 11 May 1989 (self-government day).

These regulations were renamed as the *Building Regulations 1972* by the *Statute Law Amendment Act 2001*, amdt 3.2.

Before 12 September 2001, regulations commenced on their notification day unless otherwise stated (see *Interpretation Ordinance 1914* s 5, *Interpretation Ordinance 1937* s 16, *Interpretation Act 1967* s 50, *Subordinate Laws Act 1989* s 6).

5 Earlier republications

5 Earlier republications

Some earlier republications were not numbered. The number in column 1 refers to the publication order.

Since 12 September 2001 every authorised republication has been published in electronic pdf format on the ACT legislation register. A selection of authorised republications have also been published in printed format. These republications are marked with an asterisk (*) in column 1. Except for the footer, electronic and printed versions of an authorised republication are identical.

Republication No	Amendments to	Republication date
1	SL 1991 No 23	30 September 1991
2	SL 1992 No 33	30 April 1993
3	SL 1996 No 3	31 March 1996
4	SL 1998 No 40	31 July 1999
