**1 Name of regulation**

This regulation is the *Road Transport (Safety and Traffic Management) Amendment Regulation 2006 (No 2)*.

**2 Commencement**

This regulation commences on the day after its notification day.

*Note* The naming and commencement provisions automatically commence on the notification day (see Legislation Act, s 75 (1)).

**3 Legislation amended**

This regulation amends the *Road Transport (Safety and Traffic Management) Regulation 2000*.

**4 New part 3.3**

*insert*

## **Part 3.3 Parking—other provisions**

### **101C Marking tyres by parking inspectors**

A police officer or authorised person may mark the tyres on a vehicle using crayon, chalk or a similar substance as far as is reasonably necessary for the purpose of enforcing a provision of an Act relating to the regulation or prohibition of the parking of vehicles.

*Note* A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including a regulation (see Legislation Act, s 104).

**5 Section 102, new definition of *loop detector speed measuring device***

*insert*

*loop detector speed measuring device* means a speed measuring device known as the Gatsometer Loop Detector (GLD4-2S).

**6 Section 102, definition of *piezo strip speed measuring device***

*substitute*

*piezo strip speed measuring device* means a speed measuring device known as Truvelo M4 MPC.

**7 Section 102, definition of *traffic lights camera detection device*, paragraph (b)**

*substitute*

- (b) Gatsometer Traffic Camera - Digital (GTC-D) which includes, as a component, a loop detector speed measuring device; or
- (c) Gatsometer Multi Camera System (MCS) which includes, as a component, a loop detector speed measuring device.

**8 Section 103 (2)**

*after*

laser speed measuring device,

*insert*

loop detector speed measuring device,

**9 New section 104A (1) (d)**

*insert*

- (d) the loop detector speed measuring device component of a traffic lights camera detection device.

**10 New section 104A (3A)**

*insert*

- (3A) The test of the loop detector speed measuring device component of the traffic lights camera detection device must show whether the device—
- (a) for speeds not exceeding 100km/h—is accurate within a tolerance of 2km/h; and
  - (b) for speeds exceeding 100km/h—is accurate within a tolerance of 2%.

**11 Section 104A (7)**

*substitute*

- (7) For this section, it is sufficient if the piezo strip speed measuring device component, or the loop detector speed measuring device component, of a traffic lights camera detection device is tested separately from the other components of the device, and it is not necessary for the other components to be tested.

**12 New section 108 (3) (c)**

*insert*

- (c) the loop detector speed measuring device component of the traffic lights camera detection device that took the image.

**13 Schedule 1, part 1.1, table 1.1, item 11***substitute*

|    |      |                                                                    |
|----|------|--------------------------------------------------------------------|
| 11 | 0011 | Ginninderra Drive between Ellenborough Street and Braybrook Street |
|----|------|--------------------------------------------------------------------|

**14 Schedule 1, part 1.1, table 1.1, item 66***substitute*

|    |      |                                                                      |
|----|------|----------------------------------------------------------------------|
| 66 | 0066 | Ginninderra Drive between Braybrook Street and Kingsford Smith Drive |
|----|------|----------------------------------------------------------------------|

**15 Schedule 1, part 1.1, table 1.1, new items 100 to 120***insert*

|     |      |                                                                                  |
|-----|------|----------------------------------------------------------------------------------|
| 100 | 0100 | Jansz Crescent between La Perouse Street and Carnegie Crescent                   |
