Planning and Development Act 2007

Republication No 90

Effective: 1 June 2020 – 30 June 2020

Republication date: 1 June 2020

Last amendment made by [A2020-16](#)

About this republication

The republished law

This is a republication of the *Planning and Development Regulation 2008*, made under the *Planning and Development Act 2007* (including any amendment made under the [Legislation Act 2001](#), part 11.3 (Editorial changes)) as in force on 1 June 2020. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 1 June 2020.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the [Legislation Act 2001](#) applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The [Legislation Act 2001](#), part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see [Legislation Act 2001](#), s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the [Legislation Act 2001](#), section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$160 for an individual and \$810 for a corporation (see [Legislation Act 2001](#), s 133).

Planning and Development Act 2007

Chapter 1 Preliminary

1 Name of regulation

This regulation is the *Planning and Development Regulation 2008*.

3 Dictionary

The dictionary at the end of this regulation is part of this regulation.

Note 1 The dictionary at the end of this regulation defines certain terms used in this regulation, and includes references (*signpost definitions*) to other terms defined elsewhere.

For example, the signpost definition '*community use*—see the [territory plan](#) (13 Definitions).' means that the term 'community use' is defined in the [territory plan](#) and the definition applies to this regulation.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire regulation unless the definition, or another provision of the regulation, provides otherwise or the contrary intention otherwise appears (see [Legislation Act](#), s 155 and s 156 (1)).

4 Notes

A note included in this regulation is explanatory and is not part of this regulation.

Note See the [Legislation Act](#), s 127 (1), (4) and (5) for the legal status of notes.

Part 3.1 Exemptions from requirement for development approval

20 Exempt developments—Act, s 133, def *exempt development*

- (1) Development that complies with schedule 1 (Exemptions from requirement for development approval) is exempt from requiring development approval.

Note For other exemptions, see the [Act](#), div 7.2.6 (Exempt development).

- (2) Also, development is exempt from requiring development approval if—
- (a) the development would comply with schedule 1, or would be exempt from requiring development approval under the relevant development table for the development, other than for a matter (the *relevant matter*) to which schedule 1A (Permitted variations to approved and exempt developments) applies; and
 - (b) the relevant matter complies with the criteria for the matter in schedule 1A; and
 - (c) a designated development for the development, as changed by the relevant matter, complies with the general exemption criteria that are applicable to the development.

Note 1 **Designated development**, in relation to land—see sch 1, s 1.2.

Note 2 **General exemption criteria**, for a development—see sch 1, s 1.10.

Note 3 **Relevant development table**—see the [Act](#), dictionary.

Note 4 The development may still need building approval, or further building approval, under the [Building Act 2004](#).

Note 5 The development must also comply with the lease for the land on which it is carried out.

- (3) Also, development that is exempt under this section does not require development approval for a modification of the development if—
- (a) the development has not been completed; and
 - (b) the modification would not need development approval if the modification were made after completion of the development.

Example—exemption

Construction of a dwelling that is an exempt development is in progress. The developer wishes to change the slope of the roof by less than 2° (see sch 1, s 1.24). The developer may construct the dwelling with the changed roofslope (the *modification*) without seeking approval for the modification.

- (4) Also, development that is exempt under this section does not require development approval for a variation of the development if—
- (a) the development has not been completed; and
 - (b) the variation consists of adding an exempt development to the development.

Example—exemption

Construction of a dwelling that is an exempt development is in progress. The developer wishes to incorporate a skylight that complies with the conditions in sch 1, s 1.26, and so is an exempt development. The developer may construct the dwelling with the skylight (the *variation*) without seeking approval for the variation.

- (5) Also, a development (the *composite development*) is exempt from requiring development approval if the development can be notionally separated into components, each of which is an exempt development.

Example—composite development

A development consists of a dwelling with a garage, windows, doors, chimney and an aerial (the *components*). As each of the components is an exempt development, the composite development is an exempt development.

- (6) However, subsections (3), (4) and (5) do not apply in relation to a development if the modification, variation or composite development results in non-compliance with 1 or more of the following:
- (a) schedule 1, section 1.17 (Criterion 7—no multiple occupancy dwellings);
 - (b) the requirement under schedule 1, section 1.41 that there be not more than 2 exempt class 10 buildings in a boundary clearance area in conjunction with schedule 1, section 1.18 (Criterion 8—compliance with other applicable exemption criteria);
 - (c) the requirement under schedule 1, section 1.100 (Compliant single dwellings—old residential land) that there be not more than 1 dwelling on a block.

 - (b) the exemption must be marked on, or attached to, or partly marked on or partly attached to, each page of the plans used by the works assessor or building surveyor in the assessment.

- (3) However, if, because of the size of the plans, it is impractical to mark the exemption on each page of the plans, the works assessor or building surveyor may, instead of marking the exemption under subsection (2) (a), mark each page of the plans with—

- (a) the change relates only to a matter (the *relevant matter*) to which schedule 1A (Permitted variations to approved and exempt developments) applies; and
 - (b) the change complies with the criteria for the relevant matter in schedule 1A; and
 - (c) a designated development for the development, as changed by the relevant matter, complies with the general exemption criteria that are applicable to the development except to the extent that the development approval allows the development to not comply with the criteria.

Note 1 **Designated development**, in relation to land—see sch 1, s 1.2.

Note 2 **General exemption criteria**, for a development—see sch 1, s 1.10.

Note 3 The development may still need building approval, or further building approval, under the [Building Act 2004](#).

Note 4 The development must also comply with the lease for the land on which it is carried out.

- (2) Also, development in accordance with the changed development proposal is taken to be in accordance with the development approval if the change would not need development approval if the change were made after completion of the development.

Example—change

Construction of a dwelling has development approval. The developer wishes to change the slope of the roof by less than 2° (see sch 1, s 1.24). The developer may construct the dwelling with the changed roofslope without seeking approval for the change.

Note The change may still need building approval, or further building approval, under the [Building Act 2004](#).

- (3) Also, development in accordance with the changed development proposal is taken to be in accordance with the development approval if the change consists of adding an exempt development to the development.

Example—change

Construction of a dwelling has development approval. The developer wishes to incorporate a skylight that complies with the conditions in sch 1, s 1.26, and so is an exempt development. The developer may construct the dwelling with the skylight without seeking approval for the skylight.

- (4) However, subsections (2) and (3) do not apply if the change results in non-compliance with 1 or more of the following:
- (a) schedule 1, section 1.17 (Criterion 7—no multiple occupancy dwellings);
 - (b) the requirement under schedule 1, section 1.41 that there be not more than 2 exempt class 10 buildings in a boundary clearance area in conjunction with schedule 1, section 1.18 (Criterion 8—compliance with other applicable exemption criteria);
 - (c) the requirement under schedule 1, section 1.100 (Compliant single dwellings—old residential land) that there be not more than 1 dwelling on a block.

Note **Exempt developments**—see the [Act](#), s 133 and this regulation, s 20.

Division 1.3.2 Exempt developments—non-habitable buildings and structures

Subdivision 1.3.2.1 Preliminary

1.40 Meaning of *class 10a building*—div 1.3.2

In this division:

class 10a building includes the following:

- (a) a garage, carport or shed;
- (b) a conservatory, greenhouse, gazebo, pergola, shelter, shade structure or hail protection structure, studio, workshop or cubbyhouse;
- (c) a stable, storeroom or other outbuilding;
- (d) a deck, verandah, porch, landing, stairs or ramp.

Note 1 **Class**, for a building or structure, means the class of building or structure under the building code (see dict).

Note 2 A swimming pool is not a class 10a building (see building code).

1.41 Class 10 buildings and structures—2nd exempt building or structure within boundary clearance area

- (1) In this section:

boundary clearance area, for a side boundary or rear boundary of a block, means the area between the boundary and a line drawn 1.5m inside the block and parallel to the boundary.

class 10 building or structure does not include a sign installed on land.

relevant cross-section area, of a building or structure partially or fully within a boundary clearance area, means the area of the largest vertical cross-section of the building or structure at any point in the area when measured in a plane parallel to the boundary.

Examples—relevant cross-section area

- 1 A rectangular shed encroaches on the boundary clearance area of a block and is parallel to the boundary. The wall facing the boundary is 2m high and 3m wide. The roof does not increase the profile of the structure. The relevant cross-section area of the shed is 6m².
 - 2 A shed with a triangular footprint encroaches on the boundary clearance area of a block and the base is 1m from, and parallel to, the boundary. The apex is not in the boundary clearance area. The vertical wall facing the boundary is 2m high and 4m wide. The roof does not increase the profile of the structure. The wall is the largest cross-section area within the boundary clearance area. The relevant cross-section area of the shed is 8m².
 - 3 A pergola has no walls, encroaches on the boundary clearance area of a block, and is parallel to the boundary. The side facing the boundary is 2m high and 3m wide. However, the uprights have a total area facing the boundary of 0.6m² and the crossbeam has a total area facing the boundary of 0.9m². The relevant cross-section area of the pergola is 1.5m².
- (2) A designated development for a class 10 building or structure (the **2nd thing**) in a boundary clearance area of a block if—
- (a) an existing class 10 building or structure (the **1st thing**) is partially or fully in a boundary clearance area of the block; and
 - (b) the 2nd thing would be exempt under another section of this schedule if the 1st building were not located partially or fully within the boundary clearance area; and
 - (c) the 2nd thing is not a boundary fence; and

- (d) the 1st thing and 2nd thing—
 - (i) are the only class 10 buildings or structures (other than a boundary fence) that are partially or fully within the boundary clearance area; and
 - (ii) have a combined relevant cross-section area above natural ground level of not more than 30m²; and
- (e) the designated development complies with the general exemption criteria that are applicable to the development.

Example—par (d) (ii)

A regular-shaped, flat-roofed, garden shed faces parallel to and is 1m from the boundary of a block. Its relevant cross-section area is the area of the rectangles bounded by the shed wall that faces the boundary and the edge of its roof, a total area of 15m².

The block's owner proposes to build a 2nd class 10a building which is a circular rotunda with a domed roof. Its relevant cross-section area is the largest cross-section of the rotunda at any point in the boundary clearance area when measured in a plane parallel to the boundary, an area of 18m².

Because the combined relevant cross-section areas of shed and rotunda are more than 30m², the rotunda does not comply with this section and is not exempt from a development application.

Note 1 **Designated development**, in relation to land—see s 1.2.

Note 2 **General exemption criteria**, for a development—see s 1.10.

- (3) To remove any doubt, this section applies in relation to the boundary clearance area of each side boundary and rear boundary of a block.

 - (c) the encroachment is not permitted by a relevant development approval.
- (3) The building or structure must be horizontally sited so that—
 - (a) for any point of the building or structure that the applicable siting criteria allows or requires to be sited on, or not more than 900mm horizontally from, a boundary of the block—
 - (i) for a boundary fence—the point is sited so that the centre of the fence’s panelling is not more than 50mm horizontally from the boundary; and
 - (ii) in any other case—the point is sited wholly on the block and not more than 50mm horizontally from where the applicable siting criteria allow or require it to be sited; and
 - (b) for any point of the building or structure that the applicable siting criteria allows or requires to be sited more than 900mm horizontally from a boundary of the block—the point is sited wholly on the block and not more than 340mm horizontally from where the applicable siting criteria allow or require it to be sited; and

(c) compared to the approved development or exempt development, the building or structure does not do either or both of the following:

(i) increase the diversion or concentration of the flow of surface water—

(A) in a way that causes ponding; or

(B) onto other land;

Note **Surface water**—see the [Water Resources Act 2007](#), s 8.

(ii) change the number of stories in the building or structure.

Examples—s (2)

- 1 An exemption for the construction of a house requires a wall to be sited not closer than 900mm horizontally from the western boundary of the block. The house is constructed so that its western wall is 850mm horizontally from the boundary (50mm less than required). The siting of the house is within the allowed tolerance under par (a) (ii) because it breaches the siting requirement under the exemption by not more than 50mm.
- 2 If the resiting of the wall under example 1 moves the wall onto an easement, the resiting of the wall does not comply with this section because the resiting breaches general exemption criterion 1 (see s 1.11) about easements.
- 3 If the resiting of the wall under example 1 increases the gross floor area of the house because the other walls of the house were not correspondingly resited, the resiting of the wall would not comply with this section if it breaches a requirement under the lease about plot ratio or the house's gross floor area (see general exemption criterion 5 (s 1.15 (a))). However, if the house were constructed under an exemption in a development table and the resiting of the wall only breaches a requirement about plot ratio in the exemption in the relevant development table, the resiting is not prevented by this section because a breach of a plot ratio requirement in the development table is not excluded by this section or the general exemption criteria.

- 4 An external deck with a finished floor level of 1m is built so that one side of it is 1.4m from a side boundary. Under sch 1, s 1.48 (2) (b) any part of the deck that is within 1.5m of the side boundary must have a finished floor level of not more than 0.4m above natural ground level. The siting of the deck is within the allowed tolerance under par (b) because it breaches the siting requirement by only 100mm.

Note 1 The development, as changed in accordance with this section, must also comply with the general exemption criteria, see s 20 (2) and s 35.

Note 2 A change to the height of the finished floor level of the level immediately above a basement may mean that the space is counted as a storey and may also affect the calculation of gross floor area (see [territory plan](#) (13 Definitions), defs **basement** and **storey**).

- (4) If the planning and land authority makes an exemption declaration that extends the permitted horizontal dimension of a dwelling, the distance of 340mm mentioned in subsection (3) (b) is reduced—

- (a) if the dimension is extended by not more than 290mm—by the extended distance stated in relation to the dimension in the exemption declaration; or
- (b) if the dimension is extended by more than 290mm—by 290mm.

- (5) In this section:

exemption declaration—see section 1.100A (1) (b).

- (6) In this section:

applicable siting criteria, in relation to a point of a building or structure on a block, means the criteria about the horizontal siting of the point on the block under—

- (a) if the building or structure would be covered by a development approval other than for its horizontal siting on the block—the approval; or
- (b) if the building or structure would be a sch 1 exempt development other than for its horizontal siting on the block—schedule 1, part 1.3 (Exempt developments); or

- (c) if the building or structure would be an exempt development under the relevant development table other than for its horizontal siting on the block—the table.

easement means an easement registered on the land titles register.

on, a block, or a boundary of a block, includes above or below ground level for the block or boundary.

1A.11 Permitted variations—height tolerances for buildings and structures

- (1) This section applies to the vertical siting on a block of a building or structure that does not comply with the applicable height criteria.
- (2) This section does not apply if—
 - (a) a relevant solar building envelope applies to the block; and
 - (b) any point of the building or structure extends beyond the relevant solar building envelope (an *encroachment*); and
 - (c) the encroachment is not permitted by a relevant development approval.
- (3) The building or structure must be vertically sited so that—
 - (a) for any point of the building or structure that the applicable height criteria allows or requires to be sited at a particular height—
 - (i) the point is sited wholly within the lease to which the point relates and is not more than 340mm above or below where the applicable height criteria allow or require the point to be sited; but

- (ii) if the point is the sill of an exterior window—the sill is not more 50mm closer to the finished floor level immediately adjacent to the window's sill; and

Example—subpar (i)

A multistorey block of apartments is divided into separate units under the [Unit Titles Act 2001](#). Each apartment must be within the spatial lease for the unit.

- (b) compared to the approved development or exempt development, the building or structure does not do any of the following:
 - (i) increase the diversion or concentration of the flow of surface water—
 - (A) in a way that causes ponding; or
 - (B) onto other land;
 - (ii) reduce the accessibility of the building or structure for people with disabilities;
 - (iii) change the number of stories in the building or structure.

Note 1 The development, as changed in accordance with this section, must also comply with the general exemption criteria, see s 20 (2) and s 35.

Note 2 A change to the height of the finished floor level of the level immediately above a basement may mean that the space is counted as a storey and may also affect the calculation of gross floor area (see [territory plan](#) (13 Definitions), defs **basement** and **storey**).

- (4) If the planning and land authority makes an exemption declaration that extends a permitted height criterion of a dwelling, the distance of 340mm mentioned in subsection (3) (a) (i) is reduced—
 - (a) if the criterion is extended by not more than 290mm—by the extended distance stated in the exemption declaration for the criterion; or
 - (b) if the criterion is extended by more than 290mm—by 290mm.

(5) In this section:

applicable height criteria, in relation to a point of a building or structure, means the criteria about the height of the point under—

- (a) if the building or structure would be covered by a development approval other than for the height of the point—the approval; or
- (b) if the building or structure would be a sch 1 exempt development other than for the height of the point—schedule 1, part 1.3 (Exempt developments); or
- (c) if the building or structure would be an exempt development under the relevant development table other than for the height of the point—the table.

Schedule 2A Buyback program valuation procedure

(see s 214)

2A.1 Definitions—sch 2A

In this schedule:

Asbestos Response Taskforce means the Asbestos Response Taskforce established by the ACT government in June 2014.

assessment day means 28 October 2014.

reasonable value, of an affected lease, means the value of the lease, including the improvements, assuming that the lease, including the improvements, were offered for sale on the open market on the assessment day on the reasonable terms and conditions that a genuine seller might require.

Note *Affected lease*—see s 212.

- (1) Two valuations of the reasonable value of an affected lease must be carried out.
- (2) The affected lease, including the improvements, must be valued as at the assessment day.
- (3) A valuation must not have regard to—
 - (a) the presence of loose-fill asbestos insulation at the affected residential premises on the affected lease; or
 - (b) minor maintenance work needing to be carried out on the affected residential premises on the affected lease as at the assessment day; or

- (c) minor maintenance work or cosmetic improvements carried out on the affected residential premises on the affected lease after the assessment day.

2A.3 Accredited valuers to carry out valuation

- (1) Each valuation of the reasonable value of an affected lease must be carried out by a valuer who is—
 - (a) an accredited valuer; and
 - (b) independent of the other valuer carrying out a valuation of the affected lease; and
 - (c) independent of the territory and the lessee.
- (2) Each valuer must be selected by the Australian Property Institute Incorporated (ABN 49 007 505 866).

2A.4 Valuation to be given to lessee and Asbestos Response Taskforce

A valuer who carries out a valuation of the reasonable value of an affected lease must give a copy of the valuation to—

- (a) the lessee of the affected lease; and
- (b) the Asbestos Response Taskforce.

2A.5 Presidential determination—request by Asbestos Response Taskforce

- (1) This section applies if the Asbestos Response Taskforce is given 2 valuations of the reasonable value of an affected lease.
- (2) If the difference between the valuations is 10% or more, but less than 10.5%, of the lower valuation, the Asbestos Response Taskforce may ask for a presidential determination of the reasonable value of the affected lease.

Note **Presidential determination**—see s 2A.8.

- (3) In deciding whether to ask for a presidential determination, the Asbestos Response Taskforce must consider—
 - (a) the views of the lessee of the affected lease; and
 - (b) the difference between the valuations; and
 - (c) the cost involved in obtaining a presidential determination.
- (4) If the difference between the valuations is 10.5% or more of the lower valuation, the Asbestos Response Taskforce must ask for a presidential determination of the reasonable value of the affected lease.
- (5) If the Asbestos Response Taskforce asks for a presidential determination, the Asbestos Response Taskforce—
 - (a) must tell the lessee; and
 - (b) is liable for the cost of the determination.

2A.6 Buyback program valuation

The *buyback program valuation* for an affected lease is worked out as follows:

$$\frac{V1+V2}{2}$$

V1 means the first valuation of the reasonable value of the affected lease.

V2 means the second valuation of the reasonable value of the affected lease.

2A.7 Presidential determination—request by lessee

- (1) If a lessee of an affected lease rejects a buyback program valuation for the affected lease, the lessee may ask for a presidential determination of the reasonable value of the affected lease.

- (3) The presidential valuer must be—
 - (a) an accredited valuer; and
 - (b) independent of the valuers who carried out the valuations of the affected lease under section 2A.3; and
 - (c) independent of the Territory and the lessee.
- (4) The lessee may give any information or material to the presidential valuer that the lessee considers relevant to the valuation—
 - (a) if the Asbestos Response Taskforce asks for the presidential determination—before the presidential valuer starts the presidential determination; or
 - (b) if the lessee asks for the presidential determination—at the time the lessee asks for the presidential determination.
- (5) The presidential valuer must make a presidential determination in the same way as the valuations of the reasonable value of the affected lease were carried out.
- (6) A presidential determination is binding on the lessee and the Asbestos Response Taskforce.

2A.9 Amount payable for surrender of affected lease

- (1) This section applies if a lessee of an affected lease surrenders the lease under the buyback program.
- (2) The amount payable to the lessee for the surrender of the affected lease is—
 - (a) if a presidential determination is made of the reasonable value of the affected lease—the reasonable value determined by the presidential determination; or
