About this republication

The republished law

This is a republication of the Road Transport (Alcohol and Drugs) Act 1977 (including any amendment made under the Legislation Act 2001, part 11.3 (Editorial changes)) as in force on 19 September 2019. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 19 September 2019.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel’s Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the Legislation Act 2001 applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The Legislation Act 2001, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see Legislation Act 2001, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol U appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol M appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the Legislation Act 2001, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is $160 for an individual and $810 for a corporation (see Legislation Act 2001, s 133).

Road Transport (Alcohol and Drugs) Act 1977

An Act to provide for the detection of people who drive motor vehicles after consuming alcohol or drugs, for offences by those people, and to provide measures for the treatment and rehabilitation of those people.
Part 1 Preliminary

Section 1

Part 1 Preliminary

1 Name of Act

This Act is the Road Transport (Alcohol and Drugs) Act 1977.

Note 1 This Act is part of the road transport legislation. See the Road Transport (General) Act 1999 for various provisions about the administration and enforcement of the road transport legislation generally.

Note 2 Other road transport legislation includes the following:

- Road Transport (Driver Licensing) Act 1999
- Road Transport (General) Act 1999
- Road Transport (Public Passenger Services) Act 2001
- Road Transport (Safety and Traffic Management) Act 1999
- Road Transport (Third-Party Insurance) Act 2008
- Road Transport (Vehicle Registration) Act 1999.

Note 3 Other laws dealing with road transport include the Dangerous Goods (Road Transport) Act 2009 and the Heavy Vehicle National Law (ACT).

Note 4 A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see Legislation Act, s 104).

2 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary defines certain terms, and includes references (signpost definitions) to other terms defined elsewhere in this Act or elsewhere in the road transport legislation.

For example, the signpost definition ‘driver licence’—see the Road Transport (Driver Licensing) Act 1999, dictionary—means the term ‘driver licence’ is defined in that dictionary and the definition applies to this Act.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see Legislation Act, s 155 and s 156 (1)).
3 **Notes**

A note in this Act is explanatory and is not part of this Act.

*Note* See the Legislation Act, s 127 (1), (4) and (5) for the legal status of notes.

4 **Offences against Act—application of Criminal Code etc**

Other legislation applies in relation to offences against this Act.

*Note 1 Criminal Code*

The Criminal Code, ch 2 applies to the following offences against this Act (see Code, pt 2.1):

- s 19 (Prescribed concentration of alcohol in blood or breath)
- s 20 (Prescribed drug in oral fluid or blood—driver or driver trainer)
- s 22A (Refusing to provide oral fluid sample)
- s 22B (Failing to stay for screening test)
- s 22C (Refusing to undergo screening test)
- s 23 (1) (Refusing blood test etc)
- s 25 (Consuming alcohol—driver or driver trainer)
- s 47B (Police may direct person not to drive).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg conduct, intention, recklessness and strict liability).

*Note 2 Penalty units*

The Legislation Act, s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Part 2  Examination of people for alcohol or drugs

Division 2.1  Important concepts—alcohol and drug tests

Section 7

7  Meaning of alcohol screening device

In this Act:

*alcohol screening device* means a device prescribed by regulation that is designed to analyse a sample of a person’s breath to indicate if the person’s blood or breath contains the presence of alcohol.

*Note*  An alcohol screening device is used to carry out an alcohol screening test.

7A  Meaning of breath analysis instrument

In this Act:

*breath analysis instrument* means an instrument prescribed by regulation that is designed to analyse a sample of a person’s breath to record the concentration of alcohol in the person’s breath in either or both of the following:

(a) in grams per 100mL of blood;
(b) in grams per 210L of breath.

*Note*  A breath analysis instrument is used to carry out breath analysis.
7B Meaning of drug screening device

In this Act:

*drug screening device* means a device prescribed by regulation that is designed and made to indicate whether a prescribed drug is present in a person’s oral fluid when a sample of the person’s oral fluid is applied to the device.

7C Meaning of oral fluid analysis instrument

*oral fluid analysis instrument* means an instrument prescribed by regulation that is designed and made to indicate the presence of a prescribed drug in a sample of a person’s oral fluid.

7D Testing and maintenance of instruments etc

(1) A regulation may make provision in relation to the testing and maintenance of the following:

   (a) alcohol screening devices;

   (b) breath analysis instruments;

   (c) oral fluid analysis instruments.

(2) Without limiting subsection (1), a regulation may make provision for approval by the chief police officer of people to test and maintain devices and instruments mentioned in that subsection.
Division 2.2  Alcohol—screening tests

8  Power to require alcohol screening test if vehicle not involved in accident—driver and driver trainer

(1) A police officer may require a person to undergo 1 or more alcohol screening tests in accordance with the directions of that officer if—

(a) the person is—

(i) the driver of a motor vehicle on a road or road related area; or

(ii) the driver trainer in a motor vehicle on a road or road related area; or

(b) the police officer has reasonable cause to suspect that, shortly before the requirement is made, the person was—

(i) the driver of a motor vehicle on a road or road related area; or

(ii) the driver trainer in a motor vehicle on a road or road related area.

(2) The person must remain at the place where the alcohol screening test is being carried out until the test is completed in accordance with the police officer’s directions.
(3) In addition, if an alcohol screening device is not immediately available and the police officer has reasonable cause to suspect that the person has alcohol in the person’s body, the police officer may direct the person to remain at the place where the alcohol screening test is to be carried out for the time (not exceeding 30 minutes) reasonably necessary for an alcohol screening device to be made available and the test to be completed.

Example—screening device not immediately available
there is no working screening device at the place where the test is to be carried out

Note A person commits an offence if a person fails to comply with the direction of a police officer under this section—see s 22B (Failing to stay for screening test).

(4) Nothing in this section prevents a police officer from requiring both the driver and driver trainer to undergo 1 or more alcohol screening tests.

9 Power to require alcohol screening test if vehicle involved in accident—driver

(1) If a motor vehicle is involved in an accident on a road or road related area, a police officer may require a person to undergo 1 or more alcohol screening tests in accordance with the directions of that officer—

(a) if the police officer has reasonable cause to suspect that the person was the driver of the motor vehicle at the time of the accident; or

(b) if—

(i) the police officer does not know or has doubt as to who was the driver of the motor vehicle at the time of the accident; and

(ii) the police officer has reasonable cause to suspect that the person was in the vehicle at the time of the accident.
(2) The person must remain at the place where the alcohol screening test is being carried out for the time (not exceeding 30 minutes) reasonably necessary for the test to be completed in accordance with the police officer’s directions.

Example—time reasonably necessary

A screening device is not immediately available and the police officer directs the person to remain at the place while a device is made available

*Note* A person commits an offence if a person fails to comply with the direction of a police officer under this section—see s 22B (Failing to stay for screening test).

**9A Power to require alcohol screening test if vehicle involved in accident—driver trainer**

(1) If a motor vehicle is involved in an accident on a road or road related area, a police officer may require a person to undergo 1 or more alcohol screening tests in accordance with the directions of that officer—

(a) if the police officer has reasonable cause to suspect that the person was the driver trainer in the motor vehicle at the time of the accident; or

(b) if—

(i) the police officer does not know or has doubt as to who was the driver trainer in the motor vehicle at the time of the accident; and

(ii) the police officer has reasonable cause to suspect that the person was in the vehicle at the time of the accident.
(2) The person must remain at the place where the alcohol screening test is being carried out for the time (not exceeding 30 minutes) reasonably necessary for the test to be completed in accordance with the police officer’s directions.

10 Power to require alcohol screening test for culpable driving—driver and driver trainer

(1) A police officer who has reasonable cause to suspect that a person has committed an offence of culpable driving may require the person to undergo 1 or more alcohol screening tests in accordance with the directions of that officer.

(2) A police officer who has reasonable cause to suspect that a person was the driver trainer in a motor vehicle involved in an offence of culpable driving may require the person to undergo 1 or more alcohol screening tests in accordance with the directions of that officer.

(3) The person must remain at the place where the alcohol screening test is being carried out for the time (not exceeding 30 minutes) reasonably necessary for the test to be completed in accordance with the police officer’s directions.

Example—time reasonably necessary

a screening device is not immediately available and the police officer directs the person to remain at the place while a device is made available

Note A person commits an offence if a person fails to comply with the direction of a police officer under this section—see s 22B (Failing to stay for screening test).
10A  Power to enter premises for alcohol screening test

(1) This section applies if a police officer—

(a) suspects on reasonable grounds that a person—

(i) was the driver of a vehicle that was involved in an accident on a road or road related area; or

(ii) failed to comply with a police officer’s request or signal to stop a vehicle the person was driving on a road or road related area; and

(b) suspects on reasonable grounds that the person has committed an offence against section 19 (Prescribed concentration of alcohol in blood or breath), section 20 (Prescribed drug in oral fluid or blood—driver or driver trainer) or section 24 (Driving under the influence of intoxicating liquor or a drug); and

(c) requires the person to undergo 1 or more alcohol screening tests under this division; and

(2) The police officer may enter the premises, using the force that is necessary and reasonable in the circumstances, for the purpose of requiring the person to undergo 1 or more alcohol screening tests.

(3) A police officer who enters premises under this section must not remain at the premises for longer than is necessary to conduct the required screening tests.
Division 2.3  Alcohol—confirmatory tests

11  Detention for breath analysis

(1) This section applies if—

(a) a person undergoes an alcohol screening test under a requirement made by a police officer under section 8, section 9, section 9A or section 10 and the alcohol screening device used for the test indicates that the concentration of alcohol in the person’s blood or breath is the prescribed concentration; or

(b) a person required by a police officer to undergo an alcohol screening test under section 8, section 9, section 9A or section 10 fails to undergo the test in accordance with the directions of the police officer.

Note  Fail includes refuse, see the Legislation Act, dict, pt 1.

(2) The police officer may take the person into custody.

(3) For subsection (1) (a), if the police officer has reasonable cause to suspect that the person is a special driver, the prescribed concentration for the person is the prescribed concentration for a special driver.

(4) If a person is taken into custody under this section, a police officer must take the person, as soon as practicable, to a police station or other convenient place (for example, a police vehicle) for the person to undergo breath analysis.

Example—a (4)
A person who is injured and is taken by a police officer to hospital for first aid and then to a police station for breath analysis has been taken to a police station as soon as practicable.
12 Breath analysis

(1) A person who has been taken into custody under section 11 must give, in accordance with the reasonable directions of a police officer (the requesting police officer), a sample of the person’s breath for breath analysis.

(2) A breath analysis must be carried out by an authorised operator.

(3) A regulation may make provision in relation to the following:
   (a) the conditions for carrying out breath analysis;
   (b) the procedures to be followed in relation to carrying out breath analysis;
   (c) the circumstances in which the result of a breath analysis must be disregarded for this Act.

(4) If, because of a regulation made for subsection (3) (c), the result of a breath analysis must be disregarded for this Act, the requesting police officer may, if another breath analysis instrument is available at the police station or other place where the requirement under subsection (1) is made, require the person to give, in accordance with the officer’s reasonable directions, a sample of the person’s breath for breath analysis using another breath analysis instrument.

(5) As soon as practicable after the breath analysis has been carried out, the authorised operator who carried out the analysis must give the person a written statement, signed by the operator, containing the particulars required by regulation to be included in the statement.

Example—written statement
   a print-out from the breath analysis instrument
13 Precautions for privacy—breath analysis

(1) The authorised operator carrying out a breath analysis must take all steps that are practicable to ensure that it is not readily apparent to members of the public that the breath analysis is being carried out.

(2) Subsection (1) does not apply if the breath analysis is carried out at a police station.

Example—screening device not immediately available
there is no working screening device at the place where the test is to be carried out

Note A person commits an offence if a person fails to comply with the direction of a police officer under this section—see s 22B (Failing to stay for screening test).

(ii) the police officer has reasonable cause to suspect that the person was in the vehicle at the time of the accident.
(2) The person must remain at the place where the drug screening test is being carried out for the time (not exceeding 30 minutes) reasonably necessary for the test to be completed in accordance with the police officer’s directions.

Example—time reasonably necessary

(3) The person must remain at the place where the drug screening test is being carried out for the time (not exceeding 30 minutes) reasonably necessary for the test to be completed in accordance with the police officer’s directions.

Example—time reasonably necessary

A screening device is not immediately available and the police officer directs the person to remain at the place while a device is made available

Note A person commits an offence if a person fails to comply with the direction of a police officer under this section—see s 22B (Failing to stay for screening test).

Division 2.5  Prescribed drugs—confirmatory tests

13D  Detention for oral fluid analysis

(1) This section applies if—

(a) a person undergoes a drug screening test under a requirement made by a police officer under section 13A, section 13B, section 13BA or section 13C and a drug screening device indicates to the police officer that a prescribed drug is present in the person’s oral fluid; or

(b) a person who has been required by a police officer under section 13A, section 13B, section 13BA or section 13C to undergo a drug screening test fails to undergo the screening test in accordance with the direction of the police officer.

Note  Fail includes refuse, see the Legislation Act, dict, pt 1.

(2) The police officer may take the person into custody.

(3) If the person is taken into custody, a police officer must take the person, as soon as practicable, to a police station or another convenient place (for example, a police vehicle) to carry out an oral fluid analysis for the person.

13E  Oral fluid—preliminary analysis

(1) A person who has been taken into custody under section 13D must give, in accordance with the reasonable directions of a police officer, a sufficient sample of the person’s oral fluid (the sample) for oral fluid analysis.

(2) An authorised operator must carry out an oral fluid analysis on a part of the sample.

(3) A regulation may make provision in relation the following:

(a) the conditions for carrying out an oral fluid analysis;
(b) the procedures to be followed in relation to carrying out an oral fluid analysis;

(c) the circumstances in which the result of an oral fluid analysis must be disregarded for this Act.

(4) If, because of a regulation made for subsection (3) (c), the result of an oral fluid analysis must be disregarded, the requesting police officer may, if another oral fluid analysis instrument is available at the police station or other place where the requirement under subsection (1) is made, require the person to give, in accordance with the officer’s reasonable directions, another sufficient sample of the person’s oral fluid for oral fluid analysis using another oral fluid analysis instrument.

(5) If an oral fluid analysis is not to be disregarded for this Act, the authorised operator who carried out the analysis must—

(a) place the part of the sample not analysed under this section into a container; and

(b) attach a label to the container that includes the following information:

(i) the authorised operator’s name;

(ii) the name of the person who gave the sample;

(iii) the date and time the sample was given; and

(c) ensure that the container is sealed with a tamper-evident seal that has a unique identifying number marked on it.

(6) As soon as practicable after the oral fluid analysis has been carried out, the authorised operator who carried out the analysis must give the person a written statement, signed by the operator, containing the particulars required by regulation to be included in the statement.

Example—written statement

a print-out from the oral fluid analysis instrument
13F Precautions for privacy—oral fluid analysis

(1) The authorised operator carrying out an oral fluid analysis must take all steps that are practicable to ensure that it is not readily apparent to members of the public that the oral fluid analysis is being carried out.

(2) Subsection (1) does not apply if the oral fluid analysis is carried out at a police station.

13G Oral fluid—confirmatory analysis

(1) This section applies to the part of a sample of a person’s oral fluid stored and sealed in a container under section 13E (5) (the sample).

(2) The chief police officer must ensure that the sample is taken to an approved laboratory as soon as practicable after it is stored and sealed under section 13E (5).

(3) An analyst at the approved laboratory to which the sample is taken under subsection (2) must, as soon as practicable, arrange for the analysis of the sample at the laboratory or another approved laboratory to work out whether a prescribed drug is present in the sample.

(4) An analyst responsible for testing the sample must take reasonable care to ensure that a part of the sample (the preserved part) sufficient for analysis to be carried out for the person who gave the sample (the tested person) is protected and preserved until—

(a) if a request is made under subsection (6)—the preserved part is sent to the laboratory nominated by the tested person; or

(b) in any other case—

(i) 1 year has passed since the sample was taken from the tested person; or

(ii) if a request is made by the DPP under section 16C (Keeping of samples—request by DPP)—the end of the proceeding to which the sample relates.
(5) However, subsection (4) does not apply if the amount of sample remaining after analysis under subsection (3) is insufficient for further analysis.

(6) Before the end of the period mentioned in subsection (4) (b), the tested person may ask that the preserved part of the sample be sent, at the tested person’s expense, to a laboratory nominated by the person.

(7) If a request is made under subsection (6), the analyst must ensure that the preserved part of the sample is sent to the nominated laboratory as soon as practicable.

13H Oral fluid analysis statement

(1) As soon as practicable after an analysis of a sample of a person’s oral fluid is carried out under section 13G, the chief police officer must ensure the person is given a written statement that includes the following information:

(a) the date and the time the oral fluid sample was taken;

(b) the unique identifying number on the tamper-evident seal;

(c) the result of the analysis;

(d) the address where the preserved part of the oral fluid sample is being held;

(e) that the person will be notified, in writing, of a request (if any) by the DPP under section 16C (Keeping of samples—request by DPP);

(f) that the person may, before the end of the period mentioned in section 13G (4) (b), ask the analyst to send the preserved part of the oral fluid sample to a laboratory nominated by the person, at the person’s expense.

(2) In this section:

preserved part—see section 13G (4).
Division 2.6  
Restrictions on alcohol and drug tests

14 Restrictions on tests etc under this part

(a) for an accident—

(i) if the person is taken to hospital—if more than 2 hours have elapsed since his or her arrival at the hospital; or

(ii) in any other case—if more than 2 hours have elapsed since the accident occurred; or

(b) in any other case—if more than 2 hours have elapsed since the person ceased to be the driver of the motor vehicle or the driver trainer in the motor vehicle.

(2) If subsection (1) (a) (ii) applies and—

(a) a police officer attending the scene of the accident has doubt as to the time when the accident occurred; and

(b) the relevant person is found at or near the scene of the accident; and

(c) the police officer has reasonable cause to suspect that the person was in the vehicle at the time of the accident;

subsection (1) applies in relation to that person if more than 2 hours have elapsed since the person was found.
(3) A police officer must not require a person to undergo a screening test, or provide a sample of the person’s breath or oral fluid for analysis under section 12 or section 13E—

(a) if it appears to the police officer that it may, because of injury suffered by the person or otherwise, be dangerous or not practicable for the person to undergo the screening test or to provide the sample; or

(b) if the person is in hospital and the doctor or nurse practitioner attending the person certifies in writing that, in his or her opinion, complying with the requirement would be prejudicial to the proper care and treatment of the person or dangerous to the person’s health; or

(c) for a person who is at the place where the person usually lives—

(i) unless the person was, or the officer has reasonable cause to suspect that the person was, the driver of or driver trainer in a motor vehicle when it was involved in an accident on a road or road related area; or

(ii) unless the officer has reasonable cause to suspect that the person has committed, or was the driver trainer during the commission of, an offence of culpable driving; or

(iii) unless the requirement is made immediately after a motor vehicle driven by the person, or in which the person was a driver trainer, has stopped at or near the place where the person usually lives and the officer making the requirement has followed the motor vehicle while it was being driven on the road.

(4) If the person is in hospital, the police officer must, before making the requirement, tell the doctor or nurse practitioner attending the person of the officer’s intention to make the requirement.

(5) In this section:

screening test means an alcohol screening test or drug screening test.
Division 2.7 Analysis of blood—alcohol and drugs

15 Taking blood samples from people in custody

(1) If—

(i) for a breath analysis, a breath analysis instrument is not available or an available breath analysis instrument is not in working order; or

(ii) for oral fluid analysis, an oral fluid analysis instrument is not available or an available oral fluid analysis instrument is not in working order; or

(c) a person is unable to provide a sufficient sample of oral fluid for analysis;

the police officer may require the person to permit a sample of his or her blood to be taken by a doctor or a nurse for analysis and, if the person is not in hospital, may take the person into custody and take the person, or place the person in the custody of another police officer who must take the person, as soon as practicable, to a hospital or sampling facility for that purpose.

(2) A requirement must not be made under subsection (1) after the end of whichever of the periods specified in section 14 (1) or (2) applies in relation to the person.

   (iii) the date and time the sample was taken; and
(d) ensure that the container is sealed with a tamper-evident seal that has a unique identifying number marked on it; and

(e) put the sealed container into a one-way box.

(8) The chief police officer must, as soon as practicable, arrange for the container to be collected from the one-way box by an analyst.

15AA Taking blood samples from people in hospital

(1) This section applies if a doctor or nurse attending to a person in a hospital believes on reasonable grounds that—

(a) the person—

(i) was involved in an accident; and

(ii) is at least 15 years old; and

(iii) was admitted to the hospital for examination or treatment because of the accident; and

(b) the accident happened not more than 6 hours before the person arrived at the hospital.

(2) The doctor or nurse must, as soon as practicable but not more than 2 hours after the person arrives at the hospital, take a sample of the person’s blood for analysis.

(3) A doctor or nurse must not fail to take a sample of blood under subsection (2) only because—

(a) the person is unconscious; or

(b) the doctor or nurse is of the opinion that the person is, because of their medical condition, incapable of giving or refusing permission to take such a sample.

Note See section 17 (2) for circumstances when a doctor or nurse is not required to take a sample of blood.
(4) The person (the *sample taker*) taking a sample of blood from a patient must—

(a) place the sample into a container; and

(b) attach a label to the container that includes the following information:
   (i) the sample taker’s name;

Analysis of blood—alcohol and drugs

Section 15A

(d) was a pedestrian involved in an accident that involved a motor vehicle or a vehicle other than a motor vehicle.

(vehicle other than a motor vehicle) means—

(a) a bicycle; or
(b) a personal mobility device; or
(c) an animal-drawn vehicle.

15A Analysis of blood samples

(1) This section applies if, under section 15 or section 15AA—

(a) a sample of blood is taken from a person (the tested person) for analysis; and
(b) an analyst has collected the sealed container containing the sample from a one-way box.

(2) The analyst must, as soon as practicable, arrange for the analysis of the sample of blood at an approved laboratory to work out, in accordance with a request made by a police officer—

(a) the concentration of alcohol in the blood; or
(b) whether a prescribed drug is present in the blood.

(3) If a police officer has reasonable cause to suspect that the tested person has a drug other than a prescribed drug or alcohol in the person’s body, or that the tested person’s behaviour may be affected by the presence of a drug other than a prescribed drug or alcohol in the person’s body, the police officer may ask the analyst to work out the following:

(a) whether 1 or more drugs other than a prescribed drug or alcohol are present in the sample;
(b) if a drug other than a prescribed drug or alcohol is present in the sample—the concentration, quantity or other measurement of the drug.
(4) The analyst must, as far as practicable, comply with the police officer’s request.

(5) The analyst must take reasonable care to ensure that a part of the sample sufficient for analysis to be carried out for the tested person (the preserved part) is protected and preserved until—

(a) if a request is made under subsection (7)—the preserved part is sent to the laboratory nominated by the tested person; or

(b) in any other case—

(i) 1 year has passed since the sample was taken from the tested person; or

(ii) if a request is made by the DPP under section 16C (Keeping of samples—request by DPP)—the end of the proceeding to which the sample relates.

(6) However, subsection (5) does not apply if the amount of sample remaining after analysis under subsection (2) is insufficient for further analysis.

(7) Before the end of the period mentioned in subsection (5) (b), the tested person may ask that the preserved part of the sample be sent, at the tested person’s expense, to a laboratory nominated by the person.

(8) If a request is made under subsection (7), the analyst must ensure that the preserved part of the sample is sent to the nominated laboratory as soon as practicable.

offence against section 24 (Driving under the influence of
intoxicating liquor or a drug) or an offence of culpable driving.

Examples—reasonable suspicion
1 the way the person was driving

Note  A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including a regulation (see Legislation Act, s 104).

(1) This section applies if the court hearing a charge for an offence against section 22 is not satisfied that there has been compliance with every provision (a testing provision) of this Act relating to that part of the carrying out of a breath analysis that is required to be carried out before the sample of breath is supplied.

Note  A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including a regulation (see Legislation Act, s 104).

(2) The court must dismiss the charge unless satisfied that despite the failure to comply with a testing provision the result obtained in a breath analysis, if it had taken place, would have been the prescribed concentration for the person.
42C Effect of noncompliance—refusal to give sample of oral fluid

(1) This section applies if the court hearing a charge for an offence against section 22A is not satisfied that there has been compliance with every provision (a testing provision) of this Act relating to that part of the carrying out of an oral fluid analysis that is required to be carried out before the sample of oral fluid is supplied.

Note A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including regulations (see Legislation Act, s 104).

3 Legislation history

This Act was originally a Commonwealth ordinance—the Motor Traffic (Alcohol and Drugs) Ordinance 1977 A1977-17 (Cwlth).

The Australian Capital Territory (Self-Government) Act 1988 (Cwlth), s 34 (4) converted most former Commonwealth ordinances in force in the ACT into ACT enactments. This allowed the ACT Legislative Assembly to amend and repeal the laws. This Act was converted into an ACT enactment on 11 May 1989 (self-government day).

As with most ordinances in force in the ACT, the name was changed from Ordinance to Act by the Self-Government (Citation of Laws) Act 1989 A1989-21, s 5 on 11 May 1989 (self-government day).

It was renamed as the Road Transport (Alcohol and Drugs) Act 1977 by the Road Transport Legislation Amendment Act 1999 (see sch 3).

Before 11 May 1989, ordinances commenced on notification day unless otherwise stated (see Seat of Government (Administration) Act 1910 (Cwlth), s 12).

After 11 May 1989 and before 10 November 1999, Acts commenced on notification day unless otherwise stated (see Australian Capital Territory (Self-Government) Act 1988 (Cwlth), s 25).

Expired transitional or validating provisions

This Act may be affected by transitional or validating provisions that have expired. The expiry does not affect any continuing operation of the provisions (see *Legislation Act 2001*, s 88 (1)).

Expired provisions are removed from the republished law when the expiry takes effect and are listed in the amendment history using the abbreviation ‘exp’ followed by the date of the expiry.

To find the expired provisions see the version of this Act before the expiry took effect. The ACT legislation register has point-in-time versions of this Act.
