## APPROPRIATION BILL 2008-09

The Appropriation Bill 2008-2009 is the mechanism for the appropriation of moneys for the 2008-09 financial year.

Under Section 58 of the *Australian Capital Territory (Self-Government) Act 1988*, public money may not be issued or spent except as authorised by law. Under Section 6 of the *Financial Management Act 1996* (FMA), no payment of public money may be made unless it is in accordance with an appropriation. Section 8 of the FMA provides for separate appropriations to be made under an Appropriation Act in respect of each department. The FMA also provides for appropriation units, being a class of outputs, or a group of output classes, for which an appropriation is made by an Appropriation Act. The Bill satisfies the provisions of each of these Acts.

The Bill provides for appropriations for:

- (a) the provision of outputs by departments;
- (b) any capital injection to be provided to departments; and
- (c) any payments to be made by the department on behalf of the Territory.

Moneys are appropriated to departments and appropriation units within departments, which will be established by the Administrative Arrangements Order and guidelines issued under Section 133 of the FMA. Appropriations are also made to Territory Authorities and Territory Owned Corporations. Output classes that make up each appropriation unit are specified in Schedule 2 of the Bill.

The Bill includes provision of \$32.0 million for the Treasurer's Advance. This will enable the Treasurer to authorise expenditure in excess of that appropriated, or not provided for by an appropriation, in accordance with Section 18 of the FMA. This section provides for unforeseen expenditures necessary for the efficient administration of the Territory, and limits the Treasurer's Advance to no more than 1 per cent of the total amount appropriated under the Appropriation Act.
