

Australian Capital Territory

Environment Protection Regulation 2005

SL2005-38

made under the

Environment Protection Act 1997

Republication No 40

Effective: 11 July 2024 – 15 August 2024

Republication date: 11 July 2024

Last amendment made by [A2024-35](#)

About this republication

The republished law

This is a republication of the *Environment Protection Regulation 2005*, made under the *Environment Protection Act 1997* (including any amendment made under the [Legislation Act 2001](#), part 11.3 (Editorial changes)) as in force on 11 July 2024. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 11 July 2024.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the [Legislation Act 2001](#) applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The [Legislation Act 2001](#), part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see [Legislation Act 2001](#), s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the [Legislation Act 2001](#), section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$160 for an individual and \$810 for a corporation (see [Legislation Act 2001](#), s 133).

Australian Capital Territory

Environment Protection Regulation 2005

made under the

Environment Protection Act 1997

Part 1 Preliminary

1 Name of regulation

This regulation is the *Environment Protection Regulation 2005*.

3 Dictionary

The dictionary at the end of this regulation is part of this regulation.

Note 1 The dictionary at the end of this regulation defines certain terms used in this regulation, and includes references (*signpost definitions*) to other terms defined elsewhere.

For example, the signpost definition ‘*built-up area*—see the [Emergencies Act 2004](#), section 6A.’ means that the term ‘built-up area’ is defined in that section and the definition applies to this regulation.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire regulation unless the definition, or another provision of the regulation, provides otherwise or the contrary intention otherwise appears (see [Legislation Act](#), s 155 and s 156 (1)).

4 Notes

A note included in this regulation is explanatory and is not part of this regulation.

Note See the [Legislation Act](#), s 127 (1), (4) and (5) for the legal status of notes.

5 Offences against regulation—application of Criminal Code etc

Other legislation applies in relation to offences against this regulation.

Note 1 Criminal Code

The [Criminal Code](#), ch 2 applies to all offences against this regulation (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 Penalty units

The [Legislation Act](#), s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Part 2 Emissions into the air

Division 2.1 Application of pt 2

- Note 1* The Act does not apply to a pollutant emitted into the air by—
- (a) a light rail vehicle or other train; or
 - (b) a Commonwealth jurisdiction aircraft; or
 - (c) a person using only the person's body; or
 - (d) an animal; or
 - (e) a motor vehicle being driven on a road, unless it—
 - (i) is being driven on the road to conduct reliability trials or speed tests; and
 - (ii) has been exempted under the road transport legislation from the provisions of that legislation about attaching silencers to the exhaust pipes of motor vehicles, rules of the road and speed limits during the trials or tests (see [Act](#), s 8 (1)).

Note 2 A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

6 Application of pt 2 to tobacco products

This part does not apply to the lighting or smoking of a cigar, cigarette or pipe.

Division 2.2 Chimney emissions causing environmental harm

7 Meaning of *national emission guidelines* for div 2.2

In this division:

national emission guidelines means the guidelines called the 'National guidelines for control of emission of air pollutants from new stationary sources 1985' published by the Australian Environment Council and the National Health and Medical Research Council, as in force immediately before it was rescinded.

8 Chimney emissions—pollutants taken to cause environmental harm—Act, s 5 (a)

- (1) This section applies to a pollutant mentioned in the national emission guidelines, table 1 or table 2 that is emitted into the air through a chimney.
- (2) The pollutant is taken to cause environmental harm if the amount of the pollutant emitted into the air from a source stated in the guidelines for the pollutant is more than the standard stated in the guidelines for the source.
- (3) Subsection (2) does not apply if the pollutant is emitted in the circumstances mentioned in schedule 1, part 1.1 (Chimney emissions), column 2 in accordance with the conditions (if any) mentioned in schedule 1, part 1.1, column 3 for the activity.

Division 2.3 Open-air fires

9 Open-air fires prohibited except in certain circumstances

- (1) A person commits an offence if the person lights, uses or maintains a fire in the open air.

Maximum penalty: 5 penalty units.

Note The [Emergencies Act 2004](#) contains an offence about lighting etc fire during total fire ban (see s 116).

- (2) Subsection (1) does not apply to the person if the person lights, uses or maintains the fire for an activity mentioned in schedule 1, part 1.2 (Open-air fires), column 2 in accordance with the conditions (if any) mentioned in schedule 1, part 1.2, column 3 for the activity.

Note The defendant has the evidential burden of establishing the matters mentioned in s (2) (see [Criminal Code](#), s 58).

- (3) Subsection (1) does not apply to a fire to which the [Act](#), schedule 1, section 1.2, table, item 28 relates.

Note Item 28 relates to burning plant matter to reduce a fire hazard, to clear land or to conserve biological diversity or ecological integrity. For offences in relation to these activities, see the [Act](#), pt 8 (Environmental authorisations).

- (4) An offence against this section is a strict liability offence.

Division 2.4 Burning, fires and firewood

10 Burning certain substances requires environmental authorisation

- (1) A person commits an offence if the person—
- (a) burns 1 or more of the following substances:
 - (i) a synthetic plastic or other synthetic polymer;
 - (ii) wood that—
 - (A) is painted, chemically treated or contaminated with a chemical; and
 - (B) has not been approved for sale or supply by the authority and chief health officer;
 - (iii) a chemical other than a chemical recommended by the manufacturer as fuel for a fire; and
 - (b) either—
 - (i) does not have an environmental authorisation for burning the substance; or

- (ii) has an environmental authorisation for burning the substance, but the burning is not in accordance with the authorisation.

Maximum penalty: 10 penalty units.

Note Environmental authorisations are dealt with in the [Act](#), pt 8.

- (2) Subsection (1) does not apply to anything done in accordance with a direction under the [Animal Diseases Act 2005](#), section 27 (Destruction of infected animals etc—endemic disease) or section 29 (Destruction of infected animals etc—exotic disease).
- (3) A person commits an offence if the person—
 - (a) burns 1 or more of the following substances:
 - (i) waste;
 - (ii) unseasoned wood; and
 - (b) either—
 - (i) does not have an environmental authorisation for burning the substance; or
 - (ii) has an environmental authorisation for burning the substance, but the burning is not in accordance with the authorisation.

Maximum penalty: 10 penalty units.

- (4) Subsection (3) does not apply—
 - (a) to burning paper or cardboard for the purpose of starting a fire; or
 - (b) to anything done in accordance with a direction under the [Animal Diseases Act 2005](#), section 27 (Destruction of infected animals etc—endemic disease) or section 29 (Destruction of infected animals etc—exotic disease); or

- (c) in relation to the burning of waste on land in an area that is not in the built-up area by a person who is ordinarily resident on the land if—
 - (i) the waste is waste as a result of the person being the resident of the land; and
 - (ii) the burning happens on that land.
- (5) An offence against this section is a strict liability offence.

11 Fire bans in bad weather

- (1) This section applies if the Minister is satisfied that the existing or forecasted weather conditions mean a fire would—
 - (a) cause excessive environmental harm; or
 - (b) unnecessarily increase pollutants in the air.
- (2) The Minister may, in writing, declare that the lighting, using or maintaining of a fire in the open air is prohibited for the period stated in the declaration.
- (3) A declaration may be expressed to apply to all or part of the ACT.
- (4) The declaration must be—
 - (a) notified in a public notice; or
 - (b) broadcast in the ACT by a national or commercial broadcasting service.

Note **Public notice** means notice on an ACT government website or in a daily newspaper circulating in the ACT (see [Legislation Act](#), dict, pt 1).

- (5) A person commits an offence if the person contravenes a declaration.
Maximum penalty: 10 penalty units.
- (6) Subsection (5) does not apply if the person had a reasonable excuse.
- (7) This section does not apply to a fire only for cooking or heating food or drink.

- (8) An offence against this section is a strict liability offence.

12 Indoor fires prohibited unless harm minimised

- (1) A person commits an offence if the person lights, uses or maintains a fire in a place other than in the open air.

Maximum penalty: 5 penalty units.

- (2) Subsection (1) does not apply if—
- (a) the person takes all steps that are practicable and reasonable to prevent any environmental harm caused, or likely to be caused, by the emission of pollutants into the air from the fire; or
 - (b) if prevention is not reasonably practicable—the person takes all steps that are practicable and reasonable to minimise any environmental harm caused, or likely to be caused, by the emission of pollutants into the air from the fire.
- (3) An offence against this section is a strict liability offence.

13 Pollutants emitted from fires—exception for certain fires—Act, s 143 and s 166 (5)

A pollutant being emitted into the air from a fire is not taken to cause environmental harm unless burning the substance burned in the fire, or the lighting, using or maintaining of the fire, is an offence against any of the following sections:

- (a) section 9 (Open-air fires prohibited except in certain circumstances);
- (b) section 10 (Burning certain substances requires environmental authorisation);
- (c) section 11 (Fire bans in bad weather);
- (d) section 12 (Indoor fires prohibited unless harm minimised).

14 Conditions for sale or supply of firewood

- (1) This section applies to a person who—
 - (a) sells or supplies firewood in the ACT unless—
 - (i) the quantity of firewood sold or supplied is less than 100kg; or
 - (ii) the firewood is sold under a scheme in which an annual fee is paid for the right to collect waste softwood in pine plantations; or
 - (b) prepares firewood for sale or supply in the ACT.
- (2) The following conditions apply to the preparation, sale or supply of firewood by the person:
 - (a) if practicable, each buyer must be offered a choice of mixed wood loads;
 - (b) wood must be offered and supplied by weight, not by volume;
 - (c) each buyer must be given a written statement of the weight of the load supplied;
 - (d) if the load is a mixed wood load—the buyer must be given a written statement of the approximate weight of hardwood and softwood in the load;
 - (e) unseasoned wood must not be supplied;
 - (f) each buyer must be given a pamphlet supplied by the environment protection authority that sets out recommended wood burning practices and encourages compliance with those practices;
 - (g) each buyer must be given the following information:
 - (i) the common name and species (if known) of the wood;
 - (ii) the place from which the wood was originally taken;

(iii) the kind of wood;

Examples—par (g) (i)

box, gum, pine

Examples—par (g) (ii)

ACT pine forests, Cowra

Example—par (g) (iii)

residue from forestry processing operations of native forest timber

- (h) an annual report for a reporting year must be given to the environment protection authority by 31 January in the year following the reporting year;
- (i) wooden sleepers must only be obtained from a wholesaler who supplies sleepers in the ACT with the agreement of the chief health officer and the environment protection authority;
- (j) the sale or supply of wooden sleepers must be accompanied by an information sheet, agreed with the environment protection authority, about the risks of burning sleepers, including that sleepers should not be burnt in open fires or for cooking.

(3) A person commits an offence if the person—

- (a) prepares firewood for sale or supply; and
- (b) fails to comply with a condition mentioned in subsection (2).

Maximum penalty: 10 penalty units

(4) A person commits an offence if the person—

- (a) sells or supplies firewood; and
- (b) fails to comply with a condition mentioned in subsection (2).

Maximum penalty: 10 penalty units

(5) An offence against this section is a strict liability offence.

(6) In this section:

prepare, firewood for sale or supply, means cut, store or season the firewood.

reporting year means 1 January to 31 December.

14A Unapproved sale or supply of painted etc firewood—offence

(1) A person commits an offence if the person—

- (a) sells or supplies firewood that is painted, chemically treated or contaminated with a chemical; and
- (b) does not have the written agreement of the environment protection authority and the chief health officer to sell or supply the firewood.

Maximum penalty: 10 penalty units.

(2) An offence against this section is a strict liability offence.

Division 2.4A Solid fuel-burning equipment

14B Minimum overall efficiency—Act, sch 2, s 2.4 (1)

The prescribed minimum overall efficiency is 60%.

14C Maximum appliance particulate emission factor—Act, sch 2, s 2.4 (1)

The prescribed maximum appliance particulate emission factor is—

- (a) for a heater without a catalytic combustor—1.5g/kg; and
- (b) for a heater with a catalytic combustor—0.8g/kg.

Division 2.5 Air-filtration plants

15 Filters in air-filtration plants

- (1) An occupier of premises commits an offence if—
- (a) the premises contains an air-filtration plant; and
 - (b) the air-filtration plant vents into the air; and
 - (c) the air-filtration plant is operating; and
 - (d) the occupier removes a filter from the plant.

Maximum penalty: 10 penalty units.

- (2) An occupier of premises commits an offence if—
- (a) the premises contains an air-filtration plant; and
 - (b) the air-filtration plant vents into the air; and
 - (c) the occupier does not adequately maintain a filter in the plant.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.

Division 2.6 Balloons

16 Release of 20 or more balloons prohibited

- (1) A person commits an offence if—
- (a) the person releases 20 or more balloons at or about the same time; and
 - (b) 20 or more of the balloons are inflated with a gas that causes them to rise.

Maximum penalty: 10 penalty units.

Note A reference to an offence against a territory law includes a reference to a related ancillary offence, eg attempt (see [Legislation Act](#), s 189). This means an offence under this section also covers the offence of inciting the offence or conspiring to commit the offence.

- (2) An offence against this section is a strict liability offence.
- (3) In a prosecution for an offence against this section—
- (a) it is not necessary for the prosecution to establish the exact number of balloons released; and
 - (b) evidence that a balloon rose after being released is, in the absence of any evidence to the contrary, evidence that the balloon was inflated with a gas that caused it to rise.
- (4) This section is subject to the following sections:
- (a) section 17 (Balloons—exception if balloons not outside);
 - (b) section 18 (Balloons—exception for hot-air balloons);
 - (c) section 19 (Balloons—exception for science).

Note A person charged with an offence against s (1) has the evidential burden of proving anything mentioned in s 17, s 18 or s 19 (see [Criminal Code](#), s 58).

17 Balloons—exception if balloons not outside

Section 16 does not apply to the release of balloons if the balloons are released inside a building or structure and do not make their way into the open air.

18 Balloons—exception for hot-air balloons

Section 16 does not apply to the release of balloons if the balloons are hot-air balloons that are recovered after landing.

19 Balloons—exception for science

- (1) Section 16 does not apply to the release of balloons if the balloons are released for—
 - (a) a meteorological purpose; or
 - (b) another scientific purpose approved under subsection (2).
- (2) The environment protection authority may approve a scientific purpose for the release of balloons if the authority is satisfied that the purpose to be achieved by the release of the balloons is proportional to the damage likely to be caused to the environment by the release.
- (3) An approval is a notifiable instrument.

Note A notifiable instrument must be notified under the [Legislation Act](#).

Division 2.7 Pollutants emitted from motor vehicles

20 Motor vehicle emissions not taken to cause environmental harm

A pollutant being emitted into the air from a motor vehicle to which the Act applies is not taken to cause environmental harm if the motor vehicle complies with the [Road Transport \(Vehicle Registration\) Act 1999](#).

Note 1 The Act applies to a pollutant emitted into the air by a motor vehicle being driven on a road only if the motor vehicle—

- (a) is being driven on the road for the purpose of conducting reliability trials or speed tests; and
- (b) has been exempted under the road transport legislation from the provisions of that legislation about attaching silencers to the exhaust pipes of motor vehicles, rules of the road and speed limits during the trials or tests (see [Act](#), s 8 (1) (e)).

Note 2 A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

Part 3 Noise

Note 1 The Act does not apply to noise made by—

- (a) a light rail vehicle or other train; or
- (b) a Commonwealth jurisdiction aircraft; or
- (c) a person using only the person's body; or
- (d) an animal; or
- (e) a motor vehicle being driven on a road, unless it—
 - (i) is being driven on the road to conduct reliability trials or speed tests; and
 - (ii) has been exempted under the road transport legislation from the provisions of that legislation about attaching silencers to the exhaust pipes of motor vehicles, rules of the road and speed limits during the trials or tests (see [Act](#), s 8 (1)).

Note 2 A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

Division 3.1 Interpretation for pt 3

21 Definitions for pt 3

In this part:

adjoining, for noise zones, means noise zones that—

- (a) have a common boundary; or
- (b) would have a common boundary apart from a road separating them.

affected person, for an affected place, means an occupier of the affected place, and includes a person who is lawfully in an affected place that is on—

- (a) unleased land; or

- (b) public land under the *Crown Lands Act 1989* (NSW), section 153, as in force from time to time.

affected place—see section 22.

as near as practicable, to a boundary, for the measurement of noise level at a compliance point, means as near as practicable for taking the measurement.

compliance point—see section 32 to section 38.

noise standard—see section 24.

noise zone—see section 23.

unit—see the *Unit Titles Act 2001*, section 9.

units plan means a units plan under the *Unit Titles Act 2001*, section 7.

22 Meaning of ***affected place***

- (1) In this regulation:

affected place, for noise being emitted from a place in the ACT, means a place (other than a road or road related area), whether inside or outside the ACT, where a person is affected by the noise.

- (2) However, a parcel of land held under a territory lease is an affected place for noise emitted from the parcel only if the noise is emitted from a unit and the affected place is another unit on the same units plan.

- (3) For subsection (1), a person is not affected by noise unless—

- (a) the person complains about the noise to an authorised officer; and
- (b) the noise level at the affected place exceeds the noise standard for the affected place.

23 Meaning of *noise zone*

In this regulation:

noise zone means—

- (a) for a place in the ACT on land mentioned in schedule 2, table 2.1, column 3—the noise zone mentioned in column 2 for the land; or
- (b) for a place in New South Wales on land mentioned in schedule 2, table 2.1, column 4—the noise zone mentioned in column 2 for the land.

24 Meaning of *noise standard*

- (1) In this regulation:

noise standard, for a noise zone, means the noise standard mentioned in the following provisions for the relevant zone and time:

- (a) for a zone other than zones B1 and C1—schedule 2, table 2.2, column 3 or column 4;
- (b) for zone B1—schedule 2, table 2.2A, column 3 or column 4;
- (c) for zone C1—schedule 2, table 2.2B, column 3 or column 4.

- (2) However—

- (a) if the compliance point for noise emitted from a unit is a point in any of the other units in the units plan, the *noise standard* for the unit is 5dB(A) below the noise standard that would otherwise apply; and
- (b) if the compliance point for noise emitted from premises (the *1st premises*) on a territory lease with a common wall with premises on another territory lease (the *2nd premises*) is a point in the 2nd premises, the *noise standard* for the 1st premises is 5dB(A) below the noise standard that would otherwise apply; and

- (c) the ***noise standard*** on the boundary between 2 or more noise zones is the average of the noise standards for the noise zones for the time when the noise is emitted, rounded up to the nearest dB(A).

Division 3.2 Noise causing environmental harm

25 Noise taken to cause environmental harm—Act, s 5 (a)

- (1) For the Act, noise emitted from a place in the ACT is taken to cause environmental harm in an affected place if the noise level at the compliance point for the place from which the noise is emitted is louder than the noise standard for that place.
- (2) This section is subject to this division.

Note A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

26 Noise—exception for protecting life or property

Under section 25 (1), noise is not taken to cause environmental harm in an affected place if the noise is emitted in the course of protecting life or property.

Example

a fire or other emergency

27 Noise—exception for reducing environmental harm

Under section 25 (1), noise is not taken to cause environmental harm in an affected place if the noise is emitted in the course of preventing, minimising or remedying another environmental harm.

Example

noise from pumps cleaning a spill

28 Noise—exception if allowed by approval

Under section 25 (1), noise is not taken to cause environmental harm in an affected place if the noise is emitted in the course of conducting an activity for which an approval is in force.

Example

using an amplifier in accordance with an approval

Note **Approval** is defined in the dictionary.

29 Noise—other exceptions

Under section 25 (1), noise is not taken to cause environmental harm in an affected place if it is noise mentioned in schedule 2, table 2.3, column 2 and the conditions (if any) mentioned in column 3 for the noise are met.

Division 3.3 Measuring noise

29A Noise measurement manual

- (1) The Minister may approve a manual (the *noise measurement manual*) for the measurement of noise for this regulation.

Note Power given under an Act or statutory instrument to make a statutory instrument (including a manual) includes power to amend or repeal the instrument (see [Legislation Act](#), s 46 (1)).

- (2) Without limiting subsection (1), the noise measurement manual may make provision in relation to the following:
- (a) the procedures for measuring noise;
 - (b) the instruments to be used to measure noise;
 - (c) modifying factors used to correct noise measurements.

- (3) The noise measurement manual is a disallowable instrument.

Note 1 A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

Note 2 An amendment or repeal of the manual is also a disallowable instrument (see [Legislation Act](#), s 46 (2)).

30 Measurements to be taken at compliance point

For the Act, for measuring noise being emitted from a place, the noise level must be measured at the compliance point for the place.

Note A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

31 Taking measurements of noise

For the Act, for measuring emission of noise—

- (a) the noise level measured must be $L_{10,T}$; and
- (b) all measurements must be taken in accordance with the procedures set out in the noise measurement manual.

Note 1 A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

Note 2 *Noise measurement manual*—see s 29A.

32 Compliance point—general rule for leased land

- (1) The *compliance point* for a parcel of land held under a territory lease is any point as near as practicable to the boundary of the parcel of land.

- (2) This section is subject to the following sections:
- (a) section 34 (Compliance point—exception for environmental protection agreement);
 - (b) section 35 (Compliance point—exception for environmental authorisation);
 - (c) section 36 (Compliance point—exception for public land with approval);
 - (d) section 37 (Compliance point—exception for leased land with boundary with different noise zone);
 - (e) section 38 (Compliance point—exception for units, common wall properties and subleases).

33 Compliance point—general rule for unleased land

- (1) The *compliance point* for unleased land is any point as near as practicable to 5m from the source of the noise.
- (2) This section is subject to the following sections:
- (a) section 34 (Compliance point—exception for environmental protection agreement);
 - (b) section 35 (Compliance point—exception for environmental authorisation);
 - (c) section 36 (Compliance point—exception for public land with approval).

34 Compliance point—exception for environmental protection agreement

If noise is emitted in the course of conducting an activity for which an environmental protection agreement is in force and the agreement states 1 or more compliance points, each stated point is a *compliance point*.

Note Environmental protection agreements are dealt with in the [Act](#), pt 7.

35 Compliance point—exception for environmental authorisation

If noise is emitted in the course of conducting an activity for which an environmental authorisation is in force and the authorisation states 1 or more compliance points, each stated point is a *compliance point*.

Note Environmental authorisations are dealt with in the [Act](#), pt 8.

36 Compliance point—exception for public land with approval

If noise is emitted from public land in the course of conducting an activity for which an approval is in force and the approval states 1 or more compliance points, each stated point is a *compliance point*.

Note *Approval* is defined in the dictionary.

37 Compliance point—exception for leased land with boundary with different noise zone

If the noise is emitted from leased land with a boundary that is also a noise zone boundary, and the adjoining noise zone has a different noise standard, the *compliance point* is any point as near as practicable to the boundary with the noise zone with the lowest noise standard for the time when the noise is emitted.

Note *Noise standard* is defined in s 24 and detailed in sch 2.
Noise zone is defined in s 23 and detailed in sch 2.

38 Compliance point—exception for units, common wall properties and subleases

- (1) If noise is emitted from a unit, the *compliance point* is—
- (a) any point in any of the other units in the units plan; or
 - (b) any point as near as practicable to the boundary of the land to which the units plan applies.

- (2) If noise is emitted from premises (the *1st premises*) on a territory lease with a common wall with premises (the *2nd premises*) on another territory lease, the compliance point is—
- (a) any point in the 2nd premises; or
 - (b) any point as near as practicable to the boundary of the 1st premises.
- (3) If noise is emitted from part of a parcel of land held under a territory lease consisting of a sublease of the territory lease, the *compliance point* is—
- (a) any point in any other part of the parcel of land consisting of another sublease of the territory lease; or
 - (b) any point as near as practicable to the boundary of the parcel of land.

Division 3.4 Noise offences

39 Offence to make noise louder than noise standard

- (1) A person commits an offence if—
- (a) the person makes noise in the ACT; and
 - (b) the noise causes environmental harm in an affected place.

Maximum penalty: 10 penalty units.

Examples of making noise

- 1 playing a musical instrument
- 2 using portable loudspeakers
- 3 using a leaf blower or vacuum
- 4 using a power tool

Note Making noise will only cause environmental harm in an affected place if the noise level is louder than the noise standard for the compliance point for the place from which it is emitted (see s 25). Also, the noise standard for the point may be different at different times of day (see sch 2, part 2.2).

- (2) A person commits an offence if—
- (a) the person is an occupier of a place in the ACT; and
 - (b) noise is emitted from a thing in the place; and
 - (c) the noise causes environmental harm in an affected place.

Maximum penalty: 10 penalty units.

Examples of things that emit noise

- 1 a swimming pool or spa pump
- 2 an air conditioner
- 3 a building intruder alarm
- 4 a motor vehicle intruder alarm

40 Sale and hiring of things

- (1) A person commits an offence if—
- (a) the person sells a thing; and
 - (b) the sale is the first retail sale of the thing; and
 - (c) the sale would, if it took place in NSW, be prohibited under the *Protection of the Environment Operations Act 1997* (NSW) as in force from time to time.

Maximum penalty: 10 penalty units.

Example

A person sells, as a first retail sale, an air conditioner without a noise compliance plate. If the NSW Act prohibits its sale without a noise compliance plate, the person commits an offence under this regulation.

Note 1 The *Protection of the Environment Operations Act 1997* (NSW), s 136 creates an offence of selling an article of a class prescribed under the regulations if, when in use or operation, the article emits noise in excess of a prescribed level.

Note 2 The *Protection of the Environment Operations Act 1997* (NSW) does not need to be notified under the *Legislation Act* because s 47 (6) does not apply (see *Act*, s 164B).

- (2) A person commits an offence if—
- (a) the person hires out a thing; and
 - (b) a sale of the thing would, if it took place in NSW, be prohibited by the *Protection of the Environment Operations Act 1997* (NSW) as in force from time to time.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.

Part 4 Water

Division 4.1 Environmental values

41 Environmental values of waterways for pt 4, sch 3 and sch 4

For this part, schedule 3 and schedule 4, the *environmental values* of a waterway are the environmental values mentioned in an instrument made under the [Water Resources Act 2007](#), section 15A (Environmental values for waterways), for the waterway.

Examples

- 1 water-based recreation—swimming (REC/1)
- 2 waterscape (VIEW)
- 3 stock water supply (STOCK)

42 Certain pollutants taken to cause environmental harm—Act, s 5 (b)

A pollutant mentioned in a part in schedule 3 is taken to cause environmental harm if it enters a waterway with the environmental value for the part.

Example

Schedule 3, part 3.2 prescribes pollutants that are taken to cause environmental harm if they enter a waterway with the environmental value that is used for water-based recreation, for example, Lake Tuggeranong. So under that part, any nitrogen that enters Lake Tuggeranong is taken to cause environmental harm.

43 Ambient environmental standards for waterways

- (1) The ambient environmental standards for a waterway with an environmental value mentioned in a part in schedule 4 are the standards stated for the indicators in the part.

Example

Schedule 4, part 4.5 prescribes the standards for waterways used as stock water supply, for example, the Molonglo River. Under the part, the Molonglo River should have an acidity between pH 6.5 and 9.2. If it does not, the river does not meet the ambient environmental standards.

- (2) Subsection (1) does not apply when the waterway's flow conditions exceed the 10-year 5 percentile high-flow value.

Example

The Cotter River generally meets the ambient environmental standards. Hypothetically, there was excessive rain last spring, which caused the river to flood. The Cotter River rose to the highest level it had been at for 25 years. Under s (2), the ambient environmental standards would not apply during the flood.

Division 4.2 Protection of waterways

44 Pollution of waterways

- (1) A person commits an offence if the person pollutes a waterway.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.

- (3) In this section:

pollutes a waterway—a person *pollutes a waterway* if the person—

- (a) allows, causes, or fails to prevent the discharge, emission, depositing, disturbance or escape of a pollutant into or on a waterway; or
- (b) places a pollutant in a position where it is likely to pollute a waterway by entering a stormwater system or other entry into a waterway.

45 Development waste not to enter stormwater system or waterways

- (1) A person commits an offence if the person places soil, sand, building material or waste from development—
 - (a) in the stormwater system or a waterway; or
 - (b) where it may enter the stormwater system or a waterway.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.

46 Areas near development to be kept clear

- (1) A person who is in charge of development commits an offence if the person does not ensure that each footpath, gutter and road adjacent to the development is clear of soil, sand, building materials and waste.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.

47 Entries to and exits from land to be kept stable

- (1) The owner of land commits an offence if the owner does not keep the surface of each vehicle entrance to, or exit from, the land stable by applying concrete, gravel or other solid material to the surface.

Maximum penalty: 10 penalty units.

- (2) A person who is in charge of development commits an offence if the person does not keep the surface of each vehicle entrance to, or exit from, the land where the development is being carried out stable by applying concrete, gravel or other solid material to the surface.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.

48 Washing vehicles etc—commercial activity

- (1) This section applies to a person who washes a vehicle or other thing in the course of, or incidental to, carrying on a commercial activity.
- (2) The person commits an offence if the person allows run-off from the washing to enter a waterway.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.

49 Washing vehicles etc—non-commercial activity

- (1) This section applies to a person who washes a vehicle or other thing on premises where it is ordinarily kept and otherwise than in the course of, or incidental to, carrying on a commercial activity.

- (2) The person commits an offence if—

(a) there is on the premises—

(i) a grassed or gravelled area where the vehicle or other thing can be washed and run-off from the area does not flow directly into a waterway; or

(ii) an area identified as a place where a vehicle or other thing may be washed; and

(b) the person allows run-off from the washing to enter a waterway.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.

50 Discharge of stormwater into receiving waters

- (1) A person commits an offence if—
 - (a) the person discharges stormwater from—
 - (i) a sediment retention dam; or
 - (ii) footings; or
 - (iii) another stormwater retention area; and
 - (b) the stormwater flows into receiving waters; and
 - (c) the suspended solids concentration in the stormwater is higher than 60mg/L.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.
- (3) In this section:

receiving waters means ground water or a waterway.

Part 5 Polychlorinated biphenyls (PCBs)

51 Definitions for pt 5

In this part:

PCB means a polychlorinated biphenyl with the chemical formula $C_{12}H_{10-n}Cl_n$, where n is a whole number in the range from 1 to 10 (including 1 and 10).

PCB material means a material that contains more than 2mg PCB/kg.

52 PCBs taken to cause environmental harm—Act, s 5 (b)

- (1) A PCB material is taken to cause environmental harm if it enters the environment.
- (2) A thing containing PCB material is taken to cause environmental harm if it enters the environment.

Part 6 Agvet chemical products

Division 6.1 Interpretation

53 Definitions—pt 6

In this part:

agricultural chemical product—see the [agvet code](#), section 4.

agvet chemical product means—

- (a) an agricultural chemical product; or
- (b) a veterinary chemical product.

agvet code means the Agvet Code of the ACT, under the [Agricultural and Veterinary Chemicals Code Act 1994](#) (Cwlth) as in force from time to time.

Note 1 The Agvet Code of the ACT is set out in the [Agricultural and Veterinary Chemicals Code Act 1994](#) (Cwlth), sch (see that [Act](#), s 5 (1)).

Note 2 The [Agricultural and Veterinary Chemicals Code Act 1994](#) (Cwlth) does not need to be notified under the [Legislation Act](#) because s 47 (6) does not apply (see [Act](#), s 164B).

agvet permit means a permit issued under the [agvet code](#), part 7.

approved label, for a registered agvet chemical product—see the [agvet code](#), section 3.

instruction on the approved label for a registered agvet chemical product—see the [agvet code](#), section 3.

registered, for an agvet chemical product, means registered under the [agvet code](#), part 2.

veterinary chemical product—see the [agvet code](#), section 5.

53A Using registered agvet chemical product in accordance with instructions

- (1) In this part, a registered agvet chemical product is taken to be used in accordance with the instructions on the approved label for the product if—
- (a) the person uses the product—
 - (i) at a concentration less than the concentration stated in the instructions; or
 - (ii) at a rate of application lower than the rate stated in the instructions; or
 - (iii) less frequently than is stated in the instructions; or
 - (iv) to control a pest not stated in the instructions; or
 - (v) by mixing the product with another substance; and
 - (b) the use is not prohibited by the instructions.
- (2) In this section:
- pest*—see the [agvet code](#), section 3.

53B Agvet permits—eligible laws for agvet code

For the [agvet code](#), section 3, definition of *eligible law*, each of the following sections is declared to be an eligible law for the [agvet code](#), section 109, definition of *permit*, paragraph (b):

- (a) section 55 (Use of agricultural chemical products);
- (b) section 55A (Use of veterinary chemical products).

Note Under the agvet code, the APVMA may issue a permit allowing a person to do something with an agvet chemical product that would otherwise be an offence under an ACT law declared to be an eligible law (see the [agvet code](#), s 3, definition of *eligible law* and s 109, definition of *permit*, par (b)).

Division 6.2 Agvet chemical products causing environmental harm

54 Agvet chemical products taken to cause environmental harm—Act, s 5 (b)

- (1) An agvet chemical product is taken to cause environmental harm if it enters the environment.
- (2) Subsection (1) does not apply if the agvet chemical product enters the environment while being used in accordance with—
 - (a) an agvet permit; or
 - (b) for a registered agvet chemical product—the instructions on the approved label for the product.

Note It is an offence for a person to pollute the environment causing environmental harm (see [Act](#), s 137, s 138 and s 139).

Division 6.3 Using agvet chemical products

55 Use of agricultural chemical products

- (1) A person commits an offence if—
 - (a) the person stores, uses or disposes of a registered agricultural chemical product; and
 - (b) the storage, use or disposal is not in accordance with the instructions on the approved label for the product.

Maximum penalty: 10 penalty units.

- (2) A person commits an offence if—
 - (a) the person stores, uses or disposes of an agricultural chemical product; and
 - (b) the product is not a registered agricultural chemical product.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.
- (4) Subsections (1) and (2) do not apply if—
 - (a) the person holds an agvet permit for the product; and
 - (b) the storage, use or disposal is in accordance with the permit.

Note The defendant has an evidential burden in relation to the matters mentioned in s (4) (see [Criminal Code](#), s 58).

55A Use of veterinary chemical products

- (1) A person commits an offence if—
 - (a) the person stores, uses or disposes of a registered veterinary chemical product; and
 - (b) the storage, use or disposal is not in accordance with the instructions on the approved label for the product.

Maximum penalty: 10 penalty units.

- (2) A person commits an offence if—
 - (a) the person stores, uses or disposes of a veterinary chemical product; and
 - (b) the product is not a registered veterinary chemical product.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.
- (4) Subsections (1) and (2) do not apply if—
 - (a) the person holds an agvet permit for the product; and
 - (b) the storage, use or disposal is in accordance with the permit.
- (5) Subsection (1) does not apply if the person—
 - (a) is a veterinary practitioner storing, using or disposing of the product in the course of treating an animal in their care; or

- (b) stores, uses or disposes of the product in accordance with instructions provided by a veterinary practitioner in the course of treating an animal in their care.

Note The defendant has an evidential burden in relation to the matters mentioned in s (4) and s (5) (see [Criminal Code](#), s 58).

55B Recording use of agricultural chemical products

- (1) A person commits an offence if the person—
 - (a) uses an agricultural chemical product; and
 - (b) fails to do any of the following:
 - (i) record the required information about the use;
 - (ii) make the record within 48 hours after the use;
 - (iii) keep the record for 2 years after the date of the use.
- Maximum penalty: 10 penalty units.
- (2) An offence against this section is a strict liability offence.
 - (3) The record of use of an agricultural chemical product must include the following information (the ***required information***):
 - (a) the trade name of the product;
 - (b) the date and time the product was used;
 - (c) the rate at which the product was applied or information that would allow the rate to be worked out;
 - (d) the crop or commodity to which, or the circumstance in which, the product was applied;
 - (e) the address of the parcel of land, and a description of the location within the parcel, where the product was used;
 - (f) the name and contact details of the person who used the product;

- (g) for a product used in providing a service—the name and contact details of the recipient of the service;
 - (h) for a registered agricultural chemical product—any other information required to be kept by an instruction on the approved label for the product;
 - (i) for an agricultural chemical product used under an agvet permit—any other information required to be kept under the permit.
- (4) This section does not apply to the use of an agricultural chemical product if the product is—
- (a) a household product or a home garden product that is—
 - (i) ordinarily used for household use; and
 - (ii) ordinarily available in a retail store; and
 - (iii) applied by hand or by using a hand-held device; or
 - (b) used to sanitise pool or spa water.

Note Under the [Agricultural and Veterinary Chemicals Code Regulations 1995](#) (Cwlth), sch 3, certain pool and spa products are declared to be, or not to be, agricultural chemical products.

- (5) In this section:
- hand-held device***, for applying an agricultural chemical product, means a device—
- (a) operated manually by a person to apply the product; and
 - (b) in which the product is stored before it is applied; and
 - (c) that the person is reasonably able to carry while the device is being used to store or apply the product.

Example

a manually operated backpack spray unit

pool or spa means a structure ordinarily holding or using water that is ordinarily used for recreation or mainly for recreation, whether intended for public or private use.

Division 6.4 Training requirements for use of certain agvet chemical products

55C Definitions—div 6.4

In this division:

approved VET course unit of competency—see section 55E (1)

registered training organisation—see the [National Vocational Education and Training Regulator Act 2011](#) (Cwlth), section 3, as in force from time to time.

Note The [National Vocational Education and Training Regulator Act 2011](#) (Cwlth) does not need to be notified under the [Legislation Act](#) because s 47 (6) does not apply (see [Act](#), s 164B).

restricted agvet chemical product—see the [agvet code](#), section 3, definition of *restricted chemical product*.

schedule 7 poison means a chemical mentioned in the [Poisons Standard](#), schedule 7.

statement of attainment means a VET statement of attainment under the [National Vocational Education and Training Regulator Act 2011](#) (Cwlth), section 3, as in force from time to time.

VET course—see the [National Vocational Education and Training Regulator Act 2011](#) (Cwlth), section 3, as in force from time to time.

55D Declared agvet chemical products

- (1) The authority may declare a restricted agvet chemical product, or an agvet chemical product containing a schedule 7 poison, that is—
 - (a) a liquid fumigant to be a *declared liquid fumigant* for section 55F (1); and

- (b) a vertebrate poison to be a *declared vertebrate poison* for section 55G (1); and
 - (c) an avicide to be a *declared avicide* for section 55H (1); and
 - (d) an industrial timber treatment to be a *declared industrial timber treatment* for section 55I (1); and
 - (e) a termiticide to be a *declared termiticide* for section 55J (1).
- (2) A declaration is a notifiable instrument.

55E Approved VET course units of competency

- (1) The authority may approve a VET course unit of competency (an *approved VET course unit of competency*) for the following provisions:
- (a) section 55F (3) (a);
 - (b) section 55G (3) (a);
 - (c) section 55H (3) (a);
 - (d) section 55I (3) (a);
 - (e) section 55J (3) (a);
 - (f) section 55K (3) (a);
 - (g) section 55L (3) (a).
- (2) An approval is a notifiable instrument.

55F Training—use of declared liquid fumigants

- (1) A person commits an offence if the person uses a declared liquid fumigant.
- Maximum penalty: 10 penalty units.
- (2) An offence against this section is a strict liability offence.

- (3) Subsection (1) does not apply if the person holds—
- (a) a VET statement of attainment issued by a registered training organisation stating that the person has successfully completed each approved VET course unit of competency required for this section; or
 - (b) a qualification that is substantially equivalent to the statement of attainment mentioned in paragraph (a).

Note The defendant has an evidential burden in relation to the matters mentioned in s (3) (see [Criminal Code](#), s 58).

55G Training—use of declared vertebrate poisons

- (1) A person commits an offence if the person uses a declared vertebrate poison.
- Maximum penalty: 10 penalty units.
- (2) An offence against this section is a strict liability offence.
- (3) Subsection (1) does not apply if the person holds—
- (a) a VET statement of attainment issued by a registered training organisation stating that the person has successfully completed each approved VET course unit of competency required for this section; or
 - (b) a qualification that is substantially equivalent to the statement of attainment mentioned in paragraph (a).
- (4) Subsection (1) does not apply if—
- (a) the declared vertebrate poison is in the form of a prepared bait; and
 - (b) the use is in accordance with an environmental authorisation.

Note 1 **Environmental authorisation**—see the [Act](#), dictionary.

Note 2 It is an offence to conduct a class A activity without an environmental authorisation—see the [Act](#), s 42. The commercial use of a registered agvet chemical product for pest control or turf management is a class A activity—see the [Act](#), sch 1, table 1.2, item 29.

Note 3 The defendant has an evidential burden in relation to the matters mentioned in s (3) and s (4) (see [Criminal Code](#), s 58).

55H Training—use of declared avicides

- (1) A person commits an offence if the person uses a declared avicide.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.

- (3) Subsection (1) does not apply if the person—

(a) holds—

(i) a VET statement of attainment issued by a registered training organisation stating that the person has successfully completed each approved VET course unit of competency required for this section; or

(ii) a qualification that is substantially equivalent to the statement of attainment mentioned in subparagraph (i); and

(b) has successfully completed an approved avicide training course.

Note The defendant has an evidential burden in relation to the matters mentioned in s (3) (see [Criminal Code](#), s 58).

- (4) The authority may approve a VET course unit of competency or other training course for this section (an ***approved avicide training course***) if satisfied that it includes appropriate training in—

(a) identifying pest birds and understanding their behaviour; and

(b) assessing how to manage pest birds and control them using agvet chemical products.

- (5) An approval is a notifiable instrument.

55I Training—use of declared industrial timber treatments

- (1) A person commits an offence if the person uses a declared industrial timber treatment.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.
- (3) Subsection (1) does not apply if the person holds—
- (a) a VET statement of attainment issued by a registered training organisation stating that the person has successfully completed each approved VET course unit of competency required for this section; or
 - (b) a qualification that is substantially equivalent to the statement of attainment mentioned in paragraph (a).

Note The defendant has an evidential burden in relation to the matters mentioned in s (3) (see [Criminal Code](#), s 58).

55J Training—use of declared termiticides

- (1) A person commits an offence if the person uses a declared termiticide as a pre-construction termiticide product.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.
- (3) Subsection (1) does not apply if the person holds—
- (a) a VET statement of attainment issued by a registered training organisation stating that the person has successfully completed each approved VET course unit of competency required for this section; or
 - (b) a qualification that is substantially equivalent to the statement of attainment mentioned in paragraph (a).

Note The defendant has an evidential burden in relation to the matters mentioned in s (3) (see [Criminal Code](#), s 58).

- (4) For subsection (1), a person uses a declared termiticide as a pre-construction termiticide product if the person uses the declared termiticide to install a chemical soil barrier to impede and discourage the concealed entry of termites into a structure before construction of the structure is completed.

55K Training—use of other agricultural chemical products containing schedule 7 poisons

- (1) A person commits an offence if—
- (a) the person uses an agricultural chemical product; and
 - (b) the product contains a schedule 7 poison; and
 - (c) the product is not any of the following:
 - (i) a declared liquid fumigant;
 - (ii) a declared vertebrate poison;
 - (iii) a declared avicide;
 - (iv) a declared industrial timber treatment;
 - (v) a declared termiticide.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.
- (3) Subsection (1) does not apply if the person holds—
- (a) a VET statement of attainment issued by a registered training organisation stating that the person has successfully completed each approved VET course unit of competency required for this section; or
 - (b) a qualification that is substantially equivalent to the statement of attainment mentioned in paragraph (a).

- (4) Subsection (1) does not apply if—
- (a) the person uses the product—
 - (i) as part of a farming or grazing activity; and
 - (ii) under the supervision of another person (the *supervisor*) who holds a qualification mentioned in subsection (3); and
 - (b) before the use, the supervisor—
 - (i) chooses the product and prepares it for the use; and
 - (ii) checks that any equipment that is to be used to apply the product is in good working order; and
 - (iii) instructs the user how to use the product; and
 - (c) the person has used the product on not more than—
 - (i) 4 days in the last month; and
 - (ii) 12 days in the last year.

Note The defendant has an evidential burden in relation to the matters mentioned in s (3) and s (4) (see [Criminal Code](#), s 58).

55L Training—use of registered veterinary chemical products containing schedule 7 poisons

- (1) A person commits an offence if—
- (a) the person uses a registered veterinary chemical product; and
 - (b) the product contains a schedule 7 poison; and
 - (c) the person is not a veterinary practitioner.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.

- (3) Subsection (1) does not apply if the person holds—
- (a) a VET statement of attainment issued by a registered training organisation stating that the person has successfully completed each approved VET course unit of competency required for this section; or
 - (b) a qualification that is substantially equivalent to the statement of attainment mentioned in paragraph (a).
- (4) Subsection (1) does not apply if the person—
- (a) holds a FeedSafe accreditation for manufacturing animal feed; and
 - (b) uses the product in manufacturing animal feed at a place where an accredited animal feed manufacturer holds a FeedSafe accreditation for manufacturing animal feed.

Note The defendant has an evidential burden in relation to the matters mentioned in s (3) and s (4) (see [Criminal Code](#), s 58).

- (5) In this section:

FeedSafe accreditation means the accreditation given by SFMCA under the quality assurance accreditation program known as FeedSafe operated by SFMCA.

SFMCA means the Stock Feed Manufacturers' Council of Australia Incorporated ABN 84 816 063 155.

Part 7 Controlled waste

Division 7.1 Interpretation

56 Definitions for pt 7

In this part:

agency means the entity nominated by a jurisdiction for the NEPM.

consignment authorisation means an approval allowing the movement of controlled waste into a jurisdiction of destination given by an agency or a facility delegated by the agency in the jurisdiction.

controlled waste means a thing mentioned in the NEPM, schedule A, list 1 (Waste categories) if it has 1 or more of the characteristics mentioned in the NEPM, schedule A, list 2 (Characteristics of controlled wastes).

facility means a place where controlled waste is received.

jurisdiction of destination, for movement of controlled waste, means the jurisdiction where the facility is located that the waste is being moved to.

jurisdiction of origin, for movement of controlled waste, means the jurisdiction where the waste is being moved from.

jurisdiction of transit, for movement of controlled waste, means a jurisdiction through which the waste is moved that is not the jurisdiction of origin or the jurisdiction of destination.

NEPM means the National Environment Protection (Movement of Controlled Waste between States and Territories) Measure, as in force from time to time, made under the national scheme laws.

Note 1 The national scheme laws are the [National Environment Protection Council Act 1994](#) and the [National Environment Protection Council Act 1994](#) (Cwlth).

Note 2 The NEPM does not need to be notified under the [Legislation Act](#) because s 47 (6) does not apply (see [Act](#), s 164B). The NEPM is accessible at www.legislation.gov.au.

producer means a person who produces controlled waste.

transporter means a person who moves controlled waste—

- (a) from a jurisdiction of origin to a jurisdiction of destination; or
- (b) through a jurisdiction of transit.

waste means a thing, whether valuable or not, that is—

- (a) discarded; or
- (b) rejected; or
- (c) unwanted; or
- (d) surplus; or
- (e) abandoned; or
- (f) intended for recycling, reprocessing, recovery, reuse, or purification.

Division 7.2 Movement of controlled waste between states

57 Application of div 7.2

This division does not apply to the following:

- (a) the movement of controlled waste only between places within the ACT;

Note For the movement of regulated waste (including controlled waste) only between places within the ACT, see the [Act](#), sch 1, table 1.2, item 9.

- (b) the movement of controlled waste in accordance with the [Hazardous Waste \(Regulation of Exports and Imports\) Act 1989](#) (Cwlth), as in force from time to time;

Note The [Hazardous Waste \(Regulation of Exports and Imports\) Act 1989](#) (Cwlth) does not need to be notified under the [Legislation Act](#) because s 47 (6) does not apply (see [Act](#), s 164B).

- (c) the movement of controlled waste in an emergency to protect life, the environment or property;
- (d) the movement of controlled waste to be used in analysis for waste categorisation;
- (e) the movement of controlled waste to be used in research if the movement is approved by the agency in the jurisdiction of destination;
- (f) the movement of controlled waste by pipeline;
- (g) the movement of containers in which there remains a small amount of residual controlled waste for refilling with the same substance.

58 Consignment authorisation for controlled waste

- (1) A producer commits an offence if the producer—
- (a) moves controlled waste into a jurisdiction of destination; and
 - (b) does not have a consignment authorisation for the movement of the waste.

Maximum penalty: 10 penalty units.

- (2) A producer commits an offence if—
- (a) the producer consigns controlled waste to a transporter; and
 - (b) the transporter does not hold an environmental authorisation for the consignment.

Maximum penalty: 10 penalty units.

- (3) A person in charge of a facility commits an offence if the person—
- (a) accepts a consignment of controlled waste; and
 - (b) does not have a consignment authorisation for the movement of the waste.

Maximum penalty: 10 penalty units.

- (4) An offence against this section is a strict liability offence.

59 Information to accompany controlled waste

- (1) A producer commits an offence if—
- (a) the producer consigns controlled waste to a transporter; and
 - (b) the producer does not give the transporter the information mentioned in the NEPM, schedule B, part 1 for the controlled waste in written or electronic form.

Maximum penalty: 10 penalty units.

- (2) A transporter commits an offence if—
- (a) the transporter moves controlled waste; and
 - (b) the transporter does not keep the following information, in written or electronic form, with the controlled waste during the movement:
 - (i) information, provided by the producer, mentioned in the NEPM, schedule B, part 1 for the controlled waste;
 - (ii) information mentioned in the NEPM, schedule B, part 2 for the controlled waste.

Maximum penalty: 10 penalty units.

- (3) An offence against this section is a strict liability offence.

60 Records of movement of controlled waste

- (1) A producer commits an offence if the producer does not keep a copy of the information mentioned in section 59 (1) (b) for each consignment of controlled waste for at least 1 year after the date of the movement of the controlled waste.

Maximum penalty: 5 penalty units.

- (2) A transporter commits an offence if the transporter does not keep a copy of the information mentioned in section 59 (2) (b) (i) and (ii) for each consignment of controlled waste for at least 1 year after the date of the movement of the controlled waste.

Maximum penalty: 5 penalty units.

- (3) An offence against this section is a strict liability offence.

61 Notification of receipt of controlled waste

- (1) A producer commits an offence if the producer—
- (a) moves controlled waste into a jurisdiction of destination; and
 - (b) does not receive, within 14 days after the day when the controlled waste was due to arrive at the facility, the information mentioned in the NEPM, schedule B, part 1 for the controlled waste from the agency or facility that gave the consignment authorisation for the controlled waste; and
 - (c) does not tell the environment protection authority in writing that the producer has not received the information.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.

Division 7.3 Controlled waste taken to cause environmental harm

**62 Controlled waste taken to cause environmental harm—
Act, s 5 (b)**

Controlled waste is taken to cause environmental harm if it enters the environment.

Part 8 Sampling and analysis of pollutants

63 Application of pt 8

This part does not apply to the sampling and analysis of noise.

64 People who may conduct analysis

- (1) The analysis of a pollutant must be conducted by a person employed as an analyst in any of the following organisations:

- (a) an Australian university;
- (b) a laboratory operated by or on behalf of the Territory, the Commonwealth or a State;
- (c) a laboratory accredited by the National Association of Testing Authorities if the laboratory's scope of accreditation includes analysis of the pollutant;

Note For information about the National Association of Testing Authorities—see www.nata.com.au.

- (d) a laboratory approved under subsection (2).
- (2) The Minister may approve a laboratory for this section.
- (3) An approval is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

65 Procedures and protocols

Sampling and analysis of a pollutant must be conducted in accordance with—

- (a) a national environment protection protocol for the purpose in a national environment protection measure, as in force from time to time, made under the national scheme laws; or

Note The national scheme laws are the [National Environment Protection Council Act 1994](#) and the [National Environment Protection Council Act 1994](#) (Cwlth).

- (b) a procedure for that purpose provided under a law of the Territory, the Commonwealth or a State; or
- (c) a protocol for the purpose in a standard published by or on behalf of Standards Australia; or
- (d) a protocol for the purpose in a standard published by or on behalf of the International Standards Organisation; or
- (e) a protocol for the purpose published by a recognised entity.

Note A law or instrument applied by this section does not need to be notified under the [Legislation Act](#) because s 47 (5) and (6) do not apply (see [Act](#), s 164B). A law or instrument applied by this section is available:

- for a law of another jurisdiction—on the jurisdiction’s legislation website
- for a standard published by or on behalf of Standards Australia—at www.standards.org.au
- for another law or instrument—in accordance with the [Act](#), s 164B (3).

66 What is a *recognised entity*?

- (1) A *recognised entity* is—
 - (a) the Territory, the Commonwealth or a State; or
 - (b) the environment protection authority; or

- (c) an entity established under a law of the Commonwealth or a State that has functions corresponding, or substantially corresponding, to the functions of the environment protection authority; or
- (d) the National Environment Protection Council (NEPC) established by the national scheme laws; or

Note The national scheme laws are the [National Environment Protection Council Act 1994](#) and the [National Environment Protection Council Act 1994](#) (Cwlth).

- (e) the Commonwealth Scientific and Industrial Research Organisation (CSIRO) established by the [Science and Industry Research Act 1949](#) (Cwlth), as in force from time to time; or
- (f) the Environment Protection and Heritage Council (EPHC); or
- (g) a co-operative research centre established under the Commonwealth Co-operative Research Centre Program; or
- (h) an Australian university; or
- (i) the United States Environmental Protection Agency; or
- (j) the American Public Health Association; or
- (k) an entity approved by the Minister under subsection (2).

Note For information about—

- the NEPC—see www.nepc.gov.au
- the CSIRO—see www.csiro.au
- the Environment Protection and Heritage Council—see www.ephc.gov.au
- the Commonwealth Co-operative Research Centre Program—see www.crc.gov.au
- the United States Environmental Protection Agency—see www.epa.gov
- the American Public Health Association—see www.apha.org.

- (2) The Minister may approve an entity as a ***recognised entity***.

(3) An approval is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

Part 8A Erosion and sediment control measures for development sites

66A **Meaning of *erosion and sediment control measures*—pt 8A**

In this part:

erosion and sediment control measures means measures to prevent or limit pollution on a development site.

Examples—erosion and sediment control measures

- diversion structures
- dust suppression
- geotextile sediment and control barriers
- sediment control ponds
- stabilised access or egress points

66B **Development sites 0.3ha or greater**

A person who is in charge of development on a development site commits an offence if—

- (a) the site is 0.3ha or greater; and
- (b) the person does not install and maintain on the site erosion and sediment control measures required under the environmental protection agreement that is in effect in relation to the development.

Maximum penalty: 10 penalty units.

66C **Development sites less than 0.3ha**

- (1) A person who is in charge of development on a development site commits an offence if—

- (a) the site is less than 0.3ha; and

- (b) the person does not install and maintain on site erosion and sediment control measures—
 - (i) if it is a condition of a development approval that measures be installed and maintained—in accordance with the condition; or
 - (ii) otherwise as approved by a certifier for building work.

Maximum penalty: 10 penalty units.

- (2) An offence against this section is a strict liability offence.
- (3) In this section:

certifier, for building work—see the [Building Act 2004](#), dictionary.

Part 9 Miscellaneous

70 Entity to be consulted—Act, s 25 (5)

The following entities are prescribed:

- (a) the Conservation Council ACT Region Incorporated (ABN 68 248 339 828);
- (b) the Canberra Business Chamber Ltd (ACN 600 390 538).

Schedule 1 **Exceptions—chimney emissions and open-air fires**

Part 1.1 **Chimney emissions**

(see s 8 and s 9)

Table 1.1

column 1 item	column 2 source	column 3 conditions
1	smoke from a source stated in the national emission guidelines, table 1 that is emitted into the air through a chimney	<ul style="list-style-type: none">(a) the concentration of smoke is higher than the standard stated in the table for the source for 20 minutes or less in a 24-hour period; and(b) the emission is only because of lighting a boiler or incinerator from cold; and(c) all steps that are practicable and reasonable are taken to—<ul style="list-style-type: none">(i) prevent the emission; or(ii) if prevention is not reasonably practicable—minimise the emission
2	smoke from a source stated in the national emission guidelines, table 1 that is emitted into the air through a chimney	<ul style="list-style-type: none">(a) the emission is only because of blowing the tubes of a boiler; and(b) all steps that are practicable and reasonable are taken to—<ul style="list-style-type: none">(i) prevent the emission; or(ii) if prevention is not reasonably practicable—minimise the emission

Schedule 1
Part 1.1

Exceptions—chimney emissions and open-air fires
Chimney emissions

column 1 item	column 2 source	column 3 conditions
3	soot from a source stated in the national emission guidelines, table 1 that is emitted into the air through a chimney	<ul style="list-style-type: none">(a) the concentration of soot is higher than the standard stated in the table for the source for 20 minutes or less in a 24-hour period; and(b) the emission is only because of lighting a boiler or incinerator from cold; and(c) all steps that are practicable and reasonable are taken to—<ul style="list-style-type: none">(i) prevent the emission; or(ii) if prevention is not reasonably practicable—minimise the emission
4	soot from a source stated in the national emission guidelines, table 1 that is emitted into the air through a chimney	<ul style="list-style-type: none">(a) the emission is only because of blowing the tubes of a boiler; and(b) all steps that are practicable and reasonable are taken to—<ul style="list-style-type: none">(i) prevent the emission; or(ii) if prevention is not reasonably practicable—minimise the emission

Part 1.2 Open-air fires

(see s 8 and s 9)

Table 1.2

column 1 item	column 2 activity	column 3 conditions
1	cooking or heating food or drink	
2	heating	(a) the fire is outside a built-up area; or (b) for a fire in a built-up area—the fire is in a fireplace or container that will contain the fire
3	teaching firefighting methods	the teaching is authorised by the chief officer (fire and rescue service) or chief officer (rural fire service)
4	burning plant matter in course of primary production	the fire is outside a built-up area
5	destroying a thing	the destruction is in accordance with a direction to destroy the thing under the Animal Diseases Act 2005 , section 27 (Destruction of infected animals etc—endemic disease) or section 29 (Destruction of infected animals etc—exotic disease)
6	celebration or similar activity	the celebration or activity is held— (a) on residential land; and (b) during the period starting on the Saturday 9 days before the Queen’s birthday public holiday and ending on the Sunday 6 days after the public holiday <i>Note</i> The Queen’s birthday public holiday is the 2nd Monday in June (see Holidays Act 1958 , s 3 (1) (a) (viii))

Schedule 1
Part 1.2

Exceptions—chimney emissions and open-air fires
Open-air fires

column 1 item	column 2 activity	column 3 conditions
7	display, ceremony, celebration or similar activity	<p>the display, ceremony, celebration or activity—</p> <ul style="list-style-type: none">(a) is authorised by the emergency services commissioner; and(b) is conducted in accordance with an approval; and(c) is either—<ul style="list-style-type: none">(i) held on unleased land; or(ii) held with the consent of the lessee on leased land that is not residential land <p><i>Note</i> Approval is defined in the dictionary.</p>

Schedule 2 Noise zones, noise standards and conditions

(see s 23, s 24 and s 29)

Note Noise emitted from land in the ACT may affect NSW land. Accordingly, this regulation prescribes the noise standard for certain NSW land.

Part 2.1 Noise zones

2.1 Definitions for pt 2.1

In this part:

broadacre zone means an area designated as a broadacre zone in the [territory plan](#).

Central National Area (City Hill Precinct) means the area identified as City Hill Precinct in the national capital plan.

Note The national capital plan does not need to be notified under the [Legislation Act](#) because s 47 (6) does not apply (see [Act](#), s 164B). The national capital plan is accessible at www.legislation.gov.au.

Central National Area (Fairbairn) means the area identified as Central National Area (Fairbairn) in the national capital plan.

Central National Area (Parliamentary Zone and Other Areas) means the following areas identified in the national capital plan:

- (a) Central National Area (The Parliamentary Zone);
- (b) Central National Area (Barton);
- (c) sections 39, 40 and 41 of Central National Area (Yarralumla);
- (d) Central National Area (Acton);
- (e) Central National Area (Constitution Avenue and Anzac Parade);
- (f) Central National Area (Duntroon, ADFA and Campbell Park);
- (g) Central National Area (Lake Burley Griffin and Foreshores).

city centre means the area identified as the city centre in the [territory plan](#).

commercial CZ4 zone means an area designated as a commercial CZ4 (Local Centre Zone) zone in the [territory plan](#).

commercial CZ5 zone means an area designated as a commercial CZ5 (Mixed Use Zone) zone in the [territory plan](#).

community facility zone means an area designated as a community facility zone in the [territory plan](#).

corridor site means an area identified as a corridor site in the [territory plan](#).

group centre means an area identified as a group centre in the [territory plan](#).

industrial zone means an area designated as an industrial zone in the [territory plan](#).

leisure and accommodation zone means an area designated as a leisure and accommodation zone in the [territory plan](#).

national capital plan means the national capital plan as in force from time to time.

Note **National capital plan** is defined in the [Legislation Act](#), dict, pt 1.

office site means an area identified as an office site in the [territory plan](#).

Queanbeyan city business zone means a business zone under the *Queanbeyan Local Environmental Plan 1998*, as in force from time to time, made under the [Environmental Planning and Assessment Act 1979](#) (NSW).

Queanbeyan city industrial zone means an industrial zone under the *Queanbeyan Local Environmental Plan 1998*, as in force from time to time, made under the [Environmental Planning and Assessment Act 1979](#) (NSW).

Queanbeyan city special uses zone means a special uses zone under the *Queanbeyan Local Environmental Plan 1998*, as in force from time to time, made under the *Environmental Planning and Assessment Act 1979* (NSW).

restricted access recreation zone means an area designated as a restricted access recreation zone in the [territory plan](#).

town centre means an area identified as a town centre in the [territory plan](#).

TSZ2 services zone means an area identified as a TSZ2 (Services Zone) zone in the [territory plan](#).

Table 2.1

column 1 item	column 2 noise zone	column 3 ACT land	column 4 NSW land
1	zone A	land in an industrial zone	land in the Queanbeyan city industrial zone
2	zone B1	land in the city centre or a town centre	
3	zone B2	land in the Central National Area (City Hill Precinct)	land in the Queanbeyan city business zone
4	zone C1	land in a group centre	
5	zone C2	land in a corridor site or an office site	
		land in the Central National Area (Parliamentary Zone and Other Areas)	

Schedule 2
Part 2.1

Noise zones, noise standards and conditions
Noise zones

Section 2.1

column 1 item	column 2 noise zone	column 3 ACT land	column 4 NSW land
6	zone D	land (other than land in the city centre, town centres and group centres) in a commercial CZ4 zone	
7	zone E	land (other than land in the city centre, town centres and group centres) in— <ul style="list-style-type: none">• a restricted access recreation zone• a broadacre zone	
8	zone F	land (other than land in the city centre, town centres and group centres) in— <ul style="list-style-type: none">• a commercial CZ5 zone• a TSZ2 services zone• a community facility zone• a leisure and accommodation zone	land in the Queanbeyan city special uses zone
9	zone G	all other land, other than land in the Central National Area (Fairbairn)	all other NSW land

Note The territory plan is available at www.legislation.act.gov.au.

Part 2.2 Noise standards

Table 2.2 Noise zones other than zones B1 and C1

column 1 item	column 2 noise zone	column 3 noise standard (dB(A)) Monday-Saturday 7 am–10 pm Sunday and public holiday 8 am–10 pm	column 4 noise standard (dB(A)) any other time not mentioned in column 3
1	zone A	65	55
2	zone B2	60	50
3	zone C2	55	45
4	zone D	50	35
5	zone E	50	40
6	zone F	same as the noise standard for the adjoining noise zone with the loudest noise standard for the time period	
7	zone G	45	35

Table 2.2A Noise zone B1

column 1 item	column 2 noise zone	column 3 noise standard (dB(A)) Monday-Thursday 7 am–10 pm Friday and Saturday 7 am–12 am Sunday and public holiday 8 am–10 pm	column 4 noise standard (dB(A)) any other time not mentioned in column 3
1	zone B1	60	50

Schedule 2
Part 2.2

Noise zones, noise standards and conditions
Noise standards

Table 2.2B Noise zone C1

column 1 item	column 2 noise zone	column 3 noise standard (dB(A)) Monday-Thursday 7 am–10 pm Friday and Saturday 7 am–11 pm Sunday and public holiday 8 am–10 pm	column 4 noise standard (dB(A)) any other time not mentioned in column 3
1	zone C1	55	45

Part 2.3 Noise conditions

2.2 Interpretation for pt 2.3

- (1) In this part:

building intruder alarm means a device that—

- (a) incorporates or connects to a sounding device; and
- (b) on being triggered, causes the sounding device to emit sound.

habitable room means a room other than a garage, storage area, bathroom, laundry, toilet or pantry.

light rail—see the [Road Transport \(General\) Act 1999](#), dictionary.

major road means an area identified in the [territory plan](#) as being in the transport zone.

Note The territory plan is available at www.legislation.act.gov.au.

motor vehicle intruder alarm means a device that—

- (a) incorporates or connects to a sounding device; and
- (b) on being triggered, causes the sounding device to emit sound; and
- (c) is attached to, or forms part of, a motor vehicle for use as an intruder alarm (whether or not the device is also designed to deny access to the motor vehicle or to the motor vehicle's steering, fuel or other systems).

network facility—see the [Utilities Act 2000](#), dictionary.

reserve—see the [Nature Conservation Act 2014](#), section 169.

Note Reserves include wilderness areas, national parks, nature reserves, catchment areas and other areas of public land.

territory network facility—see the [Utilities Act 2000](#), dictionary.

Schedule 2
Part 2.3

Noise zones, noise standards and conditions
Noise conditions

Section 2.2

- (2) For this part, an intruder alarm that sounds intermittently is taken to sound continuously for the purpose of measuring the period of time for which it sounds.

Table 2.3

column 1 item	column 2 noise	column 3 conditions
1	noise emitted in the course of primary production	(a) the noise is emitted— (i) between 7 am and 10 pm on Monday to Saturday; or (ii) between 8 am and 10 pm on Sunday or a public holiday; and (b) the equipment used is maintained and operated in accordance with the manufacturer's instructions
2	noise emitted in the course of managing a reserve	(a) the noise is emitted— (i) between 7 am and 10 pm on Monday to Saturday; or (ii) between 8 am and 10 pm on Sunday or a public holiday; and (b) the equipment used is maintained and operated in accordance with the manufacturer's instructions
3	noise emitted in the course of maintaining a garden or grounds on residential land	(a) the noise is emitted— (i) between 7 am and 8 pm on Monday to Saturday; or (ii) between 8 am and 8 pm on Sunday or a public holiday; and (b) the equipment used is maintained and operated in accordance with the manufacturer's instructions

column 1 item	column 2 noise	column 3 conditions
4	noise emitted in the course of maintaining a garden or grounds on land other than residential land	<ul style="list-style-type: none">(a) the noise is emitted—<ul style="list-style-type: none">(i) between 7 am and 10 pm on Monday to Saturday; or(ii) between 8 am and 10 pm on Sunday or a public holiday; and(b) the equipment used is maintained and operated in accordance with the manufacturer's instructions
5	noise emitted in the course of maintaining or repairing something	<ul style="list-style-type: none">(a) the noise is emitted—<ul style="list-style-type: none">(i) between 7 am and 8 pm on Monday to Saturday; or(ii) between 8 am and 8 pm on Sunday or a public holiday; and(b) any noise exceeding a zone noise standard is emitted for periods totalling not more than 40 hours in any 8-week period; and(c) the equipment used is maintained and operated in accordance with the manufacturer's instructions
6	noise emitted in the course of building work for which a building approval under the Building Act 2004 , division 3.3 is required	<ul style="list-style-type: none">(a) all of the following:<ul style="list-style-type: none">(i) the noise is emitted from a place in noise zone A or B; and(ii) all relevant noise reduction measures mentioned in AS 2436, as in force from time to time, are implemented; and(iii) the noise is emitted between 6 am and 8 pm; or(b) all of the following:<ul style="list-style-type: none">(i) the noise is emitted from a place other than a place in noise zone A or B; and

Noise zones, noise standards and conditions
Noise conditions

Section 2.2

column 1 item	column 2 noise	column 3 conditions
		<ul style="list-style-type: none">(ii) the building work will be finished within 2 weeks after the day it started; and(iii) all relevant noise reduction measures mentioned in AS 2436, as in force from time to time, are implemented; and(iv) the noise is emitted—<ul style="list-style-type: none">(A) between 7 am and 8 pm on Monday to Saturday; or(B) between 8 am and 8 pm on Sunday or a public holiday; or <p>(c) all of the following:</p> <ul style="list-style-type: none">(i) the noise is emitted from a place other than a place in noise zone A or B; and(ii) the building work will not be finished within 2 weeks after the day it started; and(iii) all relevant noise reduction measures mentioned in AS 2436, as in force from time to time, are implemented; and(iv) the noise is emitted between 7 am and 6 pm on Monday to Saturday, excluding public holidays

column 1 item	column 2 noise	column 3 conditions
7	noise emitted in the course of— (a) building work for which a building approval under the Building Act 2004 , division 3.3 is not required; or (b) internal building work; or (c) maintenance and repair work on a building.	(a) the noise is emitted— (i) between 7 am and 8 pm on Monday to Saturday; or (ii) between 8 am and 8 pm on Sunday or a public holiday; and (b) the noise level at the affected place is only louder than the noise standard for the affected place at the time when the noise is emitted for less than 40 hours in an 8-week period; and (c) the equipment used is maintained and operated in accordance with the manufacturer's instructions
8	noise emitted by a motor vehicle intruder alarm in a motor vehicle	(a) the alarm is sounded, whether continuously or intermittently— (i) for a motor vehicle manufactured before 1 September 1997—for less than 90 seconds after the alarm first sounds; or (ii) for a motor vehicle manufactured on or after 1 September 1997—for less than 45 seconds after the alarm first sounds; or (b) a window or windscreen in the motor vehicle is broken or removed; or (c) the motor vehicle is involved in an accident; or (d) the motor vehicle is illegally broken into; or (e) there is an illegal attempt to break into the motor vehicle

Schedule 2
Part 2.3

Noise zones, noise standards and conditions
Noise conditions

Section 2.2

column 1 item	column 2 noise	column 3 conditions
9	noise emitted by a building intruder alarm in premises	<ul style="list-style-type: none">(a) for an alarm installed before 1 December 1997—<ul style="list-style-type: none">(i) it automatically ceases to sound, whether continuously or intermittently, within 10 minutes after being activated by a detection device; and(ii) it cannot be reactivated (except by a different detection device) until it has been manually or automatically reset; or(b) for an alarm installed on or after 1 December 1997—<ul style="list-style-type: none">(i) it automatically ceases to sound, whether continuously or intermittently, within 5 minutes after being activated by a detection device; and(ii) it cannot be reactivated (except by a different detection device) until it has been manually reset; or(c) it cannot be heard in a habitable room in any residential premises (whether or not a door or window to the room is open)

column 1 item	column 2 noise	column 3 conditions
10	noise emitted in the course of mobile selling from a vehicle— (a) using a loudspeaker, loud hailer, chime, horn, siren, bell or whistle; and (b) for the purpose of informing people that articles are on sale from the vehicle	the noise is emitted— (a) only while the vehicle is moving; and (b) between 8 am and 8 pm; and (c) for 30 seconds or less in a 3-minute period; and (d) no more than once in any 1-hour period in the same road between the closest crossroads in either direction
11	noise emitted because of a party from a parcel of land held under a territory lease	(a) the noise is music; and (b) the music is only emitted between 6 pm on 31 December in a year and 12.30 am on 1 January the next year; and (c) the music is not louder than 60 dB(A) at any point as near as practicable to the boundary of the parcel of land
12	noise emitted because of a party from a road or road related area	(a) the noise is music; and (b) the music is only emitted between 6 pm on 31 December in a year and 12.30 am on 1 January the next year; and (c) the music is not louder than 60 dB(A) at any point as near as practicable to the boundary of any parcel of land held under a territory lease

Schedule 2
Part 2.3

Noise zones, noise standards and conditions
Noise conditions

Section 2.2

column 1 item	column 2 noise	column 3 conditions
13	noise emitted in the course of warming up a motor vehicle engine	<ul style="list-style-type: none"> (a) the noise is emitted for— <ul style="list-style-type: none"> (i) 5 minutes or less; or (ii) if a longer period is stated in the vehicle's operating manual—the longer period or less; and (b) the vehicle complies with the <i>Road Transport (Vehicle Registration) Act 1999</i>
14	noise emitted in the course of a religious service	<ul style="list-style-type: none"> (a) the noise is not amplified; and (b) the noise is only emitted— <ul style="list-style-type: none"> (i) between 7 am and 10 pm on Monday to Saturday; or (ii) between 8 am and 10 pm on Sunday or a public holiday
15	noise emitted by portable loudspeakers	<p>the noise—</p> <ul style="list-style-type: none"> (a) is emitted from public land; and (b) is in accordance with an approval; and (c) is emitted— <ul style="list-style-type: none"> (i) between 7 am and 8 pm on Monday to Saturday; or (ii) between 8 am and 8 pm on Sunday or a public holiday <p><i>Note</i> Approval is defined in the dictionary</p>
16	noise emitted in the course of constructing or maintaining a major road, a dedicated bus way, a railway, or a light rail	

column 1 item	column 2 noise	column 3 conditions
17	noise emitted in the course of constructing or maintaining a road, other than a major road	the noise is emitted— (a) between 7 am and 8 pm on Monday to Saturday; or (b) between 8 am and 8 pm on Sunday or a public holiday
18	noise emitted in the course of commercial collection of waste from commercial premises	the collection is in accordance with an accredited code of practice under the Act , part 5
19	noise emitted in the course of carrying out maintenance or repair of a network facility or territory network facility	the noise is emitted— (a) between 7 am and 10 pm on Monday to Saturday; or (b) between 8 am and 10 pm on Sunday or a public holiday
20	noise emitted in the course of conducting a test to decide a noise level for the Act	(a) all of the following: (i) the noise is emitted— (A) between 7 am and 8 pm on Monday to Saturday; or (B) between 8 am and 8 pm on Sunday or a public holiday; and (ii) the noise is not emitted for longer than 2 hours in a 1-week period; and (iii) the noise is emitted for the minimum time necessary to complete the tests; or (b) all of the following: (i) the noise is emitted at a time other than a time mentioned in subsection (1) (a); and

Schedule 2
Part 2.3

Noise zones, noise standards and conditions
Noise conditions

Section 2.2

column 1 item	column 2 noise	column 3 conditions
		<ul style="list-style-type: none"> (ii) the environment protection authority is satisfied that it is not reasonably practicable to conduct the test during the times mentioned in subsection (1) (a) because the level of ambient noise during those times is likely to prevent effective testing; and (iii) the noise is not emitted for longer than 2 hours in a 1-week period; and (iv) the noise is emitted for the minimum time necessary to complete the tests
21	<p>noise emitted in the course of—</p> <ul style="list-style-type: none"> (a) building work that requires a building approval under the <i>Building Act 2004</i>, division 3.3; or (b) development 	<ul style="list-style-type: none"> (a) all of the following: <ul style="list-style-type: none"> (i) the noise is emitted from a place in noise zone A or B; (ii) all relevant noise reduction measures mentioned in AS 2436, as in force from time to time, are implemented; (iii) the noise is emitted between 6 am and 8 pm; or (b) all of the following: <ul style="list-style-type: none"> (i) the noise is emitted from a place other than a place in noise zone A or B; (ii) the building work or development will be finished within 2 weeks after the day it started; (iii) all relevant noise reduction measures mentioned in AS 2436, as in force from time to time, are implemented; (iv) the noise is emitted— <ul style="list-style-type: none"> (A) between 7 am and 8 pm on Monday to Saturday; or (B) between 8 am and 8 pm on Sunday or a public holiday; or

column 1 item	column 2 noise	column 3 conditions
		(c) all of the following: <ul style="list-style-type: none">(i) the noise is emitted from a place other than a place in noise zone A or B;(ii) the building work or development will not be finished within 2 weeks after the day it started;(iii) all relevant noise reduction measures mentioned in AS 2436, as in force from time to time, are implemented;(iv) the noise is emitted between 7 am and 6 pm on Monday to Saturday, excluding public holidays

Example for item 10

selling ice-cream from a van and using music to attract buyers as the van moves around

Note 1 The Act does not apply to noise made by a motor vehicle being driven on a road, unless it—

- (a) is being driven on the road to conduct reliability trials or speed tests; and
- (b) has been exempted under the road transport legislation from the provisions of that legislation about attaching silencers to the exhaust pipes of motor vehicles, rules of the road and speed limits during the trials or tests (see [Act](#), s 8 (1)).

Note 2 A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

Note 3 AS 2436 may be purchased at www.standards.org.au.

Schedule 3

Pollutants entering waterways taken to cause environmental harm

(see s 42)

Part 3.1

Domestic water supply quality (DOM1/2/3)

Table 3.1.1 **Group A—inorganic chemicals**

column 1 item	column 2 pollutant
1	aluminium
2	ammonia
3	antimony
4	arsenic
5	barium
6	boron
7	cadmium
8	chloride
9	chromium
10	copper
11	cyanide
12	fluoride
13	hydrogen sulfide
14	iodide
15	iron
16	lead
17	manganese

column 1 item	column 2 pollutant
18	mercury
19	molybdenum
20	nickel
21	nitrate
22	nitrite
23	selenium
24	silver
25	sodium
26	sulfate
27	zinc

Table 3.1.2 Group B—organic compounds

column 1 item	column 2 pollutant
1	acrylamide
2	benzene
3	carbon tetrachloride
4	chlorobenzene
5	dichlorobenzenes—
5.1	1,2-dichlorobenzene
5.2	1,3-dichlorobenzene
5.3	1,4-dichlorobenzene
6	dichloroethanes—
6.1	1,2-dichloroethane
7	dichloroethenes—
7.1	1,1-dichloroethene

Schedule 3
Part 3.1

Pollutants entering waterways taken to cause environmental harm
Domestic water supply quality (DOM1/2/3)

column 1 item	column 2 pollutant
7.2	1,2-dichloroethene
8	dichloromethane (methylene chloride)
9	ethylbenzene
10	ethylenediamine tetracetic acid (EDTA)
11	hexachlorobutadiene
12	nitrilotriacetic acid
13	organotins—
13.1	tributyltin oxide
14	plasticisers—
14.1	di (2-ethylhexyl) phthalate
14.2	polycyclic aromatic hydrocarbons (PAHs)
14.3	styrene (vinylbenzene)
14.4	tetrachloroethene
14.5	toluene
14.6	trichlorobenzenes (total)
14.7	vinyl chloride
14.8	xylene

Table 3.1.3 Group C—disinfection by-products

column 1 item	column 2 pollutant
1	chloramine (see mono-chloramine)
2	chlorine (free)
3	chlorine dioxide
4	chlorite

column 1 item	column 2 pollutant
5	chloroacetic acids—
5.1	chloroacetic acid
5.2	dichloroacetic acid
5.3	trichloroacetic acid
6	chlorophenols—
6.1	2-chlorophenol
6.2	2,4-dichlorophenol
6.3	2,4,6-dichlorophenol
7	cyanogen chloride (as cyanide)
8	formaldehyde
9	mono-chloramine
10	trichloroacetaldehyde (chloral hydrate)
11	trihalomethanes (THMs) (total)

Table 3.1.4 Group D—pesticides

column 1 item	column 2 pollutant
1	acephate
2	aldicarb
3	aldrin
4	ametryn
5	amitrole
6	asulam
7	atrazine
8	azinphos-methyl
9	benomyl

Schedule 3
Part 3.1

Pollutants entering waterways taken to cause environmental harm
Domestic water supply quality (DOM1/2/3)

column 1 item	column 2 pollutant
10	bentazone
11	bioresmethrin
12	bromacil
13	bromophos-ethyl
14	bromoxynil
15	carbaryl
16	carbendazim
17	carbofuran
18	carbophenthion
19	carboxin
20	chlordane
21	chlorothalonil
22	chloroxuron
23	chlorphenvinphos
24	chlorpyrifos
25	chlorsulfuron
26	cichlorvos
27	clopyralid
28	2,4-D
29	DDT
30	diazinon
31	dicamba
32	dichlobenil
33	diclofop-methyl
34	dicofol

column 1 item	column 2 pollutant
35	dieldrin
36	difenzoquat
37	dimethoate
38	diphenamid
39	diquat
40	disulfoton
41	diuron
42	DPA (2,2-DPA)
43	EDB
44	endosulfan
45	endothal
46	EPTC
47	ethion
48	ethoprophos
49	etridiazole
50	fenamiphos
51	fenarimol
52	fenchlorphos
53	fenitrothion
54	fenoprop
55	fensulfothion
56	fenvalerate
57	flamprop-methyl
58	fluometuron
59	formothion

Schedule 3
Part 3.1

Pollutants entering waterways taken to cause environmental harm
Domestic water supply quality (DOM1/2/3)

column 1 item	column 2 pollutant
60	fosamine ammonium
61	glyphosphate
62	heptachlor (including its epoxide)
63	hexaflurate
64	hexazinone
65	lindane
66	maldison
67	methidathion
68	methiocarb
69	methomyl
70	methoxychlor
71	metolachlor
72	metribuzin
73	metsulfuron-methyl
74	mevinphos
75	molinate
76	monocrotophos
77	napropamide
78	nitralin
79	norflurazon
80	oryzalin
81	oxamyl
82	paraquat
83	parathion
84	parathion methyl

column 1 item	column 2 pollutant
85	pebulate
86	pendimethalin
87	pentachlorophenol
88	permethrin
89	picloram
90	piperonyl butoxide
91	pirimcarb
92	pirimiphos-ethyl
93	pirimiphos-methyl
94	profenofos
95	promecarb
96	propachlor
97	propanil
98	propargite
99	propiconazole
100	propozine
101	propyzamide
102	pyrazophos
103	quintozene
104	silvex (see fenoprop)
105	simazine
106	sulprofos
107	2,4,5-T
108	temephos
109	terbacil

Schedule 3
Part 3.1

Pollutants entering waterways taken to cause environmental harm
Domestic water supply quality (DOM1/2/3)

column 1 item	column 2 pollutant
110	terbufos
111	terbutryn
112	tetrachlorvinphos
113	thiobencarb
114	thiometon
115	thiophenate
116	thiram
117	triadimefon
118	trichlorfon
119	trichlorpyr
120	trifluralin
121	vernolate

Part 3.2

Water-based recreation— swimming (REC/1) or boating (REC/2)

Table 3.2

column 1 item	column 2 pollutant
1	faecal coliforms
2	nitrogen
3	oil and grease
4	phosphorus

Part 3.3 Waterscape (VIEW)

Table 3.3

column 1 item	column 2 pollutant
1	nitrogen
2	oil and grease
3	phosphorus

Part 3.4 **Stock water supply (STOCK)**

Table 3.4.1 Group A—inorganic chemicals

column 1 item	column 2 pollutant
1	aluminium
2	arsenic
3	barium
4	beryllium
5	boron
6	cadmium
7	calcium
8	chloride
9	chromium
10	cobalt
11	copper
12	cyanide
13	fluoride
14	iron
15	lead
16	mercury
17	molybdenum
18	nickel
19	nitrate-N
20	nitrite-N
21	selenium
22	sulfate

Schedule 3
Part 3.4

Pollutants entering waterways taken to cause environmental harm
Stock water supply (STOCK)

column 1 item	column 2 pollutant
23	vanadium
24	zinc

Table 3.4.2 Group B—organic chemicals

column 1 item	column 2 pollutant
1	atrazine
2	glyphosate
3	metolachlor
4	simazine

Part 3.5 **Irrigation water supply—(IRRIG)**

Table 3.5.1 Group A—inorganic chemicals

column 1 item	column 2 pollutant
1	aluminium
2	arsenic
3	beryllium
4	boron
5	cadmium
6	chloride
7	chromium
8	copper
9	fluoride
10	iron
11	lead
12	lithium
13	manganese
14	mercury
15	molybdenum
16	nickel
17	selenium
18	sodium
19	uranium
20	vanadium
21	zinc

Table 3.5.2 Group B—organic chemicals

column 1 item	column 2 pollutant
1	atrazine
2	chlordan
3	dieldrin
4	heptachlor
5	metolachlor
6	simazine

Pollutants entering waterways taken to cause environmental harm
Aquatic habitat—mountain streams (AQUA/1), lowland streams (AQUA/2),
urban lakes and ponds (AQUA/3), urban drains and streams (AQUA/4),
urban wetlands (AQUA/5), or mountain reservoirs (AQUA/6)

Schedule 3
Part 3.6

Part 3.6

Aquatic habitat—mountain streams (AQUA/1), lowland streams (AQUA/2), urban lakes and ponds (AQUA/3), urban drains and streams (AQUA/4), urban wetlands (AQUA/5), or mountain reservoirs (AQUA/6)

Table 3.6.1 **Group A—inorganic chemicals**

column 1 item	column 2 pollutant
1	aluminium
2	ammonia

16	guthion
17	heptachlor
18	lindane

Pollutants entering waterways taken to cause environmental harm
 Aquatic habitat—mountain streams (AQUA/1), lowland streams (AQUA/2),
 urban lakes and ponds (AQUA/3), urban drains and streams (AQUA/4),
 urban wetlands (AQUA/5), or mountain reservoirs (AQUA/6)

Schedule 3
Part 3.6

column 1 item	column 2 pollutant
19	malathion
20	methoxychlor
21	metolachlor
22	metribuzin
23	mirex
24	parathion
25	picrolam
26	simazine
27	toxaphene

**Table 3.6.3 Group C—organic chemicals—non-pesticide
anthropogenic organics**

column 1 item	column 2 pollutant
1	acrolein
2	chlorinated benzenes—
2.1	monochlorobenzene
2.2	1,2-dichlorobenzene
2.3	1,3-dichlorobenzene
2.4	1,4-dichlorobenzene
2.5	1,2,3-trichlorobenzene
2.6	1,2,4-trichlorobenzene
2.7	1,3,5-trichlorobenzene
2.8	1,2,3,4-tetrachlorobenzene
2.9	1,2,3,5-tetrachlorobenzene
2.10	1,2,4,5-tetrachlorobenzene

Schedule 3
Part 3.6

Pollutants entering waterways taken to cause environmental harm
Aquatic habitat—mountain streams (AQUA/1), lowland streams (AQUA/2),
urban lakes and ponds (AQUA/3), urban drains and streams (AQUA/4),
urban wetlands (AQUA/5), or mountain reservoirs (AQUA/6)

column 1 item	column 2 pollutant
2.11	pentachlorobenzene
2.12	hexachlorobenzene
3	chlorinated ethylenes—
3.1	trichlorethylene
3.2	tetrachloroethylene
4	chlorinated phenols—
4.1	monochlorophenol
4.2	dichlorophenol
4.3	trichlorophenol
4.4	tetrachlorophenol
4.5	pentachlorophenol
5	halogenated aliphatic compounds—
5.1	hexachlorobutadiene
6	halogenated methanes—
6.1	carbon tetrachloride
6.2	chloroform
6.3	dichloromethane (methylene chloride)
6.4	trihalomethanes
7	monocyclic aromatic hydrocarbons—
7.1	benzene
7.2	ethylbenzene
7.3	phenol
7.4	toluene
8	oil and grease
9	phthallate esters
10	polychlorinated biphenyls

Pollutants entering waterways taken to cause environmental harm
Aquatic habitat—mountain streams (AQUA/1), lowland streams (AQUA/2),
urban lakes and ponds (AQUA/3), urban drains and streams (AQUA/4),
urban wetlands (AQUA/5), or mountain reservoirs (AQUA/6)

2	glyphosate	≤2mg/L
3	metolachlor	≤0.5mg/L
4	simazine	≤0.02mg/L

Part 4.6 Irrigation water supply (IRRIG)

4.2 Faecal coliforms—IRRIG

- (1) For the indicator faecal coliforms in the table—
 - (a) the median must be 1 000cfu/100mL or less for at least 5 samples taken at regular intervals within 1 month; and
 - (b) no more than 20% of the samples may contain more than 4 000cfu/100mL.
- (2) In this section:
cfu, for faecal coliforms, means colony forming units.

4.3 Sodium absorption ratio

- (1) The sodium absorption rate (**SAR**) is calculated using the following formula:

$$\text{SAR} = \text{Na}^+ \times \frac{\text{Ca}^{2+} + \text{Mg}^{2+}}{2}$$

- (2) In this formula, concentrations of Na^+ , Ca^{2+} and Mg^{2+} are expressed in milli equivalents/L.

Table 4.6.1 Microbiology

Part 4.7 **Aquatic habitat—mountain
streams (AQUA/1), lowland
streams (AQUA/2), urban lakes &
ponds (AQUA/3), urban drains
and streams (AQUA/4), urban
wetland (AQUA/5), mountain
reservoirs (AQUA/6)**

4.4 **Acidity**

For the indicator acidity (see table 4.7.2, item 1)—

- (a) the acidity must not be more than 2 standard deviations from the long-term mean for the relevant month; and
- (b) total alkalinity must not be less than 25% of the long-term mean for the relevant month.

4.5 **Colour and turbidity**

The combined effects of the indicators colour and turbidity must not reduce the depth of the compensation point for photosynthesis by more than 10% of the long-term mean for the relevant month.

4.6 **Total dissolved solids**

The value for the indicator total dissolved solids must not be more than 2 standard deviations from the long-term mean for the relevant month.

4.7 Ammonia levels

The ammonia level for discharge of wastewater must be based on the highest pH and highest ambient temperature likely to happen during the year.

Note The indicator ammonia is dealt with in table 4.7.8.

Table 4.7.1 Indicators other than ammonia microbiology

column 1 item	column 2 indicator	column 3 standard

4	chlorinated phenols—	
4.1	monochlorophenol	≤7 000ng/L
4.2	dichlorophenol	≤200ng/L
4.3	trichlorophenol	≤18 000ng/L
4.4	tetrachlorophenol	≤1 000ng/L
4.5	pentachlorophenol	≤50ng/L
5	halogenated aliphatic compounds—	
5.1	hexachlorobutadiene	≤100ng/L
6	halogenated methanes—	
6.1	carbon tetrachloride	≤13 000ng/L
6.2	chloroform	≤2 000ng/L
6.3	dichloromethane (methylene chloride)	≤98 000ng/L
6.4	trihalomethanes	≤50 000ng/L

Schedule 4
Part 4.7

Ambient environmental standards
Aquatic habitat—mountain streams (AQUA/1), lowland streams (AQUA/2), urban lakes & ponds (AQUA/3), urban drains and streams (AQUA/4), urban wetland (AQUA/5), mountain reservoirs (AQUA/6)

Section 4.7

column 1 item	column 2 indicator	column 3 standard
7	monocyclic aromatic hydrocarbons—	
7.1	benzene	≤300 000ng/L
7.2	ethylbenzene	≤140 000ng/L
7.3	phenol	≤1 000ng/L
7.4	toluene	≤300 000ng/L
8	phthallate esters—	
8.1	di- <i>n</i> -butylphthallate (DBP)	≤4 000ng/L
8.2	di-(2-ethylhexyl) phthallate (DEHP)	≤600ng/L
8.3	other phthallate esters	≤200ng/L
9	polychlorinated biphenyls	≤1ng/L
10	polycyclic aromatic hydrocarbons	≤3 000ng/L

**Table 4.7.6 Indicators other than ammonia
chemistry—organic chemicals—organometallics**

column 1 item	column 2 indicator	column 3 standard
1	tributyltin	≤8ng/L
2	triphenyltin	≤20ng/L

**Table 4.7.7 Indicators other than ammonia
aesthetics**

column 1 item	column 2 indicator	column 3 standard
1	oil and grease	not visible

Table 4.7.8 Indicator ammonia

column 1 item temperature →	column 2 acidity	column 3 ammonia concentration (mg/L)						
		0°C	5°C	10°C	15°C	20°C	25°C	30°C
1	pH 6.50	<2.5	<2.4	<2.2	<2.2	<1.49	<1.04	<0.73
2	pH 6.75	<2.5	<2.4	<2.2	<2.2	<1.49	<1.04	<0.73
3	pH 7.00	<2.5	<2.4	<2.2	<2.2	<1.49	<1.04	<0.74
4	pH 7.25	<2.5	<2.4	<2.2	<2.2	<1.5	<1.04	<0.74
5	pH 7.50	<2.5	<2.4	<2.2	<2.2	<1.5	<1.05	<0.74
6	pH 7.75	<2.3	<2.2	<2.1	<2.0	<1.4	<0.99	<0.71
7	pH 8.00	<1.53	<1.44	<1.37	<1.33	<0.93	<0.66	<0.47
8	pH 8.25	<0.87	<0.82	<0.78	<0.76	<0.54	<0.39	<0.28
9	pH 8.50	<0.49	<0.47	<0.45	<0.44	<0.32	<0.23	<0.17
10	pH 8.75	<0.28	<0.27	<0.26	<0.27	<0.19	<0.16	<0.11
11	pH 9.00	<0.16	<0.16	<0.16	<0.16	<0.13	<0.10	<0.08

Note Available un-ionised or uncomplexed ammonia present is toxic to a wide range of aquatic organisms and varies with acidity (pH) and water temperature.

Part 4.8 Secondary ambient environmental standards

4.8 Temperature

Temperature changes must not be more than 2 standard deviations from the long-term mean temperature for the relevant month.

4.9 Biological standards

- (1) Water quality at a site will be considered to be impaired if species richness is more than 20% lower than at an appropriate reference site.
- (2) Water quality at a site will be considered to be impaired if there is a significant difference in ecosystem community structure from that at an appropriate reference site, as judged by Hocutt's procedure or another appropriate statistical technique.

Table 4.8.1 Indicator—biochemical oxygen demand

column 1 item	column 2 area	column 3 standard
1	Lake Burley Griffin	<51 200kg/y
2	Lake Ginninderra	<8 400kg/y
3	Lake Tuggeranong	<5 600kg/y
4	Murrumbidgee River at ACT border	<110 600kg/y

Table 4.8.2 Indicator—phosphorus (total)

column 1 item	column 2 area	column 3 standard
1	Lake Burley Griffin	<8 600kg/y
2	Lake Ginninderra	<300kg/y
3	Lake Tuggeranong	<600kg/y
4	Murrumbidgee River at ACT border	<83 200kg/y

Table 4.8.3 Indicator—sediment load

column 1 item	column 2 area	column 3 standard
1	Murrumbidgee River—	
1.1	• from Angle Crossing to Gudgenby River junction	<88 000kg/y/river reach
1.2	• from Gudgenby junction to Point Hut Creek junction	<166 000kg/y/reach
1.3	• from Point Hut junction to Kambah Pool	<133 000kg/y/reach
1.4	• from Kambah Pool to Casuarina Sands	<57 000kg/y/reach
1.5	• from Casuarina Sands to Uriarra Crossing	<101 000kg/y/reach
1.6	• from Uriarra Crossing to Cusacks Crossing	<66 000kg/y/reach
1.7	• from Cusacks Crossing to Halls Crossing	<124 000kg/y/reach
1.8	• from Halls Crossing to Taemas Bridge	<228 000kg/y/reach
2	Molonglo River—	
2.1	• from Burbong to Oaks Estate Bridge	<39 000kg/y/reach
2.2	• from Oaks Estate Bridge to Dairy Flat Bridge	<19 000kg/y/reach
2.3	• from Scrivener Dam to Coppins Crossing	<20 000kg/y/reach
2.4	• from Coppins Crossing to Sturt Island	<25 000kg/y/reach

Schedule 4

4.1	<ul style="list-style-type: none">from Ginninderra Dam to Murrumbidgee River	<9 800kg/y/reach

Table 4.8.4 Sediment contaminants

column 1 item	column 2 indicator	column 3 standard
1	pesticides	sediment total pesticide concentrations must not be more than 2 standard deviations higher than the long-term mean
2	heavy metals (arsenic, cadmium, copper, lead, mercury, nickel, selenium and zinc)	sediment heavy metal concentrations must not be more than 2 standard deviations higher than the long-term mean
3	polycyclic aromatic hydrocarbons (PAHs)	sediment PAH concentrations must not be more than 2 standard deviations higher than the long-term mean

Dictionary

(see s 3)

Note 1 The [Legislation Act](#) contains definitions and other provisions relevant to this regulation.

Note 2 For example, the [Legislation Act](#), dict, pt 1, defines the following terms:

- AS (see s 164 (1))
- chief health officer
- chief officer (fire and rescue service)
- chief officer (rural fire service)
- contravene
- director-general (see s 163)
- emergency services commissioner
- environment protection authority
- function
- law (of the Territory)
- may (see s 146)
- must (see s 146)
- national capital plan
- public holiday
- State
- territory lease
- territory plan
- veterinary practitioner.

Note 3 Terms used in this regulation have the same meaning that they have in the [Environment Protection Act 1997](#) (see [Legislation Act](#), s 148). For example, the following terms are defined in the [Environment Protection Act 1997](#), dictionary:

- authorised officer
- development
- environment
- environmental authorisation

- environmental harm
- environmental protection agreement
- land sublease
- pollutant.

adjoining, for noise zones, for part 3 (Noise)—see section 21.

affected person, for part 3 (Noise)—see section 21.

affected place, for part 3 (Noise)—see section 22.

agency, for part 7 (Controlled waste)—see section 56.

agricultural chemical product, for part 6 (Agvet chemical products)—see section 53.

agvet chemical product, for part 6 (Agvet chemical products)—see section 53.

agvet code, for part 6 (Agvet chemical products)—see section 53.

agvet permit, for part 6 (Agvet chemical products)—see section 53.

approval, for an activity, means a licence, lease, permit or other authority (however described) under a territory law if the authority authorises or allows the conduct of the activity on stated public land.

approved label, for part 6 (Agvet chemical products)—see section 53.

approved VET course unit of competency, for division 6.4 (Training requirements for use of certain agvet chemical products)—see section 55E (1).

AS 2436 means AS 2436 (Guide to noise and vibration control on construction, demolition and maintenance sites), as in force from time to time.

Note AS 2436 may be purchased at www.standards.org.au.

as near as practicable, for part 3 (Noise)—see section 21.

Australian university means an entity established, recognised or approved as a university under a territory law or the law of the Commonwealth or a State.

broadacre zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

building intruder alarm, for schedule 2, part 2.3 (Noise conditions)—see schedule 2, part 2.3, section 2.2.

building work—see the [Building Act 2004](#), section 6 (Meaning of *building work*).

built-up area—see the [Emergencies Act 2004](#), section 6A.

Central National Area (City Hill Precinct), for schedule 2, part 2.1 (Noise zones)—see schedule 2, section 2.1.

Central National Area (Fairbairn), for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

Central National Area (Parliamentary Zone and Other Areas), for schedule 2, part 2.1 (Noise zones)—see schedule 2, section 2.1.

chimney means a structure or opening designed to allow the emission of pollutants into the air from premises, whether or not the chimney is structurally part of the premises.

city centre, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

commercial CZ4 zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

commercial CZ5 zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

community facility zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

compliance point, for part 3 (Noise)—see section 32 to section 38.

consignment authorisation, for part 7 (Controlled waste)—see section 56.

controlled waste, for part 7 (Controlled waste)—see section 56.

corridor site, for schedule 2 (Noise zones, noise standards and conditions)—see schedule 2, section 2.1.

environmental values, for part 4, schedule 3 and schedule 4—see section 41.

erosion and sediment control measures, for part 8A (Erosion and sediment control measures for development sites)—see section 66A.

facility, for part 7 (Controlled waste)—see section 56.

group centre, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

habitable room, for schedule 2, part 2.3 (Noise conditions)—see schedule 2, part 2.3, section 2.2.

industrial zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

instruction on the approved label for a registered agvet chemical product, for part 6 (Agvet chemical products)—see section 53.

jurisdiction of destination, for the movement of waste, for part 7 (Controlled waste)—see section 56.

jurisdiction of origin, for the movement of waste, for part 7 (Controlled waste)—see section 56.

jurisdiction of transit, for the movement of waste, for part 7 (Controlled waste)—see section 56.

leisure and accommodation zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

light rail, for schedule 2, part 2.3 (Noise conditions)—see the [Road Transport \(General\) Act 1999](#), dictionary.

major road, for schedule 2, part 2.3 (Noise conditions)—see schedule 2, part 2.3, section 2.2.

motor vehicle intruder alarm, for schedule 2, part 2.3 (Noise conditions)—see schedule 2, part 2.3, section 2.2.

national capital plan, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

national emission guidelines, for division 2.2 (Chimney emissions causing environmental harm)—see section 7.

national scheme laws—see the [Act](#), section 2 (3).

NEPM, for part 7 (Controlled waste)—see section 56.

network facility, for schedule 2, part 2.3 (Noise conditions)—see the [Utilities Act 2000](#), dictionary.

noise measurement manual—see section 29A.

noise standard, for part 3 (Noise)—see section 24.

noise zone, for part 3 (Noise)—see section 23.

office site, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

owner, of land, includes—

- (a) a lessee; and
- (b) for land under a land sublease—the sublessee.

parcel, of land under a territory lease, includes land under a land sublease.

PCB, for part 5—see section 51.

PCB material, for part 5—see section 51.

Poisons Standard means the current Poisons Standard under the [Therapeutic Goods Act 1989](#) (Cwlth) as in force from time to time.

Note The Poisons Standard does not need to be notified under the [Legislation Act](#) because s 47 (6) does not apply (see [Act](#), s 164B). The Poisons Standard is accessible at www.legislation.gov.au.

premises includes vacant land, a vehicle, a vessel or an aircraft.

primary production means—

- (a) production resulting directly from—
 - (i) cultivation of land; or
 - (ii) maintaining animals or poultry for their sale, their bodily produce or natural increase; or
 - (iii) fishing operations; or
 - (iv) forest operations; or
 - (v) horticulture; and
- (b) the manufacture of dairy produce by the person who produced the raw material used in the manufacture.

producer, for part 7 (Controlled waste)—see section 56.

public land—see the [Planning Act 2023](#), dictionary.

Queanbeyan city business zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

Queanbeyan city industrial zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

Queanbeyan city special uses zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

registered, for an agvet chemical product, means registered under the [agvet code](#), part 2.

reserve—for schedule 2, part 2.3 (Noise conditions)—see the [Nature Conservation Act 2014](#), section 169.

Note Reserves include wilderness areas, national parks, nature reserves, catchment areas and other areas of public land.

residential land means an area identified in the [territory plan](#) as being in a residential zone.

Note The territory plan is available at www.legislation.act.gov.au.

restricted access recreation zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

restricted agvet chemical product, for division 6.4 (Training requirements for use of certain agvet chemical products)—see section 55C.

road—see the [Road Transport \(General\) Act 1999](#), dictionary.

road related area—see the [Road Transport \(General\) Act 1999](#), dictionary.

sell—see the [Act](#), schedule 2, section 2.1.

Note Under the [Act](#), sch 2, s 2.1, **sell** includes exhibit or offer for sale (whether by wholesale or retail) and supply by way of exchange, lease, hire or credit sale.

schedule 7 poison, for division 6.4 (Training requirements for use of certain agvet chemical products)—see section 55C.

statement of attainment, for division 6.4 (Training requirements for use of certain agvet chemical products)—see section 55C.

stormwater—see the [Act](#), schedule 1, section 1.1.

Note Under the [Act](#), sch 1, s 1.1, **stormwater** means water run-off from an urban area that is normally collected by the stormwater system.

stormwater system—see the [Act](#), schedule 1, section 1.1.

Note Under the [Act](#), sch 1, s 1.1, **stormwater system** means a system of pipes, gutters, drains, floodways and channels, being public works constructed to collect or transport stormwater in or through an urban area.

territory network facility, for schedule 2, part 2.3 (Noise conditions)—see the [Utilities Act 2000](#), dictionary.

town centre, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

transporter, for part 7 (Controlled waste)—see section 56.

TSZ2 services zone, for schedule 2, part 2.1 (Noise zones)—see schedule 2, part 2.1, section 2.1.

unit, for part 3 (Noise)—see the *Unit Titles Act 2001*, section 9.

units plan, for part 3 (Noise), means a units plan under the *Unit Titles Act 2001*, section 7.

unseasoned wood means wood containing more than 20% moisture.

VET course, for division 6.4 (Training requirements for use of certain agvet chemical products)—see section 55C.

veterinary chemical product, for part 6 (Agvet chemical products)—see section 53.

waste—

- (a) see the *Act*, schedule 1, section 1.1; but
- (b) for part 7 (Controlled waste)—see section 56.

Note Under the *Act*, sch 1, s 1.1, **waste** means a solid, liquid or gas, or a combination of them, that is a surplus product or unwanted by-product of an activity, whether the product or by-product is of value or not.

waterway—see the *Act*, schedule 1, section 1.1.

Note Under the *Act*, sch 1, s 1.1, **waterway** means—

- (a) a river, creek, stream or other natural channel in which water flows (whether permanently or intermittently); or
- (b) a channel formed (whether in whole or part) by altering or relocating a waterway described in paragraph (a), and includes the stormwater system; or
- (c) a lake, pond, lagoon or marsh (whether formed by geomorphic processes or by works) in which water collects (whether continuously or intermittently);

and includes the bed that the water in the waterway normally flows over or is covered by and the banks that the water in the waterway normally flows between or is contained by, but does not include land normally not part of the waterway that may be covered from time to time by floodwaters from the waterway.

Endnotes

1 About the endnotes

Amending and modifying laws are annotated in the legislation history and the amendment history. Current modifications are not included in the republished law but are set out in the endnotes.

Not all editorial amendments made under the [Legislation Act 2001](#), part 11.3 are annotated in the amendment history. Full details of any amendments can be obtained from the Parliamentary Counsel's Office.

Uncommenced amending laws are not included in the republished law. The details of these laws are underlined in the legislation history. Uncommenced expiries are underlined in the legislation history and amendment history.

If all the provisions of the law have been renumbered, a table of renumbered provisions gives details of previous and current numbering.

The endnotes also include a table of earlier republications.

2 Abbreviation key

A = Act	NI = Notifiable instrument
AF = Approved form	o = order
am = amended	om = omitted/repealed

5 Earlier republications

Some earlier republications were not numbered. The number in column 1 refers to the publication order.

Since 12 September 2001 every authorised republication has been published in electronic pdf format on the ACT legislation register. A selection of authorised republications have also been published in printed format. These republications are marked with an asterisk (*) in column 1. Electronic and printed versions of an authorised republication are identical.

Republication No and date	Effective	Last amendment made by	Republication for

6 Expired transitional or validating provisions

6 Expired transitional or validating provisions

This Act may be affected by transitional or validating provisions that have expired. The expiry does not affect any continuing operation of the provisions (see [Legislation Act 2001](#), s 88 (1)).

Expired provisions are removed from the republished law when the expiry takes effect and are listed in the amendment history using the abbreviation ‘exp’ followed by the date of the expiry.

To find the expired provisions see the version of this Act before the expiry took effect. The ACT legislation register has point-in-time versions of this Act.
